

Astra Sportwagon

Holden
Let's go there

Astra Sportwagon LT Shown in Nitrate Silver.

The small wagon that gets a big tick for innovation.

Get away. Get amongst it. Get more out of life. Get ready to think differently about an exciting new Holden that takes the small wagon to a whole new level.

We're talking about the newest addition to the Astra range - the Astra Sportwagon. Just like its siblings, this is a sleek, sophisticated car for today, packed with all the latest gadgets and tech.

There's Apple CarPlay^{®1} and Android[®] Auto² phone projection as standard to help you stay connected along the way. It's right next to you on an 8-inch colour touch-screen in the Astra Sportwagon LT, that's home to Integrated Sat Nav as well.

The Astra Sportwagon LT also comes with Passive Entry so it's easier to unlock when your hands are full, and Push-Button Start to get you on the road quicker.

Drive with confidence - the Astra Sportwagon has a 5-Star ANCAP Safety Rating, making it one of the safest cars on the road for you and your family. It also has the latest HoldenEye^{®2} active safety technology that uses a forward-facing camera to track, monitor and correct your driving behaviour so you're more protected than ever.

- Lane Keep Assist can alert you if you're unintentionally drifting out of your lane and help put you back on course
- Forward Collision Alert can let you know if you're getting too close to the car in front - it works just like another pair of eyes on the road
- Advanced Park Assist and Side Blind Spot Alert on the LT model take the pressure off parking in those tight city spots, while the Rear-View Camera across the range is always scanning what's behind you, so you can reverse with total peace of mind.
