It looks nothing like a stereotype.

The 2016 Odyssey knows how to captivate. Bold, sleek and sophisticated, it announces itself with a striking grille, deeply carved aluminum hood, sculpted front fenders and slick side panels. Any left unconvinced need only to catch a glimpse of the vibrant LED taillight bars or available features like the chrome-trimmed fog lights, 18" aluminum-alloy wheels or HID headlights to know that riding in an Odyssey means you're riding in style.

Available power tailgate

Available power sliding doors

Available heated power folding door mirrors with integrated turn signals

LED taillight bars

Available 18" aluminum-alloy wheels

Available chrome-trimmed fog lights

Available auto-levelling High-Intensity Discharge (HID) headlights

If you wanted a seat with a view, you now have up to eight.

There are plenty of luxuries to be found in the cabin of the Odyssey. Up front, seating is truly road trip ready. Not only are the available heated front seats there to help keep you cozy on cold mornings, but the driver's seat with 8-way power adjustment and the front passenger's seat with 4-way power adjustment make long hauls feel like quick jaunts. If you need a place to store your purse or toss some loose change from that last minute ice cream run, the available removable centre console is there for you. Removing it provides easy pass-through to the 2nd-row and the flip-up trash bag ring makes picking up after your little passengers in the back a breeze. And if hunger strikes on the open road, just reach for the snacks and drinks you stashed away in the available cool box. So sit back, relax, and enjoy the scenic route.

Available power moonroof with tilt feature

Available heated front seats

Available tri-zone automatic climate control with humidity control and air-filtration system

Available cool box

Every family room needs a vacuum.

Taking the family on a road trip can be a lot of fun and more than a little messy. That's why the 2016 Odyssey Touring trim is equipped with HondaVAC™, the world's first in-car vacuum system. It features a replaceable filter, canister bag, nozzle accessories and a hose that reaches easily to the front seats – all of which can be conveniently hidden away in a storage compartment in the rear cargo area. Whether you're at home in your driveway or parked near a beach on a family getaway, HondaVAC™ helps to make quick work of big cleanups.

There's nothing mini about it.

The Odyssey's versatile interior is perfect for your unpredictable lifestyle. The wide-mode adjustable 2nd-row seats have two distinct seating configurations, giving adult passengers more space or making room for up to three full-sized child seats (SE trims and above.) Its available five LATCH positions will help park your concerns knowing they offer up flexible child seat placements and help to keep them secure. Plus, you can move the available centre seat almost six inches closer to the front seats. In the back, simply pull on the seatback strap of the One-Motion 60/40 Split 3rd-Row Magic Seat® and it effortlessly folds away to create a cavernous amount of cargo room in seconds.

Who's got room for eight? You do (on SE trim and above).

Slide the centre seat forward to keep your child within arm's reach.

With six people, you can fold the armrest down for extra comfort in the third row. (Touring trim only.)

Five passengers and lots of cargo space left to fill.

Party of four? Stow the third row for more cargo space.

Make space for passengers, or more room for up to three child seats in the second row in "wide mode."

Even with three passengers, there's still plenty of room for most kayaks or ladders.

Hauling lumber is a breeze. Build a tree house. Or two. Or three.

Full of tech you won't need your kids to explain.

When you think about technology, the word "minivan" probably doesn't come to mind. But the Odyssey is no mere minivan. Front to back, it has stunning available tech features. From information and entertainment to navigation and trip-enhancing convenience, this is one minivan that aims to please your inner geek and any passengers you may have.

Proximity key with pushbutton start

The Odyssey has convenient features like the available proximity key entry system, allowing you to unlock your doors simply by grabbing the door handle. The available pushbutton start makes firing up the ignition as simple as pressing a button.

Navigation system

The available Honda Satellite-Linked Navigation System™^{1,3} with bilingual Voice Recognition, 3D map display and FM Traffic⁴ is like having someone onboard who can always show you the way.

Rear entertainment system

The available Honda DVD Ultrawide Rear Entertainment System keeps your passengers amused with a 16.2-inch display, split-screen capability, integrated remote control, 115-volt power outlet, RCA video input, HDMI® input jack,² two headphone jacks and two wireless headsets. Get used to hearing "are we there yet?" a lot less.

650-watt, 12-speaker audio system

The available Premium audio system has AM/FM/SiriusXM™⁵/CD/MP3/Windows Media® Audio playback capability, 650 watts, 15 GB of hard disk drive (HDD) audio storage and 12 speakers including a subwoofer for 5.1 Surround Sound. Plus, the MP3/auxiliary input jack and USB audio interface² let you plug in your compatible MP3 player.

E-mail, text and Bluetooth®

The available e-mail and standard text message function^{1,2} makes it easy to stay connected when you're out on the road, while the HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface^{1,2} lets you stay in the loop without taking your hands off the wheel.

HondaLink™

The available HondaLink™^{1,2} featuring Aha™^{1,2} by HARMAN lets you put your phone away, yet remain in touch with the outside world. It connects you to cloud-based media, such as news, music and podcasts, all controlled through voice recognition, your audio touchscreen or conveniently placed steering wheel-mounted audio controls.

Available proximity key and pushbutton start

Available Honda Satellite-Linked Navigation System™^{1,3}

Available Honda DVD Ultrawide Rear Entertainment System

Available 650-watt, 12-speaker audio system

Available e-mail,^{1,2} standard text^{1,2} and Bluetooth®

Available HondaLink™^{1,2} with audio touch-screen

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.
2. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
3. Map database covers major metropolitan areas in Canada and 48 contiguous U.S. states.
4. Coverage varies by market.
5. Only available in certain areas. Includes a no-charge trial of three months.

Like seeing into the future.

