Colours & Trims P.23/24

Adventure at the push of a button.

At Honda, we're always looking for ways we can take our drivers further. Well, the 2016 CR-V is no exception. It constantly shows off its functionality through tech features like the available Display Audio System¹ with HondaLink™^{1,2} Next Generation and available Honda Sensing™ technologies that include features like the Collision Mitigation Braking System™ (CMBS®)¹ and Adaptive Cruise Control¹ (ACC). Overall, we've designed the CR-V with efficiency in mind thanks to the Direct Injection Earth Dreams™ engine and the continuously variable transmission (CVT). With features like the easy fold-down 60/40 split rear seatback, available power tailgate and low cargo floor, there's more than enough versatility to feel good about. And with an exterior this bold and beautiful, you'll have plenty of show to pair with that go.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.

Think of it as road trip chic.

Sometimes, looks aren't deceiving at all. This is certainly true of the CR-V, with an exterior that boasts both smart design and aggressive styling. Up front, the bold grille adds to its resilient attitude. Paired with the sleek design of the rear, the vehicle boasts a wide, athletic-looking stance. Helping to light the road ahead are available projector-beam halogen headlights, available LED daytime running lights and available fog lights. In the back, the rear privacy-tinted glass and rear chrome licence plate garnish are a sophisticated flourish. Add in the available one-touch power moonroof with tilt feature and the available 18" aluminum-alloy wheels, and you'll be ready to roll with confidence.

- Available 18" aluminum-alloy wheels**
- Available front wiper de-icer**
- Available rain-sensing windshield wipers**
- Available LED daytime running lights**
- Heated power door mirrors**
- Rear privacy-tinted glass**

Slip into something more convenient.

Beneath its tough exterior, the CR-V is all comfort and luxury. The available dual-zone automatic climate control with air-filtration system is dedicated to help make your driving environment perfect, and the driver's seat with available 10-way power adjustment including power lumbar support is just another way we can add more comfort to your drive. This is taken even further with the available driver's seat position memory feature, which helps you keep the setting that suits you best. And with standard heated front seats, luxurious available perforated leather-trimmed seating surfaces and a multi-functional centre console with rear air vents, you'll get the feeling that the CR-V is just as comfortable as it is convenient.

To complete the package, the CR-V offers versatility that accommodates a wide range of itineraries. Generous passenger and cargo volume are amplified by the ingenious easy fold-down 60/40 split rear seatback, while the available power tailgate, low cargo floor and wide-open rear doors help make for smooth loading and unloading. Plus, your gear has a built-in layer of protection with the help of the available retractable cargo cover. If any of our vehicles was built to multi-task, it's the CR-V.

- Easy fold-down 60/40 split rear seatback
- Available dual-zone automatic climate control with air filtration system
- Heated front seats
- Available perforated leather-trimmed seating surfaces
- Available power tailgate

It might come off a bit nerdy.

Technological prowess is a familiar concept for the CR-V. Its available Display Audio System¹ with HondaLink™^{1,2} Next Generation and available proximity key entry system with pushbutton start continue to move the 2016 CR-V towards a greater level of luxury and sophistication. But don't worry; you don't have to be a tech head to appreciate features like these.

Display Audio System¹ with HondaLink™^{1,2} Next Generation

The available 7" Display Audio System is a tablet-like touch-screen that lets you pinch, swipe and tap to navigate through the audio system, display settings and HondaLink™ Next Generation. This is innovation you can touch.

Multi-angle rearview camera¹

The standard multi-angle rearview camera helps to make reversing in and out of tight spots a breeze. Choose from three distinct angles – wide, normal and top-down – to help you take a couple points off your most complex turns.

Proximity key entry system with pushbutton start

Gone are the days when unlocking and starting your vehicle required fishing through your pocket or purse. With the available proximity key entry system with pushbutton start, your doors unlock automatically when you grab the handle and the engine fires up with the push of a button. Could hitting the road be any easier?

