

THE 2007 M-CLASS

Mercedes-Benz

*ML350.*

## Built for the road, or a lack thereof.

There are many places worth visiting simply because they are off the beaten track. The 2007 M-Class is sure to get you there in comfort and in style. Whether you're heading through rough terrain or just facing difficult weather conditions, the M-Class is ready to tackle whatever lies ahead.

With all the features you'd need for off-road driving, it is infinitely capable of handling the obstacles you'll run across in the urban jungle. Be it potholes, construction, standing water or black ice, the M-Class makes the hazards of city driving disappear.

Its standard 7G-TRONIC 7-speed automatic transmission and 4MATIC™ permanent all-wheel drive with Electronic Traction System (4-ETS) give you unparalleled control and ride comfort. Its robust engines ensure plenty of power. Its ergonomic seats and luxurious interior provide a comfortable ride on even the most bone-jarring routes. The M-Class has everything you could ever want in a luxury SUV.

## Bold in spirit, bold in design.

Not only is the 2007 M-Class physically bold, but it is visually bold as well. Its striking visual presence begins in the front, with dramatically styled headlamps and an aggressive grille. The sloping hood leads the eye to pleasing lines along the sides of the vehicle, and up over top of its strong wheel-wells. Our visual journey concludes at the rear of the M-Class, where the lines abruptly merge and fade away into a functional, yet elegantly designed fifth door.

With rich and stunning details like aluminium-alloy wheels, tinted windows, and chrome accents, the exterior of the 2007 M-Class is extremely easy on the eyes.

## No matter how slowly you take things, the journey will end too soon.

The generous use of space and high-quality materials inside the 2007 M-Class ensures the highest degree of comfort. The moment you open the doors, your gaze is drawn to the fine wood trim. Next, you settle into your ergonomic seat upholstered in ARTICO leather<sup>1</sup>

Conveniently, the multifunction steering wheel can be used to call up vehicle data, operate the radio and telephone, and even change gears using the shift buttons. THERMATIC automatic climate control<sup>2</sup> maintains an optimal temperature, as well.

Optional technology includes COMAND APS with navigation<sup>3</sup> and the exclusive harman/kardon<sup>®</sup> LOGIC7<sup>®</sup> surround sound system<sup>4</sup>. Both take the interior of your M-Class to a whole new level of comfort and enjoyment.

