2015

THE ALL-NEW RENEGADE

CANADA'S MOST CAPABLE SMALL SUV EVER¹

THE ALL-NEW 2015 JEEP® RENEGADE

When it comes to getting out and having fun, nothing beats the best-in-class 4x4 capability² of the all-new Jeep Renegade. It arrives looking supremely adventurous, with its authentic seven-slot grille and classic Jeep brand styling. Engineered with legendary Jeep brand capability, Jeep Renegade offers two available Jeep Active Drive 4x4 systems, powerful engine options, and a long list of standard and available safety features. With its best-in-class interior volume² and seating for five, there's plenty of available space to carry you, your friends and your gear. With the adjustable rear cargo floor, Renegade can give you more cargo room when you need it. Bask in sunny fresh-air freedom with the available My Sky™ Open Air Roof System and keep connected with the latest in wired technology. With Renegade, you can head out to places you've always dreamed of reaching and create a pathway all your own.

JEEP® ACTIVE DRIVE 4x4

CAPABILITY MEETS FUEL EFFICIENCY

SELEC-TERRAIN® TRACTION MANAGEMENT SYSTEM

Tackle Mother Nature's toughest conditions with the help of this class-exclusive system² that arrives in tandem with both of Renegade's available 4x4 systems: Jeep® Active Drive and Jeep Active Drive Low. Up to five settings help deliver secure driving stability so you can explore the wonders of the world as you see fit. Choose from Auto, Snow, Sand and Mud modes, and exclusive on Trailhawk® – the addition of Rock mode. You'll dial in to authentic Jeep 4x4 capability that can take you to places others only dream of reaching.

Renegade Trailhawk® shown in Commando

Why do we call them Active Drive? Because Jeep Active Drive and Jeep Active Drive Low can actively transition from 4x4 into fuel-saving front-wheel drive (FWD) for a welcome gain in fuel efficiency when the pavement runs smooth and calm. Just keep the Selec-Terrain® dial in Auto mode and Renegade will seamlessly match its Jeep engineered capability to the existing road conditions. Adjust the system's Selec-Terrain dial to any other mode and 4x4 capability is always engaged.

KEEP MOVING FORWARD

Both Jeep Active Drive systems can keep you moving forward, even when just one wheel has traction on the ground. When this occurs, the system will automatically and seamlessly adjust to thrust a portion of the engine's power to this one wheel (or wheels) with ground contact. This allows Renegade to really grab on to keep you moving forward.

JEEP ACTIVE DRIVE LOW

BEST-IN-CLASS CAPABILITY²
Get tough on the ridges and rocks with Jeep Active Drive Low, featuring Hill Descent Control. Its low range delivers a Trail Rated® 20:1 crawl ratio. Exclusive on Trailhawk®.

