Passion comes in many different forms.
But few are more exciting.

It is hard to describe how power is developed.
But it's easy to understand.

Intelligent cars don't have an IQ.
What they have is DSC.

A cockpit should be governed not by fashion but by the needs of the driver.

■ **Xenon headlights** (high and low beam) illuminate the road ahead and to the side with brilliant clarity. These headlights also feature auto-levelling to adjust for varying passenger and cargo loads. They also have twice the light intensity of conventional halogen bulbs. (Optional on 320i.)

■ **Heated headlamp washers** help keep lights clean of ice, mud, road salt and other coatings for maximum road lighting and enhanced driving safety. (Optional on 320i.)

■ **Dynamic Stability Control (DSC III)** recognizes the risk of the car skidding very early and stabilizes the car within milliseconds. Also includes Dynamic Brake Control (DBC).

□ **Rain sensor** uses an infrared light to measure the amount of rain. When the wipers are in the "intermittent" mode, the rain sensor automatically adjusts the windshield wiping interval as needed. Also includes automatic headlamp function.

□ **Park Distance Control (PDC)** uses ultrasonic sensors in the rear bumper to help you judge the distance to other cars and unseen objects when parking. The beeping becomes faster as your bumper approaches the object, turning into a constant tone when the distance is less than 30 centimetres.

□ **BMW Telephone preparation** makes the installation of a BMW car telephone system, available through BMW Accessories, as easy and convenient as possible. The compact, lightweight cellular phone integrates with your BMW to offer many benefits, including hands-free communication.

■ **Multi-function leather steering wheel** offers highly convenient operation, increased safety and an ergonomical design that makes it fit especially well in the driver's hands. (Optional on 320i.)

■ **Rear headrests:** Two manually height-adjustable headrests and a third headrest, together with third 3-point seatbelt.

■ **Automatic Climate Control system** includes automatic air recirculation, which is activated when a sensor detects certain pollutants in the outside air. Inside, cabin air continuously passes through a microfilter that removes pollen, dust and spores. (Optional on 320i.)

□ **On-board Navigation System** guides you conveniently and directly to your destination. In addition to providing driving instructions via voice, directional arrows or map display, the system will provide destination-specific information.

□ **Lumbar support** is electronically adjustable and provides the driver and front passenger with a high degree of seating comfort and effective spinal relief. The continuously variable air cushion system helps you adapt an orthopedically correct seating position.

□ **Harman Kardon Sound System** emanates exceptional sound from upgraded speakers and amplification, plus a subwoofer and vehicle-speed-sensitive equalization.

■ **Car memory** allows you to program a full range of individual settings and features on your car, including the Follow-Me-Home function. **Key memory** allows you to set your preferred seat position of the electrically adjustable driver's seat. Furthermore, it is possible to set the automatic climate control to the interior temperature and air distribution to a specific key.

■ **Driver and front passenger airbags** protect your head and upper body in a frontal collision from hitting the steering wheel or instrument panel; depending on the severity of the impact, the airbags are inflated via a two-stage gas generator (impact-depending system); the front passenger airbag comes complete with a seat occupancy detector.

■ **ITS Head Protection System (HPS)** for the driver and front passenger provides effective protection of your head and upper body in a collision from the side.

□ **Electric seats with driver memory** enable the driver and passenger to precisely adjust their seat to individual preferences. The driver's mirror positioning is also retained in the seat memory.

□ **Through-loading system** with 2:1 split folding rear seats.

□ **Rear side airbags** protect your upper body in a side-on collision; the side airbag significantly reduces the risk of injury at pelvic and chest level.

1 Top speed limited electronically.

2 BMW AG test results. Actual acceleration results may vary, depending on specification of vehicle, road and environmental conditions, testing procedures and driving style. These results should be used for comparison only, and verification should not be attempted on public roads.

BMW urges you to obey all posted speed laws and always wear safety belts.

3 NR Can-estimated figures are for comparison purposes only.

Your actual mileage will vary, depending on speed, driving habits, trip length and driving conditions; actual mileage will most likely be lower.
