THREE CARS. ONE PASSION. COUPE. SEDAN. SPORT WAGON.

With the launch of the spectacular new CTS Coupe, the CTS family grows to three for 2011. Yet as distinctive as each CTS model undoubtedly is, they're all the product of a singular passion for driving excellence. No matter which new CTS you may choose, you'll enjoy a contemporary style that's equal parts strength and grace. With an agile track-tuned chassis. Abundant, efficient power. An elegant, ergonomic and superbly comfortable cabin. And a rewarding driving experience that starts the moment you first light up the engine. For an even higher level of driving excitement, every CTS body style also offers the option of an ultra-high-performance V-series model capable of humbling many of the world's most respected sports cars. CTS-V models have won the admiration of automotive experts worldwide for their unique blend of awesome power, responsive handling and purposeful luxury. CTS Coupe, Sport Sedan and Sport Wagon. Prepare to be turned on.

*"The CTS manages to blend refinement, driving dynamics, comfort, and performance in a refreshing, even exhilarating, way that satisfies enthusiast drivers and luxury seekers simultaneously."*

*caranddriver.com, January 2010*

*Cadillac*

## CTS COUPE

### PERFORMANCE, SCULPTED.

This is no two-door sedan. Rather, it's a luxurious 2+2 sports car, with all the drama and excitement that implies. All-new for 2011, the CTS Coupe sets a new design standard for premium luxury coupes. The look is low, sleek, edgy and utterly unlike anything else on the road today. CTS Coupe has the engineering substance to match its style, too, with a long list of premium features, including a 304-horsepower 3.6-litre V6, four-wheel independent sport-tuned suspension, Xenon High-Intensity Discharge (HID) headlights with adaptive lighting, and a superb Bose® 5.1 Cabin Surround® sound audio system so good, you have to hear it to believe it.

*"... an impressive new coupe that's one of the most dramatically styled cars on the road."*

*roadandtrack.com, June 2010*

A raked-back windshield and a near-horizontal rear window are among the design details that give the new CTS Coupe its dramatic and distinctive appearance.

CTS Coupe's centre-outlet exhaust is a true concept car touch. The dihedral shape of the twin outlets harmonizes perfectly with the car's bold rear styling.

CTS SPORT SEDAN

SPORT AND LUXURY IN PERFECT HARMONY.

Power. Luxury. Style. CTS Sport Sedan has it all. The highly refined 3.0-litre V6 produces more standard horsepower than such competitors as the Audi A4, BMW 3- and 5-series and Mercedes-Benz C- and E-class.\* For even more performance, a 304-horsepower 3.6-litre V6 is also available. The CTS Sport Sedan handles with a distinctly European accent, thanks to an intensive on-track development program at Germany's daunting Nürburgring race course. And on the inside, CTS Sport Sedan is refined, welcoming and singlemindedly focused on the art of driving. No wonder *Car and Driver* has selected it as one of their 10Best Cars for the last three years in a row.

\* Based on latest competitive information available at time of printing.

**Xenon High-Intensity Discharge (HID) headlights** are standard equipment on CTS-V models and CTS models with the 3.6L V6. An adaptive lighting system, which swivels the headlights up to 15° as you turn the steering wheel to help you see into corners and curves at night, is also included.

**Available on CTS Sport Sedan and Sport Wagon**, the tilt-and-slide UltraView sunroof is almost double the size of conventional sunroofs. It's power-operated and includes a power sunshade to help reduce glare on bright sunny days. A power tilt sunroof is available on CTS Coupe models.

## CTS SPORT WAGON

### ALL-AROUND EXCELLENCE.

With its sweeping horizontal lines, bold LED tail lights and distinctive presence, CTS Sport Wagon is a car you could fall for based on its good looks alone. Of course, its sparkling performance and finely tuned driving dynamics are also powerfully compelling. Not to mention its premium cabin and beautifully designed, driver-focused cockpit. Then there's CTS Sport Wagon's primary point of departure from its sedan sibling: a highly accommodating 720-litre cargo area that expands to a massive 1642 litres when you fold the 60/40 divided rear seatbacks down. The bottom line? With its sophisticated driving experience and SUV-like versatility, the CTS Sport Wagon is in a class by itself.

