- Emergency illuminated inside trunk release (with warning light)

All illustrations, photographs and specifications are based on the latest product information. For additional information, please contact your Infiniti Dealership.

*Infiniti VDC system is designed to help improve driving stability but does not prevent accidents due to abrupt steering or by careless or dangerous driving techniques. Always drive safely.

**Please keep in mind that airbags are a supplemental restraint system and must always be used in conjunction with the seat belt. Also, a rear-facing child restraint must never be placed in the front passenger's seat. In fact, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Driver and front-passenger side-impact supplemental airbags and roof-mounted curtain side-impact supplemental airbags are designed to inflate in higher severity side-collisions and inflate only on the side of the vehicle impacted. Please see your owner's manual for more details.
