#### PERFORMANCE

### POWER AND CONTROL

*It takes a truly powerful engine to power something as large as the Santa Fe XL. The strength comes from Hyundai's 3.3L GDI V6 engine, delivering 290 horsepower and 252 lb-ft of torque with a confident 5000 lbs. towing capacity. The best part about the performance is just how efficient the power is. Mated to a 6-speed automatic transmission with SHIFTRONIC® manual shift mode, with the press of a button you can switch the Santa Fe XL into Active ECO mode to modify engine and transmission control to help improve fuel efficiency.*

#### INTERIOR

### EXTRA LARGE SPACE

*When it comes to space and versatility, this 7-seater aims to please. The intelligent design allows you to transform the Santa Fe XL from the ultimate comfort zone to the ultimate cargo hauler. Reclining second row seats spilt-fold 40/20/40, feature remote release from the cargo area and slide forward for flexible storage options, while third row seats spilt-fold 50/50 to further enhance cargo utility. All this sounds even better with the available power lift tailgate that makes it that much more convenient to load and unload cargo. And while the Santa Fe XL adapts to your lifestyle needs, it also enhances your travels with features like standard Bluetooth®, heated front seats, YES® Essentials stain protection for cloth seating, and available memory driver's seating – just one more control at your fingertips.*
