

Mercedes-Benz

2009 Mercedes-Benz Fleet Operations

Mercedes-Benz Heritage

Welcome to Mercedes-Benz. An icon of the automotive industry. In 1886, the world embraced the first automobile: the Benz Patent Motor Car. 120 years later, the world now embraces an entire line of the most elegant and exciting automobiles ever created. Every vehicle is a perfect balance of automotive intelligence and an enthusiast's passion.

Every model is evocative. Provocative. Emotional. And yet, we've given nothing away in terms of security, craftsmanship, innovation and value. Such are the qualities of a true icon. And the only place to revel in it, is behind the wheel of the Mercedes-Benz of your choice.

A tradition of innovation. A legacy of brilliance. A pioneer. A leader. An innovator. All are apt descriptors of the Mercedes-Benz brand, born out of the genius of Gottlieb Daimler. Here in Canada, Mercedes-Benz made its debut at the Canadian National Exhibition in Toronto in 1954. That same year, the legendary 300 SL Gullwing Coupe was launched.

Shortly after, in 1959, Mercedes-Benz made history again with its tail-fin model. This was the first production vehicle with a safety passenger cell and crumple zones. The evolution of excellence continues. The S-Class unfailingly sets industry standards for luxury, technology and performance. The E-Class continues to show the world that it is engineered like no other. The perfection of the CLK-Class is unsurpassed. What will Mercedes-Benz think of next? Keep your eyes on the road ahead to find out.

Mercedes-Benz

Fleet Operations

Mercedes-Benz Canada Fleet Operations invites you to join the growing number of corporations that rely on us to fill important needs in their fleets. Our growing footprint in the corporate fleet market gives strong testimony to the strength of the value, service, and satisfaction we provide customer by customer, vehicle by vehicle.

Let us help you to take advantage of the following:

- Higher-than-average residual values
- Standard and optional features other manufactures may not offer
- Comprehensive safety engineering
- Strong relationships with all major fleet management companies
- Exceptional and responsive customer service
- More than 50 authorized Mercedes-Benz dealers across Canada

2009 Mercedes-Benz Line-up

For 2009, Mercedes-Benz shatters the boundaries of automotive expectations. Every 2009 Mercedes-Benz model embodies the legendary soul of the world's first automaker in its most modern expression yet. Invigorating performance, confidence-inspiring safety systems and brilliant innovation are wrapped in evocative style that is fresh yet timeless. Every model is brought to life with a careful eye to quality. Thoughtful attention to detail. A thorough appreciation of what generates enduring value. And a uniquely deep understanding of what it takes not just to be first, but to become a legend.

A model for every fleet driver

The Mercedes-Benz Fleet Operations can help you meet the needs of every employee who drives a company-owned vehicle or receives a car allowance. Our commitment to the commercial fleet market is reflected by the broad range of vehicles available and the ease with which they can be acquired.

2009 Fleet Programs

We have a two tiered Fleet program that will surely fit your corporate needs.

Corporate Fleet Program

Our Corporate Fleet program is geared towards corporately purchased and managed vehicles. These vehicles are typically purchased by the corporation and then provided to the employee to conduct company business, or as a perk for executives.

Corporate Fleet Allowance (By Model)

S-Class	\$5,000
CL-Class	\$5,000
E-Class	\$5,000
SL-Class	\$5,000
R-Class	\$5,000
M-Class	\$4,000
GL-Class	\$4,000
CLS-Class	\$4,000
CLK-Class	\$4,000
SLK-Class	\$3,000
B-Class	\$3,000
C-Class	\$3,000
GLK-Class	\$1,500

excluding AMG models

Executive Fleet Program

Our Executive Fleet program was designed to recognize those individuals who receive a fixed monthly vehicle allowance from their employer. The vehicle could be used to conduct day to day business or strictly as a perk for executives.

Executive Fleet Allowance (By Model)

S-Class	\$3,000	CLK-Class	\$2,000
CL-Class	\$3,000	CLS-Class	\$2,000
E-Class	\$3,000	SLK-Class	\$1,500
SL-Class	\$3,000	B-Class	\$1,500
R-Class	\$2,500	C-Class	\$1,000
M-Class	\$2,000	GLK-Class	\$1,000
GL-Class	\$2,000		

excluding AMG models

Sensible planning for the road ahead

Mercedes-Benz Prepaid Maintenance

Planning ahead for what's down the road helps us get through each day a bit more comfortably. Mercedes-Benz Prepaid Maintenance offers a simple and convenient way to pre-pay for scheduled services,¹ so your maintenance costs can be planned up front.

