

TL

Exhilaration is articulated  
in many ways

The 2008 Acura TL. An invigorating fusion of exceptional horsepower and confident race-inspired agility, the TL is a veritable mobile showcase of technology stemming from Acura's Advanced Ideology. From its revolutionary DVD-audio system to a variety of intelligently integrated and intuitive driver amenities, the TL is pure exhilaration. Advanced by Acura. Driven by you.

## They grow up so fast

### DRIVE-BY-WIRE THROTTLE SYSTEM™

For smooth, lightning-quick response to your acceleration demands, the TL's throttle is controlled by the advanced electronic control unit (ECU) system. Processing data from various sensors in the engine and around the chassis, the ECU opens the throttle according to your driving behaviour. At low or steady speeds, the throttle is gradual, to ensure smooth engine response. And when you want instant acceleration, horsepower is more immediate, resulting in an incredibly controlled, stable, high-performance drive.

### DUAL EXHAUST AND 17-INCH WHEELS

Integrated dual-outlet exhaust finishers hint at the self-assured attitude of the TL's high-performance engine. Plus, 17-inch aluminum-alloy wheels featuring large-diameter tires and 8-inch tread width strengthen the TL's aggressive style and sporty appearance while enhancing your feel for the road.

**Drive-by-Wire Throttle System** >> originally developed for competitive racing, this incredibly precise throttle system utilizes advanced electronics to help deliver maximum engine response and efficiency.

Throw the road a curve

#### 5-SPEED AUTOMATIC TRANSMISSION WITH SEQUENTIAL SPORTSHIFT®

The TL's advanced transmission gives you the power to choose between fully automatic or manual shift modes. In automatic mode, a shift-hold control program detects spirited driving and will hold the gear longer for enhanced engine response. Plus, the advanced Grade Logic Control System limits gear hunting, whether you're going up or down hills, for a noticeably smoother drive.

#### SUSPENSION

Taking a page from track-tested sport suspension geometry, the TL's 4-wheel independent front double-wishbone, rear multi-link suspension system uses a short upper arm for maximum grip as the system compresses in a turn. A high-placed lower arm helps create superb vehicle control with a stiffer steering feel. The rear suspension features a precision pillow joint for enhanced handling and stability. Further handling prowess comes from the oversized front and rear stabilizer bars for quick, flat cornering and a boost of exhilaration.

#### RIGID FRAME DESIGN

The TL's rigid, high-tensile steel unibody framework was designed to create higher front and rear torsional rigidity to, in turn, provide you with exceptionally smooth, confident handling. Plus, large struts in the front bulkhead and an oversized box-section cross-member enhance the TL's athletic agility and superior handling, at any speed, on any road.

#### HIGH-INTENSITY DISCHARGE (HID) HEADLIGHTS

Shed light on potential hazards with high-powered HID headlights. Producing an intensely brilliant beam of focused light, HID headlights enhance your ability to identify what's ahead, and what to avoid.

Harness 258 highly intelligent horses

#### 3.2-LITRE, 24-VALVE, SOHC, VTEC® V-6 ENGINE

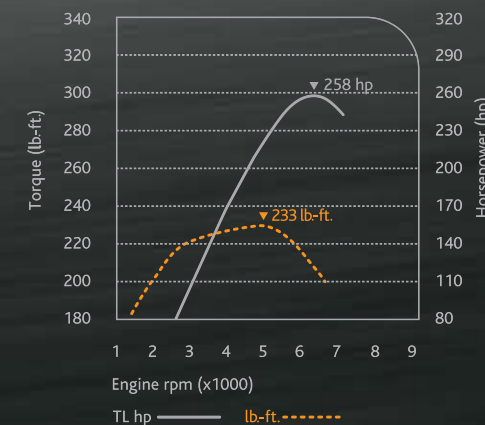

Acura engines offer an innovative combination of raw power and intelligent engineering performance. Take the TL's power plant and its lengthy list of advanced features. Consider its 4-valve-per-cylinder design for optimal intake and exhaust flow, the latter of which is further enhanced by a high-flow exhaust system. There's also the Multi-Point Programmed Fuel Injection (PGM-FI®) system that calculates the precise air/fuel mixture, and a direct ignition system that initiates a super-hot spark at just the right time. Plus, the engine's block and heads are forged in aluminum for lightweight efficiency, better heat dissipation and improved durability.