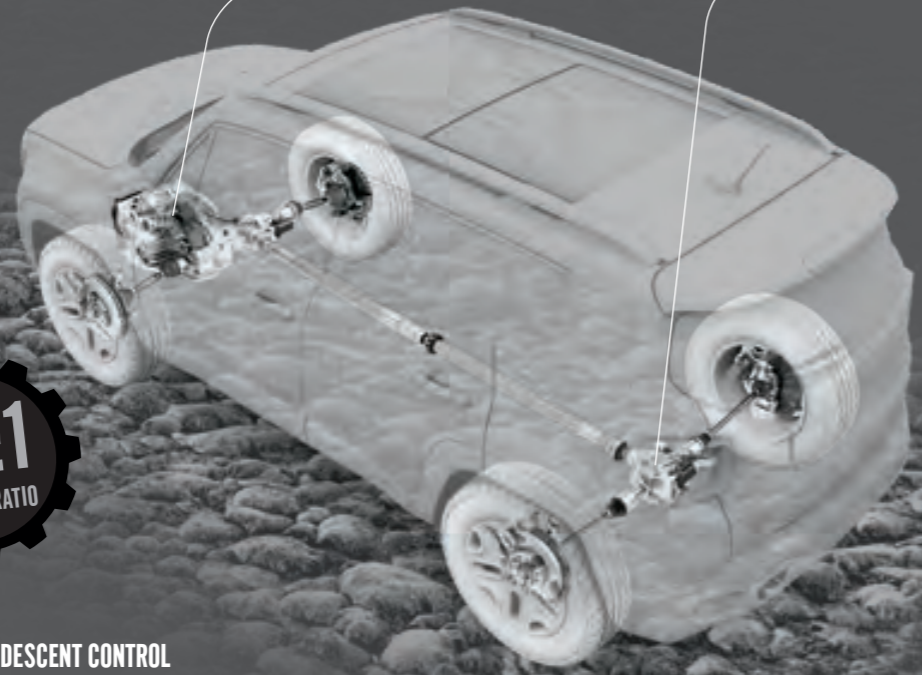

EASY COME: HILL START ASSIST

This standard system helps avoid rollback when starting on steep inclines by temporarily keeping the brakes applied, giving you time to transfer your foot to the gas pedal.

EASY GO: HILL DESCENT CONTROL

Monitors throttle, speed and braking when gravity's pull wants to take over. Brakes are automatically applied for a safe and smooth descent. Exclusive on Trailhawk.