Mercedes-Benz Prepaid Maintenance Plus offers complete peace of mind covering scheduled services, plus wear & tear items such as brakes, light bulbs, wiper blades, and clutch. By pre-paying for service with an authorized Mercedes-Benz dealership, you can maintain the outstanding Mercedes-Benz performance you fell in love with while you guard against potential future increases in parts and service costs.

Mercedes-Benz Prepaid Maintenance, or the Mercedes-Benz Prepaid Maintenance Plus plan may be purchased at any time prior to your first scheduled maintenance service.²

¹ Includes factory-required services at 15,000 or 20,000 km intervals (depending on your model) or once a year, whichever occurs first. ² Some terms and conditions apply.

What's the difference?

Making sure your Mercedes-Benz continues to run like new is easier when you choose to service with an authorized Mercedes-Benz dealership. Our service advisors & technicians receive continuous training, use the latest diagnostic tools and install top-quality GenuineParts backed by a Mercedes-Benz warranty.

Your vehicle – and you – will benefit from:

- The best possible service
- Complementary replacement vehicle provided with scheduled maintenance¹
- Mercedes-Benz GenuineParts
- Improved market value with a vehicle that has been maintained and documented according to factory specifications

Mercedes-Benz Prepaid Maintenance offers a simple and convenient way to pre-pay for scheduled services, so your maintenance costs can be planned up front.

The purchase of a Prepaid Maintenance plan does not confine you to only one dealership for your service needs. The plan follows you, so if you require service when you're on the road – or if you relocate – your plan will be honored at any authorized Mercedes-Benz dealer in Canada.

Mercedes-Benz Prepaid Maintenance plans cover required maintenance at 15,000 (smart and diesel) or 20,000 km (Mercedes-Benz gasoline engines) intervals.²

- Synthetic motor oil change and filter replacement
- Cabin dust/combination filter replacement
- Engine air filter replacement
- Brake fluid change
- Automatic transmission fluid and filter change
- AdBlue® fluid replenishment and fuel filter replacement (Diesel models)
- Fluid levels check and correction³
- Tire inflation check and correction⁴
- Brake pads visual inspection
- Reset maintenance counter and document service
- Complementary replacement vehicle⁵

Mercedes-Benz Prepaid Maintenance Plus completes your coverage for the following additional items for wear:

- Brake pads, rotors, drums, and wear indicator sensors
- Light bulbs
- Wiper blades
- Clutch (where applicable)

It's always time for 4MATIC™

It's a fact: your vehicle, no matter what the size, connects with the road in just four places. At Mercedes-Benz, we have developed a system that ensures those interactions are always to your advantage.

Our award-winning 4MATIC™ permanent all-wheel drive system is engaged at all times. It constantly monitors your wheels, sending power to each one as needed. This ensures maximum control and handling in all seasons and all road conditions. It gives you total confidence and lets you take control of the elements.

But what truly makes 4MATIC™ revolutionary is the simplicity of its design. It uses the vehicle's brakes to distribute power to the wheels. This elegant and lightweight design enables superior gas mileage and isn't as costly to maintain as other systems.

Our leading-edge 4MATIC™ technology is available on the GL-Class, M-Class, R-Class, C-Class, E-Class, CL-Class and S-Class. No other luxury manufacturer offers as many all-wheel drive options. So, not only are we the world leader in all-wheel drive technology, but in all-wheel drive selection as well.

Visit 4matic.ca to learn everything you need to know about our 4MATIC™ permanent all-wheel drive technology. While there, sign up for 4MATIC™ eAlerts, and we'll send you informative tips, interesting tales of traction and stability, detailed weather reports and all the latest 4MATIC™ news.

Imagine an SUV that turns its exhaust into water

We did. A Mercedes-Benz BlueTEC diesel SUV converts up to 80% of its polluting nitrogen oxides into harmless nitrogen and water. But environmental responsibility doesn't come at the price of performance: BlueTEC diesel delivers the torque of a V-8, with 20%-40% better fuel economy than a comparable V-6 gasoline engine.