#### VARIABLE VALVE TIMING AND LIFT ELECTRONIC CONTROL (VTEC)

Prior to race-inspired VTEC engineering, engine tuning was a compromise between balancing low-end torque and high-end power. Not anymore. The VTEC engine utilizes two entirely different camshaft profiles to offer you amazingly responsive power across the complete rpm range. Off the line, the engine provides lower valve lift and shorter cam profile opening, resulting in higher fuel velocities and greater low-end torque. As your demand for engine speed increases, VTEC switches to a cam profile with higher valve lift and longer opening duration, resulting in greater airflow and a bigger boost of high-end horsepower.

#### HORSEPOWER AND TORQUE

The thrill of high-speed performance is a sure thing when you have the exhilaration of 258 horsepower at your command. But it's the equally ample 233 lb.-ft. of torque that really propels you forward. Plus, with more peak torque available all the way to the 6800 rpm redline, you can count on virtually instant and endless acceleration. What's more, the TL is a low-emission vehicle with a Tier 2 Bin 5 rating, which gives it a clear conscience when it comes to the environment.

**Advanced Fuel Injection Technology >>** developed for competitive racing, the TL's Multi-Point Programmed Fuel Injection (PGM-FI) system calculates the precise air/fuel mixture to increase engine efficiency and power output.

Introducing the Acura TL Type-S. Featuring a 286-horsepower, 3.5-litre VTEC V-6 engine, sport-tuned suspension and the excitement of a close-ratio 6-speed manual transmission – the Type-S is pure exhilaration with a scintillating twist.

**TYPE-S EXTERIOR**

The sleek, chiseled exterior is detailed with an aerodynamic rear decklid spoiler, dark chrome taillight extensions, front and rear side sill bumper mesh, Type-S badging and exclusive 17-inch aluminum-alloy wheels.

**TYPE-S INTERIOR**

All interior instruments and controls are intuitively located and highlighted by distinctive red ambient lighting. What's more, drilled metal pedals and a leather-wrapped sport shift knob add an extra touch of excitement to any drive.

Acura TL Type-S model shown.

**ACTIVE NOISE CANCELLATION (ANC)**

An already quiet ride is made even quieter with the advanced technology of the Active Noise Cancellation (ANC) system. This highly innovative system reduces engine noise by countering the sound frequencies and cancelling the disturbance with an equivalent waveform emitted from the vehicle's audio system. Further cabin silencing comes from noise-insulation components and materials found in the dash, floor, roof and engine areas.

**PADDLE SHIFTERS**

Seize the invigorating thrill of Formula One™ manual upshift and downshift performance and control at your fingertips. Mounted just behind the leather-wrapped steering wheel, you'll find available paddle shifting transmission controls designed to add an instant boost of race-inspired excitement to an already exhilarating quick-shifting, 5-speed automatic.

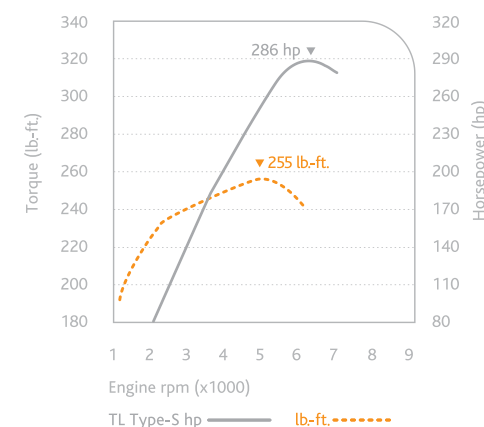

**SPORT SUSPENSION**

The TL Type-S stabilizer bars have been sport-tuned for superior control and maximum high-performance road handling. Tighter spring coils and suspension dampers, together with larger front and rear stabilizer bars, create a stiff, firm driving experience at any rate of speed.

