

**We're here.** At Honda, assistance and support are always available. The team of trained technicians at your Honda Dealership will keep your vehicle in terrific shape. Honda accessories installed at the time your car was purchased are covered under the 3-year/60,000 km limited warranty. And if you ever need more information or assistance, feel free to call us at 1-888-9-HONDA-9.

**Visit us online.** For all of the latest Honda information, including our product specifications, pricing, photos and more, visit our website at [honda.ca](http://www.honda.ca/). It has everything you need to "design" your own Honda and personalize it with items from our list of quality accessories.

**Quality Honda accessories** give you the opportunity to fine-tune your new Odyssey just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your Dealer for full details.

Whether you buy or lease a Honda, **Honda Canada Finance Inc.** can assist you with the process. Ask your Dealer which lease or purchase plan best suits your needs.

**Genuine Honda Replacement Parts** are made to the same exacting standards as original Honda Components and are guaranteed by our Genuine Honda Parts Warranty.

**We're ready to help.** When you purchase a 2005 Honda, you automatically receive Honda Plus Roadside Assistance. This service is available for you or anyone else driving your vehicle 24-hours-a-day, 7-days a week, anywhere in Canada or the U.S. Coverage is for three years, unlimited mileage and includes towing, battery boost, lock-out assistance plus many other helpful services. Ask your Dealer for more information.

the Odyssey

Don't  
hang up  
the driving  
gloves.

Odyssey EX shown in Slate Grey Pearl.

You want versatility, but you also love to drive. With a **255-hp engine**, the Odyssey moves with an eagerness that belies its big capabilities. And that engine is packed with the latest innovative Honda engineering, so you get all that power with efficiency, economy and lower emissions, too.

And when the road curves, you'll enjoy responsive handling inspired by European luxury sedans. With its rack-and-pinion steering, 4-wheel independent suspension and powerful 4-wheel disc brakes, the new Odyssey performs like it doesn't even know it's a minivan.

# Wherever you are. Wherever you're going. The real fun is behind the wheel.

You could call Odyssey the hot rod of minivans. At its heart is a potent 3.5-litre V6 engine that showcases high-tech Honda thinking like a new **Drive-by-Wire Throttle System™** for smooth power delivery. And its 5-speed automatic transmission offers enhanced acceleration as well as economy. It also uses less fuel, thanks to Honda's new **Variable Cylinder Management™** (VCM™) system. In fact, it's the brains behind the 3.5-litre i-VTEC™ engine that's standard on Odyssey models with leather interior. Powered by the intelligence of i-VTEC™ technology, VCM™ gives you big power and more engine efficiency. That's performance you won't find in another minivan. But please, try to contain your excitement once you get behind the wheel. You don't want your passengers to think you're having more fun than they are.

VCM™ works without the driver even noticing it's there. When accelerating, all six cylinders of the 3.5-litre V6 are firing, providing all the exhilaration of **255-hp** and 250 lb-ft of torque. Trademark Odyssey performance – for brisk highway passing or strong towing – is never compromised. When cruising, VCM™ seamlessly deactivates the three rear cylinders. Intake and exhaust valves remain closed, while fuel injection is paused. The reduced engine displacement helps deliver increased fuel economy, which means you can travel a lot further on a single tank of gas.

A drive in the all-new Odyssey is just as refined, as it is inspiring. A rubber-isolated rear subframe provides a smoother, quieter ride. New aerodynamics decrease wind noise. And the models with our new VCM™ technology are also equipped with an electronic Active Noise Control system that helps further reduce engine noise within the passenger cabin.

Odyssey Touring shown in Nighthawk Black Pearl.

# A world unlike any other.

When designing the interior of the all-new Odyssey, our engineers went right back to the drawing board and created a truly innovative driving environment with a focus on luxurious comfort and long-distance touring. So there's smart design like an easy-to-reach and out-of-the-way dash-mounted shifter. Plus other little luxuries like leather seating with **heated front seats** for chilly mornings.\*

Whether you call it mere convenience or "driver-focused design," some things just make sense. Like steering wheel-mounted audio system and cruise controls on all EX models. But, of course, the only way you'll be able to appreciate all the conveniences and innovations of this state-of-the-art minivan is to slip behind the wheel and drive one.

