

HYUNDAI

NEW THINKING.
NEW POSSIBILITIES.™

THE ALL-NEW 2015

CHALLENGE YOUR PERCEPTIONS.

Innovation comes from the investigation of the unknown. Pushing the envelope on design, engineering and innovation is our challenge. It's in our DNA.

Nothing is a better example of that philosophy than the 2015 Genesis. Completely re-engineered from the ground up, an all-new platform and standard HTRAC® AWD system work together to deliver a dynamic drive with a focus on handling and control. Experience the innovative safety features, striking design and premium craftsmanship. Everything about the 2015 Genesis will make you challenge your own perceptions of Hyundai.

Discover what unbridled imagination can create.

Adaptive and Auto-Leveling HID Headlights.

Adaptive and Auto-Leveling High Intensity Discharge headlights with LED Daytime Running Lights allow you to always look forward with unwavering confidence. Stylish LED Fog Lamps help mitigate compromised visibility while clouding the distinction between fashionable and functional.

Welcome Lights with Genesis Logo.

Stunning welcome lights project the Genesis logo and light the way to the driver's door.

LED Taillights.

Three-dimensional LED taillights handle all rear signaling in brilliant style. Even from behind, the Genesis looks forward.

SCULPTED FROM
100% PURE EMOTION.

Desire. Awe. Envy. Love. From first sight, the dominant presence of the 2015 Genesis stirs a raft of strong emotions. And no wonder. Flowing from the original iteration of Hyundai design philosophy, the all-new design is the first embodiment of Fluidic Sculpture 2.0 – our proprietary styling, evolved.

As the premium hexagonal front grille locks your gaze, the powerful stance of the Genesis pulls you in. The longer wheel base is complemented with refined side character lines flowing from the HID headlights, to the stunning three-dimensional LED taillights. Every sculpted detail embodies the essence of modern premium design.

Premium Napa Leather.

Applied with thermosetting technology to minimize wrinkling, beautifully detailed full grain, natural Napa leather is available to envelope you and your passengers. Underneath, MDI foam allows for optimum density in each part of the seat.

Open Pore Natural Wood with Geometric Pattern Aluminum Accents.

Adorning the dashboard and door sides is available open pore, natural wood matched against real aluminum accents. Together these are one example of the detail and authentic craftsmanship that encapsulates the elegant cabin.

A FEW WORDS ABOUT
UNSPEAKABLY FINE
CRAFTSMANSHIP.

As much as the Genesis captivates from the exterior, the true revelation begins the moment you slip into the first class interior. Designers challenged the fusion of ergonomics and elegance to deliver an intuitively redesigned cabin. Experience a seamless fusion of forward technology, and detailed handcraft finishes inspired to introduce daily convenience to unquestionable luxury. From the fully redesigned primary controls, to the soft, micro suede headliner* which frames the expansive panoramic sunroof†, rich materials and premium craftsmanship embrace your journey.

16-way Power Adjustable Driver Seat with Power Thigh Support and Side Bolster.

Driver comfort and support is individually tailored with an available 16-way power adjustable driver seat with power thigh support and side bolsters for ultimate comfort. Seat and thigh support settings are part of the integrated memory system to maintain alternating driver preferences.

Lexicon® Sound System.

The premium Lexicon® sound system gives you the ultimate surround sound experience with the advanced digital processing of LOGIC 7® technology. Every seat is the perfect seat with 14 strategically placed speakers using 7.1 discrete channels (17 speakers on 5.0 Ultimate model).

*Micro-suede headliner available on 5.0 Ultimate model.
†Panoramic sunroof available on 3.8 Luxury, Tech, and 5.0 Ultimate models.