So you get everything you expect in a luxury, high-performance vehicle. Plus cleaner air, and a clean conscience. Imagine that. BlueTEC: part of the Mercedes-Benz commitment to TrueBlueSolutions. Learn more at www.mercedes-benz.ca/bluetec

B-Class

MSRP Starting from \$29,900

The redesigned 2009 B-Class is a completely new kind of Mercedes-Benz. Both practical and luxurious, it combines the advantages of many different vehicles. This is a car that fits your lifestyle. With a handsomely revamped interior and exterior, as well as an array of

newly enhanced standard features, the sporty, redesigned B-Class combines exceptional ride comfort with plenty of performance. Its 1,530 litres of cargo space, height-adjustable cargo floor, split-folding rear seats and powerful engine options make it ideal for active lifestyles.

SLK-Class

MSRP Starting from \$57,500

Mercedes-Benz has redesigned the “small Silver Arrow” to make a big first impression. The redesigned 2009 SLK-Class is an exciting balance of elegance and pure F1-inspired performance. One glance reveals its bold, spirited styling. A distinctive nose and radiator grille, along with new, sportier alloy wheels, emanate controlled

aggression. The V-6 engines are powerful, yet refined. The electronically controlled vario-roof, the innovative AIRSCARF neck level heating system, heated front seats, and THERMATIC automatic climate control optimize the SLK experience. Clearly, the redesigned SLK-Class takes poise to a whole new pinnacle.

SL-Class

MSRP Starting from \$125,000

The new-generation 2009 SL-Class roadster revisits its legendary racing roots combining raw aggression with a stunning new design. New design elements, like the impressive side gills, attractive new wheels and standard AMG Styling Package add to its visual excitement. Its sharply contoured front and rear aprons, side sills and trunk lid spoiler add final touches that are to die for.

When it comes to comfort, the SL-Class leaves nothing to be desired with luxurious leather upholstery, multicoutour seating and the innovative AIRSCARF system. The ergonomically designed cockpit complete with COMAND APS and Media interface perfect the experience. The new generation 2009 SL-Class. More style. More Class. More Admiration.

Valuing your employees

Vehicles designed for safety and security

The product of 65 years of dedicated safety research, Mercedes-Benz vehicles are engineered for safety, programmed for fast response and tested for performance to meet stringent standards. Many of the most advanced safety systems and features on the world's roads today were introduced by Mercedes-Benz. Working in concert, they help protect drivers and passengers alike, affording them both confidence and security. Here are some of the safety features, most of them standard, that make Mercedes-Benz the right choice for your fleet.

PRE-SAFE®

An industry-first system standard on several of our models, PRE-SAFE® can prepare certain interior elements for the possibility of a collision before it occurs. PRE-SAFE® uses sensors to monitor circumstances where the capabilities of Brake Assist or the Electronic Stability Program may be exceeded. If PRE-SAFE® senses a possible accident, it will take protective actions including electronically tensioning the front seat belts, adjusting the front passenger seat – even closing the sunroof when certain vehicle dynamics suggest that a rollover is possible.

Air bags

In late 1980s, Mercedes-Benz was the first car manufacturer in the world to fit driver-side front air bags as standard equipment in every vehicle. Since then, both the technology and protection offered by air bags have been enhanced for even greater safety. Today, every Mercedes-Benz is equipped not only with

front air bags (most with dual-stage deployment) but also with window curtain air bags along the front and rear side door windows in sedans, coupes and SUVs.¹

Emergency Tensioning Devices

All four outboard seat belts feature Emergency Tensioning Devices that help remove seat-belt slack during a front or rear impact exceeding the system's deployment threshold, thereby increasing seat-belt effectiveness. In addition, belt force limiters help reduce peak force on a belted occupant in more severe impacts.

Emergency-sensing Brake Assist

Mercedes-Benz research has shown that drivers tend not to brake hard enough, soon enough, in an emergency. Our engineers developed Brake Assist to help overcome this tendency. Upon sensing panic stopping based on the speed at which you depress the brake pedal, Brake Assist automatically applies all available power braking boost immediately. By helping to eliminate the delay caused by human nature, Brake Assist can potentially reduce your overall stopping distance when it matters most.²

Crumple zones

Advanced front and rear crumple zones progressively deform to help absorb the force of an impact. Full-width crossmembers and an ellipsoidal front bulkhead help transfer some impact energy around the cabin for added protection. Underhood components are also staggered to prevent their stacking up in a severe frontal impact, to reduce the likelihood of intrusion into the cabin.