\*Standard on all models with leather.

Almost as good as eyes in the back of your head, the new conversation mirror also pulls double duty, flipping open to reveal a holder for your sunglasses. On models with **HomeLink**® buttons are close by as well, operating up to three remote-controlled devices, like garage doors.

New for 2005, the dual sliding doors now also feature the extra convenience of power second-row windows, opening up more possibilities for rear passenger control.

Odyssey Touring interior shown in Grey Leather.

Before you even step inside, the 2005 Odyssey obeys commands through a key fob that operates the door locks, the power sliding doors on most models and even the Touring model's new **power tailgate**. Vents and lights at all three passenger rows, and a new **tri-zone automatic climate control system** in the Touring model gets everyone in their very own comfort zone. The Touring model even has a bilingual programmable multi-information display, complete with compass and kilometres to empty. Whether driving or riding, this is the place to be.

When you want a fresh perspective, slide back the large **power moonroof** that's standard on all models with leather. It's yet another motorized marvel in this minivan's bag of tricks – like power windows, mirrors, door locks and, on all EX and Touring models, dual power sliding doors. And all that power is placed right at your fingertips.

Here, entertainment is no afterthought. Standard in LX models is a 120-watt AM/FM/CD system, while all EX models get a 180-watt system with a 6-disc in-dash CD changer. Taking centre stage in Touring models is a **360-watt premium audio system** with 7 speakers, including a subwoofer. And the Honda DVD Rear Entertainment System\* which has an impressive **9-inch screen** that's sure to keep the pack in back thinking they're in their own mobile movie theatre.

\*Available on EX with Leather and Touring models.

We've given gadget lovers lots to love. On the factory-integrated Honda DVD Rear Entertainment System, the control panel faceplate becomes a **remote control**. And technophiles can now have both the Honda DVD Rear Entertainment System and the Honda Navigation System with Bilingual Voice Recognition on the new Touring model. The Odyssey does it all, and now, you can have it all.

Image courtesy of Universal Studios.

Thoughtful technological touches help set the Odyssey apart, like lightweight **wireless headphones\*** featuring Personal Surround. They turn on and off with a twist, and fold flat to store easily. Rear passengers can enjoy DVD movies or other audio sources without disturbing the driver. And with the rear audio/video inputs, they can even play **video games**.

On all EX and Touring models, passengers get easy access through dual power sliding doors. Drivers will also be quick to get situated, too, finding a perfect fit thanks to the adjustable steering column and an 8-way power driver's seat. Whether

you're long of limb or shorter in stature, we want the Odyssey to fit its driver as best it can. So new for 2005 are innovative **power adjustable pedals** on the Touring model that can move the gas and brake pedals closer to your feet.

Inside the new Odyssey, passengers are in for a few treats. Seating is not only luxurious, but also highly configurable, with room for up to eight in all EX models, thanks to a stowable 2nd-row **PlusOne Seat™**. A lockable storage area in the floor provides space to store the extra seat when it's not needed, making extra space between the two deeply padded, full-size second-row seats.

When you're ready to reconfigure, the Odyssey can meet the challenge in a multitude of ways. There's the handy removable PlusOne Seat™ in all EX models, or the second-row centre console in the Touring model. And no matter where you sit, front or back, the seats are **supremely comfortable** – with plush second-row seats you would actually love to sit in for a nice long ride.

An 8-way power-adjustable driver's seat on all EX and Touring models makes chauffeur duty a joy. Touring models add a seat position memory feature. Situate passengers and cargo how you like, with removable second-row seats that push together, pull apart and slide up for easy third-row access. And a 60/40-split third-row **Magic Seat™** folds flat in one motion to make a big cargo area – without removing head restraints.

