

The new BMW X5

X5 3.0si
X5 4.8i

The Ultimate
Driving Experience®

Every movement has its icon.
The new BMW X5.

True to character:
breaking new ground.

Take the wheel.
Seize the lead.

Built to lead.
Engineered to grip.

Ahead: the horizon. All around you:
the joys of getting there.

With this much space,
take your time to explore.

For us, there is no such thing as a minor detail.

Xenon headlights, for low and high beam, offer the best possible illumination of the road at night and when visibility is poor. The four light rings offer a daytime running lights function, and can also be used as parking lights.

The optional **Panorama Sunroof** comprises two glass sections that can each be tilted up at the rear for draft-free ventilation. The larger section slides open at the touch of a button, and the sun protection blind is also electrically operated.

Power-folding Auto-dimming Exterior Mirrors automatically reduce the glare that's typically produced by following vehicles.

The new BMW X5 4.8i is fitted with two visible oval **exhaust tailpipes** with chrome surrounds; the new BMW X5 3.0si features circular tailpipes with steel surrounds.

The optional **Head-Up Display** projects key data, such as current vehicle speed, against the windshield and into the driver's field of vision. In addition, the system can also display directional arrows for navigation, as well as other useful information. The height of the display is adjustable, enabling the driver to concentrate fully on the road.

The optional **Rear DVD Entertainment System** comprises a DVD player with an 8.8" colour monitor. The system also includes a wireless remote control, two headphone sockets and an external video source connection.

Programmable memory keys allow the driver and passenger to store their most frequently used navigation system, audio system and telephone functions individually on separate buttons, where they can be conveniently accessed.

The optional **3rd Row Seating** adds yet more flexibility to the interior, comprising of two forward-facing seats which fold flat into the floor of the luggage compartment. The option also includes 3-point seatbelts, adjustable headrests, armrests, and cupholders to ensure comfort and safety.

When you're driven to lead, you need the power to overtake.

■ Standard equipment □ Optional equipment — Not available

Safety	X5 3.0si	X5 4.8i
Adaptive Headlights with cornering lights	■	■
Adaptive Brakelights	■	■
Airbags:		
– Driver and front passenger airbags with seat occupancy detector on front passenger seat	■	■
– Head airbags (driver, front passenger and rear passenger)	■	■
– Side airbags for driver and front passenger, integrated into seat	■	■