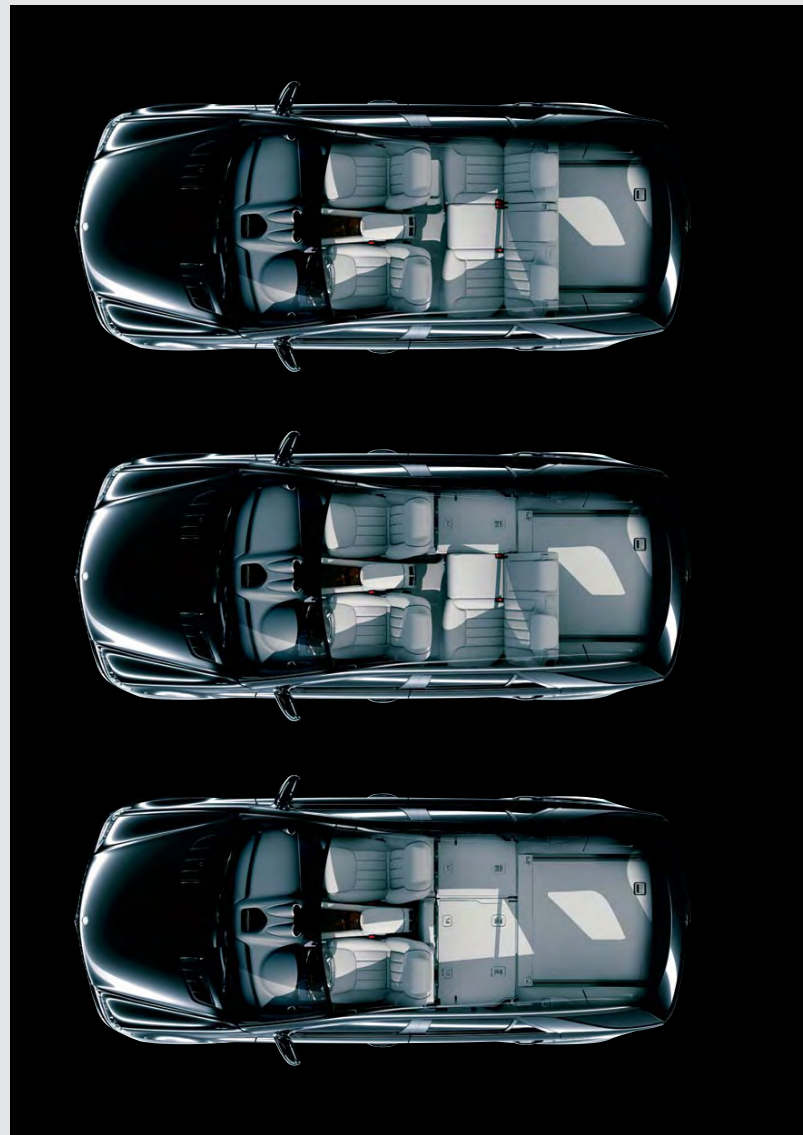

<sup>1</sup>Man-made leather. Standard on the ML320 CDI and ML350. <sup>2</sup>Standard on the ML320 CDI and ML350.

<sup>3</sup>Standard on the ML63 AMG. <sup>4</sup>Only available as part of an option package. Standard on the ML63 AMG.

## Manipulate space at will.

The 2007 M-Class has plenty of headroom and legroom to ensure that everyone on board is comfortable. Should you need more room for luggage, the rear seat can easily be folded forward. The rear seat has a 1/3 to 2/3 split, allowing both sections to be folded forward separately.

You won't have to be too selective when deciding what to take with you in your M-Class. With load space between 833 and 2,050 litres, it certainly won't cramp your style. Smaller objects can be placed in the stowage compartment to the side, and if you want to take things really easy, why not opt for the power tailgate with push-button operation<sup>1</sup>?

<sup>1</sup>Available as part of an option package on the ML320 CDI and ML350.

*ML500.*

## Sometimes a cage can be very liberating.

The 2007 M-Class features an extremely sturdy passenger cage. It protects the occupants by way of an energy-absorbing front-end, reinforced doors, extended crumple zones, and an elevated ride position.

Our advanced multi-stage air bags add even further passenger protection. In combination with the outstanding passenger cage, they provide a level of safety that you'd be hard pressed to beat.

Front seat passenger protection is enhanced by our NECK-PRO head restraints. In the event of a rear impact, the front head restraints move forward, lowering the risk of whiplash.

The NECK-PRO head restraints are sensor-controlled.

## The M-Class starts and ends with safety.

Countless highly advanced safety systems are standard on the M-Class. Here are the details on just a handful of them.