**BREMBO® BRAKE CALIPERS**

The TL Type-S features a set of lightweight high-performance front Brembo brakes with 4-piston front brake calipers. Front disc brakes are ventilated, offering exceptional fade resistance and enhanced stopping confidence, thanks to an aggressive friction buildup and feather-touch braking response.

**CLOSE-RATIO 6-SPEED MANUAL TRANSMISSION**

For high-performance driving purists who prefer the feeling of power and control found in smooth, quick gear shifting, the TL Type-S features a close-ratio 6-speed manual transmission. Perfectly spaced gear ratios offer a race-inspired link to a world defined by 286 horsepower and 255 lb.-ft. of peak torque.

**HELICAL LIMITED SLIP DIFFERENTIAL**

Operating in synergy with the close-ratio 6-speed manual transmission of the Type-S model, a helical-type limited slip differential helps control inner drive-wheel slip in corners by optimizing the torque between one wheel and the other, allowing you to tackle any bend in the road with confidence, maximum traction and control.

## Necessity takes many forms

In the TL every day starts on a phenomenal note with the world's first, multi-format DVD surround sound system and acoustically designed interior. Plus, available voice-activated technology and integrated satellite-linked navigation set the tone for a truly advanced experience behind the wheel.

**Multi-Channel Surround Sound System >>**  
 the first of its kind in a production automobile, the TL audio system was developed in part with Grammy® award-winning producer and sound engineer Elliot Scheiner.

**ACURA / ELS™ PREMIUM 8-SPEAKER SURROUND SOUND SYSTEM**

To further enhance your driving experience, steering wheel-mounted audio controls, with available voice-activated control, give you full access to a phenomenal multi-channel surround sound system. The 8-speaker, 6-channel system delivers astonishing levels of rich audio detail throughout the TL cabin's soundscape. Plus, the in-dash 6-disc CD changer with DVD-Audio, Dolby Pro-Logic II® and DTS® with MP3 and WMA® capabilities, allows you to listen to your music in the format of your choice.

**AVAILABLE VOICE-ACTIVATED SATELLITE-LINKED NAVIGATION\***

The Acura TL can pinpoint your location almost anywhere in North America or access its search directory for easy-to-follow driving directions to those hard-to-find places. Recognizing up to 600 verbal commands, the system is equipped with bilingual voice recognition software and features real-time directions by voice or guiding map display. Simply ask the system to show you the most direct route to your destination, offer an alternative route or, with the Zagat Survey® ratings, help you find a restaurant.

**HANDSFREELINK™ AND BLUETOOTH®-ENABLED TECHNOLOGY**

Stay connected without taking your hands off the wheel or your eyes off the road. Program and link your Bluetooth-enabled wireless device to the HandsFreeLink mobile phone interface to make, receive and transfer calls from your phone without interruption or having to remove your hands from the steering wheel. Just say the word and – providing your programmed mobile phone is located inside the cabin – calling numbers will be displayed, your phone will respond to voice activation and you will hear the caller's voice over the TL audio system. What's more, the system operates in English or French and is capable of seamlessly integrating up to six different compatible phones, turning your TL into a veritable hub of connectivity.

Fly on instruments

**XM® RADIO\*\***

The TL audio system features an integrated XM Satellite Radio that allows you to experience some of the best music the world has to offer, all from the comfort of the TL cabin.

**DIGITAL MEDIA AUXILIARY INPUT JACK**

Bring your MP3 player along for the ride. Thanks to a digital media auxiliary input jack, you can plug into the TL audio system and play your personal favourites all day long.

\* Available on Acura TL Navigation Package and Type-S. \*\*Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at [www.xmradio.ca](http://www.xmradio.ca).

#### POWER-ADJUSTABLE HEATED FRONT SEATS

Even the longest drives seem shorter when you're sitting comfortably in one of the two tightly bolstered, perforated leather-trimmed heated front seats. Plus, with an 8-way power adjustable driver's seat with power-adjustable lumbar support and 2-position programmable memory, the ideal driving position is yours at the touch of a button. What's more, front passengers will enjoy a 4-way power adjustable seat of their own.