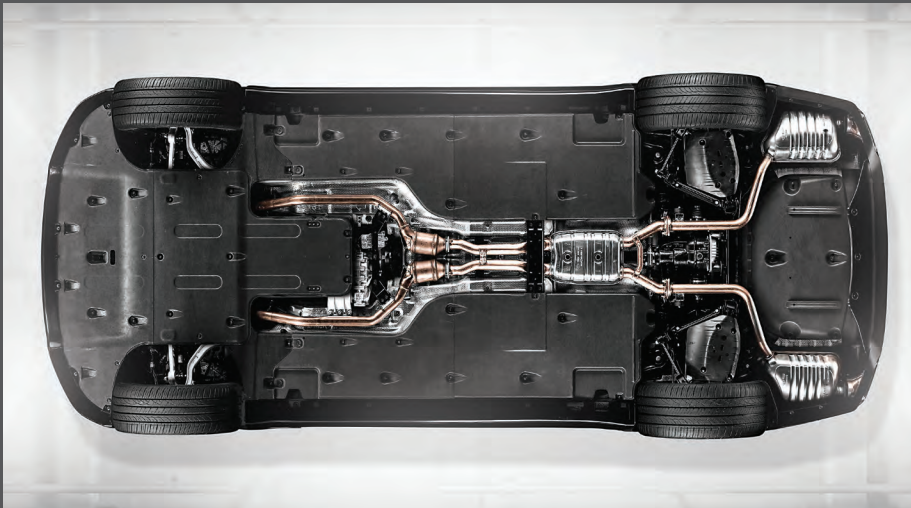

Not exactly as shown.

All-New, Exclusive Platform.

An all-new platform dedicated to the 2015 Genesis utilizes advanced high-strength steel forged in Hyundai's own steel mill for a 51% increase in overall body stiffness and improved rigidity when compared to the previous Genesis model. The result is exceptionally improved driving dynamics and occupant protection.

Optimized NVH Performance.

Hyundai engineers used a wide range of insulation methods to help optimize noise, vibration and harshness (NVH) performance. High tensile steel, foam pads, and an engine partition all work to reduce cabin sound pollution from NVH. This includes a fully integrated undercover with air cell technology designed to help minimize sound intrusion within the interior cabin.

SUPERIOR DRIVING DYNAMICS.

The standard HTRAC® AWD system is a result of rigorous testing, pushed to the absolute limits on the world's most demanding race tracks, including the Nürburgring and Korean F1 Grand Prix. With superior control and stability in all-weather conditions, HTRAC® was engineered with four intelligent drive modes to give you control tailored to different driving environments and conditions. Powered by a 311 hp V6, or the available 420 hp 5.0L Tau V8, both engines are paired with an 8-speed automatic transmission to help maximize fuel efficiency through an efficient gear ratio spread. Underpinning the masterpiece is an all-new platform, exclusive to the Genesis. Welcome to an entirely new breed of performance sports sedan.

9.2" HD Navigation Screen.

The sharp, fluid screen technology of the modern smartphone and tablet is available on the 9.2" HD touchscreen. The available multimedia system upgrades storage capacity for a total 64GB SSD and adds a DVD player, all intuitively controlled by the Driver Information System (DIS) that is easily accessible from the driver's seat.

Head-up Display.

An available Head-up Display system helps reduce driver distraction by providing a wealth of key information on the front windshield glass, including speed, navigation information, adaptive cruise control, lane departure warning and blind spot detection alerts.

CONVENIENCE TECHNOLOGY.

By challenging the principles of ergonomics, the 2015 Genesis offers advanced visual and sensory technology that was developed with an emphasis on convenience. Features include an available Head-up Display system with an intuitive integrated memory system which will display key information based on driver eye-level preference, and an available High Beam Assist system that automatically controls high beam settings. The 2015 Genesis is filled with premium amenities you won't want to drive without. Challenge your expectations of convenience.

Smart Trunk.

Using proximity key technology, the available Smart Trunk senses your presence when you stand within 3ft of the trunk. With no extra movement or motion the trunk automatically opens to welcome your two hands worth of cargo, effortlessly.

