

2014 JEEP PATRIOT

**Jeep**<sup>®</sup>

## 2014 JEEP® PATRIOT

Break through to a new way of living and driving with a vehicle that inspires spontaneity and exploration. Not only is Patriot the most affordable SUV in Canada<sup>(1)</sup> and incredibly fuel-efficient, but it also boasts Best-in-Class off-road capability<sup>(2)</sup> and Best-in-Class rear-seat legroom and cargo capacity<sup>(3)</sup>. It's reassuring to know that, with Patriot, you not only have the ability to tackle your next adventure with the people and gear that matter most, but you can also do it at a great value.

## WITH PATRIOT, THE POSSIBILITIES ARE ENDLESS.

### TRAIL RATED®

The available Trail Rated fortitude of Jeep® Patriot gives you the ability to courageously take on the road, trail, or stream with confidence. This badge of honour is only bestowed after mastering a series of gruelling tests on the toughest terrain in five distinct categories: traction; articulation; water fording<sup>(4)</sup>; manoeuvrability; and ground clearance.

### FREEDOM DRIVE I®

When snow, muddy roads, or steep gravel describes your route, opt for Freedom Drive I. The active, full-time 4WD capability with LOCK mode features an Electronically Controlled Coupling (ECC), which constantly monitors wheel slippage and transfers torque to the axle that can use it most. In tough conditions, the system can be locked 50/50 front/rear for added low-speed capability and control.

### FREEDOM DRIVE II®

This available system gives Patriot its Trail Rated capability with features like full-time 4WD with LOCK mode, Off-Road mode with Hill Descent Control, and brake traction control. Torque is adjusted on-demand for added fuel efficiency. Its all-weather capability expertly handles more difficult off-road situations, as well as deeper snow, mud, and up to 48 cm (19 inches) of water.<sup>(4)</sup>

### ALL-NEW SIX-SPEED AUTOMATIC TRANSMISSION

Pair the available new PowerTech six-speed automatic transmission to either of Patriot's capable engine offerings for a smoother, quieter ride whether you're travelling on road or trail. This new six-speed has a low first gear for quicker takeoffs and a tall top gear for relaxed highway cruising. A stepped shift schedule across all six gears is designed for optimal city fuel economy. Its fill-for-life design helps reduce maintenance costs and environmental impact.

### CONTINUOUSLY VARIABLE AUTOMATIC TRANSAXLE II (CVT2)

This available system boasts a low range that provides the torque multiplication needed for water fording<sup>(4)</sup>, steep grades, and crawling slowly in off-road events. Includes Off-Road mode that delivers an off-road-capable 19:1 crawl ratio.

### BEAUTIFUL ON THE INSIDE AS WELL

An atmosphere of soft-touch surfaces, upscale fabrics, available premium leather-faced seats, and rich instrument panel accents make sinking into Patriot's interior an escape from the everyday. Unexpected conveniences, such as the illuminated front console cup holders and steering wheel-mounted controls, including standard cruise control and available radio, hands-free communication<sup>(5)</sup> and navigation,<sup>(6)</sup> make every ride more enjoyable.

### CRUISE IN COMFORT

Up to three backseat passengers will enjoy the ride just as much as those up front thanks to Best-in-Class legroom.<sup>(3)</sup> Configure the standard rear 60/40 split-folding seats to carry the perfect combination of guests and gear. When hauling bigger loads, fold all passenger seats down for 1795 L of cargo room.

Properly secure all cargo

## NATURALLY UPSCALE

Brimming with premium features and appointments, heading out with Patriot North Edition will always take you in the right direction. Deep-tint sunscreen glass and air conditioning help keep you looking and feeling cool while foldaway, power heated mirrors help maintain a clear view when the cold weather appears. Remote keyless entry allows quick and easy access to premium cloth seats, power windows and locks, A fold-flat front-passenger seat, and reclining rear seats. The North Edition arrives ready to serve, with unique style, premium features, and legendary capability.

## NORTH ALL-SEASON GROUP

Don't let the elements dictate your comfort or your mood. The North All-Season Group offers the warmth of heated front seats and the convenience of audio controls mounted on a luxurious leather-wrapped steering wheel, in addition to 17-inch aluminum wheels. Remote start is added to the group with the automatic transmission. Available on both 4x2 and 4x4 models.

## PREMIUM SOUND

Let the love of music and the great outdoors guide you. Opt for the Sun/Sound Group for fresh air via the sunroof and crystal-clear sound from the premium audio system featuring 9 Boston Acoustics® speakers including subwoofer and two articulating liftgate speakers. You'll also enjoy SiriusXM Satellite Radio,<sup>(7)</sup> which features favourite song/artist alerts, game alerts, and replay. Your first year of service is included.

