

2011

TL

TL

The Ultimate Acura =

The 2011 Acura TL. Beyond its dramatic styling, precision handling and cutting-edge amenities, the TL integrates driver and machine – horsepower and adrenaline – unlike any other. It's confidence unlimited, with a host of advanced technology at your command. It's a higher level of luxury and a new breed of refinement. It's a sophisticated work of performance art designed to empower the way you drive and redefine your experience behind the wheel.

Horsepower +

3.7- OR 3.5-LITRE, 24-VALVE, SOHC, VTEC® V-6 ENGINE

For the ultimate blend of performance and power, TL models with Super Handling All-Wheel Drive™ (SH-AWD®) are propelled by a 3.7-litre, VTEC V-6 engine. Not only is this the most powerful Acura engine on the road right now, but it's also one of the most advanced. But there's also an equally adrenaline-friendly 3.5-litre, VTEC V-6 engine to consider. Both engines feature Multi-Point Programmed Fuel Injection (PGM-FI®) to calculate the precise air/fuel ratio for optimum power output. And both engines are forged in aluminum for lightweight efficiency, better heat dissipation and improved durability.

HORSEPOWER AND TORQUE

When it comes to horsepower and torque, the TL rises to the occasion in ways that no other Acura can. From the 305 hp and 273 lb.-ft. of torque produced by the available 3.7-litre VTEC power plant, to the 280 hp and 254 lb.-ft. of torque offered by the 3.5-litre VTEC engine, there's plenty of power to go around. And thanks to innovative VTEC engine refinement and other powerband enhancements, the broad flat-torque curve allows for virtually instant and endless acceleration.

VTEC

The TL's performance-inspired Variable Valve Timing and Lift Electronic Control (VTEC) engine utilizes two entirely different camshaft profiles to offer you amazingly responsive power across the complete rpm range. Off the line, the engine provides lower valve lift and a shorter cam profile opening, resulting in higher fuel velocities and greater low-end torque. As your demand for engine speed increases, VTEC switches to a cam profile with a higher valve lift and a longer opening duration, resulting in greater airflow and a bigger boost of high-end horsepower.

HANDLING

SPORT SUSPENSION

The TL's 4-wheel independent front double-wishbone and rear multi-link suspension system offers you the kind of stability and flat cornering response you might expect. The front suspension utilizes a short upper arm for maximum grip and turning compression while a high-placed lower suspension arm delivers superb vehicle control with a stiffer steering feel. The rear suspension features a precision pillow joint for enhanced handling and stability. Further handling prowess comes from the TL's oversized front and rear stabilizer bars for quick, flat cornering and a dose of exhilaration.

ELECTRONIC POWER STEERING (EPS)

For performance steering at high speeds and increased manoeuvrability at lower speeds, the TL relies on an advanced speed-sensing Electronic Power Steering (EPS) system. Now, from quick hairpins and sweeping highway curves to tight city-centre agility, the TL empowers your every move.

PADDLE SHIFTERS

The thrill of manual up-and-down gear-shifting performance and control at your fingertips is truly something to behold. You'll find paddle-shifting transmission controls mounted just behind the TL's leather-wrapped steering wheel that are designed to add an extra boost of race-inspired excitement to the already quick-shifting 5-speed automatic transmission.

Performance +

SH-AWD

Super Handling All-Wheel Drive (SH-AWD). Precision-tuned and optimized for the Acura TL, the available SH-AWD system is the difference between taking turns and cutting them. It's where control instantly becomes confidence. It helps you gain more traction when the weather is less than perfect and it encourages you to carve absolutely perfect corners in every other condition.

Confidence =

1. STRAIGHT-LINE ACCELERATION

The SH-AWD system offers dramatically enhanced traction, control and vehicle acceleration in all kinds of conditions. Accelerate, and the system directs increased torque to the rear wheels to deliver full power to the ground.

2. MODERATE CORNERING

SH-AWD delivers a remarkably neutral steering feel as the rear wheels help generate cornering power. Electronic sensors monitor the speed and tightness of turns and automatically vary the amount of rear-wheel torque up to 60%, resulting in enhanced stability and control.