HMA386

GENESIS

HYBRIC 5.0

The World's First CO₂ Sensor.

Introducing a totally new automotive system designed to sense carbon dioxide levels in the cabin of the vehicle. As you drive, carbon dioxide naturally builds and can cause drowsiness. The available CO₂ Sensor automatically activates the ventilation system to add fresh air into the cabin to help improve driver alertness.

Autonomous Emergency Braking³.

The available Autonomous Emergency Braking function uses a forward camera and radar sensors to detect rapid closing speeds to the vehicle ahead and provide warning notifications to the driver of potential forward collisions. At speeds under 80 kilometres per hour, the system can provide full braking assistance to help avoid a potential collision.

SURROUND YOURSELF WITH INNOVATIVE SAFETY.

The 2015 Genesis is equipped with cutting-edge preventative and active safety technologies to provide an entirely new level of driver confidence. Using the latest in haptic technology to increase driver situational awareness the Genesis features an advanced Lane Departure Warning System with Lane Keep Assist⁴, and introduces the world's first CO₂ sensor with automatic ventilation system. The Genesis ensures your safety is a top priority.

Adaptive Cruise Control¹.

An available Adaptive Cruise Control (ACC) system with stop-and-go capability carefully adjusts your pre-set speed and distance from the vehicle ahead.

Blind Spot Detection⁵ with Rear Cross Traffic Alert⁶.

This available blind spot detection system uses audio and visual alerts to notify you when a vehicle is hiding in your blind spot, while the Rear Cross Traffic Alert System detects a vehicle approaching from the side while in reverse. Warnings are also displayed on the available Head-Up Display system.

ADDITIONAL ACCESSORY CHOICES.

Premium All Weather Floor Liners. Premium all weather floor liners were designed to cover the interior carpet providing maximum protection against the elements that other mats cannot offer. Their unique and durable design features a non-slip surface for added comfort and a long lasting premium look. Remove carpet mats prior to installation.

Premium All Weather Cargo Tray. Protect your interior cargo area with style. This durable, custom-fit premium cargo tray protects from spills and messy loads while helping keep your cargo area looking new for years to come. Image not exactly as shown.

For information on additional accessories please visit hyundaicanada.com or visit your dealer for details.

2015 GENESIS SPECIFICATIONS

3.8 PREMIUM	STANDARD EQUIPMENT INCLUDES:
3.8L GDI DOHC V6, 311 hp, 293 lb-ft Torque	
HTRAC® All-wheel Drive (AWD) System	
18-inch Alloy Wheels with Medium Metallic Gray Finish	
Leather Seating Surfaces	
12-way Power-adjustable Front Seats with Lumbar Adjustment	
8.0" Navigation System with 4.5 GB of Storage	
Acoustically-laminated Glass	
Dual-zone Automatic Climate Control with Auto-defogging System	
Heated, Power-folding Side Mirrors with Integrated Turn Signal	
Proximity Keyless Entry with Aluminum Push-button Ignition	
Rear-view Camera	
Adaptive (auto-cornering) and Auto-leveling HID Headlights	
LED Daytime Running Lights, Taillights and Fog Lamps	
Mirror Mounted Welcome Lights with Genesis Logo	
3.8 LUXURY	INCLUDES 3.8 PREMIUM STANDARD EQUIPMENT PLUS:
Blind Spot Detection (BSD) ⁵ with Rear Cross Traffic Alert ⁶ and Lane Change Assist (LCA)	
Premium Napa Leather Seating Surfaces	
Power Driver Seat Thigh Support and Side Bolster	
Integrated Memory System	
Ventilated Front Seats	
Heated Rear Seats	
Open Pore Natural Wood with Geometric Pattern Aluminum Accents	
Power Tilt and Telescoping Steering Column	
Heated Leather Steering Wheel	
14 Speaker Lexicon® Discrete Logic 7 [®] Surround Sound Audio System	
Electrochromic Exterior Mirrors	
Panoramic Sunroof	
Front and Rear Parking Assistance Sensors	
Rear Side Window Sunshades	
3.8 TECHNOLOGY	INCLUDES 3.8 LUXURY STANDARD EQUIPMENT PLUS:
CO ₂ Sensor Control System	
Lane Departure Warning System (LDWS) with Lane Keeping Assist System (LKAS) ⁴	
Autonomous Emergency Braking (AEB) ³	
Adaptive Cruise Control (ACC) ⁷ with Stop-and-Go Capability	
Electronic Parking Brake	
High Beam Assist (HBA)	
7.0" Electroluminescent Gauge Cluster (Supervision)	
Head Up Display (HUD)	
Smart Trunk	
5.0 ULTIMATE	INCLUDES 3.8 TECHNOLOGY STANDARD EQUIPMENT PLUS:
5.0L GDI V8 Tau Engine, 420 hp, 383 lb-ft Torque	
19" Alloy Wheels with Dark Silver Finish	
Soft Micro-suede Headliner	
9.2" Navigation System with Driver Information System (DIS) Multimedia Controller	
17 Speaker Lexicon® Discrete Logic 7 [®] Surround System Audio System	
Continuous Damping Control (CDC) Suspension	
Headlight Washer	
Smart Key Card