*"Caddy's mid-size CTS has always, by intent, had a European flavour but this latest edition adds a new dimension with its utility and versatility, which makes it part of a very exclusive and, these days, strictly continental club."*

*Bob English, The Globe and Mail, February 18, 2010*

**Sports enthusiasts** will appreciate both CTS Sport Wagon's capacious cargo area and its class-exclusive\* roof load management system with concealed side rails and available crossbars.

\*Based on Ward's Lower Luxury segment and the latest competitive information available at time of printing.

**CTS Sport Wagon's standard power liftgate** can be programmed to open to your preferred height. It's a feature you'll find extremely convenient any time you have to park in a garage with a low ceiling.

#### BLURRING THE LINE BETWEEN CAR AND DRIVER.

Climb into the CTS cockpit and the car becomes an extension of your will. Electronic memory systems automatically restore the driver's seat, exterior mirrors, climate control and other systems to your preferred settings. The steering column is adjustable for both rake and reach, so finding precisely the right driving position takes just seconds. Finely styled analogue gauges and a multi-function Driver Information Centre provide all essential information at a glance. And every control is designed for logical operation and satisfying, positive feedback. Driving has never been quite so rewarding or seemed such a natural pleasure.

*"Its interior is gorgeous, with a truly expensive feel, and it is more spacious inside than most of its similarly priced competition."*

*caranddriver.com, January 2010*

**Handsome analogue gauges** provide key information quickly and clearly. They're supplemented by an electronic Driver Information Centre that provides data on a variety of conditions. It even includes a tire pressure monitoring system that can inform you of tire pressure readings in real time.

If you wish, CTS's centre console, instrument panel, door panels, steering wheel and transmission shifter can be accented with the warmth of genuine Sapele Pommele wood imported from West Africa.

THE INTERSECTION OF HIGH TECH AND HANDCRAFTING.

Time-honoured traditional skills and up-to-the-minute ideas blend seamlessly in the CTS cabin. The trim that wraps the doors, instrument panel and console is cut, wrapped and sewn by master craftsmen for a premium custom appearance. Innovative modern thinking is evident in the "thin-seat" design of the heated eight-way power-adjustable front buckets, which helps maximize both support up front and legroom for those seated in the rear. The end result is a riding environment that features exceptional style, quality and comfort.

CTS Coupe models leave mechanical door handles far behind, replacing them with electronic touch-pads on the outside and an electronic button release inside the car. The result is a more elegant interior appearance.

Supple leather seating surfaces, premium carpeting with standard carpeted floor mats and a hand-stitched soft-touch dash are just a few of the many premium touches you'll find throughout CTS's luxurious cabin.

YOUR COMMUNICATIONS. YOUR SOUNDTRACK. YOUR WAY.

When it comes to information and entertainment, CTS puts a world of choices at your fingertips. Bluetooth® technology makes it easy to make and receive hands-free calls via CTS's audio system. XM Satellite Radio™ is standard,\* so you can enjoy 130 channels of crystal-clear digital sound wherever your travels take you. For the ultimate in listening pleasure, a stunning Bose 5.1 Cabin Surround sound audio system with an integrated 40 GB Hard Drive Device (HDD) is standard on Coupe models and available on CTS Sport Sedan and Sport Wagon. And of course, every new CTS comes with the revolutionary OnStar®\*\* security, communications and diagnostics system with one year of the Directions and Connections Plan.

\* Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit [xmradio.ca](http://xmradio.ca) for details.  
 \*\* Visit [onstar.ca](http://onstar.ca) for coverage map, details and system limitations. Services may vary by model and conditions.

*"Another gold star on the CTS Coupe's report card is the ... 10-speaker stereo, which may be the best car audio system Bose has ever made."*

*Motor Trend, June 2010*

The available Navigation System† features a 40 GB Hard Drive Device (HDD), voice recognition and the largest telescoping screen in CTS's class.†† It recesses neatly into the dash when not in use.

† At time of print, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.

†† Based on Ward's Lower Luxury segment and the latest competitive information available at time of printing.