3. ACCELERATING THROUGH CORNERS

Here, the advanced SH-AWD technology stands alone. The outside cornering wheel gets up to 100% of the rear-wheel torque and is accelerated to rotate faster than the inside cornering wheel, providing greater turning force and an incredibly stable corner line.

4. STRAIGHT-LINE CRUISING

SH-AWD's sophisticated electronic controls automatically monitor road conditions and alternate torque from front to rear, as well as splitting rear-wheel torque from left to right. The end result is a continuously smooth, confident ride in poor weather or on less-than-perfect road conditions.

Style +

When it comes to striking exterior design, the TL makes a dramatic visual statement. It's a look that starts with Acura's signature platinum-plated front grille, which flows into a highly aerodynamic body style defined by strong raked lines, pronounced wheel arches and finished with a boldly sculpted back-end design. Overall the TL seamlessly fuses motion with emotion – encompassed in a split-second look.

RIGID FRAME DESIGN

The TL's rigid high-tensile steel unit-body framework was designed to create higher front and rear torsional rigidity to provide you with exceptionally smooth, confident handling. Plus, with larger front bulkhead struts and oversized box-section cross members, the TL has a noticeably enhanced athletic agility and nimble nature – at any speed – noticeably enhanced.

AVAILABLE QUAD EXHAUST AND 18-INCH WHEELS

Integrated quad-exhaust outlet finishers hint at the self-assured attitude of the TL's high-powered engine. Plus, available performance 18-inch aluminum-alloy wheels with an 8-inch tread width strengthen the TL's aggressive style, sporty appearance and your feel for the road.

HIGH-INTENSITY DISCHARGE (HID) HEADLIGHTS

Shed light on potential hazards with high-powered HID headlights. Producing an intensely brilliant beam of focused light, HID headlights enhance your ability to identify what's ahead and what to avoid.

Technology +

SATELLITE-LINKED NAVIGATION

The TL's available Acura Navigation System with trilingual Voice Recognition™ can pinpoint your location almost anywhere in North America or access its search directory for easy-to-follow driving directions. Recognizing up to 800 verbal commands, the system is equipped with trilingual voice-recognition software and features real-time directions by voice or on-screen map display. The system can show you the most direct route to your destination, offer an alternative route or, should you have an appetite for something new, use the Zagat® Survey ratings to help you find a restaurant.

HANDSFREELINK™ AND BLUETOOTH®-ENABLED TECHNOLOGY

Stay connected and in control without ever having to take your hands off the wheel or your eyes off the road. Simply program and link your Bluetooth-enabled wireless device to the HandsFreeLink mobile phone interface to make, receive and transfer calls from your phone without interruption or having to remove your hands from the steering wheel. Just say the word and – providing your programmed mobile phone is located inside the cabin – calling numbers will be displayed, your phone will respond to voice activation and you will hear the caller's voice over the TL audio system. What's more, the system operates in English, French and Spanish and is capable of integrating up to six compatible phones.

VOICE-ACTIVATED CONTROL

A majority of the advanced functions and features available with the Acura TL Technology and SH-AWD Technology Packages can be controlled just by the sound of your voice. Press the steering wheel-mounted voice control button to set or adjust the dual-zone automatic climate control, audio system or to explore the world through your navigation system.

REARVIEW CAMERA

Available with the TL Technology and SH-AWD Technology Packages, a rearview camera located in the rear spoiler shows a colour image of the area directly behind the vehicle with steering gridlines on your navigation-system screen. Plus, even if the navigation system is turned off, the camera is activated automatically when you engage reverse.

Luxury =

INTERIOR REFINEMENT

When it came to crafting the interior cabin space of the TL, Acura designers went to great lengths, and widths, to ensure every detail excels in its ability to comfort, engage and inspire. A distinctive high-quality combination of premium leather, metallic accents and wood-pattern trim abounds. The available Technology Package includes full-grain perforated Milano leather seats and trim. With the TL SH-AWD Package, this includes more supportive seat bolsters, a thicker sport-grip steering wheel and colour-accent stitching.