### **ELECTRONIC STABILITY PROGRAM (ESP®)**

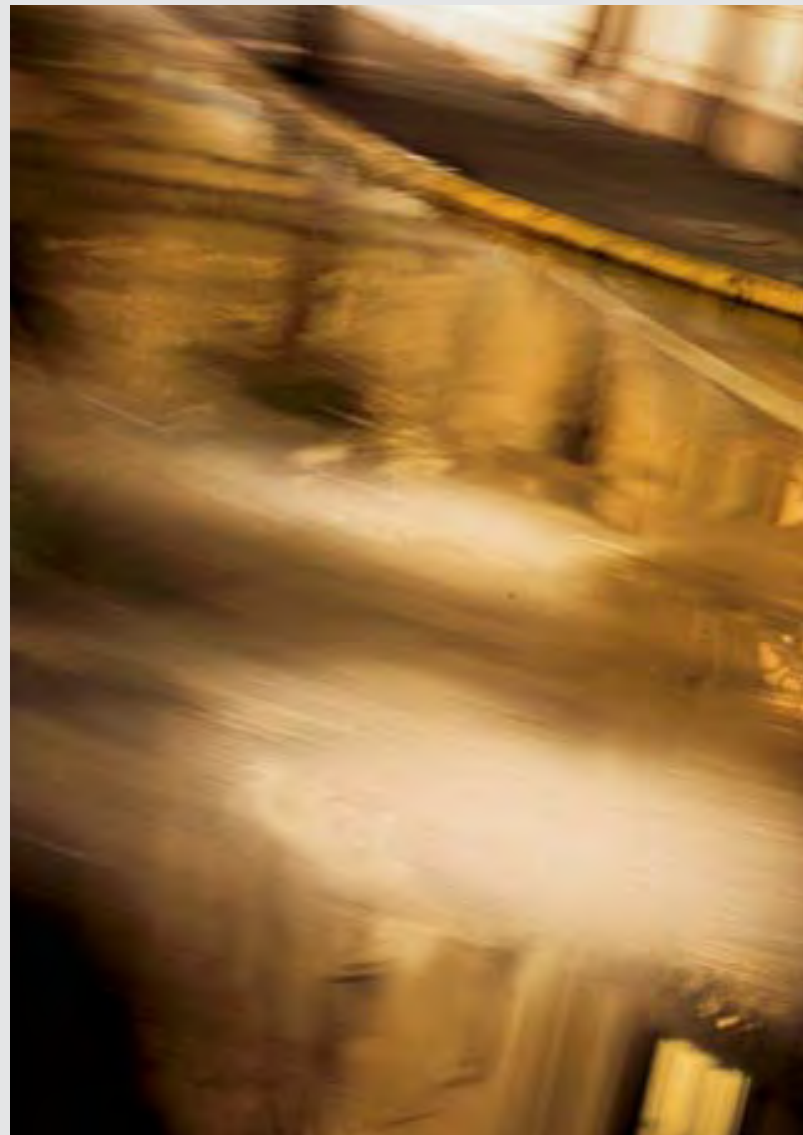

The M-Class' Electronic Stability Program (ESP®) enhances directional control by monitoring your steering and braking. It will make instantaneous adjustments if it senses loss of control or stability. If it senses oversteer or understeer, ESP® will apply the brakes and adjust engine torque to any combination of the four wheels to help you regain control and stay on course.

### **ACTIVE BI-XENON HEADLAMPS**

Active Bi-Xenon headlamps with headlamp washers and cornering lights provide better vision over long distances. They also actively swivel to either side based on your steering and driving speed, so you can better see what's happening around curves.

### **UNIT-BODY CONSTRUCTION**

Designed and developed exclusively for an SUV, the M-Class unit-body structure is exceptionally strong, lightweight and rigid. Its remarkable resistance to twisting and flexing helps give the M-Class more precise handling, as well as a smoother and quieter ride.

*ML500.*

## Experience the confidence and control of 4MATIC™ permanent all-wheel drive.

4MATIC™ permanent all-wheel drive gives you the control you need to drive your 2007 M-Class with complete confidence, no matter what the season or road conditions. It is always engaged, sending torque to each wheel independently, ensuring optimal traction.

The 4MATIC™ is aided by our 4-wheel Electronic Traction System (4-ETS). 4-ETS monitors each wheel for the first sign of wheel slip. It then individually brakes the slipping wheels to maintain the perfect balance of power and traction. By continuously ensuring that more power goes to the wheels with more grip, 4-ETS can help keep you moving, even if only one wheel has traction.