The 2005 Odyssey puts a new spin on space. All EX and Touring models feature an ingenious Lazy Susan rotating storage area in the hidden in-floor storage space. Stow kid crafts, dog toys, work stuff or play stuff. It's large enough to hold lots of things, keeping them organized and out of the way – but quickly accessible. If you want a single **larger storage area**, you can remove the Lazy Susan altogether. And the cover is lockable, making it a great place to keep valuables out of sight.

Odyssey EX shown in Slate Grey Pearl.

It's a good feeling having those GPS satellites looking out for you, and leave it to Odyssey to be the first Honda in Canada to let you know exactly where you are without ever having to stop and ask. When you've got the **Honda Navigation System\*** with Bilingual Voice Recognition as your faithful guide, you'll have the comfort of knowing that how lost you really get is completely up to you. And it's just one of the ways the new Odyssey is equipped for kilometre after kilometre of **carefree exploration**. Climb on in and enjoy a motoring experience unlike any other – one that can turn even the daily drive into a big adventure.

\*Standard on the Touring model.

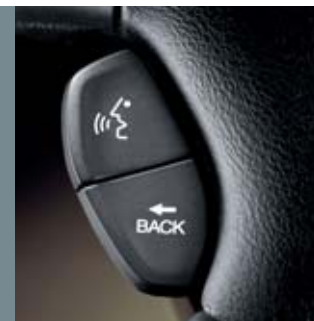

Global positioning system (GPS) satellites pinpoint your location virtually anywhere in North America. Enter a destination, and you're guided there with clear directions and voice prompts.\* The voice recognition system will recognize **over 600 commands** in both English and French. And you can even use it to control the audio and climate systems, and more.

\*Some roads unverified. See the Navigation System Owner's Manual for more details on coverage.

Choose a place:

Route planning is a snap with the available Honda Navigation System with Bilingual Voice Recognition and steering wheel-mounted controls. Its new **flip-down touch screen** is your window to 8.0 gigabytes of maps and 7 million points of interest. The voice recognition feature gives you hands-free access to much of that data. Touch a button, and the screen flips down to reveal the 6-disc in-dash CD changer.

# Safety for Everyone

Honda has a well-established history of leadership and innovation in safety technologies. Our philosophy of **Safety for Everyone** seeks to provide top-level protection, whether it be for drivers, passengers or even pedestrians. As a result of this commitment, Honda engineers have equipped Odyssey with a host of standard features, like Anti-lock Braking System (ABS), Vehicle Stability Assist (VSA) and traction control. It also has dual front

and side airbags, side curtain airbags, plus 3-point pretensioner seatbelts and the Lower Anchors and Tethers for Children (LATCH) system for easy installation of compatible child seats. At Honda, we take safety seriously. Maybe that's why eight of our 2004 Honda models received **5-star ratings** from the National Highway Traffic Safety Administration (NHTSA) in frontal crash testing. That's more models than any other brand.

The navigation screen on the Touring model doubles as a display for the innovative, full-colour rearview camera. When you shift into reverse, the screen offers a clear view of the area immediately behind the vehicle. The Touring model also has front and rear sensors to help avoid hitting objects in front or behind you.

The rigid safety cell in the Odyssey is engineered to maintain its size and shape in multiple crash directions, and to **resist the intrusion** of crash forces in the event of an impact.

Front airbags, front side airbags and 3-row side curtain airbags with a rollover sensor are standard on Odyssey. The dual-stage, dual-threshold front airbags deploy at one of two rates and thresholds depending on the severity of impact and seatbelt use. Sensors prevent the deployment of the passenger's side airbag if a child or small adult is in the airbag's deployment path.

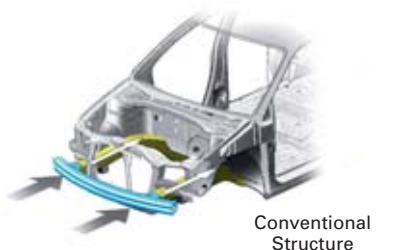

Honda reminds you and your passengers to always buckle up.

