Audi Q5 accessories

Audi
Genuine Accessories

What sets both you and the Audi Q5 apart: individuality.

The real strength of the Audi Q5 lies in its flexibility. The vehicle adapts to your every need. However, because we cannot tell exactly what you have in mind, we provide you with Audi Genuine Accessories so that you can customise your Audi Q5 to meet your own expectations.

20 Comfort and protection	

We may not have reinvented the wheel, although given the numerous tests, you might almost believe that we have.

The day-to-day use of cast aluminum wheels subjects them to constant pressure. Extensive tests ensure that the wheels nevertheless fulfil the stringent quality requirements. The time-consuming casting process also ensures high component strength. And the sophisticated multi-layer paintwork not only gives the vehicle its brilliant look but also provides effective protection against scratches.

1 Cast aluminum wheels in 10-spoke design, Anthracite, high-gloss turned finish¹
Elegant design with high-shine spokes. In dimensions 8.5 J x 20 for 255/45 R 20 tires.

2 Cast aluminum wheels in 10-spoke design, Silver¹
Available in dimensions 8.5 J x 20 for 255/45 R 20 tires.

3 Forged aluminum winter wheels in 7-spoke design
Complete winter wheel suitable for use with snow chains in dimensions 7 J x 17 for 235/65 R 17 tires.

Snow chains
For better hold on snow and ice. Available in a range of sizes.

¹ Can only be used in conjunction with the optional wheel arch covers.

1 Valve caps

The four metal valve caps with embossed Audi logo provide better protection for the valve against dust, dirt and moisture. Available for rubber, metal and aluminum valves.

2 Anti-theft wheel bolts

These bolts can only be removed using the special adapter provided on delivery, making theft more difficult.

3 LED for entry area, quattro

For a bright entrance. When the vehicle doors are opened, an LED light projects the quattro logo onto the ground. Available in a two-part set for the driver and front-passenger side or for the rear vehicle doors.

quattro film set

The "quattro" lettering as a film set for the rear section of the vehicle on both sides. Available in either Brilliant Black or Ice Silver, metallic, depending on the exterior vehicle colour.

High-tech gecko film set

Adds a unique touch, not only to your vehicle but also to many other surfaces. Available in two sizes: 20 x 15 cm and 40 x 30 cm.

Wheel bags

A four-part set with convenient handles for easy and clean transport and storage of complete wheels. Made from tear-resistant plastic. Wheel bolts can be stored in the outside pockets.

Beauty knows no pain.

Topic: quality

Cast aluminum wheels

Copper accelerated acetic acid salt spray tests, for example. When our experts test the quality of Audi Genuine Accessories' wheels, they are just as innovative as our designers are. Extreme heat, high humidity, intense sunlight – the number of possible tests is practically limitless. However, the most extreme durability test is the copper-accelerated acid salt spray test, CASS for short. This test involves spraying wheels that have already been damaged by simulated stone chips with this extremely corrosive solution for several days. In spite of this, the wheels must pass all these challenges without any visible damage. This means that you will continue to enjoy the design of your Audi Genuine Accessories' wheels just as much as you did on the first day, even after many kilometres.

Look good on any road. Even when there aren't any roads.

The offroad style package emphasises both the athleticism and the offroad qualities of the Audi Q5. Fascinating accents give your Audi Q5 an even more robust and sporty look, making it almost too attractive to take off road.

1 Front bumper

Consisting of a bumper cover painted in the vehicle colour, a radiator grille with vertical chrome bars, a metallic stone grey spoiler and stainless steel skid plate.

2 Door cover strips

Painted in metallic stone grey. Reduce damage, for example from stone chipping.

3 Wheel arch extensions

Painted in metallic stone grey. Emphasise the distinctive vehicle styling and protect the body contour.

4 Rear bumper

The metallic stone grey-painted rear apron emphasises the dynamic rear section of the Audi Q5 and protects the rear underside of the vehicle with a stainless steel skid plate.

5 Running boards

Made from stainless steel. These products make it easier to load ski and luggage boxes on the roof. Rubber pads protect against the risk of slipping. Load capacity of 200 kg each.

Foot rest and pedal caps in stainless steel

Dazzling and practical at the same time: the foot rest and pedal caps are made from brushed stainless steel. The rubber coating on the surface provides better grip.

There is plenty of room in the Audi Q5. But some people just can't get enough.

1,560 litres of cargo space really should be sufficient. However when it comes to transporting bulky items, Audi Genuine Accessories offers practical and attractive solutions. So you really can pack everything you want.

1 Bicycle fork mount

Easy to use. Lockable. Suitable for bicycles with quick-release front wheel. Maximum load capacity: 17 kg. Can only be used in conjunction with the roof rack provided as standard for the Audi Q5.