*ML500 shown with optional AMG Sport Package.*

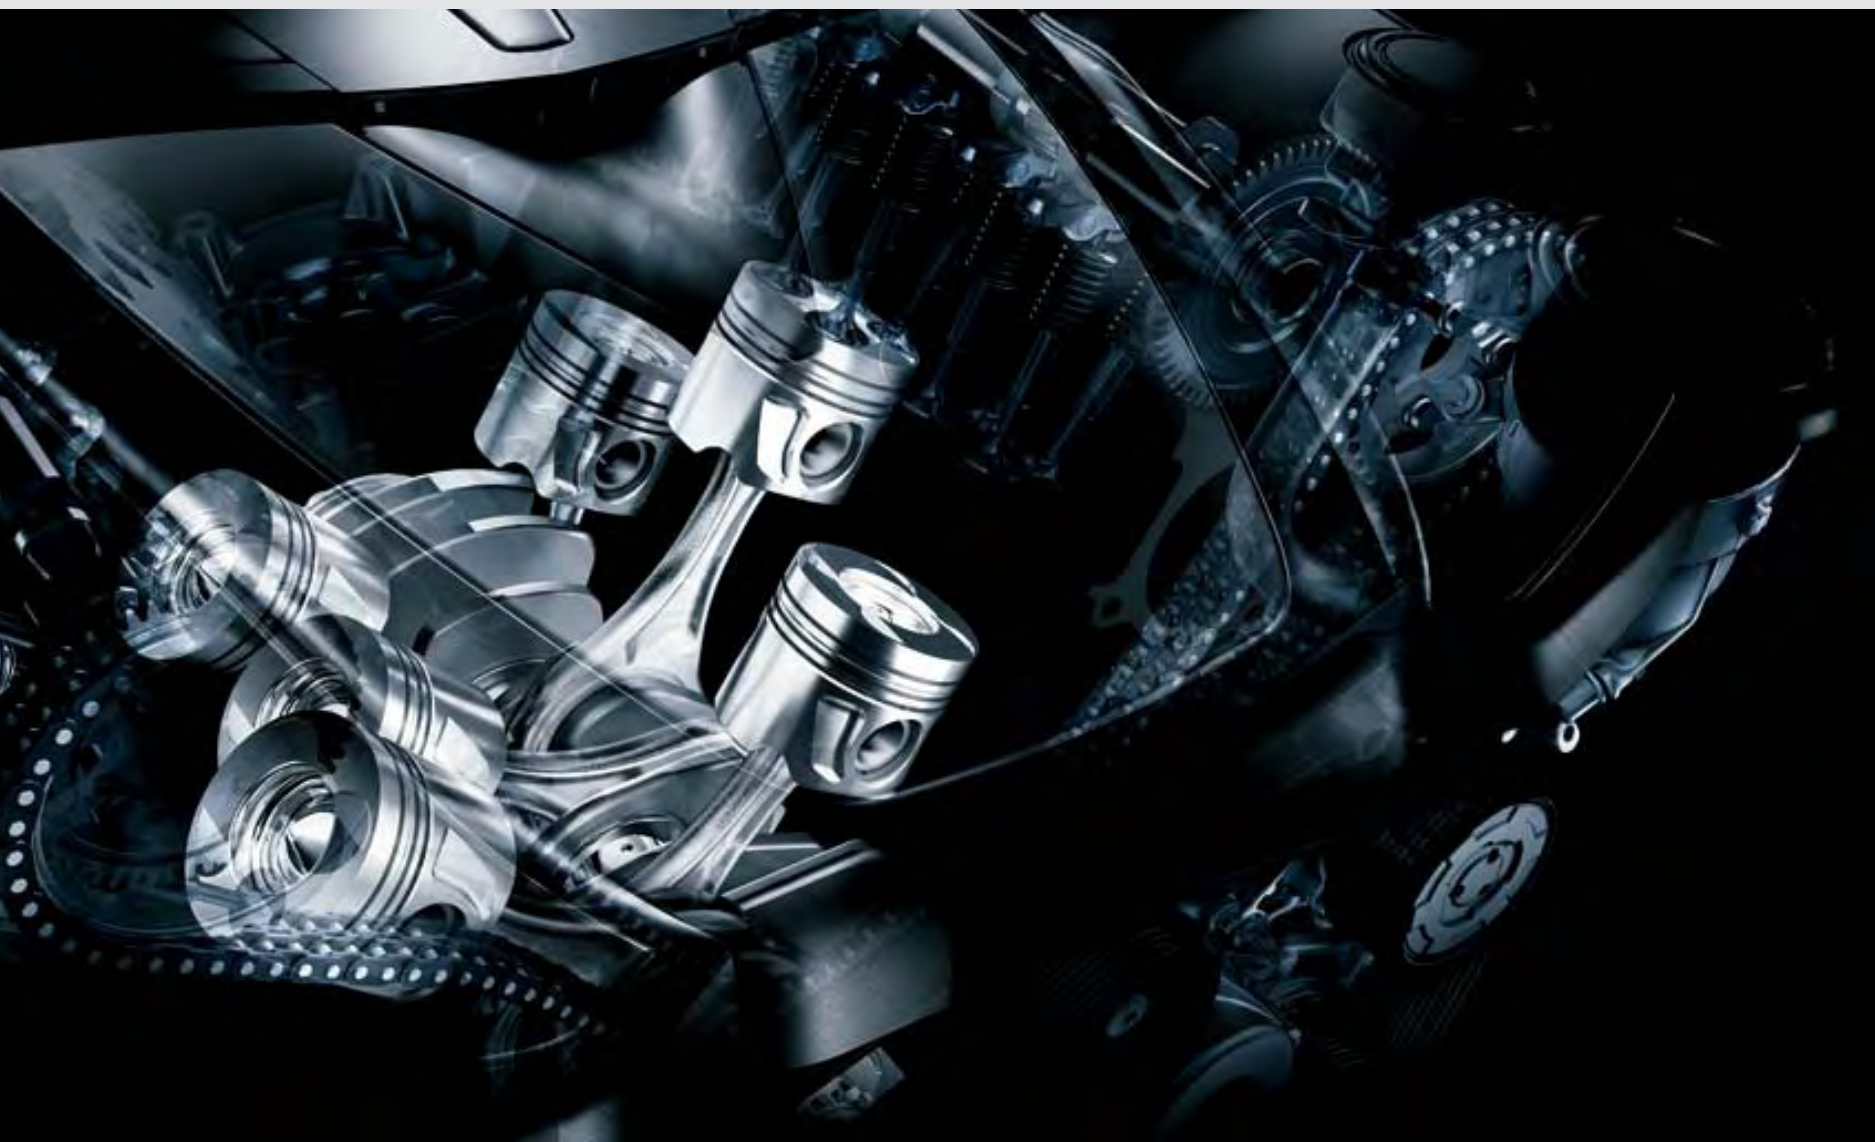

## The power to move you.

The engines available for the M-Class provide the power and responsiveness you need to have an outstanding driving experience.

The V-6 engine in the ML350 provides high power and torque levels in combination with improved fuel economy and low emissions. It has 268 hp and maximum torque of 258 lb-ft.

If V-8 power and smoothness are what you want, look no further than the ML500. Despite its high power output, this engine consumes less fuel than you'd expect. And while it's hard to do justice to the pure power of the ML500 in words, it is easy to put a figure on it. It has 302 hp and maximum torque of 339 lb-ft. This allows it to accelerate from 0 to 100 km/h in 6.9 seconds<sup>1</sup>.

<sup>1</sup>Stated rates of acceleration are based upon the manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load.

