HOLDEN
LET'S GO THERE

EXPERIENCE THE THRILL OF IT ALL

Astra VXR in Sunny Melon

Red-hot from Europe, the new Holden Astra has the go to match the show.

Super sharp looks, pinpoint handling and cutting edge turbo performance are just the start. Oozing attitude, the Astra VXR is the slickest compact 3-door hatch on the road today.

All three Astra models are passionately designed with one intention – to thrill you in every way.

holden.com.au/cars/astra

Sports styling

From the first glimpse of the rear spoiler you get an acute sense of Astra's bold, sporty attitude. The sleek European looks and the lower body contoured blade styling also catch the eye at every turn.

Class-redefining performance

The range of German engineered turbo engines, culminating in the class-redefining 2.0 litre turbo on the VXR, make Astra an extremely powerful hatch with handling to match.

Outstanding handling

Power is nothing without handling. The Astra GTC is already famous throughout Europe for its dynamic handling and searing performance. With a high-performance custom-built chassis, proven on the legendary Nürburgring test track, the Astra VXR further creates an unparalleled connection with the road.

**SEARING TURBO
PERFORMANCE**

Astra GTC in Power Red

This is adrenaline pumping driving at its thrilling best. Behind the wheel of the VXR you'll experience searing 2.0 litre turbo pace across the entire rev range, peaking at an awe-inspiring 206kW of power at 5300rpm.

You've also got the stopping power of high performance front Brembo® brakes[#] and extra sharp handling while riding on a sophisticated chassis.

Performance and efficiency

Producing 147kW[~] of power and 280Nm[~] of torque, the direct-injection turbocharged 1.6 litre engine on the entry level GTC and GTC Sport delivers thrilling performance. Combined cycle figures for the 1.6 litre turbo are 6.9L/100km* and a very respectable 8.0L/100km[^] for the 2.0 litre VXR engine.

* 6.9L per 100km fuel efficiency figure based on Astra GTC manual petrol combined highway/urban ADR 81/02 testing. Results may vary depending on driving style, road condition and vehicle load

Super responsive handling

The adaptive 'FlexRide' suspension and mechanical limited-slip differential (VXR) add to the exceptional driving qualities. The sophisticated HiPerStrut system helps reduce the amount of torque steer. This greatly benefits handling and gives you extra control to quickly accelerate out of bends. The VXR's electro-hydraulic steering also makes you feel more at one with the road.

ENHANCED SENSORY TECHNOLOGY

Astra VXR with Nappa leather appointed interior featuring heated front sports seats.

Surprisingly spacious for a compact car, the new Astra is packed with advanced technology and sensuous sports styling. The quality of the European designed interior is enhanced with leather appointed trim to the sports seats[#] and extra flourishes such as alloy sports pedals on both the GTC Sport and VXR models.

Adaptive driving technology in the VXR also gives you the option of switching to road-taming Sport or roaring VXR performance modes. Further contributing to the exceptional road holding, an extra clever innovation on the VXR is individual tyre pressure monitoring.