Hands-Free Communication System

The Hands-Free Communication System is a seamlessly integrated communication system designed to keep the busy individual in touch throughout the day. The vehicle's audio system, with its external cellular antenna and on-board signal booster, delivers optimum sound quality and fewer dropped calls when a cell phone is docked in a specially designed multi-handset interface cradle. The optional voice-control system, available on select models, enables drivers to dial and answer calls and make music selections without taking their hands off the steering wheel.

TeleAid Emergency Calling System

The TeleAid system uses GPS satellites plus a digital cellular link to provide live assistance at the touch of any of three buttons. If you need help – or see someone who does – the SOS button is for summoning emergency aid. Press the i-button for information. And the wrench button connects you to our legendary Roadside Assistance. TeleAid also includes Automatic Collision Notification, which engages the SOS function if an air bag or Emergency Tensioning Device (ETD) deploys, as well as stolen vehicle tracking and remote keyless unlocking service.³

Mercedes-Benz Handling

Best-in-class performance

When the road tests the mettle of a vehicle's handling systems, you want nothing less than the best. That's why every Mercedes-Benz offers industry-leading innovations. So while others may hope for a passing grade, we're only happy when we set the curve.

Electronic Stability Program (ESP®)

ESP® remains a benchmark for vehicle control nearly a decade after it was introduced by Mercedes-Benz. To help eliminate plowing or fishtailing in a turn, ESP® responds to help keep you on course. Sensors monitor your braking and steering input and upon detecting deviation from your intended path, ESP® corrects for oversteer and understeer by applying individual brakes and/or reducing excess engine power.⁴

Active Body Control (ABC)

The most advanced active suspension on the market, ABC allows you a driving experience you simply cannot find elsewhere. ABC uses a system of sensors and electronically controlled high-pressure hydraulics to instantly counteract the forces of vibration, pitch, dive, squat and roll. Self-levelling ABC even lets you raise the ride height for added clearance on rutted roads or in deep snow.

Multilink suspensions and ADS II adaptive damping

For legendary control, nearly every Mercedes-Benz enjoys 4-wheel multilink suspension featuring antidive geometry for exceptional poise, even under severe braking. The rear multilink design - a Mercedes-Benz innovation - controls rear-wheel movement with outstanding precision. Part of our Airmatic air suspension, the Adaptive Damping System (ADS II) lets you tailor your driving experience with three selectable suspension modes and continually optimizes ride and handling by individually adjusting each wheel's shock absorber every time the wheel changes its direction of up/down travel.

4MATIC™ Permanent All-Wheel Drive

Models with the 4MATIC™ all-wheel drive system distribute power to all four wheels full-time to provide maximum control and increased confidence for drivers in most any driving circumstance. The 4-wheel Electronic Traction System, included on all models with 4MATIC™, monitors the grip at each wheel and applies the appropriate brakes if one or more wheels start to slip.

⁴ No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seatbelt.

Predicated on Value

Make a Business Decision

The choice is clear. The Mercedes-Benz Fleet Program delivers the value that drives fleet selection decisions.

Financial Value

- Strong fleet incentives
- Diverse product range to satisfy executive needs, create strong reward and recognition programs, and enhance selector lists with attractive price points
- Competitive with other cars you are purchasing or leasing that deliver less
- Traditionally high residual values in each class

Safety and Technology Value

- High level of safety and performance technology built into the design of every Mercedes-Benz
- Standard and optional features that may not be available from other manufacturers

Sales and Service Value

- Relationships with all major fleet management companies to ensure a seamless order-to-delivery experience
- Mercedes-Benz dealers are ready to assist fleet managers, employees and company executives on selection, delivery and post-sale service
- 4-year, 80,000 km limited warranty and 24-hour Roadside Assistance
- Full range of vehicles from sedans to SUVs to ultra-luxury sports cars

Morale-Boosting Value

- Drivers feel valued and recognized when their company puts them behind the wheel of a Mercedes-Benz
- The ultimate reward and incentive for your most valuable assets
- A strong retention and recruitment tool

As you develop and evaluate fleet selections for your company, please visit www.mercedes-benz.ca/fleet or your local authorized Mercedes-Benz dealer for answers to any questions.
