PERFORMANCE

OUTSTANDING HIGHWAY FUEL EFFICIENCY DOESN'T COME ALONG EVERY DAY.

Cruze Turbo Diesel in Summit White with available features.

Cruze Eco in Silver Ice Metallic with available features.

UNBEATABLE FUEL EFFICIENCY. Cruze Turbo Diesel technology maximizes both efficiency and performance. With a highway fuel consumption rating of 5.1 L/100 km,¹ Cruze Turbo Diesel is one of the most fuel-efficient vehicles available in Canada.

REDUCES EMISSIONS. NOT POWER. Cruze Turbo Diesel offers the performance of a V6 with the efficiency of a 4-cylinder. That's because it features the very latest clean diesel technology, which helps reduce emissions without sacrificing power.

OUTRUNS JETTA TDI. The 2.0L turbocharged clean diesel engine in the Cruze Turbo Diesel has an SAE-certified 151 horsepower and 264 lb.-ft. of low-end torque – more than Volkswagen Jetta TDI.²

¹ Fuel consumption estimates based on GM preliminary testing in accordance with new 2015 Model Year Government of Canada approved test methods. Refer to vehicles.nrcan.gc.ca for details. Your actual fuel consumption may vary. ² Based on the latest competitive information available at time of printing.

INGENIOUS DESIGN. The advanced technology of Cruze Eco contributes to outstanding fuel efficiency. By incorporating smooth underbody panels, a rear spoiler and a lower front grille air shutter that closes at higher speeds, air resistance is decreased.

ENHANCED AERO. We've also chosen lightweight wheels and ultra-low rolling resistance tires. These innovative features help Cruze Eco offer a highway fuel consumption rating of 5.6 L/100 km.³

³ 2015 Chevrolet Cruze Eco with 6-speed manual transmission.

A blue Chevrolet Cruze LTZ is shown from a front-three-quarter view, driving on a paved track at dusk. The car is in motion, with a blurred background of city lights and trees. The track has a series of small lights along its edge. The overall scene is dynamic and emphasizes the car's performance.

**TURBOCHARGED CRUZE LTZ:
CONSIDER THE ENVELOPE PUSHED.**

Cruze LTZ in Blue Ray Metallic
with available features.

138-HP ECOTEC TURBO. The available ECOTEC® 1.4L turbocharged engine delivers a gutsy 148 lb.-ft. of torque. The turbo increases engine power, allowing for a robust, immediate driving experience. Premium features include dual overhead camshafts and continuously Variable Valve Timing.

DRIVER SHIFT CONTROL. With the available 6-speed automatic transmission,¹ Driver Shift Control lets you switch from automatic to manual mode. Just move the gearshift into Shift Control mode and a quick tap is all that's required for smooth, crisp shifts.

MORE WAYS TO POUNCE. With rack-mounted electric power steering and an available race-proven Z-link rear suspension, along with other fuel-maximizing choices like Eco and Turbo Diesel, Cruze has the poise and confidence of a carefully tuned sport sedan.

¹ Standard on 2.0TD and LTZ models.

SAFETY

¹ Airbag inflation can cause severe injury or death to anyone too close to the airbag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger airbag. See the Owner's Manual and the child safety seat instructions for more safety information. ² Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rear-view mirrors, look over your shoulder for vehicles and hazards and start the turn signal. ³ U.S. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.SaferCar.gov). ⁴ Visit onstar.ca for coverage maps, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers. After the trial period (if applicable), an active OnStar service plan is required. ⁵ OnStar acts as a link to existing emergency service providers. Not all vehicles can transmit all crash data.

STATE-OF-THE-ART SAFETY. Our approach to safety includes a high-strength steel safety cage, 10 standard airbags,¹ plus an available rear vision camera, Rear Cross Traffic Alert and Side Blind Zone Alert,² features that set the bar for safety. The 2015 Cruze received a 5-Star Overall Vehicle Score for safety from the National Highway Traffic Safety Administration (NHTSA).³

ONSTAR.⁴ Standard for six months with the Directions & Connections Plan, OnStar[®] features the Automatic Crash Response system.⁵ In a crash, built-in sensors can alert a specially trained OnStar Advisor, who can be immediately connected into your vehicle. Even if you can't respond, OnStar can send whatever help you need, based on GPS coordinates and crash data.

SIDE BLIND ZONE ALERT.² This available feature uses radar sensors on both sides of the vehicle to help "look" for other vehicles in the blind zone areas and alerts you of their presence.

REAR CROSS TRAFFIC ALERT AND REAR VISION CAMERA. This available system alerts you to crossing traffic behind your Cruze when travelling in reverse, such as backing out of a parking spot, including angled parking. Audible alerts, as well as visual alerts on the rear vision camera screen, are triggered if approaching vehicles are detected.