Front airbags inflate and deflate in a fraction of a second.

In keeping with Honda's Safety for Everyone concept, future Honda models will also incorporate our latest thinking in pedestrian-friendly body design, taking advantage of industry leading pedestrian safety research conducted at Honda's state-of-the-art crash test facility in Tochigi, Japan.

Honda's Advanced Compatibility Engineering™ (ACE™) body structure incorporates a front-end frame that absorbs and disperses crash energy over a larger area. ACE™ increases Odyssey passenger protection, and makes it more crash compatible with vehicles of differing ride heights.

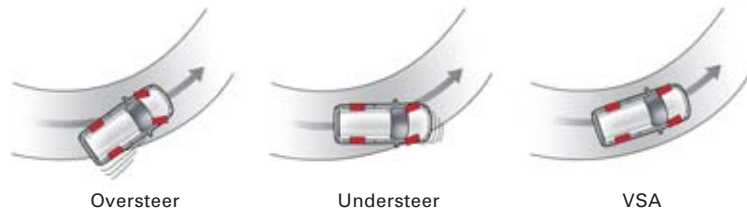

Conventional Structure

ACE Structure

Every 2005 Odyssey now equipped with Honda's sophisticated Vehicle Stability Assist (VSA) system. Working with ABS and electronic throttle control, VSA enhances stability by detecting oversteer or understeer. It also provides braking to individual wheels and/or throttle reduction to help restore the driver's intended path of travel.

Oversteer

Understeer

VSA

The Odyssey was awarded the “**All-Star for Best Minivan**” by *Automobile Magazine* six years in a row, including 2004. And it also beat all comers in the *Car and Driver* full-size 2004 minivan comparison. To top it off, *J.D. Power* put the **Odyssey** **first** in its 2004 Initial Quality Study. Only Honda would take a vehicle as lauded as the Odyssey and then restyle it, rethink it and **reinvalidate** it end-to-end. We think the experts may have to invent some new awards.

#### **Odyssey EX**

Adds to or replaces LX features:  
Dual Power Sliding Doors • 180-Watt AM/FM/6-Disc In-Dash CD Changer Audio System with 6 Speakers • Tri-Zone Climate Control (automatic dual-front, manual rear) • Heated Power Mirrors • HomeLink® Remote System • Conversation Mirror with Sunglasses Holder • Steering Wheel-Mounted Audio Controls • Ambient Console Lighting • Driver's Seat with 8-Way Power Adjustment • Stowable 2nd-Row PlusOne Seat™ • Integrated Sunshades (2nd-Row) • In-Floor Storage with Lazy Susan (2nd-Row) • 7-Spoke Alloy Wheels

#### **EX with Leather**

Adds to or replaces EX features:  
255-hp, 3.5-litre, 24-Valve SOHC i-VTEC™ V-6 Engine • Variable Cylinder Management™ (VCM™) • Power Moonroof • Leather-Trimmed Interior • Heated Front Seats • 5-Spoke Alloy Wheels

#### **EX with Leather / RES**

Adds to or replaces EX with Leather features:  
Honda DVD Rear Entertainment System: includes 9" screen, wireless headphones and remote control

#### **Odyssey LX**

255-hp, 3.5-litre, 24-Valve SOHC VTEC™ V6 Engine • 5-Speed Automatic Transmission • Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) and Brake Assist • Drive-by-Wire Throttle System™ • Vehicle Stability Assist (VSA) with Traction Control • 4-Wheel Independent Suspension • Advanced Compatibility Engineering™ (ACE™) Body Structure • Front, Side and Side Curtain Airbags with Rollover Sensor • 120-Watt AM/FM/CD Audio System with 4 Speakers • Power Windows (Front and 2nd row) • 15 Beverage Holders • In-Floor Storage (2nd-Row) • One-Motion 60/40-Split 3rd-Row Magic Seat™ • Air Conditioning with Micron Air-Filtration System • Keyless Remote Entry
