

# 2014 OUTLANDER

## ALL NEW STYLE, ALL NEW TECHNOLOGY, ALL NEW ADVENTURES

Introducing the All-New 2014 Mitsubishi Outlander, the most technologically advanced, fuel-efficient rendition of this ultra-versatile Sport Utility Vehicle ever. The Outlander's sleek, redesigned wide and stable physique, enhanced by a bold character line running the length of the vehicle, luxurious chrome accents and available 18" alloy wheels, immediately makes a statement with eye-catching styling and modern design. Powered by a Smart MIVEC 2.4L engine that offers class-leading fuel economy with uncompromised power and performance. A pure driving experience that will leave you wanting to start a new adventure every day.

WORLD'S MOST ADVANCED ALL-WHEEL CONTROL SYSTEM\*

The 2014 Outlander offers the World's Most Advanced All-Wheel Control system. Because not only does it transfer power to the rear wheels when the front wheels lose traction (and vice versa), it also transfers power from side to side at the front. So you're in control of the road whenever you're on – or off of it.

## INTELLIGENT INTERIOR

The 2014 Outlander's sleek, redesigned interior is loaded with advanced functionality and premium appointments such as the available 6.1" LCD touch panel display audio with rear-view camera, soft-touch controls, dual zone automatic climate control and push-button engine start-stop, to name a few. The sophisticated interior provides abundant room for up to seven people and plenty of space for cargo. Roomy enough for a weekend adventure and boasting an exceptionally sound-proof cabin, you will be in total comfort and fully enjoy the USB, Bluetooth® hands-free phone interface and streaming audio connectivity. From elegant styling, and efficient and powerful performance to a premium opulent interior, the 2014 Outlander is an intelligent choice.

## CUTTING-EDGE ENTERTAINMENT

Take advantage of limitless music to your ears with the available Rockford Fosgate® Premium Sound System. Outlander packs a serious punch in the sound department with 9 speakers and integrated 10-inch subwoofer pounding out 710 Watts of crystal-clear sound enjoyment. Easily manage your favourite music and stations through the all-new fully functional audio display touch panel. Available on the GT S-AWC model.

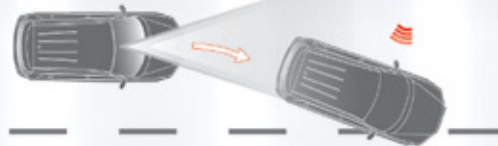

## FORWARD COLLISION MITIGATION\*

Applies brakes to prevent or soften low-speed impact with preceding vehicle.

Using advanced radar technology, the 2014 Outlander keeps a close eye on the road by precisely measuring your vehicle's position in relation to others in front of you. So, if a vehicle ahead is detected, the Forward Collision Mitigation (FCM)\* system will alert you of possible frontal collisions. And just like your old driving instructor, it'll even apply the brakes for you if necessary.

## LANE DEPARTURE WARNING\*

Gives audible and visual warnings when driver is about to unintentionally depart from lane.

Using an onboard camera, the 2014 Outlander's new Lane Departure Warning (LDW)\* system will alert you both visually and audibly if it sees you're drifting out of your lane. It's kind of like the robotic back seat driver you'd always hoped for.

## ADAPTIVE CRUISE CONTROL\*

Maintains constant distance from the preceding vehicle.

With three different distance settings, the 2014 Outlander's Adaptive Cruise Control (ACC)\* system uses radar technology to assess the distance between you and the vehicle ahead. Which means you can easily maintain your preferred bubble of personal space without making your feet do any of the thinking.

## UNCOMPROMISED SAFETY

Get ready to be impressed by its smart technology and intelligent safety features like the available Forward Collision Mitigation, Lane Departure Warning and Mitsubishi's newly upgraded Reinforced Impact Safety Evolution (RISE) body construction that offers increased safety in a collision by absorbing impact in some areas and redirecting it away from others. Factor in additional safety systems such as ABS, Active Stability Control, Traction Control, Hill Start Assist and seven airbags standard on all models, and you'll drive with all the confidence you need to enjoy peace-of-mind excursions, wherever Outlander takes you.

## SUPER ALL-WHEEL CONTROL (S-AWC)

New for 2014, the Super All-Wheel Control system will now feature four driver-selectable modes: **NORMAL** for everyday conditions, **SNOW** for winter conditions, **LOCK** for off-roading, and **ECO** mode that sends power to the front wheels during normal driving to increase fuel efficiency, yet can instantly transfer power to all four wheels the moment any slippage is detected, for the ultimate balance of efficiency and control. With an even more-advanced S-AWC system than ever, the 2014 Outlander feels right at home conquering any terrain and winding road with ease.

### EASY COME, EASY STOW

For those trying times that find you juggling grocery bags or the kids' hockey equipment, the 2014 Outlander has an available power tailgate triggered by a simple touch of a switch from the driver's seat, the remote or the tailgate itself. Throw in an expansive cargo space enabled by flat-folding rear seats into the mix, and you have room to easily pack in as much fun as you want, and leave nothing behind.
