

The 2006 Honda Accord Sedan / Hybrid

HONDA

**When you're on the move,
life can be full of compromises.
It's nice to know your car
doesn't have to be one.**

Where to? It doesn't matter.

The Honda Accord. Whatever the road, wherever the destination, the 2006 Accord is always right at home. A trip for groceries, the weekly car pool or a leisurely Sunday drive all feel much more rewarding in the newly styled 2006 Accord. Every model now has more horsepower, more refinements and added features. So wherever the road takes you, you'll always have the perfect car for the ride.

Power and Handling. More power is a good thing, a very good thing. So every 2006 Accord gets a boost to satisfy the most performance-hungry driver. The 2.4-litre i-VTEC® 4-cylinder engine has 166 hp, while the 3.0-litre VTEC® V6 pumps out a very addictive 244 horses. You'll enjoy all this power and still benefit from Honda's trademark fuel efficiency. Think of it as the best of both worlds. All models have a Drive-by-Wire Throttle System™ to refine response, and an intelligent Maintenance Minder to tell you when it's time for service. So get out and carve up the road – just make sure your lid's on tight.

Power to spill your latté.

Variable valve Timing and lift Electronic Control (VTEC) helps spread added power across the rpm range. The i-VTEC system on 4-cylinder engines adds refinement with intake Variable Timing Control™ (VTC™). For 2.4-litre Accords, choose from a 5-speed manual transmission or the available 5-speed automatic.

Legendary Accord handling is a product of the elegant double-wishbone suspension with multi-link rear set-up. Stabilizer bars make for quick cornering. Sharply honed power rack-and-pinion steering puts you in control and, on most models, 4-wheel disc brakes help ensure smooth, confident stops.

*EX-V6 model shown with optional Honda Navigation System with Bilingual Voice Recognition.

You'll Never Want to Leave

Interior. One look at the Accord's beautifully styled interior and you quickly realize there's no compromise. Every control and every surface has been finely tuned to maximize your comfort and driving pleasure. Smooth surfaces, tactile switches and plush materials blend together to deliver a refined and luxurious cockpit. Don't be surprised if short jaunts suddenly turn into longer ones. Gridlock may even become, well, a little more tolerable. And when you get home at the end of the day and switch the engine off, it's perfectly normal to sit for a while and simply enjoy your surroundings.

Built-in Scenery

Cockpit. Beauty abounds wherever you look inside the 2006 Accord. Deep charcoal accents create a contemporary and sophisticated atmosphere, while easy-to-read gauges set the scene for the driver. Controls are all within reach, including the available steering wheel-mounted switches.* All Accords have a keyless remote entry system, and leather-trimmed models give you heated front seats as well as dual-zone automatic climate control to enhance your driving experience.

*Available on EX-L models and above.

With the Accord's available Honda Navigation System with Bilingual Voice Recognition,* you'll know where you're going even if the surroundings don't look familiar. The system uses GPS satellites, a huge DVD database, voice prompts and a moving map display to guide you to your

destination.† You can adjust the audio and climate control systems – and much more – just by speaking. Most Accords feature 120 watts of pure sound and a 6-disc in-dash CD changer. Wherever the road takes you, you'll always have a soundtrack.

* Available on EX-V6 and Hybrid models only.
† Some roads unverified. See the Navigation System Owner's Manual for more details on coverage.

The Accord's luxurious interior is easy on the eyes.

The Accord Hybrid. Hybrids are about great fuel economy and ultra-low emissions. The 2006 Accord Hybrid, however, is also about scintillating performance. In fact, when you drive it, you'll find there's so much power you won't believe it's a hybrid. Along with its exceptional fuel efficiency, it also offers 253 hp. With the Accord Hybrid you can have it all.

Have it all.