#### DUAL-ZONE CLIMATE CONTROL SYSTEM

The TL's advanced dual-zone, dual-mode climate control system lets you maintain an automatic temperature level in two different zones inside the cabin. The dual-mode part of the climate equation enables you to set two different vent levels for these two zones. For the ultimate temperature control, the Acura TL Navigation Package features dual-zone and dual-mode voice-activated climate control of the cabin and zone temperature.

The Acura Safety Through Innovation approach is based on the idea that an enhanced driving experience starts with the most advanced safety features. The proof is in the comprehensive standard driver and passenger safety measures and exceptional technologies applied to all Acura vehicles.

#### MAINTENANCE MINDER SYSTEM

Instead of following a traditional kilometre and calendar maintenance schedule, the TL instinctively calculates service needs based on your driving habits. This advanced system takes into account engine revolutions, stop-and-go traffic experience, weather extremes and the frequency of short trips to determine when your next service visit should be. The system also helps coordinate oil servicing dates and other maintenance items to minimize your visits to the service department.

#### SIDE CURTAIN AIRBAGS

#### FRONT AND FRONT SIDE AIRBAGS

#### UNIBODY SAFETY CELL

#### ENERGY-ABSORBING FRONT AND REAR CRUMPLE ZONES

#### AIRBAGS

Maximum safety is achieved with six airbags designed to protect all occupants inside the cabin. Depending on the point and force of impact, the TL will deploy dual-stage, dual-threshold front airbags that activate at one of two rates depending on the severity of the impact, front side airbags with the innovative passenger-side Occupant Position Detection System (OPDS) that will not release if the system detects a small-sized or improperly positioned passenger, and side curtain airbags with state-of-the-art rollover sensors.

#### ABS

The Anti-lock Braking System (ABS) helps maintain steering control for braking quickly on wet, slippery or loose surfaces, while Electronic Brake Distribution (EBD) balances braking forces at each wheel to help compensate for passenger weight distribution inside the cabin. Plus, when the Brake Assist feature senses a panic stop, it applies maximum braking power to help you stop quickly.

#### PEDESTRIAN SAFETY

Acura's Safety Through Innovation goes one step beyond, with a revolutionary approach to pedestrian safety. The TL's exterior design incorporates energy-absorbing hood and front fenders and breakaway wiper pivots to mitigate pedestrian injury.

#### REARVIEW CAMERA

Available with the TL Navigation Package and Type-S, the rearview camera shows a colour image on the navigation system screen of the area directly behind the vehicle to ensure a safer line of sight when reversing. For added safety, the camera is activated automatically when you engage reverse, even if the navigation system is turned off.

#### RIGID SAFETY CELL

Energy-absorbing front and rear crumple zones help absorb impact energy and direct collision force around, and away from, the passenger cabin. The rigid safety cell uses high-tensile steel in stressed areas. And energy-absorbing steel side-impact door beams provide an additional measure of occupant protection.

#### STABILITY AND TRACTION

The advanced Vehicle Stability Assist (VSA®) system with Traction Control will automatically detect and correct understeer or oversteer situations, sometimes before you're even aware there's a need. The system intuitively analyzes the conditions and then reduces throttle and/or applies braking to individual wheels. Should a loss of traction occur during acceleration on slippery surfaces, Traction Control will compensate to get you safely on your way.

# SPECIFICATIONS

## ENGINE

Engine	3.2-litre, 24-valve, SOHC, VTEC® V-6
Horsepower	258 hp @ 6200 rpm
Torque	233 lb.-ft. @ 5000 rpm
Displacement	3210 cc
Redline	6800 rpm
Bore and stroke	89 x 86 mm
Compression ratio	11.0:1
Multi-Point Programmed Fuel Injection system	
Electronic direct ignition system	
Recommended fuel	Premium
<small>Horsepower &amp; Torque (SAE net, Rev 8/04, SAE J1349)</small>	

## DRIVETRAIN

5-speed automatic transmission with Sequential SportShift® mode, Grade Logic Control and lockup torque converter
Drive-by-Wire Throttle System™
Front-wheel drive

