

VFII Ute

Holden
Let's go there

We imagined the ultimate sports machine.

SS-V Redline Ute in Red Hot
* Available on automatic models only
^ Not available on base Ute, standard on all other models
Driver remains responsible for vehicle control
+ BiModal exhaust and Mechanical Sound Enhancer available on SS and SS-V Redline only
- Maximum figures as per ECE regulations.
Figure quoted using 98 RON (PULP)

Never before has a Ute been so in tune with both its surroundings and the driver. The Holden VFII Ute is always looking out for you. That's thanks to a host of cutting-edge technologies that make this one of the most advanced vehicles ever to wear the Holden badge.

Now with a 6.2L LS3 engine on V8 models, complete with a BiModal exhaust and Mechanical Sound Enhancer+, all you have to do is hear it to believe it.

6.2 litre LS3 V8

Experience the sheer adrenaline of taking a seat in the VFII Ute sporting a 6.2L LS3 engine on V8 models, the most powerful in Holden's history. Standard with SS and SS-V Redline models, this powerful 6.2 litre V8 engine offers exceptional performance and towing capabilities churning out 304kW- of raw power and 570Nm- of torque.

Spark Ignition Direct Injection 3.6 litre SIDI V6

An impressive engine, perfectly in tune with the Ute and SV6 Ute. The use of light weight components and enhancements add up to improved performance, efficiency and durability. The state-of-the-art V6 engine delivers outstanding acceleration.

Key SIDI features include:

- Precisely controlled fuel delivery
- Increased cylinder air intake
- Increased cylinder compression ratio
- Aluminium engine block and cylinder heads

BiModal Exhaust and Mechanical Sound Enhancer (MSE)+

VFII Ute offers the same worldly refinement you have come to expect with the added option of activating the BiModal exhaust and unleashing its heightened aural potential to allow maximum exhilaration. The MSE enhances induction noise and supplies targeted frequencies into the driver cabin.

Remote vehicle start system*

Remote vehicle start gets you on your way quicker, enabling you to fire up the engine and even resume the air conditioning before entering the car.

Passive Entry and Push-button Start^

This ultra-convenient feature offers push-button ignition and the ability to unlock and lock the car simply by carrying the sensor key with you.

Automatic Park Assist#

Leading from the front is Automatic Park Assist that uses ultrasonic sensors to enable hands-free parking. Automatic Park Assist assesses the parking space, determines the best approach angles, and then takes over all the work. Easy as that and it's all included as standard across the range.

Rear View Camera

If you prefer to do all the parking yourself, there's more help at hand with the Rear View Camera and now Front and Rear Ultrasonic Park Assist which alerts you when you're close to an object. Like Automatic Park Assist, this technology is standard across the Ute range.

Reverse Traffic Alert^

When reversing, it's not always easy to see what's coming up behind you. Reverse Traffic Alert gives you eyes in the back of your head, as the system picks up cross-traffic movement up to 25 metres away. If detected, warning chimes sound and a directional arrow flashes on the Rear View Camera screen to warn you of approaching obstacles.

Electric Park Brake

This advance not only frees up additional storage space in the centre console, it's always one step ahead - like releasing the park brake when driving away in case you forget.

SS-V Redline Ute Auto interior in Jet Black**

Seamless connectivity.

Never before has an Australian-built Ute been so in sync with the wider world. Say hello to Holden MyLink infotainment. We've taken seamless connectivity to the forefront, from accessing apps to streaming internet radio. And it's all available with minimal effort, whether selecting your media by voice control, the intuitive touch-screen, or the steering wheel.

Take your world on board:

- MyLink infotainment system*
- 8" colour touch screen
- Built-in app technology
- Bluetooth® audio streaming*
- iPod® connectivity
- Enhanced voice control
- Siri® Eyes Free™
- Hands-free calling
- Satellite Navigation with live traffic updates*
- Stitcher™ SmartRadio**
- Access phone contacts, calendars, reminders, playlists and more#

mylink

* Certain devices may not be compatible with the vehicle's MyLink system. See holden.com.au/myholdenconnect for more details
* Standard on SV6, SS and SS-V Redline models only
- Requires compatible iOS device. See apple.com/au for more details

Technology that protects.

With an unprecedented level of active safety technology and crash protection, the Ute is looking out for you in every possible way.

5-star ANCAP rating

The VFII Ute has been awarded the highest possible 5-star ANCAP rating. Safety features incorporated throughout the vehicle reduce the severity of certain front, side and rear impacts.

A car with a sixth sense

Available on selected models, intelligent avoidance systems such as Forward Collision Alert, Lane Departure Warning, Blind Spot Alert and Reverse Traffic Alert help to expand your all-round vision and draw attention to potential road hazards.

