

SPACIOUS AND VERSATILE

The 2015 Mitsubishi Outlander packs a massive 3,630 litres of passenger room. 60/40-split second-row seats, combined with available 50/50-split third-row seats, make entry and exit a breeze. For added versatility, the third-row seating easily stows away when not in use. For those big hauls, the second row folds down creating 1,792 litres of space. To make loading and unloading more convenient, the available power liftgate can be operated remotely either from the driver's seat or with the FAST-Key entry fob. For your peace of mind, the Outlander is backed with some of the most comprehensive warranties available. Topping the list is a 10-Year/160,000-km powertrain limited warranty**, 5-year/100,000-km fully transferable new vehicle limited warranty; the only vehicle manufacturer that offers up to a 5-year/100,000-km accessory warranty, and 5-year/unlimited-km roadside assistance. With so much versatility, you can be confident that your Outlander will keep on delivering for years to come.

2015 OUTLANDER

STYLISH PERFORMANCE, IMPECCABLE VALUE

The 2015 Mitsubishi Outlander offers the best value in the compact SUV segment. Designed with eye-catching style, it is also a powerhouse when it comes to towing and sure-footed on off-road terrain with the available Super All-Wheel Control (S-AWC). The 2015 Outlander is the only Japanese compact SUV to offer an available V6 engine, delivering both enhanced fuel efficiency and powerful driving, with a 3,500 lb. towing capacity. With two transmissions – the innovative Continuously Variable Transmission (CVT) or the refined 6-Speed Sportronic® Automatic Transmission with available paddle shifters – the Outlander provides the ultimate in power and versatility. And with its available seven seats, there is plenty of room and comfort to enjoy the great Canadian outdoors.

REFINED COMFORT EVERYWHERE

The 2015 Mitsubishi Outlander combines both off-road capability and performance with comfortable everyday driving. With its RISE (Reinforced Impact Safety Evolution) body construction that greatly enhances passenger protection, the technology provides the framework for sound-proofing the cabin, resulting in greater comfort to enjoy the Outlander's available appointments such as the Rockford Fosgate® premium sound system, next-generation navigation system with touchscreen, USB, Bluetooth® 2.0 hands-free phone interface and streaming audio connectivity. And for driving convenience, the Outlander offers available high-contrast meters, colour LCD display, a 6.1" LCD touch panel display audio with rear-view camera, soft-touch controls, dual zone automatic climate control and push-button engine start-stop. With so much sophistication at hand, venturing off-road has never been so refined.

ADVANCED TECHNOLOGY, ADVANCED SAFETY

With all the advanced technology that's engineered into Mitsubishi Outlander's smart safety features, it is like having a co-pilot along for every drive. The available Lane Departure Warning (LDW) system uses an onboard camera to monitor lane position in front of the vehicle, alerting the driver if it detects the vehicle leaving its lane. Additionally, the available Adaptive Cruise Control (ACC) system uses radar technology to accurately judge the distance between you and the vehicle ahead, helping you maintain a safe driving distance. And by alerting the driver to oncoming obstructions, the available Forward Collision Mitigation (FCM) system can help you avoid accidents – and even automatically apply the brakes, if necessary. Along with its 7-airbag safety system, including driver's knee airbag, Reinforced Impact Safety Evolution (RISE) construction, Super All-Wheel Control (S-AWC) with Active Stability Control (ASC) and Anti-Lock Braking System (ABS) with Electronic Brake-Force Distribution (EBD), you can be assured of a true sense of security.

LANE DEPARTURE WARNING^s

Using an onboard camera, the 2015 Outlander's Lane Departure Warning (LDW)^s system will alert you both visually and audibly if it sees you're drifting out of your lane. It's kind of like the robotic back seat driver you'd always hoped for.

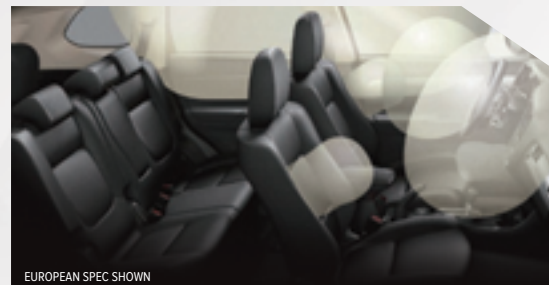

FORWARD COLLISION MITIGATION^s

Using advanced radar technology, the 2015 Outlander keeps a close eye on the road by precisely measuring your vehicle's position in relation to others in front of you. So, if a vehicle ahead is detected, the Forward Collision Mitigation (FCM)^s system will alert you of possible frontal collisions. And just like your old driving instructor, it'll even apply the brakes for you, if necessary.

7 STANDARD AIRBAGS

The 2015 Outlander comes equipped with a standard 7-airbag safety system that consists of dual front airbags, front seat-mounted side-impact airbags and side curtain airbags, plus a driver's knee airbag. Enjoy the peace of mind that comes from knowing you and your passengers are protected from all angles.

EUROPEAN SPEC SHOWN

ADAPTIVE CRUISE CONTROL[†]

With three different distance settings, the 2015 Outlander's Adaptive Cruise Control (ACC)[†] system uses radar technology to assess the distance between you and the vehicle ahead. Which means you can easily maintain your preferred bubble of personal space without making your feet do any of the thinking.

SUPER ALL-WHEEL CONTROL (S-AWC)*

The Super All-Wheel Control system in the 2015 Outlander features four driver-selectable modes: NORMAL for everyday conditions, SNOW for winter conditions, LOCK for off-roading, and ECO mode that sends power to the front wheels during normal driving to increase fuel efficiency yet can instantly transfer power to all four wheels the moment any slippage is detected for the ultimate balance of efficiency and control. With an even more advanced S-AWC system than ever, the 2015 Outlander feels right at home conquering any terrain and winding road with ease.

* AVAILABLE ON THE OUTLANDER GT S-AWC

ACTIVE STABILITY CONTROL (ASC)

Active Stability Control (ASC) maintains stability and control by automatically recognizing understeer or oversteer. It then applies brake pressure to the appropriate wheels to keep you in control.

NEXT-GENERATION NAVIGATION

The 2015 Outlander offers an evolved and intuitive navigation with 3D mapping, road speed limits, expanded Points of Interest (POI) and Mapcare™ which includes two map updates. The built-in Diamond Lane Guidance® system can find the fastest routes using carpool lanes.

ECO DRIVE SUPPORT SYSTEM

The Outlander's ECO Drive feature automatically reduces throttle input and air flow of the air conditioner to optimize fuel consumption.