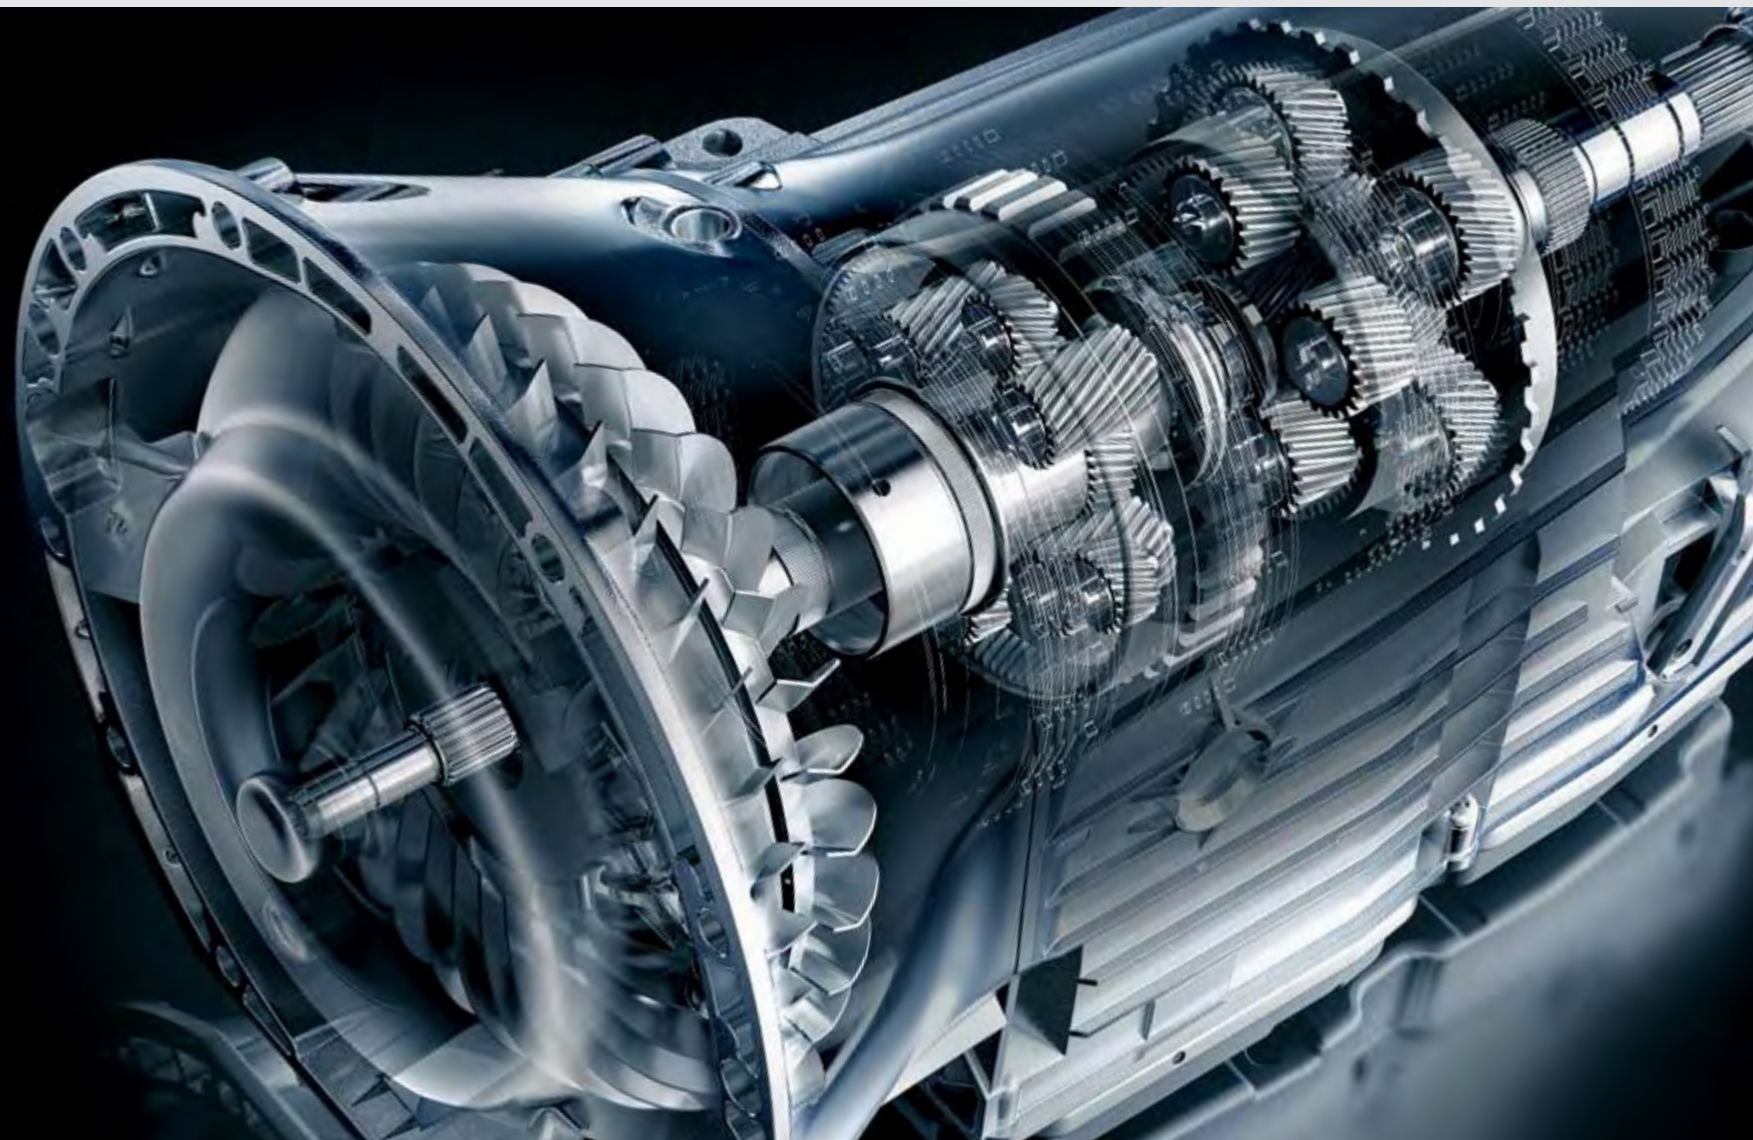

## Revel in the great outdoors with the M-Class' quiet CDI engine.

Six cylinders serve up the power in the CDI diesel engine available for the new M-Class model. Despite its hushed running characteristics, this unit delivers exemplary performance while still being frugal with the fuel. Plus, it comes standard with a diesel particulate filter.

The sheer motoring pleasure offered by the ML320 CDI stems from third-generation common-rail direct injection technology. With a maximum power output of 221 hp, 398 lb-ft of peak torque, a top speed of 215 km/h and a 0 to 100 km/h acceleration time of 8.6 seconds<sup>1</sup>, this model has all the right credentials for driving miles upon miles, without eating up excessive amounts of fuel.

<sup>1</sup>Stated rates of acceleration are based upon the manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load.

## Taking ride comfort to a whole new level.

The 7G-TRONIC 7-speed automatic transmission

The M-Class is fitted as standard with the world's first 7-speed automatic transmission: 7G-TRONIC. Gears are selected directly, ensuring uninterrupted torque delivery, virtually imperceptible shifts and enhanced ride comfort. Should you need to brake sharply or accelerate quickly, 7G-TRONIC simply skips the necessary number of gears.

7G-TRONIC 7-speed automatic transmission also allows you to downshift manually using the standard DIRECT SELECT shift buttons on the steering wheel if you'd like even more control over gear selection.

## Ride like you are on air.

### AIRMATIC DC Air Suspension Package

The 2007 M-Class takes driving enjoyment to new levels – literally – with the optional AIRMATIC DC Air Suspension Package<sup>1</sup>. When travelling at speed, the ride height of the M-Class is automatically lowered. This minimizes drag, reduces fuel consumption, and improves handling. When you travel with a heavy payload, the air suspension keeps the ride height of the vehicle constant at all times.

Further to these features, AIRMATIC DC also includes the Adaptive Damping System (ADS) with its three manually selectable damper settings: “Auto,” “Sport” and “Comfort.”

<sup>1</sup>Standard on the ML63 AMG.