You always want to keep your eyes on the road. The Odyssey is equipped with advanced driver-assistive technology to help you do just that. On the Touring trim, there's the Blind Spot Information (BSI) system¹, which is designed to notify you using indicator lights that flash when vehicles enter either blind spot. You can also get a better look at what's behind you with the expanded view driver's mirror, rearview camera¹ or the available multi-angle rearview camera.¹

Rearview camera

A rearview camera¹ comes on the Odyssey, so you can get a better view of what's behind you. The available multi-angle rearview camera¹ has three different angles, including wide, normal and topdown, for added perspective and easier reversing.

Honda LaneWatch™ blind spot display¹

This available feature uses a camera on the passenger-side mirror, designed to greatly reduce your blind spot on that side. Signal right and a live video displays on your dashboard screen, revealing nearly four times more visibility than the mirror alone.

Blind Spot Information (BSI) system

Standard on the Touring trim, the Blind Spot Information system¹ is designed to notify you of vehicles entering either blind spot, using indicator lights inside the cabin. It's just another way the Odyssey helps to serve as your lookout on the road.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

In tune with nature. Out of touch with gas stations.

Honda has engineered functionality into every inch of the Odyssey, including the engine bay, which features a 3.5-litre, i-VTEC® V6 engine that delivers 248 horsepower¹ and 250 lb.-ft. of torque! Together with Variable Cylinder Management® (VCM®) and the standard 6-speed automatic transmission, the Odyssey achieves one of the best fuel economy ratings in its class for an 8-passenger minivan.^{2,3} Add in the fun-driving nature of the variable power-assisted rack-and-pinion steering and multi-link rear suspension, and you have a minivan that performs with the spirit of something much smaller.

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
2. Estimated fuel economy based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.
3. Based on information currently available to Honda Canada Inc. as of November 1, 2015.

Solid on safety.

At Honda, we strive to provide a high level of standard safety features to help ensure the safety of occupants, other drivers and even pedestrians. This added peace of mind helps our drivers maintain the confidence to enjoy every road to the fullest.

ACTIVE SAFETY

Controlled braking

To assist with safe stopping, the 4-wheel Anti-lock Braking System¹ (ABS) is designed to help you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist is engineered to help improve braking performance by applying brake pressure when a panic stop is detected.

Vehicle Stability Assist (VSA®) with Traction Control

Vehicle Stability Assist¹ with Traction Control is designed to sense and help correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

Forward Collision Warning (FCW) system

The available Forward Collision Warning system¹ is designed to detect the presence of vehicles in front of you and issue alerts if you're approaching with too much speed.

Tire Pressure Monitoring System (TPMS)

To promote enhanced safety and fuel efficiency, the Tire Pressure Monitoring System² continually checks the air pressure in each tire. If pressure drops in any one tire, the driver receives a dashboard alert.

Lane Departure Warning (LDW) system

The available Lane Departure Warning system¹ is designed to monitor vehicle lane position and alert you when your vehicle drifts into a new lane when you haven't signaled.

PASSIVE SAFETY

Next Generation ACE™ body structure

The highly innovative, next-generation Advanced Compatibility Engineering™ (ACE™) body structure is engineered to help disperse frontal impact energy to enhance occupant protection, while more effectively controlling it in severe collisions, to help prevent intrusion into the passenger cabin.

Solid frame structure

Like all Honda trucks, the Odyssey is built with a rigid unit-body frame for added strength, stability and vehicle handling.

Child safety features

Standard Lower Anchors and Tethers for Children (LATCH) offer three secure child-seat restraint positions in the second row on SE trims and above (two on LX), while the third row has two positions on all trims. This adds up to the Odyssey having room for as many as five child seats, more than any other minivan.³ The Odyssey also features childproof rear door locks.

Pedestrian safety

Innovative pedestrian safety features include an energy-absorbing hood and front fenders and deformable wiper pivots.

Six standard airbags

The cabin of the Odyssey contains six standard airbags. It features dual-stage, multiple-threshold front airbags as well as three-row side curtain airbags with rollover sensor system, which are designed to deploy the side curtain airbags in the event of a rollover. Plus, it has Smartvent™ side airbags, which are designed to deploy in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

Seat belt safety

The Odyssey helps prepare you for the unexpected with 3-point height-adjustable front seat belts with automatic tensioning system and 3-point rear seat belts in the second and third rows.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's Owner's Manual.

2. For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.

3. Based on information currently available to Honda Canada Inc. as of November 1, 2015.

Hood edge deflector

Roof rack box, short

Cargo organizer

Roof rack rails and crossbars

The Power of Dreams, in all their forms.

At Honda, we're committed to being a leader in innovative thinking. It's part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people's lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology, the race-inspired performance of our motorcycles and automobiles, the world's most advanced humanoid robot, ASIMO, HondaJet, the fastest, highest flying and most fuel-efficient aircraft in its class, and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can't be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to do everything we can to help preserve our planet. This belief is why we make significant efforts to help ensure preservation of the environment in all of our company's activities. It's why our head office in Markham, Ontario was designed and built to be LEED® (Leadership in Energy and Environmental Design) Gold Certified. It's why our Alliston, Ontario plant is ISO 14001 certified. And it's why Honda, along with our associates and families, has helped plant more than 100,000 trees in Canada over the last 9 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That's what we do. That's The Power of Dreams.

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
 2. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit www.honda.ca/disclaimers and refer to the vehicle's owner's manual.
 3. Only compatible with certain devices and operating systems. Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier.
 4. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.). Additional control devices not provided by Honda may be required.
 5. Only available in certain areas. Includes a no-charge trial of three months.
 6. Map database covers major metropolitan areas in Canada and the 48 contiguous U.S. states.
 7. Coverage varies by market.