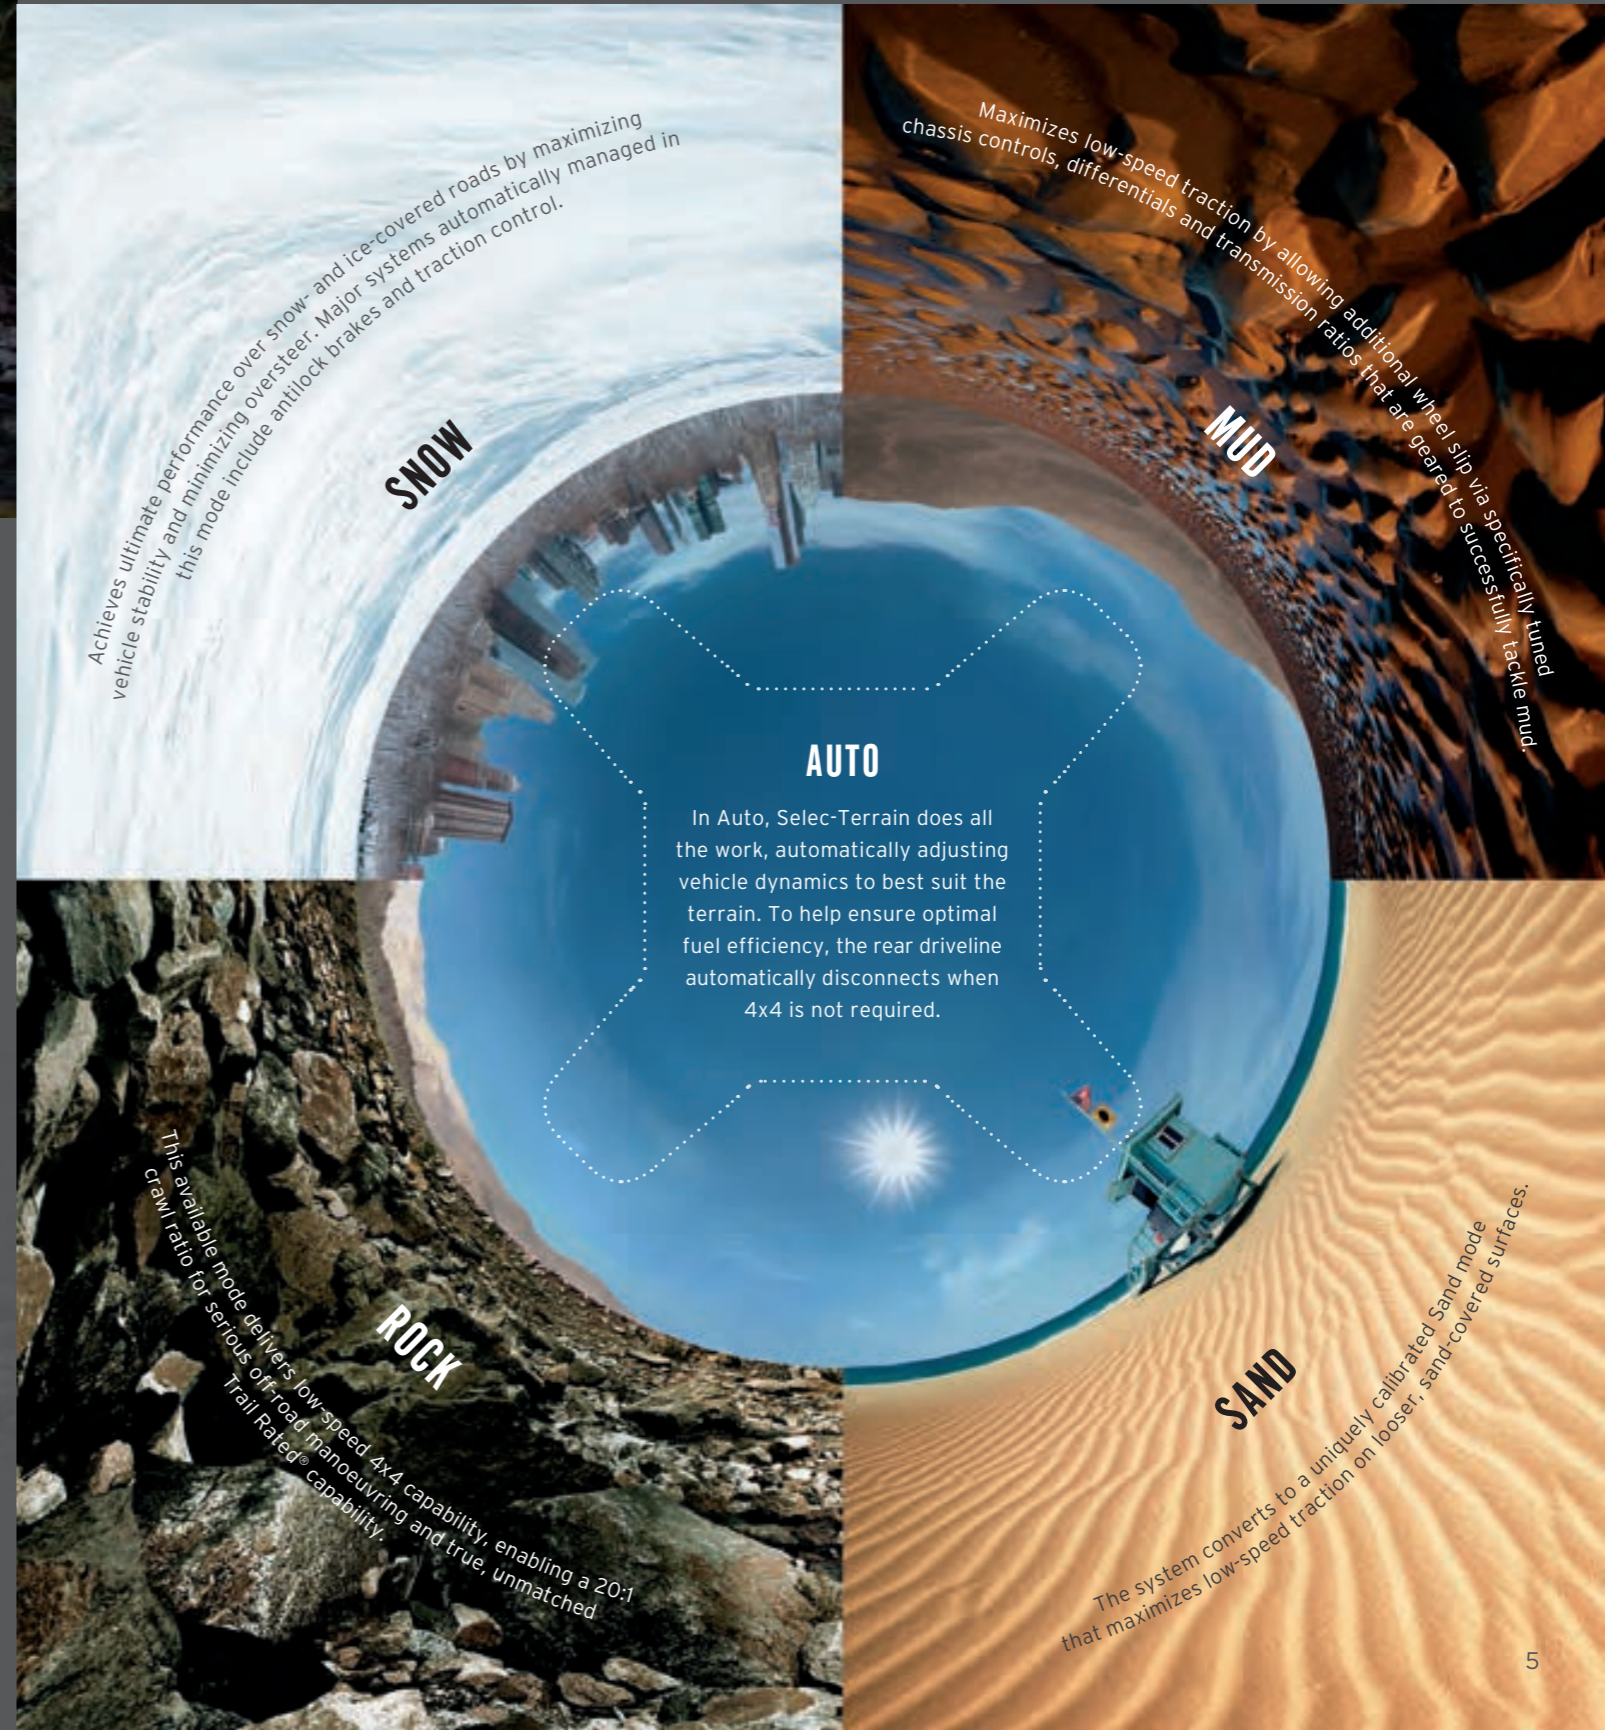

POWER TRANSFER UNIT

This single-speed unit sends power generated from the engine and transmission to the wheel that needs it most. This allows for enhanced traction and dynamic driving performance.

DISCONNECTING REAR AXLE

The class-exclusive disconnecting rear axle² helps make Renegade one of the most fuel-efficient small 4x4 SUVs out there. It seamlessly switches from 4x4 into FWD mode when Selec-Terrain is in Auto mode, providing an uptick in fuel efficiency.

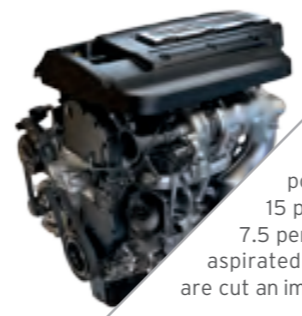

SNOW
Achieves ultimate performance over snow- and ice-covered roads by maximizing vehicle stability and minimizing oversteer. Major systems automatically managed in this mode include antilock brakes and traction control.

MUD
Maximizes low-speed traction by allowing additional wheel slip via specifically tuned chassis controls, differentials and transmission ratios that are geared to successfully tackle a mud road.

AUTO
In Auto, Selec-Terrain does all the work, automatically adjusting vehicle dynamics to best suit the terrain. To help ensure optimal fuel efficiency, the rear driveline automatically disconnects when 4x4 is not required.

ROCK
This available mode delivers low-speed 4x4 capability, enabling a 20:1 crawl ratio for serious off-road manoeuvring and true, unmatched Trail Rated® capability.

SAND
The system converts to a uniquely calibrated Sand mode that maximizes low-speed traction on looser, sand-covered surfaces.

1.4L MULTIAIR® I-4 TURBO ENGINE

MultiAir technology utilizes electrohydraulic valves for more direct control of air and combustion, improving power up to 10 percent, torque up to 15 percent and fuel efficiency up to 7.5 percent over conventional naturally aspirated engines. Emissions, in turn, are cut an impressive 10 percent.

