

Mercedes-Benz

The 2009 R-Class

Increase your enjoyment. Multiply it by seven.

Welcome to your very own family luxury liner. Seating seven, the spacious 2009 R-Class is inspired by your wishes, discarding the traditional, rigidly defined categories usually related to SUVs. Even at first glance, it is clear that this is more than just a large Mercedes-Benz. Sleek good looks cover every inch of its 5.2-metre body. And that's all thanks to the standard AMG Styling Package – a sure sign of the R-Class' sporty handling capabilities.

The pleasure starts with a line-up of two powerful engines – the superbly self-assured V-6 engine on the R350 4MATIC,TM and a powerful V-6 BlueTEC diesel engine available on the R320 BlueTEC are all combined with the intelligent 7G-TRONIC 7-speed automatic transmission. Then there's the suspension, as comfortable on twisting country roads as it is on highways. Our standard-fit, award-winning 4MATICTM permanent all-wheel drive system guarantees driving enjoyment, even if the state of the road leaves a certain amount to be desired. And just when you thought the ride couldn't be any smoother, your experience is dialled up further with SIRIUS Satellite Radio[!], Bluetooth connectivity and optional harman/kardon[®] LOGIC7[®] surround sound system. It's one cruise you'll never forget.

The panoramic sunroof¹ opens up the R-Class' already massive interior. Our specially tinted privacy glass easily slides back with one touch of the overhead switch.

Even its looks are enormously impressive.

No, your eyes don't deceive you. The bold lines of the standard AMG Styling Package create an aggressive and sporty impression – and, true to its looks, promise sports car-like performance. Both the R320 BlueTEC and R350 4MATIC™ models now come standard with 19" 5-spoke alloy wheels. No detail is overlooked. We even took the time to consider all the little things, like the shape of the door handles and the three-louvre radiator grille to express the utmost in subtle, yet sleek, design sensibilities. And as with every Mercedes-Benz, where there's form there's function – exterior folding mirrors and rain-sensing windshield wipers provide the R-Class with sensible practicality, even if its looks may say otherwise.

¹Only available in conjunction with the Premium Package on the R320 BlueTEC and R350 4MATIC™

We luxuriously welcome you aboard.

Can smart functionality and sophisticated good looks truly coexist? Inside the R-Class, the answer is a resounding 'yes'. There's a lot for your eyes to feast on. Like luxurious ARTICO leather¹ interior finishing, or a premium hand-finished leather upgrade². When you get past admiring the handiwork, indulge in power-adjustable heated front seats, with an available upgrade to a memory package for recall of three front-seat positions and for the power steering column³. Even your passengers get treated to luxurious comfort as they relax in the heated rear seats³. Perfect for long winter drives to the ski hills.

Making your ride even more pleasurable is our improved communication and audio features – like the COMAND control and display system, a concert-hall experience with an MP3-compatible 6-disc DVD changer, SD memory slot, and SIRIUS Satellite Radio⁴ featuring over 100 premium channels of the best music, sports and talk radio. You may also appreciate the optional Media Interface, which gives you 3 different connection cables: one for your iPod®, another with a USB input for your memory stick, and an auxiliary audio input. And to hush all the “are we there yet?” questions, the Rear Seat Entertainment System⁵ offers two 8" LCD screens in the back of the front seats, a DVD player and two wireless headphones.

Worry-free driving is made possible with full Bluetooth connectivity that allow for safe, hands-free cell phone use while driving, and the COMAND APS with navigation³ guides you precisely to your destination. Not that you'll be in any hurry to get there.

¹Man-made leather. Standard on the R320 BlueTEC and R350 4MATIC.[™] ²Only available as an option in conjunction with the Interior Lighting Package on the R320 BlueTEC and R350 4MATIC.[™] ³Only available as part of an option package.

⁴© 2008 SIRIUS Satellite Radio Inc. "SIRIUS," the SIRIUS dog logo and related marks are trademarks of SIRIUS Satellite Radio Inc. Complimentary 6 months of service included. Monthly subscription required for service thereafter. ⁵Optional on the R320 BlueTEC and R350 4MATIC.[™]

Need space? How about 2,366 litres of it? Fold-down seats easily make room for all your gear.

