

THE 2007 SLK-CLASS

Mercedes-Benz

A curve is defined as a line that gradually deviates from the straight. It can also be defined as a moment of sheer pleasure.

Emotions, like pleasure, originate in the brain and not in the heart. Our combined senses create an overall “picture” that is relayed by the midbrain to other brain regions where emotions are produced. These emotions are then felt all over.

With the SLK-Class, the same thing happens. First, visual receptors clock the sporty, compact and muscular styling. The engine then treats your auditory receptors to a sweet sound. Open the automatic vario-roof for that unfiltered roadster feel. The optional 7G-TRONIC automatic transmission¹ ensures wonderfully quiet and ultra-smooth gear changes. On corners, the agile steering and sport suspension complete your driving pleasure. In fact, every part of the SLK works together to provide you with pure emotion in motion.

¹Standard on the SLK55 AMG.

SLK280 shown with optional Bi-Xenon Headlamps Package.

SLK280.

This Silver Arrow is pure gold.

The media dubbed the SLK-Class as the “small Silver Arrow” even before it ventured outside the pages of top motoring magazines. Now that the SLK-Class has left off the pages and hit the road, you can experience the air-piercing, arrow-shaped body for yourself. Enjoy bold, spirited styling with an air of sleek confidence. A distinctive radiator grille nose hints at the power that lies beneath the hood. The highly characteristic tail, with dual tailpipes will put a look of awe on the faces of all those you leave in the dust. Its sporty suspension is more agile than ever. The SLK-Class is the ultimate combination of classic sporty personality and effortless poise and assurance.

Master the sport of luxury.

Lose yourself in a world where sport meets luxurious detail. The seats with their contours and magnesium frames are not only stunningly attractive but also offer plenty of lateral support during dynamic cornering. Enjoy the heated seats¹ and backrests with handy clothes hooks. Choose fine-quality Nappa leather upholstery in tobacco brown² or leather upholstery in one of the four other colours.

There's extra luxury with the Interior Lighting Package. It includes centre-console and sun-visor lighting, foot-well and exit lighting, plus a reading light fitted in the interior mirror.

THERMATIC automatic climate control comes standard in the SLK280 while the THERMOTRONIC luxury automatic climate control, which gives individual temperature control to both driver and passenger, is standard on the SLK350 and SLK55 AMG.

When the season cools off, enjoy pleasantly warm air on the back of your neck with AIRSCARF neck-level heating³. Select different temperature settings while the blower adjusts automatically to the vehicle's speed.

¹Optional on the SLK280. ²Optional on the SLK350 only. ³Standard on the SLK55 AMG, optional on the SLK280 and SLK350 as part of the Premium Package.

SLK280 shown with optional Premium Package.

SLK350 shown with optional Vavona wood trim.

Knowledge is power.

Find everything you need to know with one glance of the sporty and concise instrument cluster. Its black-faced dials surrounded by silver painted trim rings is yet another example of our meticulous attention to seemingly small details. The same can be said for the silver-painted magnesium trim on the door handles and the armrest.

Enjoy an array of benefits right at your fingertips, with the multifunction steering wheel. Just press one of the buttons to operate the standard-fitted multi-function computer or the audio system. The optional Power Seating Package, including the memory system, stores the settings for the power-adjustable seats, steering wheel and mirrors.

The optional harman/kardon® LOGIC7® Surround Sound System Package¹ features the COMAND APS control and display system and puts all the information you need at your fingertips. This package also includes a CD changer and the 380-watt harman/kardon® LOGIC7® surround sound system with 11 loudspeakers (including a subwoofer). The SLK55 AMG's optional Technology Package includes all of the above, as well as the COMAND APS navigation module which guides you to your destination quickly and reliably.

¹Available on the SLK280 and SLK350.

The ultra-civilized roof changes faster than the weather itself.

