

The 2007 Honda CR-V

HONDA

**Utility + power + handling
+ adventure + a touch of
luxury add up to the all-new
Honda CR-V.**

Utility +

Features:

60/40 split sliding fold & tumble forward rear seats / Available dual-deck cargo shelf / Reclining rear seatbacks with centre pass-through / Illuminated cargo compartment

DESIGN

Equal parts form and function, the forward-thinking CR-V has the ability to handle all of your life-sized adventures with style.

The new CR-V was designed with loads of fun in mind. From the moment you open the large doors or access the one-hand operated flip-up rear door, you're welcomed by litres of interior utility and flexible cargo space. What's more, the CR-V's aerodynamic exterior has been intelligently proportioned for superior cross-town or cross-country handling. So whether you're parking, loading or exploring, it all comes together in the innovative new CR-V.

Set a faster, more fuel-efficient, pace wherever you go with the aluminum-alloy 16-valve DOHC i-VTEC® 4-cylinder engine. Plus with the Drive-by-Wire Throttle System™ you will enjoy smoother acceleration the instant you need it. For an added touch of excitement, the CR-V's quick-shifting 5-speed automatic transmission with Grade Logic Control System and lockup torque converter ensures that power and efficiency are optimized on all kinds of terrain. To top it all off, the CR-V is a low emission vehicle with Tier 2 Bin 5 rating.

? Did you know i-VTEC® is a result of Formula One™ engineering? Operating in unison with the powerful Variable Valve Timing and Lift Electronic Control (VTEC®) that delivers power across the entire rpm range, i-VTEC enhances the 4-cylinder engine by adding Variable Timing Control (VTC) to increase fuel efficiency even further.

Power +

PERFORMANCE

Add a boost of race-inspired attitude to your commute and experience the difference a powerfully efficient 166-horsepower, 2.4-litre i-VTEC engine makes.

Features:

MacPherson strut front suspension / Multi-link rear suspension / Available 17-inch aluminum-alloy wheels / Power-assisted disc brakes / Lower centre of gravity

Adventure +

HANDLING

Confidence is automatic with the CR-V's available Real Time™ 4-wheel drive system. For extra traction when you need it, the system automatically engages the rear wheels for maximum grip on loose or rough terrain. When added grip isn't required, the system reverts to 2-wheel drive for improved fuel efficiency and handling on the highway. Plus, with 20% more rear wheel torque and confident ground clearance, the CR-V is more adventurous than ever before. The CR-V's solid unibody truck frame gives it a lower centre of gravity, offering you increased stability, smoother handling and manoeuvrability unlike anything you would expect in an SUV. So whatever direction you choose to take, there isn't an adventure you can't handle in your CR-V.

Technology +

INNOVATION

Technically speaking, the new CR-V is ahead of its time. Consider the available Honda Satellite-Linked Navigation System with bilingual Voice Recognition, which can respond to over 600 verbal commands and can guide you to your destination using voice prompts or guided map display. Plus, with the available 7-speaker 6-CD AM/FM Premium audio system with digital audio card reader and MP3/WMA capability, rush hour has never sounded better.

Always stay on track with intuitively located illuminated steering wheel-mounted audio and cruise controls that let you keep your eyes on the road and your hands on the wheel.

↑ A Maintenance Minder system monitors your driving to automatically determine when service is required. The system also anticipates maintenance schedules such as oil and filter changes and tire rotation, based on your driving habits.

↑ For a more personalized listening experience the CR-V audio system features a digital media MP3/auxiliary input jack so you can always bring your favourite playlist along for the ride.

Features:

Available Honda Satellite-Linked Navigation System with bilingual Voice Recognition and rearview camera / Air conditioning with air-filtration system / Available power moonroof with tilt feature

Luxury +

STYLE

Experience a flair for the extraordinary inside the CR-V's spacious, luxury-lined cabin. From the available leather-wrapped steering wheel and shift knob to the exceptionally comfortable leather-trimmed seating with heated front seats, you will revel in 360 degrees of meticulous fit and upscale finish. So when it comes to hitting the slopes, heading to the cottage or just making your way to work, the CR-V is more than capable of getting you there in comfort and style.