POWER-ADJUSTABLE HEATED FRONT SEATS

Even the most uncivilized commutes will feel more luxurious when you're sitting comfortably in one of the TL's two tightly bolstered perforated leather-trimmed heated front seats. For drivers the ideal seating position is never far away thanks to a 10-way power adjustment driver's seat including 2-way power lumbar support and 2-position memory. And for front passengers, they get all the soft, form-fitting perks that come with their own 8-way power-adjustable seat.

CLIMATE CONTROL

The TL's advanced dual-zone, dual-mode adaptive climate control system automatically maintains temperature levels in two different zones inside the cabin. The dual-mode part of the climate equation enables you to set two vent levels for these two zones. And for the ultimate in comfort and temperature control, the TL's available Keyless Access System with driver recognition will have your seat position, side mirrors, climate, audio and navigation system set and ready before you even enter the vehicle.

High-fidelity =

ACURA / ELS SURROUND® PREMIUM AUDIO SYSTEM

The first of its kind in a production automobile, the TL's available multi-channel surround sound system was developed in part with Grammy® Award-winning producer and sound engineer Elliot Scheiner. This 10-speaker 6-channel system delivers an astonishing 440 watts of rich audio sound power throughout the cabin. Plus, the in-dash 1-disc CD changer with DVD-Audio, Dolby® Pro Logic™ II and DTS®, with MP3 and Windows Media® Audio capabilities, allows you to enjoy your music in the format of your choice. Add to that the experience of steering wheel-mounted audio controls or available voice-activated audio control, and you've got the makings of the ultimate audio system.

HARD DISK DRIVE (HDD)

As much as the TL's navigation system can inform, it also likes to entertain. The system's available 12.7 GB hard disk drive (HDD) contains enough storage space for you to record and store more than 217 hours of music, the equivalent of over 2610 songs. Simply insert your CD into the system's single-disc slot and your music will be automatically uploaded into the database as it plays. And with disc and track information provided through the Gracenote® interface, you can easily scan to your preferred music based on title, artist or genre.

BLUETOOTH AUDIO INTERFACE

The Acura Bluetooth-enabled audio interface is practically unheard of in other sedans. Not only is this advanced technology the perfect way to enjoy your music without the wires, but it also satisfies both the technophile and audiophile in you.

XM®* RADIO

The TL audio system features an integrated XM Satellite Radio that allows you to sample some of the best music the world has to offer, all from the comfort of the TL's tastefully appointed cabin.

DIGITAL-MEDIA AUXILIARY INPUT JACK

For the ultimate in personalized audio, bring your MP3 player along for the ride. Simply plug your MP3 player into the TL's digital-media auxiliary input jack and enjoy a world of music created by you.

USB AUDIO PLAYBACK

Conveniently housed in the centre console, the TL's USB device connector enables you to connect any number of compatible portable audio devices, such as an iPod®. Plus, you can control the playback volume and track selection from your steering wheel-mounted controls.

*Includes a no-charge trial for 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.xmradio.ca.

Protection +

At Acura, Safety Through Innovation is based on the idea that an advanced driving experience starts with advanced safety features. This guiding principle is reinforced through the extensive number of standard safety features and use of innovative technologies you'll find in all Acura vehicles.

AIRBAGS

Maximum safety is achieved with six airbags designed to protect all occupants inside the cabin. Depending on the point and force of impact, the TL will deploy dual-stage, dual-threshold front airbags that activate at one of two rates depending on the severity of the impact; front side airbags with the innovative passenger-side Occupant Position Detection System (OPDS) that will not release if the system detects a small-size or improperly positioned passenger; and side curtain airbags with a state-of-the-art rollover sensor.

VSA®

Vehicle Stability Assist (VSA) with Traction Control will automatically detect and correct understeer or oversteer situations before you're even aware there's a need. The system intuitively monitors your driving conditions and automatically reduces the throttle and/or applies braking to individual wheels. Should a loss of traction occur during acceleration on slippery road surfaces, Traction Control will compensate to get you safely underway.