Advanced network of chassis control systems

The advanced network of chassis control systems can help you out of tricky situations, including Electronic Stability Control (ESC), Trailer Sway Control, Anti-lock Braking System (ABS), Traction Control, Electronic Brakeforce Distribution, and Electronic Brake Assist.

Crash-optimised body

The crash-optimised body uses a range of advanced materials including ultra high-strength Boron steel, creating a stronger yet lighter structure.

Trailer Sway Control

Whether pulling a trailer or caravan, this cutting-edge safety feature activates the brakes and reduces engine torque if it detects any towing instability, creating a safer towing experience for drivers.

Six-airbag system

All models are fitted with driver and front passenger airbags, side impact airbags and side curtain airbags. The side impact protection is further enhanced with the addition of thorax/pelvis airbags as part of the six-airbag system, enabling a wider area of the body to be covered in the event of a collision.

Forward Collision Alert

Head-up Display

Lane Departure Warning

Blind Spot Alert

Reverse Traffic Alert

Rear View Camera

Reverse Traffic Alert

Totally in tune with its driver.

When you're on the road, you want everything working for you. That's why we've put all the info and entertainment you want right where you need it, without getting in the way of the drive. And we've integrated the latest awareness technologies to give you another set of eyes.

Colour Head-Up Display+

The Head-Up Display uses technology originally developed for fighter jets to relay important information on the windscreen such as speed, turning signals and some alerts – allowing you to view it without taking your eyes off the road.

Forward Collision Alert^

A digital camera mounted on the windscreen uses state-of-the-art image processing to observe vehicles ahead, and uses the Head-Up Display and an audible alert to warn you if you are approaching another vehicle too rapidly and a collision appears imminent.

Lane Departure Warning**

To help combat drowsiness or distraction at the wheel, this sixth-sense technology uses the windscreen camera to look for lane markings, and will flash an icon and audible alert if it detects you're straying outside of your lane.

SS-V Redline Ute in Heron White
 ^ Only available on SS-V Redline Ute
 # Lane Departure Warning is activated at speeds above 56km/h
 + Available on SV6, SS & SS-V Redline models only.

Ute.

Ute in Nitrate Silver

The Ute may have been the very first model in the Holden Ute range, but there's definitely nothing basic about this proven performer. All power with its SIDI Direct Injection V6 engine, and all in sync with the driver delivered by road-hugging suspension and finely tuned Electric Power Steering. Everything's been ramped up; from its spacious, lush interior, through to sixth-sense technologies such as Automatic Park Assist, where the Ute takes care of all the work.

Engine and Transmission

- 3.6 litre SIDI Direct Injection V6 engine and 6-speed automatic transmission with Active Select

Smart Technologies

- Automatic Park Assist
- Rear View Camera
- Front Park Assist
- Rear Park Assist
- Electric park brake
- Smart remote engine start system

Safety

- 5-star ANCAP rating
- Electronic Stability Control (ESC)
- 6 airbags
- Trailer Sway Control

Infotainment

- MyLink infotainment system* with 8" touchscreen
- Built-in apps
- Bluetooth® capability*
- Enhanced voice control
- Siri® Eyes Free*

Comfort, Convenience and Design

- 16" steel wheels (4)
- Cruise control
- Front power windows
- Dual-zone climate control

+ Requires compatible iOS device
 * Certain devices may not be compatible with the vehicle's MyLink system. See holden.com.au/myholdenconnect for more details

* Figure quoted using 98 RON (PULP)

^ Dimensions may vary from model to model

Payload calculator.