*ML500.*

*ML63 AMG.*

## Take your M-Class up a notch.

The all-new, AMG-built, 6.3-litre, naturally aspirated V-8 engine generates 503 hp and a maximum 465 lb-ft of torque, assuring that the ML63 AMG performs beyond your expectations. It lets you accelerate from 0 to 100 km/h in a breathtaking 5.0 seconds<sup>1</sup> – up to an electronically governed top speed of 250 km/h. The AMG 7G-TRONIC 7-speed automatic transmission delivers remarkably short shifts, and thanks to the AMG high-performance braking system, deceleration is equally impressive.

The AMG sport suspension, based on the AIRMATIC DC air suspension system, delivers the output of the ML63 AMG safely to the road. AMG spring struts and shock absorbers minimise roll and ensure optimum steering characteristics.

The styling of the ML63 AMG brings the M-Class to its sportiest. It features a front apron with a brushed stainless steel inlay, circular fog lamps ringed in chrome, additional air intakes, and a rear apron with chromed scratch protection. Of course, with a look this sporty, it's important to have the right wheels. The AMG 20" 5-spoke aluminium-alloy wheels harmonise perfectly with the AMG's style.

Inside the ML63 AMG you'll find the perfect conditions for top performance. AMG sport seats with Alcantara panels in the shoulder area offer optimum support and are exceedingly comfortable. The AMG ergonomic sport steering wheel with shift buttons and AMG instrument cluster with a RACETIMER add a racing feel. The Nappa leather upholstery, aluminium trim and brushed stainless steel sport pedals create a suitably aggressive atmosphere.

<sup>1</sup> Stated rates of acceleration are based upon the manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load.

# Mercedes-Benz Customer Care

## 24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.<sup>1</sup>

## Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear," such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

## Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

## Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.<sup>2</sup>

## Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternate travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.