ABS

The Anti-lock Braking System (ABS) helps maintain steering control when braking hard on wet, slippery or loose surfaces, while Electronic Brake Distribution (EBD) balances braking forces at each wheel to help compensate for weight distribution inside the cabin. Plus, there's a Brake Assist feature that senses a panic stop and applies maximum braking power to help you stop quickly.

ACE™

The innovative Advanced Compatibility Engineering™ (ACE) body structure adopts a high-tensile, high-efficiency unit-body safety cell structure to provide enhanced protection from multi-directional collision. ACE reduces the concentrated force of a frontal impact by absorbing energy over a large area and dispersing it away from you and other occupants inside the interior cabin space. Additionally, ACE is also designed to help reduce occupant injuries caused by misalignment in collisions between vehicles of different sizes.

TIRE PRESSURE MONITORING SYSTEM

Correct tire pressure is critical to safety, performance and fuel efficiency. Enter the TL's Tire Pressure Monitoring System (TPMS), which continually monitors the air pressure in each tire. If pressure drops in any tire, a transponder attached to the wheel's valve stem transmits the information to a receiver, and a warning appears on your instrument panel indicating which tire requires attention.

MAINTENANCE MINDER SYSTEM

Instead of following a traditional kilometre-and-calendar maintenance schedule, the TL instinctively calculates service needs based on your driving habits. This advanced system takes into account engine revolutions, stop-and-go traffic experience, weather extremes and the frequency of short trips to determine when your next service visit should be. The system helps coordinate oil-servicing dates and other routine maintenance as well.

ENGINE

Engine	3.5-litre, 24-valve, SOHC, VTEC® V-6
Horsepower	280 hp @ 6200 rpm
Torque	254 lb.-ft. @ 5000 rpm
Displacement	3471 cc
Bore and stroke	89 x 93 mm
Compression ratio	11.2:1
Multi-Point Programmed Fuel Injection system (PGM-FI®)	
Electronic direct ignition system	
Recommended fuel	Premium unleaded
Horsepower & Torque (SAE net, Rev. 08/04, SAE J1349)	

DRIVETRAIN

5-speed automatic transmission (AT) with paddle shifters and Grade Logic Control	Drive-by-Wire Throttle System™ Front-wheel drive
--	---

SAFETY

3-point height-adjustable seat belts with load limiters and Automatic Tensioning System (front)
3-point seat belts (rear)
4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) and Brake Assist
Active front seat head restraints
Advanced Compatibility Engineering™ (ACE™) body structure
Childproof rear door locks
Dual-stage, dual-threshold front airbags (SRS)
Front side airbags with passenger-side Occupant Position Detection System (OPDS)
Immobilizer Theft-Deterrent System and security system
Impact-absorbing crumple zones – front and rear
LED mirror-integrated directional signals, taillights, brake lights and Centre High Mount Stop Light
Lower Anchors and Tethers for Children (LATCH) child-seat mounting system
Phosphorescent emergency trunk opener
Side curtain airbags with rollover sensor
Tire Pressure Monitoring System (TPMS) with location indicators
Vehicle Stability Assist (VSA®) with Traction Control

TECHNOLOGY PACKAGE (Available for TL and TL SH-AWD®)

Acura Navigation System with trilingual Voice Recognition™, rearview camera with onscreen display guidelines, wallpaper function and illuminated steering wheel-mounted controls	Curb weight: 1689 kg (TL) Curb weight: 1803 kg (SH-AWD) GPS-linked, solar-sensing, dual-zone, dual-mode automatic climate control system
Acura/ELS Surround® 440-watt Premium Audio System with 1-disc CD, DVD-Audio and DTS® changer, AM/FM/XM®† tuner (RDS-enabled), MP3/Windows Media® Audio compatibility, Dolby® Pro Logic™ II and 10 speakers	Keyless Access System (smart entry and pushbutton ignition) with driver recognition for driver's seat, side mirrors, climate control and select audio and Navi settings
12.7 GB hard disk drive (HDD) storage (navigation and audio)	Perforated Premium Milano leather-trimmed interior Rear decklid spoiler (with integrated rearview camera)