## CHASSIS

17" x 8" aluminum-alloy wheels
4-wheel independent double-wishbone front suspension with multi-link rear suspension
All-season tires: P235/45 R17
Hydraulic gas-pressurized shock absorbers
Solid rear disc brakes
Stabilizer bars – front/rear: 27.2/18.3 mm
Torque-sensing, variable power-assist rack-and-pinion steering
Ventilated front disc brakes

## SAFETY

3-point height-adjustable seat belts with load limiters and Automatic Tensioning System (front)
3-point seat belts (rear)
4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) and Brake Assist
Childproof rear door locks
Dual-stage, dual-threshold front airbags (SRS)
Energy-absorbing crumple zones – front and rear
Front seat belts with pretensioners
Front side airbags with passenger-side Occupant Position Detection System (OPDS)
Immobilizer Theft-Deterrent System
Lower Anchors and Tethers for Children (LATCH) child-seat mounting system
Pedestrian Impact Protection
Phosphorescent emergency trunk opener
Side curtain airbags with rollover sensors
Side-impact door beams
Tire Pressure Monitoring System (TPMS) with location indicators
Vehicle Stability Assist (VSA®) with Traction Control

## EXTERIOR

Auto-on/off headlights
Fog lights
Front splash guards
Heated side mirrors with driver recognition, reverse gear tilt-down and integrated turn indicators
Heat-rejecting green-tinted glass
High Intensity Discharge (HID) headlights
Integrated dual-outlet exhaust with finishers
Power moonroof with tilt feature, auto-open/close, auto-reverse, key-off operation and sliding shade

## CAPACITIES

Cargo volume	354 litres
Fuel tank capacity	64.7 litres

## FUEL ECONOMY

City	11.6 litres/100 km†
Highway	7.5 litres/100 km†

† Use kilometrage for comparison purposes only. Your kilometrage may vary.

## NAVIGATION PACKAGE

Acura Navigation System with bilingual Voice Recognition, rearview camera and illuminated steering wheel-mounted controls

17" x 8" exclusive aluminum-alloy wheels
3.5-litre, 24-valve, SOHC, VTEC® V-6 engine
Active Noise Cancellation (ANC)
Acura Navigation System with bilingual Voice Recognition, rearview camera and illuminated steering wheel-mounted controls
Red ambient cabin lighting
Red ambient footwell lighting
Bore and stroke: 89 x 93 mm
Brembo® 4-piston front brake calipers
Close-ratio 6-speed manual transmission
Curb weight (manual transmission): 1613 kg
Exhaust finishers – quads
Horsepower: 286 hp @ 6200 rpm
Torque: 255 lb.-ft. @ 5000 rpm
Limited slip differential (manual transmission only)
Fuel economy: manual transmission (City/Hwy): 11.6/7.3 litres/100 km†
Paddle shifters (automatic transmission only)
Rear decklid spoiler

Horsepower & Torque (SAE net, Rev 8/04, SAE J1349)

## COMFORT & CONVENIENCE

12-volt power outlets – front and centre console
Automatic day/night rearview mirror
Blue ambient cabin lighting
Blue ambient footwell lighting
Dual-zone, dual-mode automatic climate control with air-filtration system
Exterior temperature indicator
Front centre console with adjustable armrest, dual-level storage compartment
Front-door storage compartments with sunglasses holder
HandsFreeLink™ (with Phonebook Link) bilingual Bluetooth® wireless mobile phone interface
HomeLink® remote system
Illuminated driver's and front passenger's vanity mirrors
Illuminated steering wheel-mounted audio, phone and cruise controls
Keyless memory settings
Maintenance Minder system
Multi-Information Display (MID)
Overhead map lights – front and rear
Power windows with driver's and front passenger's auto-up/down, auto-reverse and key-off operation
Rear-seat centre armrest with locking trunk pass-through and dual beverage holders
Remote-linked 2-position memory system for driver's seat, side mirrors and climate control
Remote trunk and fuel-filler-door releases
Speed-sensing, variable intermittent windshield wipers
Tilt and telescoping steering column
Trip computer
User-programmable interior lighting