HYUNDAI

NEW THINKING.
NEW POSSIBILITIES.™

hyundaicanada.com/Genesis

™The Hyundai names, logos, product names, feature names, images and slogans are trademarks owned by Hyundai Auto Canada Corp. Specifications, features, illustrations, accessories, materials and equipment and all other information shown in this brochure are based on the latest information available at the time of publication. Although descriptions are believed to be correct, accuracy cannot be guaranteed. Hyundai Auto Canada Corp. reserves the right to make any changes or modifications at any time, without notice or obligation, including, without limitation, in colour, specifications, features, accessories, materials, equipment and models. Some vehicles are shown with optional equipment. All Hyundai warranties have no deductible. ⁴Fuel economy figures are based on manufacturer testing and are used for comparison purposes only. Actual fuel efficiency may vary based on driving conditions and the addition of certain vehicle accessories. ¹The Supplemental Restraint (Airbag) System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which must still be worn at all times. Children under the age of 13 should be securely restrained in the rear seat. NEVER place a child seat in the front seat of a Hyundai vehicle. ²Electronic Stability Control (ESC) and Traction Control System (TCS) are meant to enhance conscientious driving habits and are not a substitute for safe driving practices. ESC cannot control your vehicle's stability under all driving situations. No system, no matter how advanced, can overcome physics or correct poor driving. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. ³Autonomous emergency braking (AEB) is designed to detect vehicles whose taillights are directly in front of the Genesis. AEB will not detect all objects. AEB initiates full braking at speeds between 8 and 80 km/h. AEB is not a substitute for safe driving. Always check your surroundings when driving. See Owner's Manual for details and limitations. ⁴The Lane Departure Warning System with Lane Keep Assist operates above approximately 69 km/h and only when the lane markings are clearly visible on the road and detected by the system. It will not prevent loss of control. Refer to Owner's Manual for more information and limitations. ⁵Never rely completely on Blind Spot Detection (BSD) and be sure to use proper lane changing procedures. BSD will not detect every object or vehicle and will not prevent accidents. Always look over your shoulder and use your mirrors to confirm clearance. See Owner's Manual for further details and limitations. ⁶Never rely exclusively on the Rear Cross-Traffic Alert. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. Vehicle must be in reverse and has to be traveling at 10 km/h or less. See Owner's Manual for further details and limitations. ⁷Adaptive Cruise Control (ACC) is not a collision avoidance or warning device. ACC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. Driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for further details and limitations. The SiriusXM™ name is a trademark of SiriusXM Satellite radio Inc.