Honda Satellite-Linked Navigation System™^{1,3}

The available Honda Satellite-Linked Navigation System helps make it easier for drivers to get where they're going. And, because it's housed on the available Display Audio System¹ touch-screen, you can swipe, drag and pinch to zoom in on your maps.

HandsFreeLink™-bilingual Bluetooth®

The standard HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface^{1,2} connects with your compatible smartphone so you can make or answer calls without taking your hands off the wheel. Plus, Bluetooth Streaming Audio^{1,2} plays music from your compatible device.

Honda LaneWatch™ blind spot display¹

Keep more of your right side in sight with the available Honda LaneWatch blind spot display. Exclusive to Honda,⁴ it is designed to send a live video feed from a camera mounted under your passenger-side mirror to the 7" Display Audio System¹ screen, revealing nearly four times more visibility than just the mirror alone.

Available Display Audio System¹ with HondaLink™^{1,2} Next Generation

Multi-angle rearview camera¹ with guidelines (shown with available Display Audio System)

Available proximity key entry system with pushbutton start

Available Honda Satellite-Linked Navigation System™^{1,3}

HandsFreeLink™-bilingual Bluetooth®^{1,2}

Available Honda LaneWatch™ blind spot display¹

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.

3. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.

4. Based on information currently available to Honda Canada Inc. as of October 1, 2015.

Do it all in a day's work, or a day's play.

The 2.4-litre, 16-valve, Direct Injection, DOHC, i-VTEC® 4-cylinder engine provides the CR-V with 185 horsepower¹ and 181 lb.-ft. of torque,¹ while the continuously variable transmission (CVT) feels smooth and natural, helping to deliver increased fuel efficiency. The Earth Dreams™ technology allows you to push the CR-V to perform at its very best. In addition, the ECON mode setting is designed to improve fuel efficiency by automatically adjusting the CR-V's engine and other auxiliary systems, while the Eco Assist™ system is in place to coach you to more fuel-conscious driving. Finally, Honda-tuned handling and quiet comfort make for a refined ride, and if conditions are slick, the available Real Time AWD™ with Intelligent Control System™ is designed to help provide you with the traction you need. The CR-V is just more proof that sometimes the trip is just as fun as the destination.

¹ Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

- 2.4-litre, 16-valve, Direct Injection DOHC i-VTEC® 4-cylinder engine
- Continuously variable transmission (CVT)
- Available Real Time AWD™ with Intelligent Control System™
- Eco Assist™ system
- ECON mode button

Honda Sensing™

The CR-V Touring comes with Honda Sensing Technologies, a suite of safety and driver-assistive technologies that are designed to improve the driver's situational awareness, and, in some cases, intervene by taking certain actions to help avoid a collision or lessen its severity.

Collision Mitigation Braking System™ (CMBS®)

To help reduce the likelihood or severity of a frontal impact, the available CMBS® is engineered to apply the brakes if you don't slow down when it senses you're at risk of a collision. If it still senses an imminent collision, CMBS® is designed to brake firmly.

Lane Keeping Assist System (LKAS)

The available LKAS¹ is engineered to gently correct your steering when you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

Lane Departure Warning (LDW) system

The available LDW¹ is designed to monitor vehicle lane position and alert you when your vehicle drifts into a new lane when you haven't signaled.

Adaptive Cruise Control (ACC)

The available ACC system¹ is designed to keep a set speed and set following interval behind a vehicle detected ahead of yours.

Forward Collision Warning (FCW) system

The available FCW system¹ that is integrated with CMBS® is designed to detect the presence of vehicles in front of you and issue alerts if you're approaching with too much speed. If you fail to respond to the alerts, the CMBS® is triggered into operation.

Available Collision Mitigation Braking System™ (CMBS®)

Available Lane Keeping Assist System (LKAS)

Available Lane Departure Warning (LDW) System

Available Adaptive Cruise Control (ACC)

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

Solid on safety

At Honda, we are committed to providing one of the highest levels of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
 2. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
 3. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
 4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

ACTIVE SAFETY

Controlled braking

To help with safe stopping, the 4-wheel Anti-lock Braking System¹ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Vehicle Stability Assist (VSA[®]) with Traction Control

Vehicle Stability Assist¹ with Traction Control is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Hill Start Assist¹

When you take your foot off the brake, this feature is engineered to temporarily maintain brake pressure to help prevent your CR-V from starting to roll backwards when stopped on an incline.