Versatility +

When it comes to versatility and smart configurable cabin space, the CR-V lets the fun unfold in ways, shapes and forms you would have never thought possible until now.

INTELLIGENCE

The CR-V's flip-up rear door is easily operated with one hand to provide you with effortless access to the available dual-deck cargo shelf storage area with cover. A fold-down rear seat centre armrest pass-through is perfect for skis and longer items. Door-pocket storage bins and available centre console with storage compartment and beverage holders keep all of life's little things in their place. Even the location and design of the centre dash-mounted shift lever provides more usable front seat space and legroom.

? Did you know the CR-V features up to 2064 litres of configurable cargo space? With the easily operated 60/40 split sliding fold & tumble forward rear seats, finding extra cargo room for everything from skis and strollers to more passenger legroom is a breeze.

Airbags

Six standard airbags line the vehicle's cabin, including dual-stage, dual threshold front (SRS) and front side airbags with the passenger-side Occupant Position Detection System (OPDS) airbag that will not deploy if it detects a smaller sized or improperly positioned occupant. Plus, rear seat Lower Anchors and Tethers for Children (LATCH) offer secure child-seat restraint.

Safety for Everyone

At Honda, Safety for Everyone is a commitment to providing one of the highest levels of standard safety features to help ensure occupant safety and protection, regardless of the price or size of the vehicle. Through innovative, real-world research Honda is developing unequalled measures of protection for drivers and passengers. In fact, recent crash tests conducted by the National Highway Traffic Safety Administration show more Honda models received 5-Star safety ratings for front and side impact than any other brand.* Looking to the future, Honda is working towards enhancing safety for occupants of other vehicles and even pedestrians – a challenge Honda is turning into a reality.

↑ **Active head restraints**

Active front seat head restraints provide the driver and passenger with excellent neck protection and support in the event of a rear collision.

*Based on tests published on July 4th, 2006 by NHTSA for 2006 models featuring standard front and side airbags. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov).

↑ **ACE body structure**

The Advanced Compatibility Engineering™ (ACE™) body structure disperses frontal impact energy, increasing occupant protection. Additionally, the ACE frame design allows for collision compatibility between vehicles of different weights and sizes.

↑ **Tire Pressure Monitoring System**

For enhanced performance and safety a Tire Pressure Monitoring System (TPMS) continually monitors the air pressure in each tire. If pressure drops in any one tire, an alert appears on the driver's instrument panel indicating that a tire needs attention.

↑ **Pedestrian safety**

Innovative pedestrian safety design with energy-absorbing hood and front fenders and breakaway wiper pivots.

↑ **Standard anti-lock brakes**

For safe stopping, the 4-wheel Anti-lock Braking System (ABS) helps you maintain control under hard braking conditions, while Electronic Brake Distribution (EBD) optimizes braking forces based on weight distribution inside the vehicle.

↑ **Vehicle Stability Assist**

Vehicle Stability Assist (VSA®) with Traction Control can sense and correct oversteer and understeer situations to enhance handling and cornering stability, while Traction Control ensures grip during acceleration.

The Power of Dreams

On a September day in 1946, Soichiro Honda visited the home of a friend, where he came across a small generator engine designed for a wireless radio. In a moment of inspiration, he turned to his friend and said, “Let’s use this to power a bicycle,” and the realization of The Power of Dreams began.

The New Honda FCX. The same innovative spirit characterized on that September day still resonates today in the development of Honda’s next-generation advanced mobility vehicle – the Honda FCX, a zero emission vehicle. Thanks to revolutionary Honda fuel-cell technology, the FCX powers its motor with electricity generated from a hydrogen-oxygen chemical reaction. Outputting 80-hp and 201 lb.-ft. of torque, the FCX is a responsive, versatile vehicle to drive. And most important, the only emission produced is clean water vapour, making it a better car for a better future.