CTS's available Bose 5.1 Cabin Surround sound system is designed for complete iPod® integration. Your playlists appear on the sound system display and can be adjusted via the steering wheel-mounted audio controls.

#### POWER WITH FINESSE.

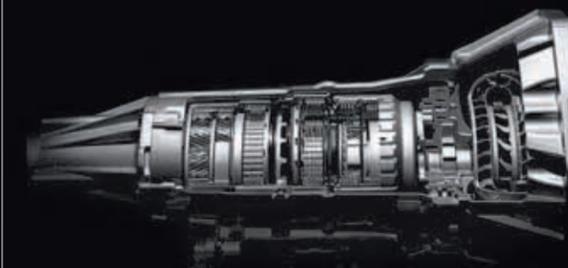

For any sporting car, abundant, responsive engine power is an essential part of the equation. Needless to say, CTS has power to spare. The standard engine in CTS Sport Sedan and Sport Wagon is a 3.0-litre V6 that generates 270 horsepower. There's also a 304-horsepower 3.6-litre V6 that's standard in CTS Coupe and available in CTS Sport Sedan and Sport Wagon. Of course, as you might expect from Cadillac, power is only one side of these engines' character. They're also notable for their smoothness, refinement and advanced technology, including direct fuel injection systems which help to maximize both engine output and fuel efficiency.

The 3.6L V6's lightweight aluminum pistons are precision engineered to provide adequate valve clearance at a very high 11.3:1 compression ratio.

Standard on both CTS V6 engines, Variable Valve Timing (VVT) adjusts valve opening and closing times as engine speeds increase and decrease, helping to optimize efficiency over the entire range of operation.

The CTS family offers you a choice of precision-engineered 6-speed manual and automatic transmissions. See the Features and Options pages at the back of this brochure for model-by-model transmission availability.

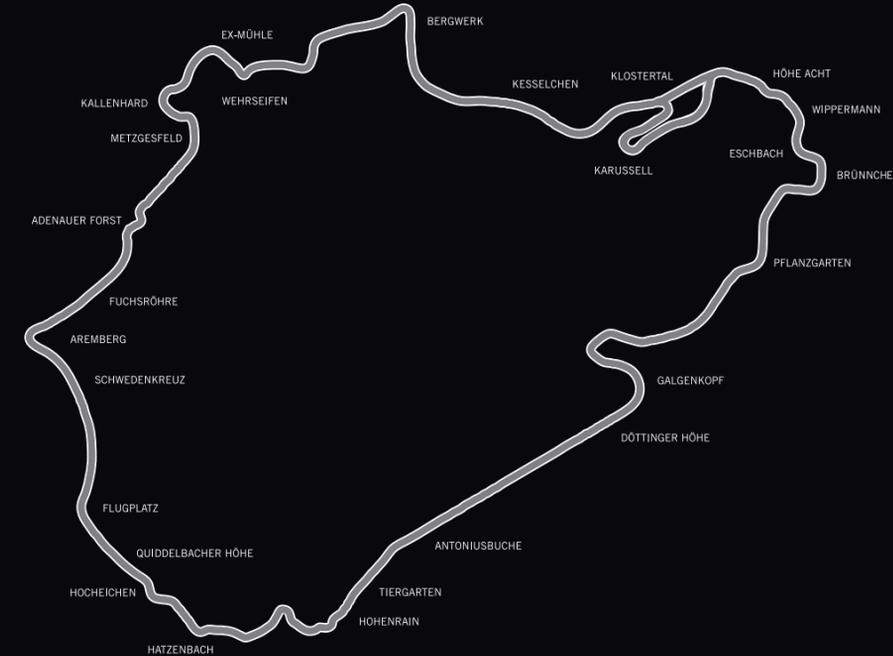

ONE GREAT TURN DESERVES ANOTHER.

The CTS chassis engineers began by specifying an extremely stiff computer-designed body structure, a sophisticated fully independent suspension and a StabiliTrak® electronic stability control system. Then they subjected the complete package to round after gruelling round of tuning at Germany's legendary Nürburgring Nordschleife racetrack. The result is an agile, responsive car with excellent high-speed stability. The engineers also kept Canadian winter driving conditions firmly in mind. On low-traction surfaces, the available All-Wheel-Drive system (AWD) automatically redistributes engine torque to the wheels with grip to help you negotiate all four seasons with comfort and confidence.