What exactly is a hybrid powertrain? Hybrid technology teams a gasoline engine with the added boost of an integrated electric motor. We call it the Integrated Motor Assist IMA[®] system. In the Accord Hybrid, IMA gives the highly efficient and powerful V6 gas engine more fuel efficiency* and get-up-and-go when needed. And the Hybrid drives just like you would expect an Accord to drive.

I never have to plug it in, right? That's right. In fact, there isn't even a plug. Just drive the Accord Hybrid like you would drive any car. The electric part of the IMA system is completely self-contained and self-sufficient. Thanks to clever design, the Hybrid powertrain and braking systems recharge the onboard battery pack by recapturing kinetic energy when the car is slowing down or braking.

The Hybrid is the most powerful Accord yet.

The Accord Hybrid features many sophisticated materials and technologies. The magnesium head covers and intake manifold on the engine – along with the aluminum hood – help reduce weight. Electric Power Steering (EPS) increases efficiency while enhancing response. A unique hybrid air conditioning system uses an electric compressor when the engine's auto-stop feature is engaged to keep passengers comfortable. Even the alloy wheels optimize aerodynamics.

Starting

The IMA system's electric power aids the engine's horsepower for a brisk takeoff. IMA is used to start the engine, and there's also a backup 12-volt battery and starter if the IMA system's battery pack charge is low.

Acceleration

When you need to get up to speed or pass with authority, you have all the power of the V6 engine plus the added boost of the electric motor. They combine to deliver 253 hp to get you moving forward quickly.

How Hybrids Work

1. Big voltage, small package. Behind the rear seat of the Accord Hybrid resides its high-efficiency battery pack. The nickel-metal hydride (Ni-MH) composition is designed for the rigorous duties of a hybrid vehicle. Thanks to its slim profile, there's plenty of cargo room in the trunk. The battery system incorporates air cooling to enhance its performance and is further bolstered by an 8-year/130,000-kilometre limited battery warranty.*

2. It's no ordinary gearbox. The Accord Hybrid comes equipped with a specially designed, compact 5-speed automatic transmission. This electronically controlled gearbox is programmed to downshift early when slowing, so the higher engine revs enhance regenerative braking to help recharge the battery pack.

3. Electrons are powerful friends. Mated to the Accord Hybrid's V6 engine is an ultra-thin, brushless DC electric motor. It provides additional horsepower and torque during acceleration. In fact, 90% of peak torque is available at a low 1000 rpm for impressive response off the line and at lower road speeds.

4. Two engines in one. The innovative 3.0-litre V6 engine features Honda's advanced Variable Cylinder Management™ (VCM®) technology. When cruising, VCM turns off three of the engine's six cylinders by pausing fuel injection and keeping the intake and exhaust valves closed. The reduced displacement helps enhance range and fuel efficiency. Accelerate, and VCM re-engages the cylinders instantly and smoothly.

Cruising

When you maintain steady speeds and light engine loads, Variable Cylinder Management (VCM) is silently activated. It works to boost range and fuel efficiency on the highway, while IMA extends efficiency around town.

Braking

When you're slowing down, the IMA system's electric motor works as a generator. It recharges the battery by recapturing kinetic energy with the help of an electronically controlled transmission tuned to maximize recharging.

At a Stop

Come to a stoplight and the auto-stop feature shuts down the gasoline engine to reduce fuel use and emissions. Then step on the accelerator and combined gas and electric power provide instant propulsion.

Standard Safety Features:

- 4-Wheel Anti-Lock Braking System (ABS)
- Driver and Front Passenger Dual-Stage, Dual-Threshold Front Airbags (SRS)
- Driver and Front Passenger Side Airbags (SRS) with Passenger Seat Occupant Position Detection System™ (OPDS™)
- Side Curtain Airbags

Safety Without Compromise

Safety For Everyone. Honda has a long commitment to safety. The idea that safety is for everyone is a company philosophy, not a slogan. Honda seeks to provide the highest level of occupant safety in all of their cars and trucks – regardless of size or price – as well as improving safety for pedestrians. This approach is making a difference as 9 of Honda’s 2005 models have earned the U.S. National Highway Traffic Safety Administration’s (NHTSA) 5-star frontal impact crash-test rating – the most of any brand.