## ENTERTAINMENT

Acura/ELS™ Surround Premium Sound System with 6-disc CD changer, DVD-Audio, Dolby Pro-Logic II® and DTS®, AM/FM tuner, Dolby® cassette, MP3/WMA® compatibility and 8 speakers
Anti-theft feature
Disc title display
Integrated glass antenna
MP3/auxiliary input jack
XM® Satellite Radio*

## SEATING & TRIM

Adjustable head restraints – front and rear
Carpeted floor mats
Driver's seat with 8-way power adjustment, power adjustment lumbar support and 2-position memory
Heated front seats
Front passenger's seat with 4-way power adjustment
Perforated leather-trimmed seats and door-panel inserts

## EXTERIOR DIMENSIONS

Curb weight	1642 kg
Height	1441 mm
Length	4809 mm
Track – front/rear	1577/1576 mm
Weight distribution automatic transmission – front/rear	61.7/38.3 %
Wheelbase	2740 mm
Width	1916 mm

## INTERIOR DIMENSIONS

Headroom – front/rear	984/945 mm
Hip room – front/rear	1412/1367 mm
Interior volume	2772 litres
Legroom – front/rear	1088/887 mm
Seating capacity	5
Shoulder room – front/rear	1482/1414 mm

## ACCESSORIES

17" or 18" Alloy wheels
Acura i-LiNC™
A-Spec™ kit
All-weather floor mats
Engine block heater
Front, rear and side skirts
Full nose mask
Hood edge protector
Moonroof visor
Rear backup sensor
Rear splash guards
Rear lip spoiler
Rear wing spoiler
Sport-tuned suspension
Trunk edge & bumper protector

Ask for the TL accessories brochure for a full list.

Vehicle shown with accessory A-Spec kit.

\* Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at [www.xmradio.ca](http://www.xmradio.ca).

This year marks a new era for Acura Motorsports with its entry of three Acura-powered prototype sports cars in the 2007 American Le Mans Series. This highly competitive, endurance series offers the perfect proving ground for Acura's automotive technology from electronics and aerodynamics to fuel efficiency and engineering. Its track-tested performance, advanced.

Driving a luxury vehicle should go beyond engineering and amenities. That's why Acura is committed to ensuring your ownership experience is equally luxurious. New Acura owners benefit from four-year 24-hour Roadside Assistance, which includes Dispatch Emergency Roadside Service, Emergency Lockout Service and Traffic Accident Services.

See your Acura Retailer for details.

#### WARRANTY

Your new Acura vehicle comes with the following warranties: • Major Component – 5-year/100,000-km limited warranty • Vehicle – 4-year/80,000-km Distributor's limited warranty • Rust Perforation – 5-year unlimited-distance warranty • Surface Corrosion – 4-year/80,000-km • Accessories – 4-year/80,000-km limited warranty (when installed by an authorized Acura retailer at time of new vehicle delivery). Regular maintenance items and parts are subject to normal wear and replacement, and are not covered by warranty. Certain other items are excluded and certain conditions apply. See your Acura Retailer for details.

#### ACURA PLUS

Extend your worry-free ownership experience by purchasing additional coverage. Choose from Acura's flexible selection of Mechanical Coverage that extends up to 7 years or 160,000 km, whichever comes first. You can also extend your Roadside Assistance. See your Acura Retailer for details.

#### LEASING AND FINANCING

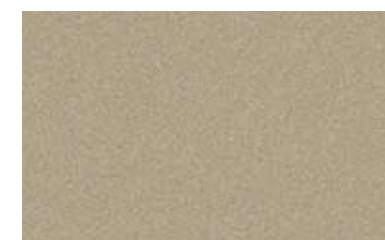

Owning your Acura is easy. See your Acura Retailer for complete details on: Acura Leadership Leasing\*, Acura Future Value Financing\* and Conventional Financing\*.

\*A genuine service of Honda Financial Services. Conditions, restrictions and pre-payment requirements might apply. O.A.C. Acura Future Value Financing does not apply in the province of Quebec.