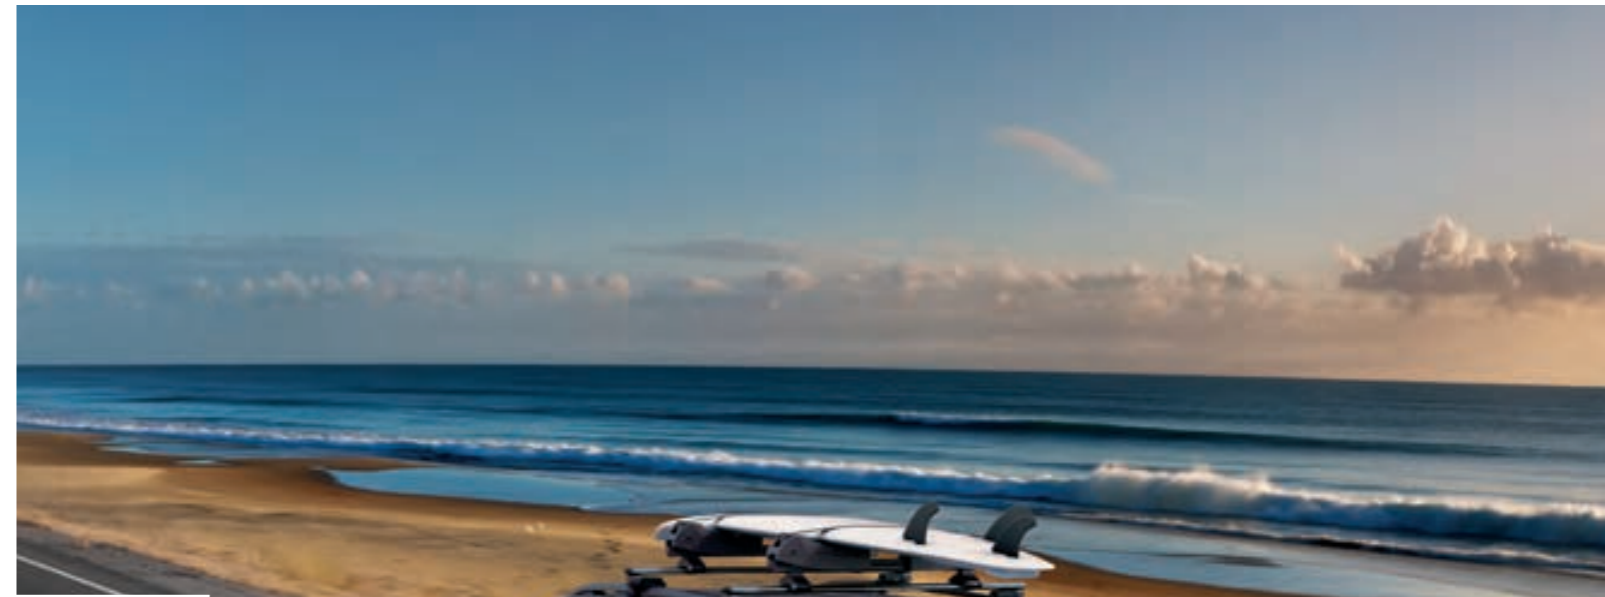

HORSEPOWER	TORQUE
160 HP	184 LB-FT

2.4L TIGERSHARK™ MULTIAIR I-4 ENGINE

Acclaimed for its unique and efficient valve-lift system, the Tigershark incorporates a column of oil flow with a precise control of intake valve events. This I-4 burns clean, improves fuel efficiency and reduces emissions with a quiet and refined ride.

HORSEPOWER	TORQUE
180 HP	175 LB-FT

MATCH YOUR POWERTRAIN TO YOUR DRIVING STYLE

YOU KNOW WHERE YOU WANT TO GO. And how you want to get there. Renegade offers both automatic and manual transmission choices, matched to suitably powerful Jeep® engineered engines. Each delivers an optimal performance experience, built to suit your individual driving style.

9-SPEED AUTOMATIC TRANSMISSION A class-exclusive² offering in the small SUV segment, this available automatic transmission operates with precision when matched to the 2.4L Tigershark™ MultiAir® I-4 engine. Its fine-tuned ratio spread between gears assures quick takeoffs and a consistently refined performance, even in overdrive. The Auto/Stick™ function lets you shift manually for added excitement.