Front wheel holder

Made from anodised matte aluminum, mounted with anti-theft screws, completely pre-assembled. Not suitable for bicycles with a half axle. Can only be used in conjunction with the bicycle fork mount.

2 Bicycle rack

Made from a specially shaped aluminum profile and powder-coated steel. Ensures that the wheel can be mounted particularly simply. Lockable. Maximum load capacity: 17 kg. Can only be used in conjunction with the roof rack provided as standard for the Audi Q5.

1 Luggage rack

For the easy transportation of extra luggage on the roof. Lockable. The profile is made from anodised aluminum. Non-corrosive. Maximum permissible load: 56 kg. Can only be used in conjunction with the roof rack provided as standard for the Audi Q5.

2 Roof carrier bag

For storage or transport of a carrier unit and smaller roof rack modules. Made from durable material, with multiple loops and a side pocket for suitable tools or small parts.

1 Kayak rack

For single kayaks weighing up to 45 kg. Can be tilted for easy loading and unloading. The kayak rack and elasticized belt can be secured separately. Can only be used in conjunction with the roof rack provided as standard for the Audi Q5.

2 Ski and snowboard rack

To transport up to six pairs of skis or four snowboards easily. Lockable. Can only be used in conjunction with the roof rack provided as standard for the Audi Q5.

Ski bag

A convenient way to transport your skis. The ski bag with its premium design offers space for up to four pairs of skis or three snowboards and can be secured to the fastening rings in the luggage compartment via the integrated straps. The roller system makes it easy to carry the bag outside the vehicle.

Whether it's the Kalahari, the Arctic or Florida – our roof rack modules are suited to the climate.

Weather tests simulate the different climate zones in which Audi Genuine Accessories' products are used.

Hot and dry, cold and damp, hot and humid. Diverse global weather conditions present huge challenges to developers. Whether it is rainy, stormy or blazing sunshine, a product has to be able to withstand all kinds of extreme climate conditions for long periods. This is why Audi uses special weather testing to test and optimise the luggage boxes. Xenon lamps and artificial rain can simulate an entire year in fast motion. In addition, testing roof carriers also helps to optimise operating and driving comfort, for example. The desired shape of the roof carrier is based on the aerodynamic profile of aircraft wings to reduce wind noise. Multiple tests, one goal: ensuring an ideal start to your next holiday with Audi Genuine Accessories. Even if it doesn't take you to the Kalahari.

Roof rack modules

Ski and luggage boxes

Volumes	300L	360L	405L
External dimensions (L x W x H)	1,902 x 630 x 376 mm	1,756 x 826 x 376 mm	2,050 x 800 x 380 mm
Max. number of pairs of skis	4-6	5-7	5-7
Max. number of snowboards	3-4	4-5	4-5
Max. length of skis	175 cm	155 cm	190 cm
Max. permissible load	60 kg	75 kg	75 kg

Bags for roof boxes

Robust yet flexible. These bags are equipped with a watertight floor featuring a watertight border extending 5 cm upwards. Ideal for making full use of the Audi roof boxes, as it is possible to use the individual bags in various combinations. Available in three sizes: S (43L), M (76L) and L (82L).

1-3 Ski and luggage boxes

A new design from Audi featuring improved aerodynamics thanks to a flatter, sportier visual concept. Available in Platinum Grey with Brilliant Black side blades or gloss Brilliant Black, each featuring chrome Audi rings and a high-quality, rivet-free look. Boxes are lockable and can be opened from both sides for comfortable loading and unloading. With internal handle for closing the box. Simple quick-action securing system including torque limitation. Positioned towards the front of the vehicle, making it easier to access the luggage compartment. Available in three sizes: 300 litres (image 2), 360 litres (image 3) and 405 litres (image 1). Can only be used in conjunction with the roof rack provided as standard for the Audi Q5. Further important information that will help you to choose the right roof box can be found in the table on the page to the left.

A communications professional who also knows where he's going.

The versatile means of communication in the Audi Q5 mean that you can take your favourite contact person as well your favourite music along with you. And with the most up to date map data for your navigation system, you can master a new route in the blink of an eye.

1 iPad adapter

Adapter for Apple iPads; secured to the backrests of the front seats. The adapters can be simply slotted onto the holder for mobile devices, which is available separately. An iPad can still be used as normal. With integrated charging function and 90° pivot. Requirement: Rear Seat Entertainment must be present in the vehicle.

Audi SD card

For storing your music: ultra-compact and universal SDHC memory card (16GB), class 10. Comes with a protective case.

2 Bluetooth headset

The ideal addition to the optional Audi Entertainment mobile; compatible with various Apple products such as the iPad. The headset can be folded up and conveniently stored in the bag provided. The rechargeable batteries can achieve an operational life of up to 15 hours.