More than enough room for your busy lives.

The R-Class is so accommodating that it feels like a real home away from home. With a load compartment length of 2.1m and a width of 1.34m, this SUV is the roomiest passenger car we have ever built. We've even made room for luxury itself – raised seating height, and an optional “executive chair” seating arrangement for the second row with its own centre console! An SUV that's so versatile, you can fold down the third row seats to easily stow six suitcases aboard. Loading is made even more straightforward with the EASY-PACK power tailgate² which opens and closes at the push of a button and can be halted in any position.

Even with seven people aboard, the luggage compartment still offers 295 litres of functional storage – sufficient space for two large golf bags. As a two-seater, the R-Class offers a massive 2,366-litre load capacity up to the roof lining. Reconfiguring the interior is quick and easy: creating a level load area is simply a matter of folding the second and third rows forward into the floor.

The R-Class can recognize hazards so you don't have to deal with them later.

The integral safety concept from Mercedes-Benz comes from a philosophy that combines active and passive safety systems to achieve the highest possible degree of safety for all road users. Within this concept, we've put measures in place which can contribute to safe driving. Measures like our comfort features to reduce driver stress, and the control and display concept that reduces distractions that might divert the driver's attention. Then there are systems which assist the driver, providing support in critical situations and raise awareness of potential hazards. At the first sign of skidding, the Electronic Stability Program (ESP®) can intervene to provide improved traction¹. As soon as the sensors detect a critical dynamic handling situation, braking is applied to one or more wheels as required and the engine output may also be adjusted.

Complementing ESP® is our Brake Assist System (BAS). When emergency braking is detected, BAS instantly applies full brake pressure, compensating for a driver's tendency to apply less brake pressure than necessary in panic situations.

Additionally, your R-Class now comes equipped with Active Bi-Xenon headlamps featuring dynamic headlamp range adjustment, headlamp washers and cornering lights. The headlamps follow the steering wheel's movements, improving illumination of curves by up to 90%.

¹No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Best performance in snow is obtained with winter tires.

We keep getting safer and safer.

In the event of danger, a group of functions is designed to provide the occupants with the best possible protection. Leading the way is a high-strength passenger cell built from high quality materials and offering long deformation paths to provide a reliable protective barrier for the occupants. The driver and front passenger are both protected by two-stage air bags as well as side air bags¹. The second and third rows of seats are protected by side full-length window curtain air bags.

To support the heads of the driver and front passenger in the event of a rear-end collision, Mercedes-Benz has created the innovative NECK-PRO headrests. When sensors detect an impact, pre-tensioned springs bring your head restraint forward to reduce the risk of whiplash.

After an accident, The R-Class continues to work with your safety in mind by setting in motion a series of measures which help to prevent a post-accident situation from deteriorating: a fuel tank situated in a protected position ahead of the rear axle and an automatic engine cut-off function which is triggered after a severe collision. Additional safety measures that assist you and other drivers in the event of an accident include automatic door unlocking and activation of the hazard warning flashers.

NECK-PRO headrests are sensor-controlled, moving almost instantaneously into position to reduce the risk of whiplash.

¹WARNING: The forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. Children under 13 should be seated in the back seat if possible. See Operator's Manual for additional warnings and information on air bags, seat belts and child seats.

In control at all times.

Consider that your car connects with the road in just four places. Mercedes-Benz has ensured that those interactions are always to the driver's advantage with an integrated traction system. Our 4MATIC™ permanent all-wheel drive system provides unparalleled driving confidence, no matter what the season or road conditions. It is always engaged, relentlessly sending torque to each wheel for optimal traction and control.

Working simultaneously with 4MATIC™ is our 4-wheel Electronic Traction System (4-ETS). It monitors each wheel for the first sign of wheel slippage, and then individually brakes the slipping wheels to maintain the perfect balance of power and traction. In extreme conditions, power will go to just a single wheel, if that is what is required to keep you moving forward safely. This continuous sensing, reacting and adjusting produces unrivalled all-wheel drive stability and performance.