6-SPEED MANUAL TRANSMISSION Matched with the 1.4L MultiAir I-4 Turbo engine, this manual transmission aids efficiency, moving through shifts with smooth gear transitions. Cabin noise is kept to a minimum, no matter if you're travelling over the city streets or off the beaten path to parts unknown.

BEST-IN-CLASS³
TOWING**

PULL A TON OF TOYS Outfit Renegade with the optional Trailer Tow Group and you'll own the right to brag about your 907-kg (2,000-lb) best-in-class towing capability.³ It's a must-have option for everyone who's on the go with toys that make having fun a lot more fun.

Renegade North shown in Sierra Blue with available Mopar® Brushed Aluminum Multi-Purpose Crossrails and Ski/Snowboard Carrier attached. Properly secure all cargo.

RENEGADE TRAILHAWK®

Do you know where you're capable of going? Jeep® Renegade Trailhawk was tested on some of the world's most intimidating trails, rising above all the rest. You'll experience class-exclusive² Trail Rated® capability that's been proven to perform to rigorous standards in five categories: manoeuvrability, articulation, water fording,⁴ traction and ground clearance. Renegade is like no other small SUV on the planet, designed to take you to brand-new heart-pounding, Trail Rated heights.

THE SKY IS YOURS FOR THE TAKING

MY SKY™ OPEN AIR ROOF SYSTEM

It's more than a sunroof. It opens up the sky and brings it right in. The available My Sky Open Air Roof System consists of two easily removable panels, optimally sized for flat storage in the rear cargo area. Panels are designed and engineered to be lightweight yet strong and will maintain cabin acoustics when in place.

POWER RETRACTABLE This available option lets you open My Sky with the push of a button. It operates like a traditional sunroof system, allowing fore and aft ventilation.

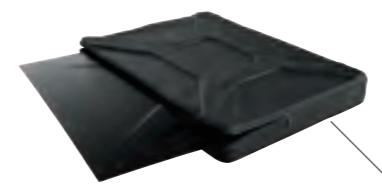

MY SKY PANELS These durable panels are embossed with a strength-enhancing X-form and constructed of a composite honeycomb structure for exceptional acoustic qualities and rigidity.

FRONT AND REAR PANELS REMOVED For a full-on fresh-air experience, take both panels off. Each one weighs a mere 4.5 kg and can be easily taken off and replaced by one person.

FRONT PANEL REMOVED Open the front panel to give the driver and front passenger a dose of fresh air. For panel removal, the vehicle must be parked. A special key attached to the fob unlocks and releases the panels so they can be lifted out.

ROOF PANEL STORAGE BAG When you remove the My Sky panels, slip them into their own special storage bag. It helps protect them from damage and fits nicely into the rear cargo area.

WE GO ALL OUT FOR ALL IN

Crowned best-in-class for its interior volume² Renegade lets you pack it all in. You've got lots of room to play with, so bring it on. Leave no toy behind.

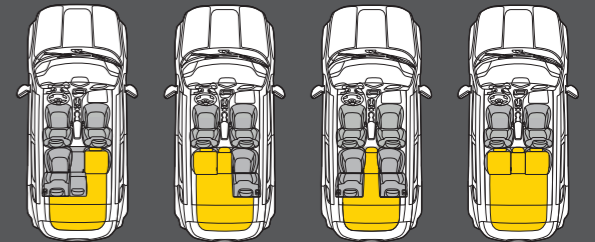

**INTERIOR
BEST-IN-CLASS²
VOLUME**

Renegade Trailhawk[®] shown in Glacier Metallic

PLAY ROOM

Renegade is ready to accommodate all kinds of cargo and passenger configurations with its best-in-class interior volume² and available 40/20/40 split-folding rear seat. Turn down the 40/20 sections to carry a good payload in the back, leaving the remaining 40 section open for that much-needed second passenger, or fold everything down for serious hauling.

ADJUSTABLE CARGO FLOOR

When you're ready to load up and move, Renegade's height-adjustable rear cargo floor can accommodate all your needs. Raise it up for easy, slide-in loading. Lower it to have more room to carry taller items. If that's not enough, the floor is also reversible, so you can enjoy the carpeted side for its stylish appearance, then flip it over to have a more rugged, easily cleaned surface when muddy equipment enters the picture. You can conveniently store the roof panels from your My Sky™ Open Air Roof System, keeping them safe and tidy in their own storage bag.

