

2012

Pilot

THIS IS THE HONDA PILOT. It's more spacious than most. It's more impressive than ever. It's got adventure for eight written all over it. And it's been recharged for 2012. A sophisticated new exterior design with improved aerodynamics is complemented by upgraded interior features and enhanced engine performance, providing incredible fuel economy. You can bank on the Variable Cylinder Management® (VCM®) system to take you on the longest of hauls, while the standard integrated trailer hitch means you're ready to tow. Its MacPherson strut front with multi-link rear suspension makes it handle with car-like precision and rock-like stability, while its smart, storage-wise versatility allows you to pack more into your Pilot than you can into a single weekend. This is the 2012 Honda Pilot. This is going to be fun.

EXTERIOR

THIS IS PILOT STYLE. As bold as it is beautiful and as rugged as it is refined, the Pilot doesn't just stand out – it breaks free. Newly refined for 2012, its sophisticated exterior features beveled aerodynamic lines and available body-coloured heated folding power side mirrors with integrated turn signals. And with 18" alloy wheels now standard, you're ready to roll from off the road right back on. Take one look and it's easy to see the Pilot was designed to offer you the best of many worlds in one stylish SUV.

ENGINE / TOWING

THIS IS PILOT CAPABILITY. What makes the Pilot's available Variable Torque Management™ 4-wheel drive system (VTM-4®) unique? It's simple. Unlike some systems that only engage when the wheels actually slip, the VTM-4 system anticipates the need for all-wheel drive and automatically engages the rear wheels whenever the vehicle is accelerating. All you have to do is enjoy the confidence that comes from outstanding traction, stability and control in all kinds of conditions. And what makes the Pilot's Hill Start Assist so great? It's easy. It helps prevent the Pilot from rolling when you switch from the brake to the accelerator pedal while the vehicle is stopped on an incline greater than 10 degrees. And that, combined with its unit-body platform, fully independent suspension and integrated trailer hitch, is where the Pilot with VTM-4 gets its available 4500 lb. (2045 kg) towing capacity.

REAR STORAGE

THIS IS PILOT VERSATILITY. What makes the Pilot perfect for almost any size family outing? For starters, it has an available power tailgate for easy loading and flip-up tailgate glass for quick cargo access. But it also has a 60/40 split-folding second-row seat and a 60/40 split-folding third-row bench seat, so it can go from comfort zone to cargo carrier in seconds. And there's a massive amount of storage in the centre console and 71 litres of cargo space in the rear storage well. Plus, the Pilot can flat-carry items up to four feet wide without tilting or scratching surfaces.

INTERIOR

THIS IS PILOT LUXURY. More than just a refined, spacious place where elbow space and legroom abound, the Pilot's interior was designed to take the driver's and seven passengers' comfort levels to new heights, lengths and widths. New for 2012, the upgraded instrument panel has cleaner lines, richer textures and a revised button layout to give the cabin an air of modern sophistication, while the available Honda DVD Rear Entertainment System with 9-inch display, Bluetooth® Audio and 10-speaker 5.1 Surround Sound Theatre Mode gives the interior an air of awesome. And for luxury of a more practical nature, the available leather-wrapped shift knob is mounted on the dash to allow room for the extra-large multi-functional centre console storage area.

If it's adventure you're after, you'll find it faster using the Pilot's available Honda Satellite-Linked Navigation System™ with trilingual Voice Recognition and multi-view rear camera*. Responding to over 800 verbal commands, it can guide you with voice prompts and a moving-map display to your destination. To make every ride more personal, opt for the newly available i-MID. You can upload personal photos as wallpaper background, browse songs in your handheld device's music library, and access Bluetooth® HandsFreeLink™ to stay in the loop no matter how far you go. And when it comes to turning around and heading for home, there's a built-in rearview camera* that provides you with a clear picture of what's behind before you back up.

*Does not replace the driver's responsibility to exercise due care while driving.

SEATING

FOR THE PERFECT BALANCE OF FORM AND FUNCTION, ALL YOU HAVE TO DO IS TAKE A LOOK INSIDE THE PILOT. Its form is felt in the available heated front seats and in the driver's seat with available 10-way power adjustment and power lumbar support. Plus, there are three rows of very form-fitting seats: two front bucket seats and two rows of

three-person bench seats. Function-wise, the newly standard tri-zone climate control system allows passengers to choose their own temperature level, not to mention their own level of comfort. The theatre-style design of the second- and third-row seats offers excellent sightlines, plenty of legroom and easy access. So whether you're into form or function, you'll experience both perfectly in a Pilot.

PERFORMANCE

THIS IS PILOT PERFORMANCE. This is the highest fuel economy available in a three-row, 8-passenger SUV. But there's more to the Pilot than incredible fuel-efficiency, it also knows when you need 250 horses of power and when you don't. That's the innovative thinking behind its Variable Cylinder Management® (VCM®) system. To help further increase the fuel efficiency of the Pilot's 3.5-litre, i-VTEC® V6 engine, the VCM system can operate on three, four or all six cylinders. It's performance built to suit the way you live and the way you drive.

Depending on whether you're accelerating, cruising or idling, the VCM system intuitively activates or deactivates the operating cylinders. When you need maximum horsepower, the engine operates on all six cylinders. When you need moderate horsepower, the engine can operate on four. And when horsepower isn't required, the system can operate on three cylinders. The result: 250 hp and 253 lb.-ft. of torque for towing or passing and increased fuel efficiency when cruising or idling.

