

GENESIS
2016

NEW THINKING. NEW POSSIBILITIES.

Status quo is nothing more than a starting point for our research and development. Through new thinking we continue to uncover new territories in innovation, engineering and design. A vehicle is no longer simply a means of transportation; it is an extension of you. By questioning and not simply accepting convention, we continue to push the boundaries to provide new possibilities and experiences that go beyond your expectations.

This is the H-Factor.

COMMANDS THE ROAD. AND ATTENTION.

Born from our passion to craft vehicles that exceed your expectations, the 2016 Genesis promises a truly exceptional driving experience. Designed with an array of innovative technologies, including the highly advanced HTRAC™ All-Wheel Drive (AWD) system, the Genesis exudes disciplined power. Fasten your seatbelt for an experience that embodies performance, technology and craftsmanship in perfect balance.

SCULPTED FROM
100% PURE
EMOTION

Desire. Awe. Envy. Love. From first sight, the dominant presence of the 2016 Genesis stirs a raft of strong emotions. As the premium hexagonal front grille locks your gaze, the powerful stance of the Genesis pulls you in. Refined side character lines flow from the available HID headlights to the stunning three-dimensional LED tail lights. Every sculpted detail embodies the essence of our captivating Fluidic Sculpture design philosophy.

WELCOME LIGHTS WITH GENESIS LOGO

BI-XENON HID HEADLIGHTS

19-INCH ALUMINUM ALLOY WHEELS

CRAFTSMANSHIP WHICH SETS A NEW STANDARD

As much as the 2016 Genesis captivates from the exterior, the true revelation begins the moment you slip into the first-class interior. Unparalleled comfort and relaxation can be found beginning with the available full-grain natural Napa leather seating and 16-way power-adjustable driver's seat. Acoustically-laminated glass maximizes cabin serenity so you can embrace the exquisite sound of the available premium Lexicon® audio system. Seamlessly fusing cutting-edge technology with detailed handcrafted finishes, the available 9.2-inch high definition central display screen is framed by open pore natural wood inlays along the dash and door panels. Experience form and function in perfect harmony.

SUPERIOR DRIVING DYNAMICS

The standard HTRAC™ All-Wheel Drive (AWD) system is a result of rigorous testing, pushed to the absolute limits in the world's most demanding environments including Germany's famed Nürburgring racing circuit. With superior control and stability in all weather conditions, HTRAC™ offers four available drive modes to tailor control based on your driving environment. Both the standard 311 horsepower 3.8L V6 and available 420 horsepower 5.0L V8 engines are paired to an advanced 8-speed automatic transmission which helps maximize performance and fuel economy through an efficient gear ratio spread.

Exclusive Platform

The 2016 Genesis rides on a dedicated platform constructed with advanced high-strength steel forged in Hyundai's own mill in order to deliver exceptional body stiffness and rigidity. This rigid foundation provides superior driving dynamics and occupant protection.

Optimized NVH Performance

Hyundai engineers used a wide range of insulation methods to help minimize Noise, Vibration and Harshness (NVH). Advanced high-strength steel, structural adhesives, and an engine partition all work to reduce cabin sound pollution from NVH. This includes fully-integrated underside aerodynamic shielding with air cell technology designed to help minimize sound intrusion within the interior.

CONVENIENCE TECHNOLOGY

By challenging the principles of ergonomics, the 2016 Genesis offers advanced visual and sensory technology that was developed with an emphasis on convenience. Features include an available Head-Up Display (HUD) system with an integrated memory system that displays key information based on driver eye-level preference, or the available High Beam Assist system that automatically switches to the low beam setting when a vehicle is detected ahead. The 2016 Genesis is filled with premium amenities you won't want to drive without.

2016

TECHNOLOGY HIGHLIGHTS

9.2-inch 720p High-Definition Navigation Display

Genesis 5.0 Ultimate models come equipped with a larger 9.2-inch display screen featuring a crystal-clear 720p high-definition display, an upgraded 64GB storage capacity and a DVD player. All functions are intuitively-controlled by the Driver Information System (DIS) that is easily accessible from the driver's seat.

Card-type proximity key

In addition to traditional proximity fobs, the Genesis also offers a second proximity key option - an available card-type key. The sleek, credit card-sized device fits conveniently in your wallet.

Head-Up Display (HUD)

An available Head-Up Display (HUD) system helps reduce driver distraction by displaying critical driving information on the windshield, directly below the driver's line of sight. Information includes speed, navigation directions and Adaptive Cruise Control (ACC) settings, as well as indicators from the Blind Spot Detection (BSD) and Lane Departure Warning System (LDWS).