Adjustable carpeted cargo floor raised.

Adjustable cargo floor lowered and reversed to reveal a cleanable surface.

Convenient My Sky Open Air Roof System panel storage.

Renegade Trailhawk® interior shown in Black leather

EVERYTHING IN PLACE

Jeep® Renegade takes on the world of the small SUV in a big, new way. Its authentic design is worthy of the right to wear the legendary Jeep brand badge. Within Renegade's cabin, you'll find an interior that offers best-in-class head and shoulder room,² and best-in-class interior volume.² You'll find Renegade is fully loaded with all the latest comforts. Climb inside, get plugged in, and connect to a whole lot of fun.

COMFORT Contoured seats give you cushion where it counts, with a standard six-way adjustable driver seat and four-way adjustable front passenger seat. Upgrade to eight-way power-adjustable driver seat with four-way power lumbar adjustment for exceptionally comfortable adventures. In the second row, three rear seat head restraints⁵ are in place for three passengers. Rear seat foot room is helped by wide front seat tracks.

TEEMING WITH TECH Renegade sets you up with pleasing options like an available premium 6.5-inch touchscreen audio system with navigation⁶ and Uconnect® hands-free communication⁷ with preformatted text response.⁸ The available 7-inch full-colour customizable in-cluster display keeps you informed by providing an array of vehicle stats on your dashboard. One USB port is standard and another is available, so you can power up a number of devices.

INTERIOR TEK-TONIC FASHION This unique cabin design is made up from an array of textures, fabrics, soft-touch surfaces, and bezels and trim surrounds that add a kick of colour. Available leather-faced seats are contoured and cushioned for exceptional comfort, and designed with eye-catching contrasting stitching.

MADE TO HANDLE IT ALL The Jeep brand steering wheel with available stitch-accented leather wrapping puts cabin commands safe in hand, with buttons for available cruise, voice and phone control. You'll have hands-free⁷ access to vehicle performance data, and much more. Front seat passengers can take hold of the dash-mounted grab handle, taken straight from the Jeep brand's legendary playbook.

Uconnect

FRONT AND CENTRE Instantly access a range of useful information, placed front and centre in an available 7-inch customizable in-cluster display. From navigation⁶ to safety alerts, fuel usage to Selec-Terrain® data, Renegade lets you customize the data you want to see for a very smart driving experience.

+ CAPABILITY

+ NAVIGATION⁶

RENEGADE

+ VEHICLE DYNAMICS

+ VEHICLE INFORMATION

PHONE Talking on the phone while driving has never been easier – or more responsible. Available Uconnect® hands-free communication⁷ is the in-vehicle, voice-activated calling system that allows you to talk on your Bluetooth® compatible phone virtually hands-free⁷. This clever option is also smart enough to synchronize with your Bluetooth compatible phone's address book⁹ – up to 1,000 entries – every time you get into your vehicle.

VOICE COMMAND⁷ This available feature simplifies driving by letting you keep your eyes on the road and your hands on the wheel. Use your voice to select AM/FM radio stations or SiriusXM satellite radio¹⁰ channels, as well as make and receive calls. When equipped, you can also select navigation⁶ destinations and record voice memos.

ENTERTAINMENT You'll have several ways to access audio. Get the sound going via MP3s, a remote USB port, an auxiliary input jack and Bluetooth streaming audio. Listen to over 120 channels on SiriusXM satellite radio,¹⁰ enjoy instant replays of your favourite tunes, instantly access any channel playing favourite artists, get alerts when your favourite teams are playing and so much more. Your first year of service is included.

THE TOOLS OF A HERO

Renegade takes a heroic stand, offering up to 70 standard and available safety and security features that help you travel all roads with peace of mind. Many of these features can be viewed and controlled through the customizable display on Renegade's instrument panel.

CHASSIS STRENGTH

Renegade delivers exceptional peace of mind with a hero's heart – a strong foundation constructed with advanced lightweight materials with aluminum and high-strength steel.