How to calculate your safe driving load	Safe operation of a light commercial vehicle demands careful attention to two vital aspects of loading: balance and safe operating limits. A vehicle that is overloaded or carries unbalanced loads will experience reduced life due to the excess demands placed on its frame, transmission, axles, hubs and tyres.
Recommended body lengths	Excessive overhang can affect vehicle balance and road holding. It is important your vehicle is correctly specified for its intended application, as inappropriate modifications to the standard vehicle specification may affect vehicle performance and safety through overloading of the vehicle. Such modifications may also affect your New Vehicle Warranty to the extent that Holden considers that it affects the specifications and quality of your vehicle. If you are unsure, please ask your Holden Sales Consultant.
Front and rear axle loads	The maximum allowable front axle and rear axle loads for the Ute are outlined in the Owner's Handbook. If you are unsure you should go to a weighbridge. This ensures that your vehicle's axles have sufficient strength to carry the total weight transfer as the vehicle brakes, accelerates, rolls in corners and goes over bumps.
Payload and available payload mass	It is important to understand the difference between 'payload' and 'available payload mass'. 'Payload' is the maximum capacity of the vehicle for the carriage of all non-standard items, the cargo itself, occupants, optional equipment and accessories. Light commercial vehicles, depending on their model and specification, all have different carrying capacities. You can calculate 'payload' by subtracting the figure for the vehicle's Kerb Mass from the vehicle's Gross Vehicle Mass. 'Available payload mass' is the mass of cargo that the finished vehicle is permitted to carry having regard to the aggregate mass of the vehicle's Kerb Mass, optional equipment, accessories, cargo carrying device and occupants. It is important to calculate the 'available payload mass' accurately, and the following will help you understand how to do so.
GVM (Gross Vehicle Mass)	GVM is the accepted safe, maximum all-up weight rating of a fully loaded vehicle, and is based on design factors and strength of the frame, spring fitment, tyre rates and axle capacities. Refer to the vehicle's compliance label for GVM figures.
Kerb Mass	Kerb Mass is the weight of the vehicle with standard equipment when it is unoccupied, unladen and has its fuel tank and all other fluid reservoirs filled to their nominated capacity. Optional accessories and cargo carrying devices for Ute models are excluded from the Kerb Mass calculation.
Payload calculations	Vehicle _____ GVM _____ less Kerb Mass _____ = Payload# _____ Less weights for the following items (for example) Occupants _____ Tow bar and tongue* _____ Sports bar _____ Ladder rack _____ Alloy wheels _____ = Total of extras _____ Payload# _____ less Total of extras _____ Ensure mass does not exceed front and rear axle loads = Available Payload Mass*

* Up to maximum front and rear axle loads as published on holden.com.au

Payload includes the mass of air conditioning. Does not include options.

Deduct the mass of these from the quoted payload to obtain the available payload mass up to maximum axle loads

* This figure is the maximum permissible load your Holden Ute can carry without exceeding its GVM rating. You also need to ensure that your load is balanced and is within the front and rear axle capacities. Visit holden.com.au for further information on the Ute weights and payload calculations.

Colour and trim.

It's the little things that add up to Holden Complete Care.

At Holden, we've been caring for Australians for more than 150 years and over that time, we've learned that it's the little things we can do for you that matter most.

Learn more at [holden.com.au/complecare](https://www.holden.com.au/complecare)

Take your time test drive.¹

Take up to 24 hours to see if it's the car you feel completely comfortable with. Drive it to work, show your friends, see what the family thinks. There's no pressure and no 'hard sell'.

Know your cost servicing.²

Know what a scheduled service will cost before you even drop off your car, for the life of the car. Our trained expert technicians ensure your car is getting the best possible care.

Tailored to you finance.

With Holden Financial Services³ we offer competitive and flexible finance options that make it easy to get into the Holden that's right for you. You can organise the whole thing in one place, easy as that.

Got you covered warranty.

With 3 years/100,000km warranty⁴, you've got peace of mind from the moment your new Holden is registered, so you can get on and enjoy your new Holden without a care in the world.

At your call roadside assistance

With Holden Roadside Assistance⁵, if the unexpected happens rest assured we'll be there to help. Flat battery, keys locked in the car, puncture.

Keep you moving rental service.

While your car's being serviced, take advantage of Holden Rental service⁶, where we give you the option of a replacement Holden. Because we believe nothing should keep you from driving.

A word about this brochure. We have tried to make this brochure as comprehensive and factual as possible. However, since the time of printing some of the information you'll find here may have been updated. Also, some of the equipment shown or described through this brochure may have been changed and / or is available at extra cost. Further, GM Holden Ltd ABN 84 006 893 232, reserves the right to make changes at any time without notice, in prices, colours, materials, equipment and models. Your Holden Dealer has details, and before ordering, you should ask them to bring you up to date. No Holden Dealer or other person is authorised or permitted to give or make any statement, assertion or undertaking in relation to the quality, performance characteristics, descriptions or fitness for any purpose of any Holden product which is at variance with any written statement, assertion or undertaking on any of these subjects given or made by GM Holden Ltd in its published sales literature, and GM Holden Ltd does not accept any liability for any such unauthorised action. GM Holden Ltd has authorised Dealers in many parts of Australia for the sale of service parts and the provision of service to owners of Holden's products. Every endeavour is made to ensure that such Dealers carry adequate stocks of service parts, but GM Holden Ltd doesn't make any promise other than that contained in the New Vehicle Warranty given by GM Holden Ltd that such parts or service facilities will be available at any specific location or at any particular time. Express warranties offered for Holden products are subject to the conditions set out in all vehicle handbooks. Details also available from GM Holden Ltd on request.
