

**NEW THINKING.
NEW POSSIBILITIES.**

Every year Hyundai vehicles continue to exceed expectations, surprising and delighting critics and car owners alike. Challenging the status quo is the essence of progress, and it's exactly why Hyundai is an emerging leader in the automotive industry. It's this striving for the highest quality and innovation in engineering that keeps us propelling forward. Focused on building the most innovative technology in the industry – this is how we create New Thinking. New Possibilities.

***A BOLD STATEMENT
IN STYLE.***

Hyundai's compact CUV, the 2013 Tucson, enters with a modern design that instantly sets it apart as the most distinctive, visually appealing vehicle in its class. The first design to be conceived and engineered at Hyundai's new design centre in Frankfurt, Germany, the Tucson makes a bold statement about itself and those who drive it. With sleek, modern styling and highly efficient drivetrains, we've done no less than change the game for CUVs. Explore the 2013 Tucson today.

AN ANTIDOTE TO BORING DESIGN.

The 2013 Tucson is an exhilarating exercise in design. Its fluidic, assertive, sporty lines stem from a deliberate desire to set it apart in a world of me too CUVs. A sleek window line begins at the side view mirrors, rising back to meet the line of the roof extending rear spoiler. Sculptured hood creases reach down from the steeply raked windshield (for lowered cabin noise) to the hexagonal grille, then stretch back through the double set shoulder lines, extending from headlight to tail light. Styling details, such as the roof mounted antenna, wrap-around tail lights and side sill moulding, complete the overall impression of an athletic, lean, solid performer.

A LOOK THAT INSPIRES ADVENTURE.

When we've raised the bar so high on exterior design, you know the interior of the 2013 Tucson will be something special. Design and style remain paramount, from the bold 4 spoke steering wheel and X design dashboard, to the drawing lines from the driver and passenger sides through the centre stack controls, to the spacious 728 litres of cargo space at back. The intelligent design is safer too. A solid, organ style accelerator pedal improves comfort and ensures that nothing can be lodged beneath it, available steering wheel audio controls let you control the music without taking your hands off the wheel, and a convenient one touch triple turn signal makes it easier to alert other drivers during lane changes and in parking lots.

Not exactly as shown.

*DON'T TAKE
CHANCES
WITH SAFETY.*

The 2013 Tucson's standard safety features are proof of Hyundai's commitment to putting you first. Hyundai's innovative Hillstart Assist Control – to minimize backroll on steep ascents – and Downhill Brake Control – to maintain vehicle control and speed on steep descents – both give you greater control and safety and come standard on every Tucson. Also standard is an Anti-lock Braking System with Electronic Brake-force Distribution and Brake Assist plus Vehicle Stability Management, Electronic Stability Control and Traction Control System² – technologies that help you control the vehicle in adverse conditions.

EFFICIENCY & PERFORMANCE IN HARMONY.

The 2013 Tucson's performance and efficiency are no less revolutionary than its design. The Tucson comes equipped with either a 2.0L (165 hp) or 2.4L (176 hp) 4-cylinder engine, both maximizing power while providing impressive fuel efficiency. What's more, the engines are mated to a 5-speed manual transmission (standard on L) or an optional 6-speed automatic with SHIFTRONIC®. And Tucson's standard Eco-Indicator (MT) and Active ECO System (AT) helps you increase your own efficiency by suggesting optimum shift points (MT) and tuning engine and transmission performance for maximum fuel economy (AT).

Add Allure with Alloys.

The 2013 Tucson L & GL come standard with 17" steel wheels and attractive metallic covers. For a sportier look, 17" 10-spoke alloys are standard equipment on the GLS and aggressive 18" 10-spoke alloys standard on Limited models.

Let the Sun Shine In.

Catch the rays or shooting stars with Tucson's panoramic sunroof (standard on Limited models). It features a fixed glass roof section at back and a traditional pop-up/slide section at front, with UV blocking all over.

The Safety of Bluetooth® Hands Free®.

The 2013 Tucson helps you make safer driving a priority with available Bluetooth® Hands Free® Phone System and steering wheel-mounted Bluetooth® controls.

Responsive Handling and Ride.

The Tucson was designed in Europe and its handling and suspension show their heritage. Motor-driven power steering provides responsive handling and fuel savings, while the independent suspension offers agility and a precise ride.

Convenient Touch-screen Navigation.

Get where you're going with concise maps and directions thanks to an available touch-screen navigation system® with rearview camera. This 6.5" high-resolution LCD system helps you find your way, while making it safer and easier to back up (Limited with Nav. model).

**THERE'S NO
SUBSTITUTE
FOR PEACE
OF MIND.**

The quality of our vehicles is equally matched by the quality of our warranty. Rest assured we stand proudly and confidently behind our vehicles to give you the ultimate peace of mind with a 5 year/ 100,000KM comprehensive limited warranty, one of the best backed warranties in Canada. And now we also provide a Road Trip Planner service, helping you prepare worry free trips. You're covered with Hyundai.

Active Head Restraints.

Standard on the Tucson are front active head restraints. In the event of a rear-end collision, the restraints move forward before your head moves back, providing added protection against whiplash. As well, adjustable head restraints – and 3-point seatbelts – are standard on all seating positions.

Airbag Protection All Around.

Every Tucson is equipped with six airbags¹, including dual front airbags, front seat-mounted side-impact, and two side-curtain airbags for front and outboard rear passengers which are equipped with rollover sensors to ensure they remain inflated during a rollover.

ACCESSORIES

Front Bumper Guard.

Add style to your vehicle and protect the front bumper with a polished stainless steel bumper guard.

Mud Guards.

Custom-fit mud guards keep the dirt and debris of everyday driving where it belongs.

Side Steps.

Stylish and functional, polished stainless steel side steps will add a rugged look to your vehicle.

Plastic Hood Protector.

Prevent dents and scratches caused by road and vehicle debris with an attractive plastic hood protector.

Running Boards.

Getting in and out of your vehicle is easy with a set of durable running boards.

All Weather Floor Liners.

Protect the interior of your Tucson with the most advanced floor protection available. The floor liner features raised edges to protect your carpet from dirt, rain and snow and will protect your investment for years to come. Remove carpet mats prior to installation.

Trailer Hitch Kit.

Designed to meet all your towing needs, a Hyundai hitch can accommodate a wide variety of hitch-mounted accessories. Kit includes the trailer hitch, ball mount and end cap. Chrome ball shown not included.

Side Visors.

Compliment your vehicle with a sleek and durable set of side visors that will help reduce glare while providing you with fresh air. Custom made for your vehicle using high quality reinforced tinted acrylic plastic, these visors will look good on your vehicle for years to come.

Roof Racks.

This durable, quick-locking roof rack system lets you transport cargo easily, without sacrificing interior room. Remove when not in use.

Cargo Tray.

Add years to the interior of your Hyundai by protecting it from spills and messy loads with a durable, custom-fit cargo tray.
