

# 2008 **MUSTANG**

**Built for life in Canada**

# *start salivating*

## *a steed for every need*

*Flex your muscle in a 210-hp Mustang V6, 300-hp Mustang GT or 500-hp Shelby GT500.\* Legendary performance matches legendary looks. Making Mustang the best-selling sports car in Canada, not to mention being crowned Canadian Car of the Year.\*\* No other car can match the depth and breadth of options that Mustang offers, from special packages like the new Warriors In Pink to custom Ford Performance parts. Meaning Mustang enthusiasts can modify their trusty steed – be it coupe or convertible – to their every desire. No doubt, Mustang is Canada's sports car.*

\*Available through SVT dealers exclusively. \*\*Automobile Journalists Association of Canada (AJAC), model year 2005.

Mustang V6 in Performance White with optional equipment.

# *guts and glory*

*"... go for the 4.6L V8 in standard 300-hp trim, which is one of the market's unqualified excitement-per-dollar leaders, and is more convincing than most engines while just idling in the driveway."*

*- Ward's 10 Best Engines 2007 (that makes the Mustang V8 a 10 Best winner 3 years running)*

## *mustang gt*

*The knockout Mustang GT arms you with the award-winning, aluminum-block 4.6L 3-valve SOHC V8 – serving up a full-on 300 hp and a street-scorching 320 lb.-ft. of torque. More to the point, 0-60 is achieved in a scant 4.9 seconds.\* A 5-speed manual is standard finger food; the 5-speed automatic transmission is optional. Signature V8 thunder is channeled through mandrel-bent 2.5" dual-exhaust pipes, which employ a crossover balance tube and stainless steel exhaust pipes.*

\*Road & Track, April 2005.

Mustang GT with available Chamois leather-trimmed seats and optional equipment.

# *the peel in appeal*

## *mustang v6*

*No matter the style of 'Stang, you'll never miss a performance beat. The 4.0L V6 cranks out a rousing 210 hp and 240 lb.-ft. of low-end torque. This powerplant is actually more than 50% cleaner than the previous generation\* and it's particularly fuel efficient in the process, recording an impressive 12.2L/100 km city and 7.7L/100 km hwy.\*\**

*\*The current Mustang V6 is certified to produce 56% less ozone-forming pollutants than the previous generation. \*\*Equipped with 5-speed manual; estimates based on Transport Canada-approved testing methods.*

Mustang V6 in Dark Candy Apple Red Metallic.

*Everything in this tantalizing interior exudes power, from the chrome-ringed, double-barrel performance gauges to the available T-handled automatic shifter or beefy manual knob. Even the flush-mounted audio and climate controls have strong character. And it's powerfully loaded: air conditioning, cruise control, dual-stage front airbags, front-seat side airbags, power locks, power windows, power sideview mirrors, 2 power points, a Tire Pressure Monitoring System, an MP3 audio input jack and the 500-watt Shaker 500 audio system – housing a 6-disc in-dash CD changer – are all standard. It's one truly inspiring cockpit.*

Mustang V6 with available Red leather-trimmed seats and optional equipment.

# sizzlin' suncatcher

## *mustang convertible*

*Mustangs are meant to run free. On winding mountain roads and countless straightaways. Down avenues and alleyways. Across highways and high-banked curves. Over all those roads and routes crisscrossing the Canadian landscape. And since every Mustang is the wild one in the bunch, you're bound to make it run a little quicker, a little harder, probably for a little longer – soaking up some extra sunshine and envious stares in Canada's most popular convertible.*

Mustang V6 in Vista Blue Metallic with optional equipment.

Mustang GT in Vista Blue Metallic with optional equipment.