Cabin CO₂ Sensor

Introducing an automotive system designed to sense carbon dioxide levels in the cabin of the vehicle. As you drive, carbon dioxide naturally builds and can cause drowsiness. The available CO₂ sensor automatically activates the ventilation system to draw fresh air into the cabin and help improve driver alertness.

Smart Trunk and Available Smart Power Trunk

Standing near the perimeter of the trunk with the proximity key for three seconds will open the trunk lid automatically, giving convenient access to the trunk even when both hands are full. Genesis 3.8 Technology and 5.0 Ultimate models take this technology a step further with remote power open and close functionality.

High Beam Assist

Using the front mounted camera and light detection technology, High Beam Assist (HBA) automatically switches between high beam and low beam when traffic is detected ahead.

SURROUND YOURSELF WITH INNOVATIVE SAFETY

The 2016 Genesis is equipped with cutting-edge preventative and active safety technologies to provide an entirely new level of driver confidence. Using the latest in haptic technology to increase driver situational awareness, the Genesis features advanced safety features like the available Lane Departure Warning System with Lane Keep Assist⁴. An available Autonomous Emergency Braking³ system can even bring the vehicle to a complete stop if an imminent collision is detected at speeds under 80 kilometres per hour. In the 2016 Genesis, your safety is a top priority.

2016

SAFETY HIGHLIGHTS

Autonomous Emergency Braking³

The available Autonomous Emergency Braking function uses a forward camera and radar sensors to detect rapid closing speeds to the vehicle ahead. If a potential forward collision is detected, warning notifications alert the driver. At speeds under 80 kilometres per hour, the system can provide full braking assistance to help avoid an imminent collision.

Adaptive Cruise Control⁷

An available Adaptive Cruise Control system with stop-and-go capability carefully adjusts your pre-set speed and distance from the vehicle ahead. It will even come to a full stop and then start again, without driver input, when the vehicle has been stopped for less than three seconds.

Rearview Camera with Front and Rear Parking Assist Sensors

A standard rearview camera with parameter guidelines enhances driver awareness when reversing. Available front and rear parking assist sensors provide added ease and peace of mind.

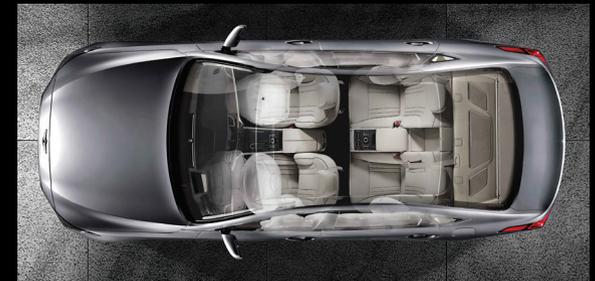

Blind Spot Detection⁵ and Rear Cross-Traffic Alert⁶

Blind Spot Detection uses radar to detect when a vehicle is in the driver's blind spot and provides both an audible and a visual alert to help keep you aware as you move down the road. When reverse gear is selected, Rear Cross-Traffic Alert helps identify and warn the driver of vehicles approaching from the side, even before they come into view of the standard rearview camera.

Lane Departure Warning System with Lane Keep Assist⁴

Drift outside your lane without signaling and the available Lane Departure Warning System first warns you with haptic vibrations through the steering wheel. The Lane Keep Assist System can provide steering assistance to maintain lane position if the vehicle continues to approach the edge of its current lane. Additionally, the Lane Departure Warning will alert the driver with an audible cue, or a visual warning on the available Head-Up Display.

Nine Airbags¹

In the unfortunate event of a collision, all occupants are offered increased protection by way of nine airbags – including a driver's knee airbag as well as a pressure-controlled front passenger airbag – to help reduce inflation-related injuries.

INDIVIDUAL TASTES CALL FOR INDIVIDUAL OPTIONS

From our vivid palette of exterior colours to a wide variety of premium extras, we invite you to explore options which best reflect your personal style.

ADDITIONAL ACCESSORY CHOICES

Premium All Weather Floor Liners.

Premium all weather floor liners were designed to cover the interior carpet providing maximum protection against the elements that other mats cannot offer. Their unique and durable design features a non-slip surface for added comfort and a long lasting premium look. Remove carpet mats prior to installation.

Premium All Weather Cargo Tray.

Protect your interior cargo area with style. This durable, custom-fit premium cargo tray protects from spills and messy loads while helping keep your cargo area looking new for years to come.

For more information on additional accessories, please visit hyundaicanada.com, or visit your dealer for details.

