ECONOLINE

THE CHANGES BEHIND THE FORD OVAL

The face of Ford of Canada is changing. With the introduction of our year 2000 models all Ford and Mercury cars and Ford trucks, are available under the familiar blue Ford oval.

As our valued customer, owning or leasing a **Ford of Canada** vehicle is simpler and more convenient than ever before. You will continue to have a selection of premium cars, trucks and sport utility vehicles, with the added support of enhanced sales and service experiences.

Visit your local **Ford of Canada** dealership to drive any one of our fine year 2000 vehicles.

2000 Econoline. Dependable Family Transportation.

It's never very difficult to get five or six of your child's friends to volunteer to go get ice cream. Or to get the family to sign up for a two-week tour of the Rocky Mountains. But all of these outings get a whole lot more pleasurable when Ford E-Series is involved. Traveling families enjoy the space and comfort Econoline provides. Busy families appreciate its conveniences and outstanding flexibility.

With this kind of versatility, it's little wonder that Econoline has been the best-selling full-size van in North America since 1979.

Econoline and families go together when families are going together. For nearly four decades, it's made getting around easy, affordable and fun.

Econoline's versatile space makes it the ideal vehicle to transport the family around town or across the country.

Econoline Lets You Get Personal.

Your family is unique, and so are their transportation needs. That's why Econoline is the ideal van to customize with features that will keep everyone on board happy. Whether you require an electronic entertainment system for the kids, or perhaps extra comfortable seating for you and your navigator. Ford-authorized conversion companies have the ideas and the know-how to convert your Econoline into a luxurious and functional way to travel.

For the ultimate in enjoyable motoring, Econoline luxury vans offer versatile, individualized seating and electronic family entertainment systems. (A typical package available from a Ford-authorized converter shown here.)

There's Plenty Of Room For Everyone In Econoline.

Finding a good place to sit is never difficult with Econoline. Depending on the model, you can

seat from 8 in the E-150 Wagon up to 15 in the E-350 Super Duty Extended Wagon.

And Econoline is nicely equipped with the standard

features you need to make your travel-

ing more enjoyable. Econoline

XLT has dual cloth front

captain's chairs with

cloth rear bench

seats, full length

carpeting, and power

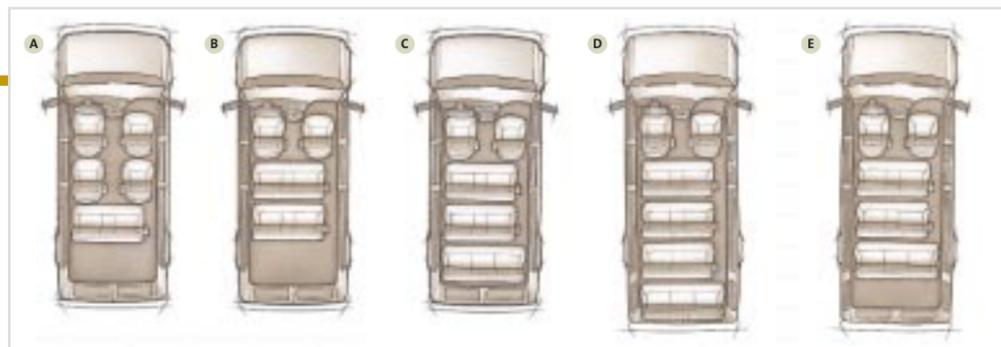

door locks and windows,

while both Econoline XL and XLT

include standard air conditioning,

and an electronic AM/FM stereo with digital clock.

The optional Chateau Appearance Package (available on the E-150 XLT and E-350 Super Duty XLT only) includes 7-passenger seating with quad captain's chairs and a 3-passenger rear bench seat (shown here in Medium Graphite). Econoline is the only full-size Wagon to offer this unique seating configuration.

- A. Seven-passenger E-150/E350 Super Duty Wagon XLT with optional Chateau Appearance Package.
- B. Eight-passenger E-150 Wagon
- C. Twelve-passenger E-350 Super Duty Wagon
- D. Fifteen-passenger E-350 Super Duty Extended Wagon
- E. Twelve-passenger E-350 Super Duty Extended Wagon

The deluxe engine cover console (standard on XLT, optional on XL) has been restyled for 2000 and includes two storage areas, four cup holders, a juice box holder/ashtray, coin slots, and a bin designed to accommodate a cellular phone.

Econoline Is a Safe, Dependable Travel Partner.