CHASSIS

17" x 8" aluminum-alloy wheels
4-wheel independent double-wishbone front suspension with multi-link rear suspension
Electronic Power Steering (EPS)
Rear drum-in-disc brakes
Stabilizer bars – front/rear: 30/19 mm
Tires: P245/50 R17 all-season
Ventilated front disc brakes

EXTERIOR

Acoustic front windshield
Auto-on/off headlights
Body-coloured front splash guards
Fog lights
Heated side mirrors with driver recognition, reverse gear tilt-down and LED integrated directional indicators
Heat-rejecting green-tinted glass
High-Intensity Discharge (HID) headlights
Integrated dual-outlet exhaust with finishers
Platinum-plating front Acura grille
Power moonroof with tilt, auto-open/close, auto-reverse, key-off operation and sliding shade
Stainless-steel concave-shaped roof and door window mouldings

CAPACITIES

Cargo volume	371 litres
Fuel tank capacity	70 litres

FUEL ECONOMY

City	11.6 litres/100 km*
Highway	7.5 litres/100 km*

SEATING & TRIM

Adjustable head restraints – front and rear
Driver's seat with 10-way power adjustment including 2-way power lumbar support and 2-position memory
Dual-level heated front seats
Floor mats
Front passenger's seat with 8-way power adjustment
Solid leather-trimmed interior

COMFORT & CONVENIENCE

12-volt power outlets (2)
Auto-dimming rearview mirror
Blue LED ambient driver's and front passenger's footwell lighting
Blue LED ambient roof console lighting
Driver's and front passenger's illuminated vanity mirrors
Dual-zone, dual-mode automatic climate control with auto humidity control and air-filtration system
Electric trunk and fuel-filler-door releases
Exterior temperature indicator
Front centre console with hidden armrest sliding tray, storage compartments, dual beverage holders and coin holders
HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface with Phonebook Link
Homelink® remote system
Illuminated steering wheel-mounted audio, phone, MID and cruise controls
Lower instrument-panel side-pocket storage (driver's and passenger's)
Maintenance Minder system
Multi-Information Display (MID)
Overhead LED map lights – front and rear
Overhead sunglasses storage
Power windows with driver's and front passenger's auto-up/down, auto-reverse and key-off operation
Rear compartment heat/air conditioning vents
Rear-seat centre armrest with locking trunk pass-through and dual beverage holders
Remote entry system with driver recognition for driver's seat, side mirrors and climate control
Speed-sensing, variable intermittent windshield wipers
Tilt and telescopic steering column
Trip computer
User-programmable interior lighting

ENTERTAINMENT

Acura 276-watt Sound System with 6-disc CD changer, Dolby® Pro Logic™ II and DTS®, AM/FM/XM®† tuner (RDS-enabled), MP3/Windows Media® Audio changer and 8 speakers
Audio anti-theft feature
Auxiliary input jack
Bluetooth® Audio
Disc title display
Integrated glass antenna
Speed-sensitive Volume Control (SVC)
USB device connector

EXTERIOR DIMENSIONS

Curb weight	1683 kg
Height	1452 mm
Length	4966 mm
Track – front/rear	1605/1620 mm
Wheelbase	2775 mm
Width (including sideview mirrors)	2118 mm
Width (excluding sideview mirrors)	1880 mm

INTERIOR DIMENSIONS

Headroom – front/rear	976/932 mm
Hip room – front/rear	1415/1392 mm
Interior volume	2781 litres
Legroom – front/rear	1080/920 mm
Shoulder room – front/rear	1477/1428 mm
Seating capacity	5

ACCESSORIES

18" alloy wheel – super-bright chrome	Door edge film	Remote engine starter system
19" alloy wheel – silver/black	Door edge guards	Second-row seat cover
19" alloy wheel – super-bright chrome	Engine block heater	Select knob, AT – leather or wood
All-weather floor mats – black or ivory	Front grille – Midnight Chrome	Steering-wheel trim – wood
Body side mouldings	Front, side and rear skirts	Trunk drawer – upper mount
Car cover	Full nose mask	Trunk edge and bumper protector
Cargo hook	Locking wheel nuts	Trunk tray
Cargo net	Rear backup sensors‡	
	Rear lip spoiler	
	Rear splash guards	
	Rear trim – Midnight Chrome	