PEACE OF MIND BEGINS WITH SEVEN STANDARD AIR BAGS¹¹

Your sense of security is fully met with Renegade's all-around air bag system. Full-length front and rear side-curtain, driver inflatable knee blocker, seat-mounted side for front occupants, and advanced multistage driver and front passenger air bags all work together to help provide encompassing protection.

VOICE COMMAND⁷

This available feature allows drivers to safely send, reply to or listen to a text, take or make phone calls, get navigation directions and more, while keeping both hands on the wheel.

KEYLESS ENTER 'N GO™

This available feature allows you to keep your key fob in your pocket or purse, leaving your hands free to quickly open the door, take a seat, push a button and head out for fun.

PARKVIEW® REAR BACK-UP CAMERA¹²

Back out safely and with confidence. This available system helps bring previously hidden rear objects to your attention, on-screen, allowing time to react.

ELECTRONIC STABILITY CONTROL (ESC)¹³

A standard vehicle-wide network of safety sensors provide instant aid when they detect you're veering off your intended path. ESC coordinates Electronic Roll Mitigation (ERM), Antilock Brake System (ABS), Brake Assist, All-Speed Traction Control and Trailer Sway Control (TSC), sending them into action when needed.

ELECTRONIC ROLL MITIGATION (ERM)

As an extension of ESC, the standard ERM employs ESC sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help you maintain stability and help you remain in control.

TRAILER SWAY CONTROL (TSC)

Crosswinds and traffic hold no sway over you and your payload. As part of ESC, the standard TSC helps keep you and the toys you are towing safely on course.

PARK-SENSE® REAR PARK ASSIST SYSTEM¹²

Renegade can help you park and back out with grace. When in Reverse, these available sensors detect objects in the backup pathway and provide an audible and visual warning so you have time to react.

360° PROTECTION

BLIND-SPOT MONITORING AND REAR CROSS-PATH DETECTION¹²

These available sentry systems constantly monitor the space between you and other drivers. When a side or rear blind spot is encroached, you're notified via illuminated icons on sideview mirrors and an audible chime.

LANE DEPARTURE WARNING WITH LANE KEEP ASSIST¹²

The vehicle lane position is monitored by cameras. Should the driver drift outside of lane boundaries or if the driver's hands are off the wheel, the system provides a visual warning, as well as a slight steering-wheel jerk, encouraging the driver to keep within lane boundaries.

FORWARD COLLISION WARNING WITH ACTIVE BRAKING¹²

Radar sensors detect when Renegade may be approaching another vehicle too rapidly. This available active safety feature sends an audible and visual alert to the driver and provides limited braking if the driver does not react in time.

DISCLAIMERS. 1) Most Capable Small SUV Ever is based on historical Canadian unibody B-SUV segment competitors as identified by *Ward's* Auto Small Crossover and Small SUV segments (years 1985 - 2014). 4x4 capability based on Jeep B-SUV offering low-range power transfer unit (PTU) with 20:1 crawl ratio, low-range 4x4 capability. 2) Jeep Small SUV sub-segmentation based on small sport and cross utility vehicles including Nissan Juke, Mini Countryman, Mini Paceman and Buick Encore. Best-in-class 4x4 capability and best-in-class ground clearance are based on Jeep Renegade equipped with Jeep Active Drive Low, offering low-range PTU with 20:1 crawl ratio, low-range 4x4 capability. 3) When properly equipped. Based on Jeep "Small SUV" sub-segmentation based on small sport and cross utility vehicles including Nissan Juke, Mini Countryman, Mini Paceman and Buick Encore. 4) Do not attempt water fording unless depth is known to be less than 48 cm (19 in). Traversing water can cause damage that may not be covered by the new vehicle warranty. Always off-road responsibly in approved areas. 5) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. 6) Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. 7) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth compatible phone. 8) Preset voice-to-text messaging and incoming text message reading requires a MAP-enabled phone. 9) Phone must support Bluetooth Phone Book Access Profile (PBAP). 10) Requires SiriusXM Radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca 11) The advanced front air bags in this vehicle are certified to the federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. 12) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. 13) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions.
