REDISCOVER THE EMOTION OF

All children instinctively know it. A few adults still remember it. One unique car company refuses to outgrow it. In grown-up language, it means the exhilaration and liberation that comes from experiencing sheer motion. But as usual, children put it much better. And simply call it "zoom-zoom." We practice it every day. It's why we build the kind of cars we do. And why you'll find the soul of a sports car engineered into everything we make...including Mazda B-Series Trucks.

In all, there are three hard working, fun-to-drive models and two cab configurations. Treat yourself to the Mazda Test-Drive Experience. You'll soon discover the responsive acceleration and steering, superb braking, and surefooted handling that have helped make Mazda B-Series Canada's best selling import compact pickup truck, 18 years running*. You'll know, too, that whether you're headed to the mountains for a climbing adventure or towing a boat to a favourite out-of-the-way spot, these trucks can make the journey as exciting as the destination.