*"The well-sorted suspension adeptly handles just about anything a road can throw at it, never getting unsettled even in bumpy off-camber corners."*

*Motor Trend, June 2010*

The CTS chassis was tested and tuned on roads and race courses around the world including the daunting Nordschleife track shown above. The result is an outstanding balance of ride and handling in real-world driving.

No matter which CTS body style you choose, you can enjoy the confidence and surefootedness of Cadillac's advanced All-Wheel-Drive (AWD) system. It's available with both the 270-hp 3.0L V6 and the 304-hp 3.6L V6 engines.

CTS V-SERIES

ARE YOU READY FOR THIS?

Now available in your choice of Coupe, Sport Sedan and Sport Wagon forms, CTS-V embodies everything that's most exciting about high-performance luxury motoring. Not only is CTS-V the fastest and most powerful production Cadillac ever built, it's among the very fastest V8-powered production cars in the world. Yet performance is only part of CTS-V's appeal. Thanks to Magnetic Ride Control® suspension technology now shared with the Ferrari 599, CTS-V's ride and handling are nothing short of world-class. CTS-V even sets a higher standard for luxury appointments, with ambient interior lighting and available Recaro™ sport seats.

*"How does it drive? Superbly. The V-Series coupe is a fabulous combination of sporting entertainment and coddling everyday transport."*

*AutoWeek, August 16, 2010*

With its awesome 556-horsepower supercharged 6.2L V8 engine, beautifully appointed 5-passenger cabin, versatile, reconfigurable cargo area and standard roof load management system, CTS-V Sport Wagon offers a uniquely compelling combination of performance, luxury and utility.

CTS

V-SERIES

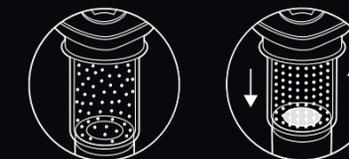

TALK ABOUT UPPING THE ANTE.

Ferrari California. Porsche 911 Turbo S. Every Audi available in Canada, including the vaunted R8 5.2. These are just a few of the cars that can't equal the horsepower of CTS-V's heroic 556-horsepower, 6.2-litre supercharged V8 engine.\* To help keep all this performance in check, CTS-V features Brembo® vented disc brakes front and rear, supplemented by ABS and electronic dynamic rear proportioning. The suspension system is also upgraded with a performance-tuned version of Cadillac's innovative Magnetic Ride Control. This advanced technology allows drivers to choose either 'Sport' or 'Touring' modes, as the situation requires.

*"When was the last time you shouted? ... The kind of roaring bellow that leaves you shaking, giddy, drunk off a heady cocktail of emotion, adrenaline, testosterone and fear of a power you didn't even know you had. Add some supercharger whine, and you're starting to get an idea of what happens when you pin a CTS-V's go-pedal to the floor."*

*TheTruthAboutCars.com, June 19, 2010*

\* Based on latest published competitive information available at the time of printing.

CTS-V's Magnetic Ride Control suspension is so advanced, it can adjust the damping of the individual shock absorbers up to 1000 times per second to provide precisely the right balance of handling agility and body control.

The most powerful engine in Cadillac history, the supercharged 6.2L V8 engine is matched with either a standard Tremec 6-speed manual transmission or an available 6-speed automatic with steering wheel-mounted paddle shifters.

With very massive ventilated discs at all 4 wheels, 6-piston calipers in the front and 4-piston calipers in the rear, CTS-V's Brembo braking system provides tremendous stopping power, even after a series of hard stops from high speeds.

## LUXURY ON A MISSION.

Yes, the available heated and ventilated 14-way electronically adjustable Recaro seats fit you like a fine Italian glove. The Obsidian trim on the centre stack exudes style and exclusivity and, if you prefer, the drama of genuine Midnight Sapele trim is also available. Look a little closer, though, and it's clear that this is a 100 percent serious high-performance driver's car. There's an accelerometer incorporated into the Driver Information Centre to measure the lateral g's you generate in the corners. LED tracer lights surround the tach to warn you as you approach redline. Sueded microfibre inserts in the seats and an available sueded steering wheel and shifter package provide a sure grip. Luxurious? Without a doubt. But performance is CTS-V's highest priority.

