

# ***SPORTSCAT***

## » AUSTRALIA'S MOST DYNAMIC SPORTS 4X4.

Bold and undeniably dynamic, the SportsCat V and SportsCat SV are in a league of their own. One glance at their striking and sophisticated lines is enough to get your heart pumping. Get behind the wheel and you'll quickly discover you're in complete control of a 4x4 that takes driving dynamics to a whole new level. If you're looking for Australia's premium sports 4x4 range, you've found it.

\*SportsCat SV shown with optional sailplane.

## » BEST ON GROUND STYLING.

A standout in the sports 4x4 field, the new SportsCat has it over the competition in more ways than one. Bold and aggressive HSV design cues and a wider track<sup>^</sup> give the vehicle a stance and presence unlike any other. One look at the distinctive bonnet bulge and striking front fascia with integrated gloss black '3D' grille and outer inserts, splash tray, recovery hooks and LED fog lamps, and you know this is a sports 4x4 to be reckoned with. Adding to the vehicle's street cred are HSV 18" x 10", 6-spoke forged alloy wheels in matte black wrapped in Cooper Zeon LTZ Pro Sports All-Terrain tyres. In addition to their rugged off-road capability, these hybrid tyres were specially selected by HSV's chassis engineers for their exceptional on-road characteristics, especially on tarmac and dirt roads. Their size (285/60 R18) and rolling radius also deliver a 20mm increase in vehicle ride height.<sup>^</sup>

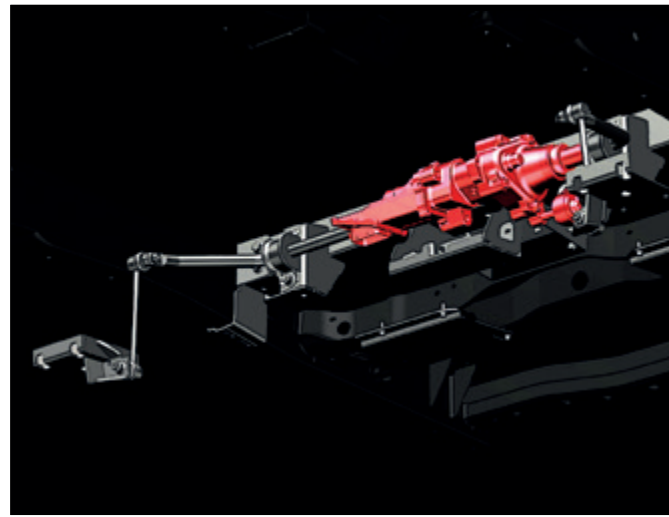

<sup>^</sup>Compared to Holden Colorado Z71. <sup>\*</sup>SportsCat SV shown with optional sailplane.

» ENGINEERED FOR DRIVERS WHO LIKE TO PLAY HARD.

Both SportsCat models come with everything you need to get the job done and then some. A 2.8L, DOHC Duramax Turbo Diesel delivers 147kW of power and 500Nm of torque when matched with the optional 6-speed automatic transmission with Active Select. Maximum towing capacity is a more than handy 3,500kg\*. Both models also feature HSV Sports suspension. With the front spring rate stiffened to 110Newtons/mm, and the addition of front strut braces, this unique suspension delivers outstanding front-end support with less body roll and more accurate transient response. The suspension's MTV dampers have also been tuned to suit the revised spring rate resulting in a more performance-based handling characteristic. The front ride height of both vehicles has been lifted by 25mm^ which improves the approach angle of the vehicle, increases ground clearance to the body and reduces the overall rake for a more natural on-road stance. For the SportsCat SV, HSV chassis engineers also developed a special rear de-coupling anti-roll bar† that improves on-road performance at higher speeds by reducing rear roll and enhancing turn-in transient response. Select 'shift-on-the-fly' 4 Wheel Drive Low and the system automatically de-activates to optimise off-road performance. SupaShock suspension

is also available as a factory-fitted option, taking the vehicle's suspension capabilities to yet another level. Braking power on the SportsCat SV is equally impressive thanks to 4-piston forged AP Racing calipers† with 362mm x 32mm rotors and the same large 25.4mm diameter brake

master cylinder featured on the SportsCat V. The Electronic Stability Control (ESC) system and Traction Control System (TCS) on both SportsCat models have also been modified to enable less aggressive interventions, particularly on corner exit. The result is a more dynamic driving experience.

\*Braked trailer. ^Compared to Holden Colorado Z71. †Optional on SportsCat V.

## » AGILITY AND ABILITY.

Put the SportsCat V through its paces and you'll quickly discover just how exhilarating a sports 4X4 can be. Whether you're powering down a straight or heading through a series of corners, this is a vehicle that kicks goals.

» SOPHISTICATED SPORTS ERGONOMICS.

Grasp the leather-wrapped, sports-profile steering wheel, and the first thing you'll notice is the firm embrace of the heated, 6-way electric adjustable HSV Performance seat with Windsor suede inserts and red stitching highlights. Enhanced bolsters help ensure the perfect driving position with superior comfort and support. Rear seat passengers are treated to a similar level of comfort and style. The sophisticated sports look is continued throughout the cabin with special treatments given to the dash pad, door inserts, centre console cover, leather-wrapped steering wheel and floor mats. All essential controls are placed at your fingertips in this hi-tech 4x4. An 8" colour touchscreen, satellite navigation, electronic climate control, DAB+ digital radio, Apple CarPlay, Android Auto Phone Projection technology and a premium 7-speaker audio system all come standard. Both vehicles also come fully loaded with a raft of safety and convenience technologies including Forward Collision Alert, Lane Departure Warning, front and rear park assist, rain sensing wipers and a rear-view camera.

»» OUTSTANDING FORM.

Adding form to function on both SportsCat models is a unique hard tonneau with alloy sports bar. This stylish cover features load rails for easy attachment of the genuine HSV load rack accessory, plus a quick-release mechanism for those times when you want to maximise storage height in the tub. Inspired by high-end wakeboarding boats, and available as an option on SportsCat SV, a unique sailplane complements the striking design of the vehicle. Featuring a distinctive applique and 'easy down' functionality, the tailgate also adds to the rugged and aggressive look of this dynamic sports 4x4.

## » SPECIFICATIONS

	SportsCat V	SportsCat SV
<b>ENGINE AND TRANSMISSION</b>		
2.8L 4-cylinder Duramax 2 Diesel	●	●
6-speed manual transmission	●	●