Plus, the Pilot's 5-speed automatic transmission has been engineered to enhance fuel efficiency even more, with features such as extra-wide gear ratios for good low-end response and comfortable highway cruising and Honda's Grade Logic Control technology that's designed to hold the vehicle in a lower gear for improved hill climbing or descending performance.

Pilot

PILOT LX 2WD

- 250-hp, 3.5-litre, 24-valve, SOHC, i-VTEC® V6 engine
- 5-speed automatic transmission with Grade Logic Control
- 18" alloy wheels
- 4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) and Brake Assist
- 8-passenger seating
- 12-volt power outlets
- 60/40 split-folding second-row seat and 60/40 split-folding third-row bench seat
- 229-watt AM/FM/CD audio system with MP3/Windows Media® Audio playback capability, 2 GB CD library and 7 speakers including subwoofer
- Active Control Engine Mount (ACM) system
- Active front seat head restraints
- Active Noise Cancellation™ (ANC)
- Advanced Compatibility Engineering™ (ACE™) body structure
- Dual-stage, dual-threshold front airbags (SRS)
- Flip-up tailgate glass
- Body-coloured door handles
- Body-coloured side mouldings
- Front and rear air conditioning system
- Front side airbags with passenger-side Occupant Position Detection System (OPDS) and three-row side curtain airbags with rollover sensor
- HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface
- Heated folding power side mirrors
- Integrated trailer hitch
- Maintenance Minder system
- Exterior temperature indicator
- MP3/auxiliary input jack
- Steering wheel-mounted audio controls with illumination
- Tri-zone automatic climate control with air-filtration system
- Passenger's seat with 4-way adjustment
- Second-row automatic HVAC controls
- Power windows with auto-up/down driver and passenger window
- Remote entry system
- Steering-wheel mounted cruise control
- Tinted glass
- Tire Pressure Monitoring System (TPMS)
- Variable Cylinder Management® (VCM®)
- Vehicle Stability Assist (VSA®) with Traction Control

PILOT LX

Adds to or replaces LX 2WD features:

- Towing capacity – 2045 kg
- Variable Torque Management™ 4-wheel drive system (VTM-4®)
- Heavy-duty automatic-transmission cooler

PILOT EX

Adds to or replaces LX features:

- Body-coloured heated folding power side mirrors
- Chrome exhaust finishers
- Driver's seat with 10-way power adjustment and power lumbar support
- Fog lights
- Auto-on headlights
- Roof rails
- Heated front seats
- HomeLink® remote system
- USB device connector
- Second-row folding centre armrest
- Security system
- Rear camera with display in rearview mirror

PILOT EX-L

Adds to or replaces EX features:

- Auto-dimming rearview mirror
- Available 110-volt power outlet
- Available Honda DVD Rear Entertainment System with 9-inch display, integrated remote control and wireless headsets with personal surround sound
- Conversation mirror
- Leather-trimmed interior
- Leather-wrapped steering wheel
- Passenger's seat with 4-way power adjustment
- Power moonroof with tilt feature
- Power tailgate
- XM® Satellite Radio*

*Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.xmradio.ca.

PILOT TOURING

Adds to or replaces EX-L features:

- 110-volt power outlet
- 650-watt AM/FM/CD Premium audio system with MP3/Windows Media® Audio playback capability and 10 speakers including subwoofer and 5.1 Surround Sound Theatre Mode
- Body-coloured front and rear parking sensors
- Body-coloured heated folding power side mirrors with memory and integrated turn indicators
- Chrome side mouldings
- Heated second-row seats (outboard positions only)
- Honda DVD Rear Entertainment System with 9-inch display, integrated remote control and wireless headsets with personal surround sound
- Honda Satellite-Linked Navigation System™ with trilingual Voice Recognition, multi-view rear camera* with onscreen display guidelines, wallpaper function, Song By Voice™ and illuminated steering wheel-mounted controls
- Integrated second-row sunshades
- Rear cargo net
- Wired for trailer connection

*Does not replace the driver's responsibility to exercise due care while driving.

Pilot LX

LESS PAPER TODAY MEANS MORE BLUE SKIES TOMORROW.

At Honda, we have always considered it our responsibility to do our part to help preserve the global environment, for today and for generations to come. This is an environmental vision we call *Blue Skies for our Children*, and with this vision in mind, we felt it was time to make a change for the greater good of the planet. That's why Honda Automotive has decided to print fewer paper brochures and start encouraging people to visit honda.ca to experience an interactive approach to our cars and company. Yes, it will take some time getting used to, but we think the end result will be worth it for everyone and for the future we all share.

BLUE SKIES FOR
OUR CHILDREN

WE'RE HERE. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will keep your vehicle in terrific shape. Honda accessories installed at the time your vehicle is purchased are covered under the 3-year/ 60,000-km limited warranty. If you need more information or assistance, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to "design" your Honda and personalize it with items from a list of quality accessories.

Quality Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

We're ready to help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or anyone else driving your vehicle, 24 hours a day, 7 days a week, anywhere in Canada or the continental U.S. Coverage is for 3 years, unlimited distance and includes towing, battery boosting and lockout assistance plus many other helpful services. Ask your dealer for more information.