Each of the six high-performance diesel injectors electronically monitors, measures and continuously adjusts the precise units of fuel being added to the engine – improving engine performance and fuel efficiency.

A diesel engine both you and Mother Nature can appreciate.

When it comes to power, the R-Class' standout BlueTEC diesel engine has plenty to say, generating a remarkable 210 hp and attaining a massive torque figure of 400 lb-ft at an incredibly low rpm range, between 1,600 and 2,400. It's all thanks to the innovative common-rail diesel technology, featuring precisely controlled direct fuel injection that helps to minimize lag and an advanced turbocharger to optimize available boost at all times.

Equipped with environmentally-friendly, next generation BlueTEC technology, this diesel engine also meets the world's toughest exhaust emission regulations, while AdBlue injection, employing both the common-rail direct injection principle and a special particulate filter, makes it one of the world's cleanest diesel SUVs – eliminating more than 80 per cent of nitrous oxide emissions.

What does this mean to you? Impressive power, great fuel economy, extremely low emissions and exceptionally quiet performance. In other words, it's a new kind of diesel engine that's environmentally driven.

Power or comfort? For life's journeys, have both.

The R350 4MATIC™ demonstrates the sensational effect that can be achieved through understated power. Its V-6 engine with four-valves per-cylinder and continuous camshaft adjustment is one of the most powerful units in its class. 268 hp give it plenty of pulling power for fast acceleration in any gear. Even in high gear, the R350 4MATIC™'s engine delivers a relaxed driving experience while returning good fuel economy.

Our 7G-TRONIC 7-speed automatic transmission delivers exceptional ride comfort due to its seven forward gears. With the gear ratios more closely spaced, you will hardly be aware of shifting. When decelerating, 7G-TRONIC's multiple downshift capability means that it can skip several gears as needed. A torque converter lockup clutch and the transmission control logic also help to reduce fuel consumption while optimizing acceleration. With DIRECT SELECT, selection of the automatic transmission settings is easy using the steering-column selector lever. You can choose between P, R, N and D, without having to take your hand off the steering wheel.

The DIRECT SELECT steering column selector level clears up the centre console and makes gear selection effortless.

Transform any road condition into perfection.

Expect a perfectly smooth ride every single time, thanks to the 4MATIC™ permanent all-wheel drive system, advanced axle design, rear air suspension, a long wheelbase and the dynamic handling control functions. Front wheel location is taken care of by a dual-wishbone axle which enhances ride comfort and handling, while the rear wheels feature an advanced four-link suspension system.

Self-levelling air suspension is standard for the rear axle, stabilizing your R-Class even when packed with heavy gear – so you maintain balanced driving control at all times. This is also available as an option for the front wheels through the AIRMATIC Air Suspension Package! Working in combination with the Adaptive Damping System (ADS), the AIRMATIC air suspension system uses air-filled elements housed in the suspension struts to provide an improved suspension response over mechanical hydraulics. At speeds above 120 km/h, the body is lowered automatically, thereby reducing drag and, as a consequence, fuel consumption. AIRMATIC also allows the body to be raised by up to 50 mm at the touch of a button in order to increase ground clearance when negotiating poor road surfaces.

Select your colour of distinction.

Our cutting-edge nano-particle paint technology gives you a variety of unique metallic and solid paint finishes to choose from. You'll benefit from the 30% extra scratch-resistant clear coat that keeps colours brilliant, and makes them less susceptible to environmental factors such as precipitation, sunlight, temperature variations, dust and soot.

Accessory roof cargo containers

Need even more storage capacity for sports equipment? The R-Class roof container is a streamlined solution that easily solves the problem.

Rear Seat Entertainment System

Turn your R-Class into a home theatre away from home. The rear seat entertainment system includes a 7" tilting LCD screen, a DVD player, and two wireless headsets to help minimize driver distractions.

20" 5-twin-spoke alloy wheels

For a dynamic, sporty look, these handsome alloy wheels fit the bill. And they are lighter and stronger than conventional steel wheels for improved responsiveness and handling.

iPod® Integration Kit

You've spent time carefully filling your iPod® with the great music you love. Now you can enjoy every minute of every song as you cruise to the tunes, courtesy of the iPod® Integration Kit.

