The Edition will be limited. Your passion will not.

Over the years, Mazda has carefully crafted MX-5 Miata Special Editions that make the sports car driving experience even more enticing to discerning enthusiasts - as well as collectors. We've continued our sports car heritage for 2003 by creating a distinctly different, yet affordable Special Edition – for the distinctly demanding driver. You've driven sports cars before, but nothing

will re-ignite your passion for driving quite like the new Titanium Grey 2003 Special Edition. From its custom 16" alloy wheels, to its distinctive two tone leather-wrapped shift knob, this sports car will show you what it takes to be a limited edition – only 175 produced. Add to it all a specially selected sound system, and this new Miata will provide an on-road experience that will carry you away.