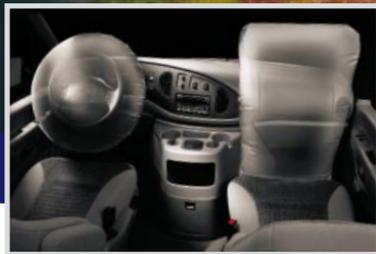

Econoline's dependable performance and numerous safety features help ensure that every get away is a safe one.

You know you'll never see all of this great country, but that's not going to stop you from trying. And it's not just the seeing, either. It's doing it with the family that makes the journey memorable. It could be 1,500 kilometers or 50. Going from coast to coast or camping for the weekend. As long as you can enjoy it together.

A road trip can only be pleasant when you have peace-of-mind. That means driving a vehicle with dependable performance and outstanding safety features. Econoline gives you both. The E-150 features a reliable 4.2L EFI V6 engine while the E-350 models are equipped with a powerful 5.4L EFI V8. Both are teamed with an electronic 4-speed automatic transmission with overdrive.

Standard safety features include a 4-wheel anti-lock braking system (ABS), plus Second Generation dual front air bags and side door intrusion beams to help enhance occupant protection.

Second Generation air bags are designed to further enhance protection for driver and front passenger while also reducing the risk from potential air bag inflation injury.

Robust body-on-frame construction contributes to Econoline's proven strength and durability.

The 5.4L V8 is one of the powerful Triton™ engines available with Econoline. Optional on the E-150 and standard on all E-350 models, its single-overhead-cam design is equipped with a maintenance-free silent chain drive which eliminates push rods and allows design flexibility for improved horsepower and torque.

Side door intrusion beams are integral components of Econoline's strong occupant protection system.

The Ford Consumer Commitment

36-Month Warranty

The 36-month/60,000 km limited warranty covers the complete vehicle (except tires, and other items listed in the Warranty Guide) against defects in factory-supplied materials or workmanship. Ford of Canada's corrosion warranty covers against corrosion perforation on body sheet metal panels for 5 years/unlimited distance. Each vehicle is protected with an enhanced corrosion protection system.

24-Hour Roadside Assistance

You can count on Ford Quality now and down the road. That's because every new Ford of Canada car and light truck includes the assurance of an emergency no-cost Roadside Assistance Program during the 3-year/60,000 km warranty period. Help is just a toll-free phone call away - 24 hours a day anywhere in Canada or the continental United States - should you ever need trip planning, towing assistance, fuel delivery, a tire change, a jump start, emergency travel reimbursement or even help when you're locked out of your vehicle.

Ford Credit

Ford Credit is a full service company that makes a wide variety of financing and leasing programs available to every qualified buyer. Ford Credit's Red

Carpet Lease offers you the best choice of new vehicle leasing options and is available on the entire line of quality built Ford of Canada products. Ford Credit offices are located across Canada.

Quality Care Maintenance

Regular maintenance is essential to the proper operation, safety, and performance of your Ford of Canada vehicle and will assist in maintaining your warranty. Ford trained technicians are well equipped to perform required maintenance on your vehicle.

SMARTRISK

SAUVE-QUI-PENSE

Ford of Canada and SMARTRISK have partnered to help youth see the risks in their everyday lives through the Heroes Program. This program is designed to show them how to take those risks in the smartest way possible so that they enjoy life to the fullest. It's your choice to Buckle Up, Drive Sober, Look First, Wear the Gear, and Get Trained. For more information please see www.smartrisk.ca

With over 160 classroom locations nationwide, Young Drivers is Canada's only national driver training organization. Young Drivers provides driver training for new drivers and Collisionfree driver improvement programs for licensed drivers to over 40,000 Canadians annually. See your local Ford Dealer for the nearest Young Drivers location.

Ford & The Environment

Ford of Canada is dedicated to sound environmental practices and is an industry leader in supporting a cleaner environment.

- Ford is continuing to develop alternative fuel and electric-power vehicles. In fact, Ford offers more alternatives in alternative fuel vehicles than any other automaker.
- Ford Motor Company has made a major investment in Canada's Ballard Power Systems and their revolutionary new hydrogen fuel cell.
- This catalogue is printed on recycled paper which contains 10% de-inked post-consumer materials and uses vegetable inks.

At Ford, we believe that by investing in these types of environmental programs and technologies we are investing in a cleaner environment for our country and for those who will inherit it.
