

MITSUBISHI SCORPION 2.6

THE STING OF A 2.6-LITRE ASTRON.

Imagine you are driving this sleek, stylish fully-imported coupe.

Mitsubishi Scorpion. With the aerodynamic styling, interior comforts and enthusiastic performance of a car costing

thousands of dollars more.

The sting of its 2.6-litre Astron is pulling you out ahead.

Running smoothly, quietly, due to Mitsubishi's unique vibration-reducing 'Balance Shafts'.

In combination with a 5-speed gearbox this 2.6 Astron

engine achieves levels of power, smoothness and cruising economy that have set standards in 4-cylinder motoring.

Or, if you prefer, a 3-speed automatic transmission with power steering is also available.

Scorpion handles firmly and confidently. With four-wheel coil

suspension and wide steel-belted radials on alloy road wheels.

And with four-wheel disc brakes you get confident braking as well.

SCORPION WRAPS YOU IN LUXURY.

A deep centre console with armrest, stereo cassette player,

AM/FM/MPX push-button radio, full flow-through ventilation, digital clock, comprehensive instrumentation, a soft-grip steering wheel, remote control exterior mirrors and an overhead dome and map lights . . . these are just a few of Scorpion's impressive standard features.

There is a sliding tray beneath each front seat. And alongside the driver's seat there are controls for the remote boot and fuel filler releases.

Naturally, the steering column is adjustable and the driver's seat moves backwards, forwards, reclines and tilts.

You'll especially like the variable lumbar support. Simply adjust a lever and this ingenious device will cradle and support your back.

With plenty of head, shoulder and leg room, there's space for five passengers to sit comfortably. And, should you need extra

boot capacity, one or both sides of the rear seat fold forward easily. **ONLY THE PRICE IS TAME.**

You can park this fully-imported coupe in your driveway for little more than you'd pay for a sedan or wagon.

Talk it over with your Mitsubishi Dealer.

SPECIFICATIONS.

ENGINE: Mitsubishi Astron 2.6 litre 'Balance Shaft' overhead cam 4 cylinder with electronic ignition and single two barrel carburettor with automatic choke.

TRANSMISSION: 5-speed manual, all-synchromesh, floor shift or 3-speed automatic, T-bar floor selector.

FINAL DRIVE: 3.308:1.