Add a little touch of you.

Accessories are the accent on a perfectly individual vehicle. And because Mercedes-Benz accessories are designed and manufactured to the most stringent of standards, they're the best complement to your equally perfect R-Class. The wonderful array of choices seems endless. Like an iPod® Integration Kit to provide a fitting soundtrack to every memorable journey you take. The great news is, that's just the beginning of the little refinements you could make.

A passion for things done right.

It's what you expect from Mercedes-Benz. A passion for craftsmanship and attention to detail is what sets Mercedes-Benz apart from all other manufacturers. This passion drives us to set new standards in design, performance, comfort and safety. To continually build on the legendary traditions of Mercedes-Benz. And to provide you with an ownership experience unlike any other, including the valuable benefits described below.

24-hour Roadside Assistance

During the basic warranty coverage of 48 months and the time duration of the optional Extended Limited Warranty, Mercedes-Benz Roadside Assistance will be at your service. We'll bring you some gas, replace a flat tire with your spare, or jumpstart your car. In the event of a mechanical breakdown, if attempts by our Roadside Assistance technician have not made your vehicle safely operable, towing service will be provided to the nearest Mercedes-Benz dealership. Assistance is available 24 hours a day, every day, to anyone driving a Mercedes-Benz anywhere in Canada or the continental U.S.¹

Wear and tear coverage

For 24 months or 40,000 km (whichever comes first) many items normally considered "wear and tear," such as light bulbs, brake pads and discs, are covered. If necessary, an authorized Mercedes-Benz dealer will replace these parts at no charge to you.

Mercedes-Benz warranties

The Mercedes-Benz New Vehicle Limited Warranty covers defects in materials or workmanship for 48 months or 80,000 km, whichever occurs first. To widen your window of confidence, you can opt for a Mercedes-Benz Extended Limited Warranty as well.²

Customer service

Owning a Mercedes-Benz means that when you have a question, we're here to help. Customer Service is open from 9 a.m. to 5 p.m. EST, Monday through Friday, and is staffed with knowledgeable Mercedes-Benz people who can talk you through the finer points of working your car's audio system — or even assist you in locating the nearest Mercedes-Benz dealership. Just call 1-800-387-0100. It's that simple.

Trip interruption reimbursement

If a breakdown covered by your New Vehicle Limited Warranty occurs more than 80 km from your home, leaves your Mercedes-Benz vehicle inoperable or unsafe to drive, and requires overnight repairs, we've got you covered. You will be reimbursed up to \$500 for hotel accommodations and up to \$600 for alternative travel expenses per incident while your car is being repaired at an authorized Mercedes-Benz dealership.

**Log on to learn more at
mercedes-benz.ca**

Looking for more Mercedes-Benz information? Visit mercedes-benz.ca to open an online window to Mercedes-Benz Canada. Get information about any model, including financing and leasing options, upcoming vehicles, or purchase Mercedes-Benz the Collection gifts and personal accessories. Our website also offers details about the Mercedes-Benz Extended Limited Warranty, Mercedes-Benz Ownership, and the history of Mercedes-Benz.

¹Vehicle must be accessible from main roads. Roadside Assistance may involve charges for parts, service and towing. Depending on the circumstances, these services may be provided by an outside service provider, courtesy of Mercedes-Benz Roadside Assistance. For full details of the Roadside Assistance Program, please see your dealer. ²Please see your dealer for warranty details as well as for terms, conditions and pricing for extended warranty options.

To be continued. With a test drive.

Nowhere is a Mercedes-Benz so convincing as on the road. It is only there that you can fully experience the effortlessly superior handling that makes this car so special. You can feel how the powerful engine drives the vehicle onwards and how the precise steering movements have a direct effect on your own mood. The special atmosphere that arises during a drive in a Mercedes-Benz cannot be put down on paper. That's why we would like to invite you to reserve an appointment for a test drive at your local Mercedes-Benz dealer. Or visit www.mercedes-benz.ca. We look forward to seeing you.