SUPER HANDLING ALL-WHEEL DRIVE™ (SH-AWD®)

3.7-litre, 24-valve, SOHC, VTEC® V-6 engine	Fuel economy (City/Hwy):
Horsepower: 305 hp @ 6300 rpm	12.3/8.1 litres/100 km*
18" x 8" exclusive aluminum-alloy wheels	Headlight washers
All-season tires: P245/45 R18	Hill Start Assist (HSA)
Bore and stroke: 90 x 96 mm	Sport-grip steering wheel and interior coloured stitching
Co-operative Vehicle Stability Assist (VSA®) with Traction Control	Stabilizer bars – front/rear: 31/20 mm (rear wall thickness: 4.5 mm)
Curb weight: 1797 kg	Torque: 273 lb.-ft. @ 5000 rpm
Displacement: 3664 cc	
Exhaust finishers – quads	

*Use kilometrage for comparison purposes only. Your kilometrage may vary. †Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at [www.xmradio.ca](#). ‡Does not replace the driver's responsibility to exercise due care while reversing.

ACCESSORIES

At Acura, when innovation and performance meet purpose, remarkable things can be achieved. Through our commitment and continued involvement with events and organizations across Canada, we seek to create engaging and inspiring experiences for our customers and our community. Because at Acura we believe exhilaration goes beyond the driver’s seat.

HOTELS

Acura has teamed up with W Hotels – a global luxury chain – to provide a fully loaded partnership that offers guests complimentary transportation in an Acura vehicle. The Whatever/Whenever® service gets guests where they need to go in advanced luxury and style.

The Canada Running Series includes a number of competitive running events across Canada that raise money and awareness for charities. We are proud to be the title sponsor of the Acura Toronto 10-Miler & 5K Run in support of the Canadian Cancer Society, an organization dedicated since 1938 to improving the lives of people living with cancer.

PRESENTING SPONSOR
CANADIAN BROADCAST

Acura is honoured to be the Canadian broadcast sponsor of golf’s most historic and time-honoured tournament. The Masters is golf’s first major open of the season and is famous for its ceremonial “Green Jacket” winner’s presentation.

Driving a luxury vehicle should go beyond engineering and amenities. That’s why Acura is committed to ensuring your ownership experience is equally luxurious. New Acura owners benefit from four-year 24-hour Roadside Assistance, which includes Dispatch Emergency Roadside Service, Emergency Lockout Service and Traffic Accident Services. See your Acura Retailer for details.

WARRANTY

Your new Acura vehicle comes with the following warranties: Major Component – 5-year/100,000-km limited warranty • Vehicle – 4-year/80,000-km Distributor’s limited warranty • Rust Perforation – 5-year unlimited-distance warranty • Surface Corrosion – 4-year/80,000-km • Accessories – 4-year/80,000-km limited warranty (when installed by an authorized Acura Retailer at time of new vehicle delivery). Regular maintenance items and parts are subject to normal wear and replacement, and are not covered by warranty. Certain other items are excluded and certain conditions apply. See your Acura Retailer for details.

ACURA PLUS

Extend your worry-free ownership experience by purchasing additional coverage. Choose from Acura’s flexible selection of Mechanical Coverage that extends up to 8 years or 200,000 km, whichever comes first. See your Acura Retailer for details.

LEASING AND FINANCING

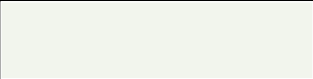

Owning your Acura is easy. See your Acura Retailer for complete details on: Acura Leadership Leasing,* Acura Future Value Financing* and Conventional Financing.*

*A genuine service of Honda Financial Services. Conditions, restrictions and prepayment requirements might apply O.A.C. Acura Future Value Financing does not apply in the province of Quebec.