The SLK is the only model in its class capable of converting from a hardtop coupe to an open-top roadster. Press a button and in just 22-seconds, find yourself at one with the elements. The electro-hydraulic vario-roof moves backwards in a single elegant motion and disappears into the rear of the car, out of sight. Thanks to the intelligently designed folding mechanism, the SLK is able to offer significantly greater trunk space than its predecessor when the roof is lowered. When the roof is raised, the tinted glass has a pleasant cooling effect, while at colder temperatures the heated rear windshield gives you a clear view to the rear.

SLK350 shown with dealer accessory wheels.

SLK280 shown with optional Bi-Xenon Headlamps Package.

We've made room for more safety.

ESP® AND BAS

If your vehicle is in danger of skidding, the Electronic Stability Program (ESP®) helps stabilize the situation by braking one or more wheels as required, and adjusting the engine output accordingly. Also on board is the Brake Assist System (BAS), which recognizes emergency braking by the speed with which you lift off the accelerator and press the brake pedal and immediately applies the maximum braking force.

HEADLAMPS

The SLK280 is equipped with standard clear-lens halogen headlamps that provide optimum illumination without affecting other drivers. The SLK350 and SLK55 AMG are equipped with Bi-Xenon headlamps that feature dynamic range adjustment, headlamp washers and the cornering light function for added illumination!

THE PASSENGER SAFETY CELL

True strength comes from within. The highest levels of safety are found in features such as crumple zones, outstanding torsional stiffness, and the rollover bars, which are anchored in the body.

¹Optional on the SLK280.

Relentless care for your safety.

Technology may one day make it possible to see into the future so that vehicles can avoid dangerous situations altogether. Until such a day, we are committed to protecting you from unforeseen driving hazards with our comprehensive range of intelligent safety concepts.

In the event of a head-on collision, the restraining effect of the seat belt tensioners works in tandem with the adaptive driver and passenger air bags. These have a two-stage deployment system, which is triggered according to the severity of the impact. Two additional, highly sensitive crash sensors at the front of the vehicle detect the severity of the accident with an even greater degree of precision.

Furthermore, the SLK-Class is equipped with head/thorax air bags. Fitted in the outside edge of the seat backrests, these enlarged air bags offer additional head protection by inflating to prevent any contact between occupants and the door/window in the event of a side collision. More hazards are detected by the rollover sensor, which triggers both belt tensioners and the head/thorax air bags in certain sideways rollover situations.

SLK280 shown with optional Bi-Xenon Headlamps Package and dealer accessory wheels.

SLK280.

When the road throws you a curve, hit it out of the park.

Enjoy the sport of driving with the help of an impressively designed 6-speed manual transmission, which comes standard in the SLK280 and SLK350.

The SLK55 AMG's 7G-TRONIC is the world's first 7-speed automatic transmission. The use of seven speeds results in smaller intervals between ratios, and due to the multiple downshift principle, the transmission skips some gears under kick-down for faster acceleration. The use of seven speeds also reduces average engine speeds, and in turn, lowers fuel consumption. The newly developed 7G-TRONIC Sport, available as part of the AMG Package on the SLK350, provides an extra-sporty feel with steering wheel shift paddles, and faster, easier gear changes.

¹Standard on the SLK55 AMG.

At the heart of it all: impassioned vitality.

The SLK-Class' engines provide not only a perfectly tuned acoustic treat. Their lively performance is also very impressive – to say the least. For example, the V-6 engine on the SLK280 accelerates from 0 to 100 km/h in just 6.3 seconds!¹ Total displacement is 2,996-cc with net power of 228 hp. The V-6 on the SLK350 is even sportier. Not only does it have even greater pulling power, it also sounds more powerful. It has 40 hp more output, 37 lb-ft more torque, and more total displacement by over 500-cc. This adds up to a sprint from 0 to 100 km/h in just 5.6 seconds!¹ That's nothing short of exceptional performance.

¹Stated rates of acceleration are based upon the manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load.

SLK350 shown with optional AMG Sport Package. SLK280 shown right.

Challenge the laws of dynamics.

