> FEEL FREE.

And now for something completely different.

The 2009 Element. You could say the Element's bold redesigned grille with integrated wrap-around headlights makes it stand out more than ever. You could even say the new fender design gives it a more stylish streamlined character. But maybe all you need to know is the new Element is as cool as utility comes.

Element

The answer for everything.

When it comes to interior versatility, the Element has one thing in mind – everything. With a total of 64 different seating configurations, it has been designed to adapt to your active lifestyle in every way, shape and form. If you need extra cargo space, flip up and clip the rear seats to the sides of the cabin. If you need even more space, remove them altogether. If you need room for something bigger, such as a bike or two, or easy access to the cargo area or a flat surface to work on, simply fold down the clamshell tailgate. And if at the end of an adventurous day you feel the need to stretch out and relax, the Element is happy to oblige with flat-folding driver and front passenger seats.

But what about all of life's little things? Well, the Element has answers for those too. There's an available overhead storage compartment for sunglasses, maps and garage-door openers. Cargo area storage bins and two cargo area hooks provide a place to put groceries or sports equipment. And for keeping larger loose items securely in place, use one of the four cargo area tie-down anchors.

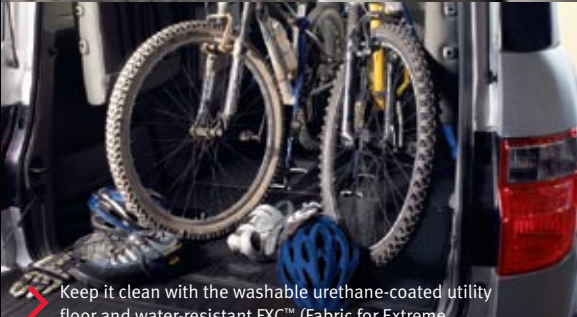

EX 4WD model shown.
*Available on LX and EX 4WD models only.

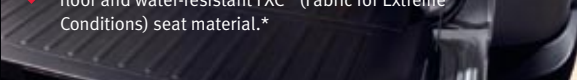

> In the Element, seating versatility comes to life in 64 different ways.

> The available overhead storage compartment is great for keeping CDs, sunglasses and more up and out of the way.

> Refresh yourself with the available centre console with removable cooler.

> Keep it clean with the washable urethane-coated utility floor and water-resistant FXC™ (Fabric for Extreme Conditions) seat material.*

See the sights.
Bring the sounds.

Because getting there should be half the fun, the Element features a host of creature comforts. In fact, anywhere will sound better with the available 7-speaker, 270-watt AM/FM/CD audio system with MP3/Windows Media® Audio (WMA) playback capability. Or get more personalized with your musical accompaniment and plug into the available MP3/auxiliary input jack and bring your favourite playlist along for the ride. But there's more to the inside of the Element than just an amazing sound system. Power front windows with auto-up/down driver's window make it a perfect spot to just shoot the breeze, take in the sights and relax at the end of an action-packed day.

> Available XM® Satellite Radio* / Available steering wheel-mounted audio controls / Variable intermittent windshield wipers / Air conditioning with air-filtration system / Maintenance Minder system

*Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.xmradio.ca.

Element

Make yourself at home, away.

If it's adventure you're looking for, you'll find it faster in an Element. From the smooth handling of its solid unit body frame to the interior versatility of all those seating configurations, the Element was made to help you explore the great outdoors. Its strength comes from a powerful yet efficient 2.4-litre, i-VTEC[®], 4-cylinder engine with 166 horsepower. Its athletic nature comes from its available Real Time 4WD[®] and compact 4-wheel independent suspension with front and rear stabilizer bars. And as a low-emission vehicle with a Tier 2 Bin 5 rating, the Element has a conscience that's cleaner than most.

▶ Steering wheel-mounted cruise controls / Available Real Time 4WD / 5-speed automatic transmission with Grade Logic Control / Available 16-inch, aluminum-alloy wheels

Element

The square root of style.

The Element SC. Exceptionally street styled, the SC is the urban evolution of Element versatility in its most fashionable form. Illuminated copper backlit dial accents and controls, custom-tailored seat stitching and a carpeted floor create a lounge-like atmosphere. A 270-watt AM/FM/CD audio system with 7 speakers including subwoofer and MP3/auxiliary input jack keeps you in the right groove. And with XM[®] Satellite Radio* and steering wheel-mounted audio controls, a world of music and entertainment is yours to enjoy at the touch of a button.

As sharp as it looks on the outside, the SC is also a dream to drive. A wealth of urban attitude stems from its powerful yet efficient 166-hp, 2.4-litre, 16-valve, i-VTEC engine. Large 18-inch wheels and wide tires let you tackle even the tightest corners with confidence. Precision-handling MacPherson strut front and compact double-wishbone rear suspension provide a smoother, sportier feel for the road while at the same time, retuned spring coils and dampers take the SC's performance to another level, delivering a noticeably lower, more stylish ride.

> 166-hp, 2.4-litre, DOHC, i-VTEC, 4-cylinder engine / 5-speed automatic transmission with Grade Logic Control / 18-inch, aluminum-alloy wheels

Element SC

Solid on safety.

Safety for Everyone is Honda's commitment to providing one of the highest levels of standard safety features to help ensure occupant safety and protection. In fact, recent crash tests conducted by the National Highway Traffic Safety Administration ranked Honda as a leader for models with 5-star crash safety ratings for front and side impact.* And through real-world research, Honda is focused on developing unequalled measures of protection to enhance the safety of occupants in other vehicles and even pedestrians – an innovative idea that is quickly becoming a reality.

- **Solid Frame Structure.** Like all Honda trucks, the Element is built with a solid unit body frame for added strength and stability. Impact-absorbing front and rear crumple zones deform in a controlled manner to help absorb collision energy before it has a chance to intrude into the passenger cabin. Further occupant protection comes from a rigid safety cell that is reinforced with high-tensile steel and numerous cross braces to help prevent cabin deformation.
- **Six Standard Airbags.** Six airbags line the vehicle's cabin, including the revolutionary passenger-side Occupant Position Detection System (OPDS) airbag that will not deploy if the system detects a smaller-sized or out-of-position occupant.
- **LATCH.** Rear seat Lower Anchors and Tethers for Children (LATCH) offer secure child-seat restraint.
- **Pedestrian Safety.** Innovative pedestrian safety features include energy-absorbing hood and front fenders and breakaway wiper pivots.
- **Anti-lock Brakes.** For safe stopping, the 4-wheel Anti-lock Braking System (ABS) helps you maintain control under hard braking conditions, while Electronic Brake Distribution (EBD) optimizes braking power based on weight distribution inside the vehicle.
- **Vehicle Stability Assist (VSA®).** Vehicle Stability Assist senses and corrects oversteer and understeer to enhance handling and cornering stability, while Traction Control ensures grip during acceleration.
- **Tire Pressure Monitoring System.** For enhanced safety and fuel efficiency, a Tire Pressure Monitoring System (TPMS) continually monitors the air pressure in each tire. If pressure drops in any one tire, an alert appears on the driver's instrument panel.

Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly secured in the rear seat.
*Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov).

BLUE SKIES
FOR OUR
CHILDREN

As the world's largest engine manufacturer, Honda has a tradition of turning innovative ideas into products that help make our world greener, safer and a little more fun. These products are equipped with some of the cleanest, most fuel-efficient engines you'll find on the road, in the water or high above the clouds. And as technically ingenious as these products are, they are all brought to life by The Power of Dreams.