To signal the need for an up-shift, the LED tracers around CTS-V's tachometer begin to flash as the supercharged 6.2L V8 approaches redline.

With pneumatic bolsters in the seat cushions and backrests, the available Recaro front bucket seats are designed to hold you firmly in place.

## SAFETY

### UNBLINKING PROTECTION.

Inside CTS, you and your loved ones are surrounded by some of the world's most advanced safety technology. With its outstanding visibility, well-placed controls and responsive chassis with integrated StabiliTrak electronic stability control system, CTS helps empower you to steer clear of most dangerous situations. If a collision proves unavoidable, your CTS helps to guard you against injury with six standard air bags, a steel safety cage around the passenger compartment and much more. CTS will even continue to act in your interest as the dust settles, automatically alerting OnStar®\* advisors who can then dispatch the appropriate emergency services to your exact location, even if you are unable to respond to their call.

\* Visit [onstar.ca](http://onstar.ca) for coverage map, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers.

INSURANCE INSTITUTE  
FOR HIGHWAY SAFETY

The Insurance Institute for Highway Safety (IIHS) has honoured the 2011 Cadillac CTS Sport Sedan with a 2010 Top Safety Pick. For more information, visit [www.iihs.org](http://www.iihs.org)

In the event of a crash, CTS is equipped to help protect you with dual frontal air bags, seat-mounted side-impact air bags and front-to-rear roof-mounted side curtain air bags.\*\*

\*\* A NOTE ON CHILD SAFETY. Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Refer to the Vehicle Owner's Manual and child safety seat instructions for more information.

CTS is the only car in its class to offer the safety and convenience of OnStar\* and one year of the Directions & Connections Plan with Turn-by-Turn Navigation. Some of the remarkable services OnStar has to offer include:

- HANDS-FREE CALLING
- REMOTE VEHICLE DIAGNOSTICS
- TURN-BY-TURN NAVIGATION
- AUTOMATIC CRASH RESPONSE
- STOLEN VEHICLE ASSISTANCE.

For complete information on everything that OnStar can do for you, visit [onstar.ca](http://onstar.ca)

\* Visit [onstar.ca](http://onstar.ca) for coverage map, details and system limitations. Services vary by model. OnStar acts as a link to existing emergency service providers.

## CADILLAC OWNER PRIVILEGES

When you choose Cadillac, you receive more than just an exceptional luxury vehicle. You also enjoy an exceptional ownership experience, thanks to Cadillac Owner Privileges, a comprehensive initiative that adds to your safety and convenience and helps reduce your overall cost of ownership. Cadillac Owner Privileges includes:

**Cadillac Premium Care Maintenance\*** – which covers the cost of all frequently required maintenance services during your first four years or 80,000 kilometres of ownership

**Cadillac New Vehicle Limited Warranty\*** – which pays for all parts and labour costs that may be incurred to correct defects in material or workmanship during your first four years or 80,000 kilometres of ownership

**Powertrain Limited Warranty\*** – which covers all powertrain components for five years or 160,000 kilometres of ownership

**Cadillac Roadside Assistance\*** – which is available for five years or 160,000 kilometres throughout Canada and the United States should you require towing, fuel delivery, a jump start or help with a flat tire or lock-out situation

**Courtesy Transportation\*** – which provides you with shuttle transportation for daily service and an alternate car (or reimbursement for rental or other transportation expenses) for overnight scheduled maintenance or warranty repairs during your first five years or 160,000 kilometres of ownership.

\* Whichever comes first. Conditions and limitations apply. See dealer for details.

### ACQUISITION OPTIONS

In addition to the many exclusive privileges of Cadillac ownership, General Motors of Canada has created a range of supplementary support programs to enhance your ownership experience. Some of these programs assist you in purchasing the Cadillac of your choice. Others help protect you and your new Cadillac over the long term.