Rigid Frame Structure. Front and rear crumple zones deform in a controlled manner to help absorb impact energy before it has a chance to intrude into the passenger cabin. Further protection for the occupants inside is provided by a rigid safety cell reinforced with high-tensile steel and numerous cross braces to help stop cabin deformation.

Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly secured in the rear seat.

VSA. Vehicle Stability Assist™ (VSA®) is now standard on Accord V6 models. VSA is a sophisticated system that can sense oversteer and understeer, and can brake individual wheels and/or reduce engine power to help keep the driver on the intended path. In Accord V6 models, the Traction Control System (TCS) – a function of VSA – helps prevent wheel slippage under acceleration. TCS enhances your ability to get underway safely, even on slippery or wet road surfaces.

Crash Testing. The Accord's energy-absorbing crumple zones and passenger safety cell help keep occupants protected. They also earned the 2005 Accord a 5-star frontal impact crash-test rating from the U.S. NHTSA. All five passengers benefit from 3-point seatbelts. The front seatbelts are equipped with pretensioners that automatically tighten in the event of a moderate-to-severe impact. Outboard rear seats have the LATCH (Lower Anchors and Tethers for Children) child restraint system.

WITHOUT VSA – LOSS OF CONTROL

WITH VSA – CONTROL MAINTAINED

The Accord Sedan was selected as one of Car and Driver's "10Best" Vehicles in 2005. It was the 19th time it has received this honour in the past 23 years.

The Power of Dreams.

On a September day in 1946, Soichiro Honda visited the home of a friend where he came across a small generator engine designed for a wireless radio. In a moment of inspiration, he turned to his friend and said, “Let’s use this to power a bicycle.”

Say “hello” to ASIMO, the world’s most advanced humanoid robot.

Honda’s advanced crash test facility in Tochigi, Japan.

The ultimate in clean performance.

Racing helps us prove our innovations.

The jet, reinvented.

From this engine-powered bicycle, Honda has grown into a company that moves people in every conceivable way: motorcycles, automobiles, trucks, marine engines, hybrid vehicles, a jet, a fuel cell car and even a robot that will walk and run to assist those who can’t. And each innovation begins with the same dream Mr. Honda had when he found that engine: the dream of bringing the joy of mobility to people.

Honda never stops dreaming. We dreamed of “Safety for Everyone” because everyone has the right to safety, no matter how much they pay for their vehicle. The result: 9 of

Honda’s 2005 models are awarded the U.S. National Highway Traffic Safety Administration’s (NHTSA) 5-star frontal impact crash-test rating, the most of any brand.

We dreamed of making products that are friendlier to the environment, so this year we introduced FCX, a fuel cell car that will soon be available.

As long as people have places to go, Honda will invent new ways to get them there. And while today Honda makes some of the most powerful engines in the world, we will always think of Mr. Honda’s first motorized bicycle, and remember the greatest power is the power of a dream.

Trim Levels & Models

Accord DX-G Sedan

- 166-hp, 2.4-litre i-VTEC® 4-Cylinder Engine
- 5-Speed Manual Transmission or Available 5-Speed Automatic Transmission
- 16-Inch Wheels
- Air Conditioning with Micron Air Filtration System
- AM/FM/CD Audio System with 6 Speakers
- Anti-Lock Braking System (ABS)
- Body-Coloured Door Handles
- Body-Coloured Heated Power Door Mirrors
- Cruise Control
- Drive-by-Wire Throttle System™
- Dual-Stage, Dual-Threshold Front Airbags (SRS)
- Front Side Airbags (SRS) with Passenger Seat Occupant Position Detection System™ (OPDS™)
- Independent Front Double-Wishbone and Rear Multi-Link Suspension
- Keyless Remote Entry with Trunk Release
- Maintenance Minder
- Power Windows and Door Locks
- Side Curtain Airbags
- Speed Synchronized Variable Intermittent Front Wipers
- Tilt and Telescopic Steering Column