When you step into the SLK-Class, you take a serious step up, in terms of dynamic poise and assuring performance. Enjoy the confidence that comes with astonishingly responsive sport suspension, an extra large braking system, and performance tires. Even the little extras have a huge effect, such as the automated rain-sensing windshield wipers and intrinsically clever auto-dimming mirrors. From top to bottom, the SLK-Class caters to those with the pre-eminent driving experience in mind.

Time flies. Better catch up with it.

Sometimes, we all wish time would stand still. But a 0 to 100 km/h time of 4.9 seconds¹ dispels such thoughts pretty quickly. With its AMG built 5.5-litre V-8 engine, the SLK55 AMG Roadster is unique in its class, delivering a sonorous 355 hp of power and peak torque of 376 lb-ft. The power flow to the wheels is managed by the 7G-TRONIC Sport automatic transmission with steering wheel shift paddles.

There's a lot that accompanies the power and muscle of the SLK55 AMG. Along with the corner-hugging AMG sport suspension, there's the AMG body styling and the 18" AMG multi-spoke light-alloy wheels, carrying 225/40 R 18 tires at the front and 245/35 R 18 tires at the rear.

The interior, meanwhile, welcomes you with the finest-quality AMG Nappa leather upholstery, AMG sport seats, an ergonomic AMG sport steering wheel with shift paddles in silver-coloured aluminium, and the AMG instrument cluster with RACETIMER. Exterior highlights include the AMG sport exhaust system with two twin chromed tailpipes and the AMG high-performance brake system with composite discs and 6-piston fixed calipers.

The SLK350 is available with an optional AMG Sport Package including AMG body styling and 17" AMG 5-spoke light-alloy wheels.

¹Stated rates of acceleration are based upon the manufacturer's track results and may vary depending upon model, environmental and road surface conditions, driving style, elevation and vehicle load.

SLK55 AMG.

SLK350 shown with designo interior.

Nobody can get inside your head. But they can get inside your car.

Custom-design your SLK like no one else, with the help of our *designo* range, which is comprised of 11 exclusive metallic paint finishes, fine woods and high-quality leather upholstery – or combined leather and Alcantara with striking double stitching. Matching leather trim elements and leather trimmed rollover bars are also available. The rollover bars are available in conjunction with all the standard leather upholstery colours.

You can also specify *designo* wood trim elements, in *designo* Anthracite Tamo or *designo* Natural Poplar. Or, choose an Alcantara roof lining. Depending on which other *designo* trim or upholstery elements you select, we can also supply the steering wheel and selector lever in two-tone *designo* leather or in a *designo* wood/leather version.

Crowning glories.

Drive through your kingdom in high-class customized style, with genuine Mercedes-Benz accessories. All Mercedes-Benz accessories are a cut above, having been designed and manufactured to the highest standards for design, engineering, quality, form and function. Added nuance and unique refinement are just the things to make your SLK-Class a distinctively rich driving experience.

Rear spoiler

An outstanding example of form meeting function. Turn heads with your rear spoiler's body-complimenting design, as you simultaneously (and seamlessly) cut through resisting air.

17" "Sadachiba" 5-spoke multi-piece light-alloy wheels

Enjoy added design and extra shine from the high-shine surface of these attractive light-alloy wheels. Roll along on four wheels of pure strength and style.

Windscreen

Enjoy a wild yet controlled ride with your choice of three-part transparent or fabric draught stop. Placed directly behind headrests and roll bars, it ingeniously improves aero-acoustics while preventing drafts – for both open roof and closed soft-top.

iPod® Integration Kit

You've spent time carefully filling your iPod® with the great music you love. Now you can enjoy every minute of every song as you cruise to the tunes, courtesy of the iPod® Integration Kit.

Mercedes-Benz Customer Care

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear," such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system – or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Mercedes-Benz warranties

The Mercedes-Benz New Car Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Trip interruption reimbursement

If a breakdown covered by your New Car Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternate travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.