3 Audi music interface

Enables connection of various Apple iPod and iPhone models as well as other media players to your vehicle. Media players can be operated via the infotainment system. To connect media players, additional adapter cables are required, which are available in a range of versions.

1 Navigation update

Maps with advanced content, e.g., new roads and points of interest, for greater comfort and a more relaxed driving experience. Our tip: combine the update with the next vehicle service.

You have treated yourself to a very special car. Now treat the car to something as well.

Even an all-round successful vehicle like the Audi Q5 has room for improvement. Our various solutions for protection and comfort are an example. Treat your vehicle to more storage space, more protection against dirt, or a few clever details that make it even more functional.

1 Luggage compartment tray

Ideal for all luggage items that tend to leave traces during transportation. The inlay is made from plastic and features high edges and a robust design; it is also easy to clean. Wide grooves prevent loads from slipping.

2 Luggage compartment shell

Made-to-measure luggage compartment protection. Robust and washable. All-round edging prevents liquids from leaking onto the luggage compartment floor.

1 Care products

Tailored to the high-quality materials used to construct your Audi. Suitable for numerous applications, either in the vehicle interior or for outer care, depending on the product.

2 Sun protection system

Offers virtually full sun protection. Made-to-measure two- or three-part set for the side and rear windows. Easy to fit and stow away.

Retrofit solution for the parking system

Supports drivers by emitting an audible signal whenever there is insufficient distance from obstacles. Four unobtrusive ultrasonic sensors are installed in the rear bumper. Activated by selecting reverse gear.

1 Luggage compartment box, foldable

Made from black polyester, offering a storage capacity of up to 32 litres. Easily assembled using Velcro tabs, providing a functional and practical solution. When laid flat, the box also acts as an additional protective underlay for the luggage compartment. Washable and easy to clean.

2 Seat back pocket

Additional storage capacity in a high-quality Audi design with various practical sections – for an even tidier interior. The pocket has a volume of approximately 11 litres and can be secured to the backrests of the front seats. The handles also enable it to be used outside the vehicle.

3 Rear seat pocket

An organised storage space for the rear seat bench. With its various interior mesh pockets, additional storage compartment and total volume of approximately 27 litres, the rear seat pocket with its high-quality Audi design provides plenty of space for the various items required on a long journey. Easily secured using the three-point belt. Even more useful space is provided by the stable passenger compartment box and the practical business pocket.

Who says that shoes only play a role in the world of fashion?

Our testers will pay special attention to these during a special stress test.

Brakes, clutch, acceleration. Something that most drivers perform almost automatically subjects the floor mat to constant stress. This is because such movements lead to shoes placing a large amount of strain on the floor mat. As a result, Audi Genuine Accessories uses a special test procedure to investigate the durability of the materials. To do this, a floor mat is clamped in a special device. A rubber shoe heel simulates the load on the floor covering around the accelerator, brake and clutch pedals. The results are incorporated into the continuous improvement of the product. This means that, even after long use, the floor mat groove meets the high demands for quality of Audi Genuine Accessories – and, of course, your own. So you see, shoes also play an important role at Audi. At least when it benefits your vehicle floor mats.

1

2

3

1 Rubber foot mats

Ideal fit, better protection against heavy soiling. Secured to the vehicle using the fixing points at the front on the floor. With Q5 lettering.

2 Premium textile floor mats

Tailored to the size of the floor in the Audi Q5. Made from durable, tightly woven velour. With a special coating on the underside. The floor mats are always secured at the front of the vehicle using the points provided for this purpose on the floor. With Q5 lettering.

3 Vehicle cover (for indoor use)

Ideal fit, in Anthracite, bearing the Audi logo. Made from a breathable and antistatic material. The piping accentuates the shape of the vehicle. Excellent protection from dust and dirt.

Vehicle cover (for outdoor use)¹

Ideal fit, in Anthracite, bearing the Audi logo. Made from a UV-resistant and washable material. Reliable protection against scratches, dirt, dust, sunlight and rain.

Mud flaps

Made from high-quality plastic. Prevent damage to paintwork and stop dirt building up in the area around the sill panel and rear apron. Available as a two-part set for the front and/or rear of the vehicle.

Loading sill protective sheet

The made-to-measure protective sheet for the loading sill, made from transparent film, enhances the level of protection for the bumper against damage when loading and unloading the luggage compartment.

Protective film for paintwork

Transparent, barely visible, high-performance protective film with an extra clear paint coat. Reduces the effects of stone chipping, scratches and scrapes. Applied to the front of Audi vehicles.

Protective film for rear sill panel

Practical and effective solution for protecting the kickplate of the rear doors at the wheel housing arch. Transparent film made from scratch-resistant, robust plastic.

¹When using the vehicle cover (for outdoor use), please observe the relevant applicable legal provisions, in particular road traffic regulations.

Audi Vorsprung durch Technik