Accord SE Sedan

Adds to or replaces DX-G features:

- 4-Wheel Disc Brakes with Electronic Brake Distribution™ (EBD™)
- 16-Inch Alloy Wheels
- Dual Front Illuminated Vanity Mirrors
- Leather-Wrapped Steering Wheel and Shift Knob
- Map Lights
- Overhead Sunglasses Holder
- Power Moonroof with Tilt Feature, Privacy Glass and Sunshade
- Security System

Accord EX-L Sedan

Adds to or replaces SE features:

- 6-Disc In-Dash CD Changer and Audio Anti-Theft
- Driver's Seat 8-Way Power Adjustment
- Dual-Zone Automatic Climate Control System
- Driver's Seat Adjustable Lumbar Support
- Illuminated Door Locks, Mirror and Power Window Switches

- Illuminated Steering Wheel-Mounted Audio System Controls
- Leather-Trimmed Interior with Heated Front Seats
- Outside Temperature Gauge

Accord SE-V6 Sedan

Adds to or replaces SE features:

- 244-hp, 3.0-litre VTEC® V6 Engine
- 5-Speed Automatic Transmission with Grade Logic Control
- 6-Disc In-Dash CD Changer
- 17-Inch Alloy Wheels
- Driver's Seat 8-Way Power Adjustment
- Illuminated Steering Wheel-Mounted Audio System Controls
- Vehicle Stability Assist™ (VSA®) with Traction Control System (TCS)

Accord EX-V6 Sedan

Adds to or replaces SE-V6 features:

- Adjustable Lumbar Support
- Available Honda Navigation System with Bilingual Voice Recognition
- Dual-Zone Automatic Climate Control System
- Front Passenger Seat 4-Way Power Adjustment
- HomeLink® Garage Door Opener
- Illuminated Door Lock and Mirror Switches
- Leather-Trimmed Interior with Heated Front Seats
- Outside Temperature Gauge

Accord Hybrid

Adds to or replaces EX-V6 features:

- 253-hp, 3.0-litre i-VTEC® V6 Engine with Integrated Motor Assist IMA® and Variable Cylinder Management™ (VCM®)
- Active Noise Cancellation™ (ANC™)
- Compact 5-Speed Automatic Transmission
- Dual-Zone Hybrid Automatic Climate Control System
- Electric Power Steering
- Emission Control System – ATP Zero-Emission Vehicle (PZEV)
- Integrated Turn Signal in Door Mirrors
- Lightweight 16-Inch Alloy Wheels
- Micro Antenna
- Rear Integrated Trunk Lid Spoiler
- Excludes Front Passenger Seat 4-Way Power Adjustment
- Excludes Rear Folding Seats

At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will keep your vehicle in terrific shape. Honda accessories installed at the time your vehicle is purchased are covered under the 3-year/60,000-km limited warranty. If you need more information or assistance, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit [Honda.ca](http://www.honda.ca). It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

We're Here

Quality Honda Accessories give you the opportunity to fine-tune your new Accord just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty.

Make the grade with Honda. If you're a recent university or college graduate, you may be eligible for an allowance of up to \$750 on certain Honda models. To learn more about the Graduate Program, see your participating Honda dealer.

Honda Canada Finance Inc. Whether you buy or lease a Honda, Honda Canada Finance Inc. can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

We're ready to help. When you purchase a 2006 Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you or anyone else driving your vehicle 24 hours a day, 7 days a week, anywhere in Canada or the U.S. Coverage is for 3 years, unlimited distance and includes towing, battery boost, lock-out assistance plus many other helpful services. Ask your dealer for more information.