01

Honda Innovation. What started with a dream now moves people in every conceivable way. To this day, Honda innovation takes many forms: from a range of award- and race-winning motorcycles, automobiles and trucks to the first full line of fuel-efficient low emission 4-stroke outboard motors, to the high-flying efficiency of the revolutionary engine-over-the-wing HondaJet, and even ASIMO, the world’s most advanced humanoid robot. Honda is also at the forefront of safety innovation, with a “Safety for Everyone” commitment that provides the highest level of standard safety features regardless of vehicle price or size. And as long as people have places to go, Honda will continue to invent and innovate better, safer and cleaner ways to get them there.

Trim Levels & Colours

CR-V LX

166-hp, 2.4-litre, i-VTEC® 4-cylinder engine • 4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) • 5-speed automatic transmission with Grade Logic Control System and lockup torque converter • 60/40 split sliding fold & tumble forward rear seats • Air conditioning with air-filtration system • 160-watt AM/FM/CD audio system with MP3/WMA compatibility and 4 speakers • Dual-stage, dual-threshold front airbags (SRS) • Remote entry system • Power windows with auto-up/down driver's window • Rear splash guards • Power door locks • Available Real Time™ 4-wheel drive • Front side airbags with passenger-side Occupant Position Detection System (OPDS) • Side curtain airbags • Vehicle Stability Assist (VSA®) with Traction Control • Tire Pressure Monitoring System (TPMS)

CR-V EX Adds to or replaces LX features:

17" aluminum-alloy wheels • Standard Real Time™ 4-wheel drive • Chrome grille surround and tailgate garnish • Power moonroof with tilt feature • 160-watt AM/FM/6-disc in-dash audio system with MP3/WMA compatibility and 6 speakers • Exterior temperature indicator • Privacy tinted glass • Steering wheel-mounted audio controls • Variable intermittent windshield wipers • Dual-deck cargo shelf

CR-V EX-L Adds to or replaces EX features:

Body-coloured door handles and door mirrors • Centre console • Heated front seats • Leather-trimmed seating surfaces • Leather-wrapped steering wheel and shift knob • Available Honda Satellite-Linked Navigation System with bilingual Voice Recognition with steering wheel-mounted controls and rearview camera • Available 270-watt AM/FM/6-disc Premium audio system with digital audio card reader, MP3/WMA compatibility and 7 speakers including subwoofer

Accessories

Remote engine starter • 17" alloy wheels • All-weather floor mats • Automatic day/night mirror with compass • Rear back-up sensor • Interior trim kit • Side steps (brushed aluminum, chrome and black finish) • Running boards • Engine block heater • Hood edge deflector • Half nose mask • Fog lights • Ski or snowboard attachment • Security system • Cargo tray • Trailer hitch, harness and ball

We're Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will keep your vehicle in terrific shape. Honda accessories installed at the time your vehicle is purchased are covered under the 3-year/60,000-km limited warranty. If you need more information or assistance, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit [honda.ca](http://www.honda.ca). It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

Quality Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty.

Make the grade with Honda. If you're a recent university or college graduate, you may be eligible for an allowance of up to \$750 on certain Honda models. To learn more about the Graduate Program, visit [honda.ca](http://www.honda.ca) or see your participating Honda dealer.

Honda Canada Finance Inc. Whether you buy or lease a Honda, Honda Canada Finance Inc. can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

We're ready to help. When you purchase a 2007 Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you or anyone else driving your vehicle 24 hours a day, 7 days a week, anywhere in Canada or the continental U.S. Coverage is for 3 years, unlimited distance and includes towing, battery boost, lock-out assistance plus many other helpful services. Ask your dealer for more information.