*From day one, Mustang was engineered to convey sheer delight and true solidity with its top down. Every convertible incorporates an ultra-rigid chassis structure – joints and rocker panels are as firm as those on the coupe for a remarkably smooth, quiet ride. The Z-fold design of its all-weather ragtop is low profile, with 3-layer construction: It's waterproof on the outside, eye-pleasing on the inside and sound-deadening in between. The soft top is standard in a fade-resistant vinyl, or is optional in premium Black cloth. You won't keep it up for long: Nothing compares to wind-in-your-hair exuberance.*

# *bites when cornered*

*Mustang has been a major player in the performance world straight out of the gate: A month after its April '64 debut, it served as the Official Pace Car of the Indy 500. Now, Mustang competes in Formula Drift,<sup>®</sup> the Grand-Am Koni Challenge and Rolex GT Series, National Hot Rod Association (NHRA) Funny Car and on Sports Car Club of America (SCCA) circuits.*

## *mustang performance*

*Every Mustang touts a finely honed, race-inspired architecture. While output is taken to the extreme on the Shelby GT500, it shares underpinning fundamentals with its stablemates. On Mustang GT and V6, the MacPherson strut front suspension includes custom shock valving and extra-strong reverse "L" lower control arms. The 3-link, solid-axle rear suspension houses outboard-mounted shocks and a Panhard rod to optimally manage all the brute force. Of course, there comes a time when all those fast moves must come to a halt. The ABS-enhanced GT sees to it with dual-piston aluminum calipers and 12.4" ventilated front rotors.*

# PONY UP

## *Mustang packages*

*The wildly popular V6 Pony Package provides optional pizzazz. A speeding Pony and blazing fog lamps are corralled in a chrome grille bezel. Tri-bar Pony emblems are stationed on each front fender and the 17" painted-aluminum wheels, boasting machined-aluminum rims and Z-rated tires. Rocker stripes repeat the "MUSTANG" message etched in chrome on the front floor mats. ABS, Traction Control and 2 stabilizer bars round things out. Something new: The exclusive-to-Canada V6 Appearance option (shown right) makes tracks with Pony-capped 18" polished forged-aluminum wheels, over-the-top racing stripes and a metallic fuel door for emphasis.*

Mustang V6 in Vista Blue Metallic with optional V6 Appearance Package.

Mustang GT in Performance White with available GT California Special Package and optional equipment.

*Paying tribute to the highly prized '68 GT California Special (GT/CS), today's version flaunts a front fascia with a prominent air intake and low chin spoiler. There's a slick pair of side scoops, mid-body GT/CS stripes and 18" polished-aluminum wheels. The rear fascia integrates a race-worthy diffuser, while the exhaust brandishes rolled tips. Inside, Dark Charcoal leather-trimmed seats are contrasted with Dove or Parchment leather inserts. The GT/CS poised here optionally wields the GT Appearance Package's awesome hood scoop.*

# stay tuned

## mustang enhancements

*Ambient Lighting (displayed below) raises the fun factor. This new special effect adds an arresting LED glow to the front cupholders and all 4 footwells – change out 7 different colours. The Interior Upgrade Package option (pictured right) also allows you to control instrument illumination: Select from an amazing 125 hues with MyColor™ lighting.*

*You'll swear you've never heard car audio like this before. Boomin' bass, crisp highs and full, balanced mid-range. Every sound emanating from Mustang takes on a whole new dimension, starting with the standard 8-speaker, 500-watt Shaker 500 audio setup. Add to the sensation: Plug your iPod® into the audio input jack. Get right where you want to go with the optional new touch-screen Navigation System. Its generous 6.5" LCD screen illuminates sharp colour graphics. More than 20 different functions – audible and visual – are readily accessible.*

**SIRIUS**  
SATELLITE RADIO

*Mustang comes with SIRIUS Satellite Radio, offering you digital-quality channels – including sports, news, entertainment and 100% commercial-free music – all across Canada. You'll even get complimentary online access to SIRIUS with the 6-month prepaid subscription that's included on every Mustang. See your Ford of Canada Dealer or contact SIRIUS at 1-888-539-7474 for more information.*
