

Astra Sportwagon

Holden
Let's go there

Astra Sportwagon LT Shown in Nitrate Silver.

The small wagon that gets a big tick for innovation.

Get away. Get amongst it. Get more out of life. Get ready to think differently about an exciting new Holden that takes the small wagon to a whole new level.

We're talking about the newest addition to the Astra range - the Astra Sportwagon. Just like its siblings, this is a sleek, sophisticated car for today, packed with all the latest gadgets and tech.

For starters, you're going to feel a whole lot safer now thanks to HoldenEye^{®1} active safety technology. It uses a forward facing camera that looks out for you - tracking, monitoring and correcting your driving behaviour so you're more protected than ever.

- Lane Keep Assist can alert you if you're unintentionally drifting out of your lane and help put you back on course.
- Forward Collision Alert can let you know if you're getting too close to the car in front. It works just like another pair of eyes on the road.

With Side Blind Spot Alert and Advanced Park Assist on the Astra Sportwagon LT and a Rear View Camera across the range, you'll get where you're going safer and smarter.

Then there's Apple CarPlay^{®2} and Android[®] Auto² phone projection as standard to help you stay connected along the way. It's right next to you on an 8-inch colour touch-screen in the Astra Sportwagon LT, that's home to Integrated Sat Nav as well. The LT also comes with Passive Entry so it's easier to unlock when your hands are full, and Push-Button Start to get you on the road quicker.
