

2013 LANCER RALLIART

HIGH PERFORMANCE ON DEMAND

Inspired by its racing heritage, the 2013 Lancer RALLIART is ready to rumble. Loaded with world-class, automotive innovations like precise handling technology, outstanding safety features and revolutionary suspension, its high performance pedigree is ready to pounce into fast-paced action on demand. Its lightweight, turbocharged and intercooled MIVEC engine is paired with a Twin Clutch Sportronic Shift Transmission (TC-SST) to make it a formidable force on the road, while its low centre of gravity, vented aluminum hood, distinctive grille and aerodynamic body intensify its agility and prowess. Muscular and assertive, RALLIART reverberates with raw power as you dial in the performance you want every time you fire it up, which is guaranteed to make your everyday drive feel like you're always crossing the finish line.

▶ TURBOCHARGED EXCITEMENT

The RALLIART houses the 4B11T 2.0-litre turbocharged DOHC 16 valve MIVEC engine. For action-packed performance and adrenalin-charged excitement, its 237 horsepower and 253 lb.-ft of torque arouses endless exhilaration with every drive.

RECARO® SPORT SEMI-BUCKET SEATS

Upholstered in leather and sueded sport fabric, these aggressively bolstered seats are designed to provide exceptional support and comfort through any corner. The seating choice for high-performance driving. Available in the Premium Package.

18-INCH ALLOY WHEELS

Lightweight 18-inch alloy wheels further embellish the RALLIART's sporty nature and add to its already aggressive stance. And with wider rubber gripping the road, their suction-like tread increases traction on any road surface and under almost any condition.

HIGH PERFORMANCE AUDIO

Redefine your sound experience with the available Rockford Fosgate® premium sound system. High-performance audio explodes with 710 watts of power that floods the entire interior with crystal-clear sound through nine, specifically-tuned speakers including a 10" subwoofer. And with six months pre-paid SIRIUS Satellite Radio, you will have the best in audio entertainment. Available on the Premium Package.

BLUETOOTH® 2.0 HANDS-FREE PHONE

Nothing integrates your compatible cell phone with your audio system better than Bluetooth® 2.0 hands-free cellular phone interface. The system employs voice recognition technology and steering wheel-mounted buttons for safer hands-free operation. Connect your iPod®, iPhone or MP3 player with the available USB audio to enjoy your music library in premium quality. Standard on the RALLIART.

TWIN CLUTCH SPORTRONIC SHIFT TRANSMISSION (TC-SST)

With TC-SST, you get an automated manual transmission to match the driving efficiency and fun to drive experience of a traditional manual transmission. This allows you to shift up and down through the gears faster than a traditional manual transmission, resulting in astonishing acceleration and absolute control. Choose automatic mode that shifts more quickly and smoothly than any human driver could achieve. And for a more hands-on approach, engage the magnesium paddle shifters mounted on the multi-purpose steering wheel for unadulterated driving excitement.

BRILLIANT LIGHTING

Setting off the RALLIART's bold front-end are its sharply angled headlights. Both aesthetically pleasing and dramatic in design, the available auto on/off Xenon High Intensity Discharge (HID) headlamps brighten up more of the road quickly, while using less energy.

HIGH PERFORMANCE, EVERYDAY

Once the domain of professional rally drivers, now everyday performance and handling are yours in the 2013 Lancer RALLIART. Its advanced technology guarantees safety and precision through the most challenging manoeuvres, both on and off the road. Sensibly equipped with Anti-Lock Braking (ABS) and Electronic Brake-Force Distribution (EBD), the RALLIART's braking system is designed to improve control especially when you need it the most. Behind the wheel, you'll experience the thrill of driving while doing so in upscale comfort. Available bolstered, body-hugging Recaro® sport semi-bucket seats place you in a sports-oriented cockpit. The steering wheel, lifted from the Lancer Evolution, houses an array of controls, ensuring fingertip convenience. And with its magnesium-alloy paddle shifters, you'll not only change gears like a pro, but you'll also do it in true rally style, everyday!

ULTIMATE CONTROL

All-Wheel Control (AWC) with Active Centre Differential (ACD) is a revolutionary technology standard on the Lancer RALLIART. By continuously monitoring the road, AWC transfers power to all four wheels giving superior driving performance and enhanced traction under various road conditions, while ACD intelligently varies torque to either the front or rear axle as needed. Three selectable modes let you adjust AWC to suit whatever the road throws in your path.