**SPORT** As Canada's most affordable SUV,<sup>(1)</sup> Patriot Sport comes loaded with a wide cache of standard equipment. Technology serves you well and keeps you safe with standard Electronic Stability Control,<sup>(8)</sup> advanced multistage front and side-curtain air bags,<sup>(9)</sup> as well as new supplemental front-seat-mounted side air bags and active front head restraints<sup>(10)</sup> to name a few. The 2.0L I-4 engine is mated to a five-speed manual transmission and offers 4x2 fuel economy of up to 6.6 L/100 km (43 mpg) highway\* that's typically found in many compact cars.

**LIMITED** Designed to indulge. Patriot seamlessly blends high style and value. 17-inch aluminum wheels, bright accents on the front and rear fascia and a bright exhaust tip add shine. Inside, Limited's cabin aims to please with soft-touch surfaces, leather-faced seating, heated front seats, automatic temperature control, and an Electronic Vehicle Information Centre. The six-way power driver's seat allows for customized comfort when listening to Limited's standard SiriusXM Satellite Radio<sup>(7)</sup> and its wide world of entertainment, talk, and sports channels.

# A HERO TO HELP GUARD YOUR LIFE ON THE ROAD

Offering more than 30 safety and security features, it's safe to say Patriot has your front, sides, and back. The 2013 Jeep Patriot was awarded a Top Safety Pick by the Insurance Institute for Highway Safety (when equipped with side-seat air bags).

## TIRE PRESSURE MONITORING.

Embedded sensors continuously monitor tire pressure and will immediately notify the driver when the pressure is too low or too high. Standard.

## HALOGEN LIGHTING.

These bright sources of light improve down-road visibility at night or during inclement weather. Headlamps are standard; fog lamps are available.

## HEATED POWER MIRRORS.

Melt snow and ice off your sideview mirrors as you warm up your interior. This available feature also helps to keep your mirrors ice-free as you drive.

## ELECTRONIC STABILITY CONTROL (ESC).<sup>(9)</sup>

An advanced system designed to assist drivers in maintaining control of their vehicle at all times. It integrates a four-wheel antilock brake system (ABS) with hydraulic Brake Assist, all-speed traction control, and Electronic Roll Mitigation to constantly monitor driver input against the vehicle's actual course. When needed, the system automatically helps provide braking to the appropriate wheel(s) and reduces engine power when overly sharp steering and/or impending wheel lift is detected. Standard.

## ADVANCED MULTISTAGE FRONT AND SIDE-CURTAIN AIR BAGS.<sup>(9)</sup>

These standard air bags provide nearly instantaneous occupant protection by matching air bag output to crash severity.

## NEW STANDARD FRONT-SEAT-MOUNTED SIDE AIR BAGS.<sup>(9)</sup>

Each side seat air bag has its own sensor to autonomously trigger the air bag on the side where the impact occurs.

## HILL START ASSIST (HSA).

HSA helps prevent Patriot from rolling when starting on an up- or downhill gradient by holding the vehicle stationary for two seconds after the driver's foot is removed from the brake pedal, allowing time to apply the throttle. Standard with manual transmission, and included with the Trail Rated<sup>®</sup> Freedom Drive II<sup>®</sup> Off-Road Group.

## ACTIVE FRONT HEAD RESTRAINTS.<sup>(10)</sup>

In the event of a rear-end collision, these standard head restraints move forward and upward to decrease the space between the head restraint and the occupant's head, thereby helping to reduce the chance of injury.

## SENTRY KEY<sup>®</sup> ANTITHEFT ENGINE IMMOBILIZER.

This standard system disables the engine when the encoded key is not within range. Operation is automatic, regardless of whether the vehicle is locked or unlocked.

**uconnect**  
**SIMPLY INTUITIVE.**

>> **PHONE.** Talking on the phone has never been easier — or more responsible. Uconnect Phone is the in-vehicle, voice-activated communication system that allows you to talk on your Bluetooth<sup>®</sup> compatible phone virtually hands-free.<sup>(5)</sup> This clever system is also smart enough to synchronize with your Bluetooth compatible phone's address book<sup>(11)</sup> — up to 1000 entries — every time you get into your vehicle.

>> **VOICE COMMAND.<sup>(9)</sup>** It simplifies driving by letting you keep your eyes on the road and your hands on the wheel. Use your voice to select AM/FM radio stations and SiriusXM Satellite Radio<sup>(7)</sup> channels, or make calls. Select navigation<sup>(6)</sup> destinations and record voice memos. This smart system technology can also be trained to better recognize your voice and can understand commands in English, French, and Spanish.

>> **ENTERTAINMENT.** You'll have several ways to access audio. Get the sound going via CDs/DVDs, MP3s, remote USB port, auxiliary input jack, hard-disc storage, SiriusXM Satellite Radio<sup>(7)</sup> (your first year of service is included) and Bluetooth Streaming Audio.