Tire Pressure Monitoring System (TPMS)

To promote enhanced safety and fuel efficiency, the Tire Pressure Monitoring System² monitors and compares the rolling radius and rotational characteristics of each wheel and tire while you are driving to determine if one or more tires are significantly under-inflated.

PASSIVE SAFETY

Next Generation ACE™ body structure

The highly innovative next generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions to help prevent intrusion into the passenger cabin.

Seat belt safety

The CR-V helps prepare you for the unexpected with 3-point height-adjustable front seat belts with automatic tensioning system and 3-point rear seat belts.

Six standard airbags

The cabin of the CR-V contains six standard airbags. It features dual-stage, multiple-threshold front airbags as well as side curtain airbags with rollover sensor system, which are designed to deploy the side curtain airbags in the event of a rollover. Plus, it has Smartvent™ side airbags, which are designed to deploy in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Child safety

The CR-V features childproof rear door locks, as well as rear seat Lower Anchors and Tethers for Children (LATCH), which give you a simple and convenient method to install compatible child safety seats without using the vehicle's seat belt system.

HondaLink™ Assist Automatic Emergency Response System

The available HondaLink Assist Automatic Emergency Response System^{1,3,4} helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System¹ is designed to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth[®]-paired phone as long as it has reception, does not require a subscription and gives you added peace of mind while you're on the road.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and deformable wiper pivots.

All-season floor mats

Roof rack rails

Running boards, full-size

Cargo liner

Towing package

Door sill trim, illuminated

Door visors

Remote engine starter package

Roof rack, snowboard attachment

Accessories.

Other Accessories Available

- 17" Alloy wheel
- Auto day/night mirror
- Body side molding
- Cargo net
- Cargo organizer
- Cargo tray
- Chrome exhaust finisher
- Door edge film
- Door edge guards

- Engine block heater
- Fog lights
- Full nosemask
- Hood edge deflector
- Moonroof visor
- Rear back-up sensors
- Rear bumper appliqué
- Rear seat cover
- Rear tailgate spoiler

- Roof rack box, short
- Roof rack, bike attachment
- Roof rack, crossbars
- Roof rack, ski attachment
- Tent
- Wheel locks

CR-V Bundle 1

- All-season floor mats
- Cargo tray

CR-V Bundle 2

- All-season floor mats
- Cargo tray
- Running boards, full-size

CR-V Bundle 3

- All-season floor mats
- Cargo tray
- Running boards, full-size
- Roof rack rails
- Hood edge deflector

The Power of Dreams, in all their forms.

At Honda, we're committed to being a leader in innovative thinking. It's part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people's lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology, the race-inspired performance of our motorcycles and automobiles, the world's most advanced humanoid robot, ASIMO, HondaJet, the fastest, highest flying and most fuel-efficient aircraft in its class, and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can't be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to do everything we can to help preserve our planet. This belief is why we make significant efforts to help ensure preservation of the environment in all of our company's activities. It's why our head office in Markham, Ontario was designed and built to be LEED® (Leadership in Energy and Environmental Design) Gold Certified. It's why our Alliston, Ontario plant is ISO 14001 certified. And it's why Honda, along with our associates and families, has helped plant more than 100,000 trees in Canada over the last 9 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That's what we do. That's The Power of Dreams.

We're Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

We're Ready to Help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the continental United States. Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

Honda Plus Extended Warranty. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that's uncertain is where it will take you.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

New Honda Vehicle Warranty. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor's Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

Genuine Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Honda reminds you to properly secure all items stored in the cargo area.

- Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
- With the required accessory towing package. See your Owner's Manual for proper towing operation.
- None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
- For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
- Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
- Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.
- Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.
- Coverage varies by market.
- Only available in certain areas. Includes a no-charge trial of three months.
- Estimated fuel economy based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>
