2012 ELANTRA

2012 ELANTRA

GIVE YOUR EXPECTATIONS A BIG, FAT RAISE.

Carmakers typically design new models by taking aim at the head of the class. At Hyundai, we set our sights higher – we aim for a class above the rest. And when you consider everything the well-appointed, beautifully designed 2012 Elantra has to offer, one word comes to mind: Bullseye.

Take safety for instance. Six airbags, 4-wheel disc brakes and Electronic Stability Control come standard on all models. Performance is covered too. With a lightweight 4-cylinder engine, the Nu DOHC, 16-valve design delivers exceptional fuel economy while still packing an impressive 148 hp. Then there are the features. Plenty of them. From the available 7" navigation system, steering wheel-mounted audio controls, proximity key entry with electronic push button start, and heated rear seats, you get the choice of features normally found only in a luxury class.

In so many ways, the 2012 Elantra offers more than you might expect. At a price lower than you might imagine. Here's to high expectations.

**A SHAPE INSPIRED BY NATURE.
AND REFINED BY SCIENCE.**

A flowing sculpture seemingly carved by the wind conveys a feeling of movement, even when standing still. Aerodynamic lines gracefully arc over the rear wheels and flow into striking wraparound taillights. In every detail, Elantra stands out from the conservative designs of traditional compact cars, speaking a unique visual language inspired by the forces of wind and water.

THE ART OF LIVING LARGE.

Slip behind the steering wheel and the first thing you're likely to notice is how naturally the 6-way adjustable front seats conform to the contours of your body. As you stash your beverage and sunglasses in their seamless storage areas, watch as your eyes glide along Elantra's fluid interior lines and come to rest on a pair of large, highly-legible gauges in the centre of the instrument panel. A modern, ergonomically-refined centre console allows your fingertips to quickly locate any button or knob they desire, while available steering wheel-mounted audio and cruise controls let you keep your hands on the task of driving as you choose your tunes, select your speed...and simply go. Wherever the road leads you.

AN EFFICIENT PERFORMER.

Designing an engine clean and efficient isn't easy, especially when we never once considered sacrificing performance for fuel economy. The Nu DOHC, 16-valve design packs more power and mid-range punch into a lighter, tighter 4-cylinder package. The 2012 Elantra is equipped with an aluminum alloy engine block to reduce engine weight and improve fuel economy. We've also accelerated the fun factor by coupling a two-step Variable Induction System and Dual Continuously Variable Valve Timing for optimal engine response (with minimal emissions) at both low and high rpm. The ultra-efficient 148 hp engine burns fuel so cleanly that it's a certified Ultra-Low-Emission Vehicle (ULEV).

ENOUGH STANDARD SAFETY FEATURES TO CHANGE THE STANDARD.

Six airbags. Electronic Stability Control. 4-wheel disc brakes. When you consider everything that comes standard on the 2012 Elantra, it's clear that Hyundai places enormous value on safety. Elantra is one of the very few in its class to offer 4-wheel disc brakes with ABS on every model. You can relax knowing that an arsenal of advanced electronics like Electronic Brake-force Distribution and Vehicle Stability Management are optimizing the car's handling in all driving conditions. Best of all, travelling with this technical entourage won't cost you a fortune.

ACCESSORIES

CARGO TRAY. Add years to the interior of your Hyundai by protecting it from spills and messy loads with a durable, custom-fit cargo tray.

RUBBER FLOOR MATS. Protect the interior of your Hyundai from everyday dirt and debris with custom-made floor mats. Remove carpet mats prior to installation.

ROOF RACKS. This durable, quick-locking roof rack system lets you transport cargo easily, without sacrificing interior room. Remove when not in use.

MUD GUARD KIT. Custom-fit mud guards keep the dirt and debris of everyday driving where it belongs.

PLASTIC HOOD PROTECTOR. Prevent dents and scratches caused by road and vehicle debris with an attractive plastic hood protector.

REAR BUMPER PROTECTOR. Protect the finish on your bumper from chips and scratches when loading and unloading the cargo area with this durable, custom-fit rear bumper protector.

SIDE VISORS. Sleek and sporty, these side visors let you enjoy fresh air even when it's raining.

REAR SPOILER. Add a touch of style and sportiness to your vehicle with an aerodynamic rear spoiler. It also incorporates a brake light for added visibility and safety.

ACCESSORY FRAME. An accessory frame makes it quick and easy to attach hitch-mounted cargo equipment, such as bike and ski racks. Includes end cap. Frame not intended for towing.

CARGO NET. A custom-fit cargo net ensures everything you're transporting remains organized and in place by preventing items from sliding around.