#### Purchasing:

- **Purchase Financing** – on-the-spot financing at your GM dealership††
- **The GM Card** – GM cardholders may redeem up to \$3500 GM Card® Earnings (subject to Vehicle Redemption Allowances) toward the Total Purchase Price on eligible new GM vehicles‡. For full program details please visit [thegmcard.ca](http://thegmcard.ca).

†† Subject to eligibility. ‡ Program subject to change.

#### Additional Ownership Programs:

- **GM Protection Plan (GMPP)** – the only extended service plan backed by the resources and commitment of General Motors. GMPP may be purchased at the time of sale or subsequently during the New Vehicle Limited Warranty period.‡‡

‡‡ Conditions and limitations apply.

#### Information Resources:

You can obtain more information about Cadillac vehicles and programs from your Cadillac dealer, or at these information centres:

- The Cadillac website at [cadillac.ca](http://cadillac.ca)
- The Cadillac Contact Centre at 1-888-446-2000 or (1-800-263-3830 for TDD users).

### A word about this brochure

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your Cadillac dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

### A word about assembly

Cadillac vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in Cadillac vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

### A word about corrosion

Cadillacs are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.

### Trademarks

The marks appearing in this Cadillac brochure including, but not limited to: General Motors, GM, Cadillac, the Cadillac badge, Cadillac Owner Privileges, CTS, V-Series emblem and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Magnetic Ride Control, StabiliTrak and Twilight Sentinel are trademarks of General Motors and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

OnStar and the OnStar emblem are registered trademarks of the OnStar Corporation.

TheftLock is a registered trademark of Delphi Automotive Systems.

Bose and Cabin Surround are trademarks or registered trademarks of the Bose Corporation.

Radio Data System (RDS) is a registered trademark of the U.S. National Association of Broadcasters.

The XM name and related logos are trademarks of XM Canada, Canadian Satellite Radio, Inc.

Apple and iPod are trademarks of Apple Computer Inc. registered in the U.S. and other countries.

Bluetooth is a registered trademark of Bluetooth SIG Inc.

Brembo is a registered trademark of Brembo S.p.A.

Recaro is a trademark of RECARO GmbH & Co.

- S – Standard.  
0 – Optional individually or in combination with other optional equipment.
- Included with automatic transmission only.
  - Included with available Luxury I Package.
  - Included with available Sport Package.
  - Includes Grade Braking and Performance Algorithm Shifting.
  - Includes steering wheel-mounted paddle shift controls.
  - Requires available Sport Package.
  - Included with available Performance Luxury Package.
  - Included with Preferred Equipment Group 1SH.
  - Requires available Recaro Performance Seat, includes sueded shifter.
  - Included with Preferred Equipment Group 1SH.

\* Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions.  
\*\* Installation of four winter tires recommended for winter driving conditions.  
† At time of print, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.  
†† Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.  
‡ All-season tires may not satisfy winter tire requirements in all regions of the country. Tires specifically designed for severe winter conditions and marked with the "winter tire" symbol  may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.

**DIMENSIONS**

16. Requires Preferred Equipment Group PEG 1SF.			
17. Included with AWD models only.			
* Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions.			
** All-season tires may not satisfy winter tire requirements in all regions of the country. Tires specifically designed for severe winter conditions and marked with the "winter tire" symbol  may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.			
† Installation of four winter tires recommended for winter driving conditions.			
†† At time of print, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.			
‡ Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

<sup>1</sup> – Available on CTS-V only.  
<sup>2</sup> – Available on CTS Sedan with CTS Special Appearance Package.  
<sup>3</sup> – Not available on CTS-V.  
<sup>4</sup> – Tintcoat is a premium two-layer paint application with the addition of a tinted clearcoat, lending the finish an extra depth and brightness.  
<sup>5</sup> – Tricoat is a meticulous three-layer process that results in a dramatic hue-shifting colour reminiscent of a show-car finish.  
<sup>6</sup> – ChromaFlair® uses advanced light-interference technology and prismatic metallic pigments to create an intense, deeply lustrous colour.  
 C = Coupe, S = Sedan, W = Wagon

EXTERIOR COLOURS

The exterior and interior colours in this brochure are as close to the actual vehicle production colours as the printing process allows. For more accurate colour samples, ask your Cadillac sales consultant to see the dealer showroom vehicle colour display.