2016 GENESIS SPECIFICATIONS

3.8 PREMIUM HTRAC™	STANDARD EQUIPMENT INCLUDES:
	3.8L DOHC GDI V6 engine (311 hp, 293 lb-ft)
	HTRAC™ All-Wheel Drive (AWD)
	18" aluminum alloy wheels
	Leather seating surfaces, leather-wrapped steering wheel
	12-way power-adjustable front seats with 4-way lumbar adjustment
	8.0" touch-screen navigation system with 4.5 GB of storage, SiriusXM™ and NavTraffic®
	Panoramic sunroof
	Acoustically-laminated glass (windshield, front and rear doors)
	Dual-zone automatic climate control
	Heated, power-folding, power-adjustable side mirrors
	Mirror-mounted welcome lights with 'Genesis' logo projection
	Proximity keyless entry with push-button ignition and hands-free 'Smart Trunk'
	Rearview camera
	LED Daytime Running Lights, tail lights and fog lamps
3.8 LUXURY HTRAC™	INCLUDES 3.8 PREMIUM HTRAC™ EQUIPMENT PLUS:
	Blind Spot Detection (BSD) ⁵ with Rear Cross-Traffic Alert (RCTA) ⁶ and Lane Change Assist (LCA)
	Premium Napa leather seating surfaces
	Natural open pore wood trim, textured genuine aluminum accents
	16-way power-adjustable driver's seat with side bolster and thigh support adjustments, 4-way lumbar adjustment
	Driver's Integrated Memory System (IMS) for seat, mirror and steering wheel positions
	Ventilated front seats
	Heated rear seats
	Auto-leveling Bi-Xenon High Intensity Discharge (HID) headlights
	Heated steering wheel
	900-watt Lexicon® AM/FM/SiriusXM™/CD/MP3 7.1 surround sound audio system with 14 speakers and Logic 7® sound processing
	Electrochromic auto-dimming exterior mirrors
	Front and rear parking assistance sensors
	Rear side window sun shades
3.8 TECHNOLOGY HTRAC™	INCLUDES 3.8 LUXURY HTRAC™ EQUIPMENT PLUS:
	Lane Departure Warning System (LDWS) with Lane Keep Assist System (LKAS) ⁴
	Autonomous Emergency Braking (AEB) ³
	Adaptive Cruise Control (ACC) ⁷ with stop-and-go capability
	Electronic Parking Brake (EPB) with Auto Vehicle Hold (AVH)
	High Beam Assist (HBA)
	7.0" TFT LCD instrument panel display
	Head-Up Display (HUD)
	Power trunk lid
	CO ₂ sensor control system
5.0 ULTIMATE HTRAC™	INCLUDES 3.8 TECHNOLOGY HTRAC™ STANDARD EQUIPMENT PLUS:
	5.0L DOHC GDI V8 engine (420 hp, 383 lb-ft)
	19" staggered-width aluminum alloy wheels
	Microsuede headliner
	9.2" touch-screen navigation system with 720p high-definition display, 64 GB SSD, SiriusXM™ and NavTraffic®
	900-watt Lexicon® AM/FM/SiriusXM™/DVD/MP3 7.1 surround sound audio system with 17 speakers and Logic 7® sound processing
	Continuous Damping Control (CDC)
	Headlight washers
	Card-type proximity key (included with 2 traditional key fobs)
	Power-operated rear window sun shade

hyundaicanada.com/Genesis

TM®The Hyundai names, logos, product names, feature names, images and slogans are trademarks owned by Hyundai Auto Canada Corp. Specifications, features, illustrations, accessories, materials and equipment and all other information shown in this brochure are based on the latest information available at the time of publication. Although descriptions are believed to be correct, accuracy cannot be guaranteed. Hyundai Auto Canada Corp. reserves the right to make any changes or modifications at any time, without notice or obligation, including, without limitation, in colour, specifications, features, accessories, materials, equipment and models. Some vehicles are shown with optional equipment. All Hyundai warranties have no deductible. [^]Fuel economy figures are based on manufacturer testing and are used for comparison purposes only. Actual fuel efficiency may vary based on driving conditions and the addition of certain vehicle accessories. ¹The Supplemental Restraint (Airbag) System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which must still be worn at all times. Children under the age of 13 should be securely restrained in the rear seat. NEVER place a child seat in the front seat of a Hyundai vehicle. ²Electronic Stability Control (ESC) and Traction Control System (TCS) are meant to enhance conscientious driving habits and are not a substitute for safe driving practices. ESC cannot control your vehicle's stability under all driving situations. No system, no matter how advanced, can overcome physics or correct poor driving. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. ³Autonomous emergency braking (AEB) is designed to detect vehicles that are directly in front of the Genesis. AEB will not detect all vehicles and objects. AEB may not work on winding or hilly roads, during certain weather conditions such as rain, snow, fog and any other times of limited visibility. AEB initiates full braking at speeds between 8 and 80 km/h. AEB is not a substitute for safe driving. Always check your surroundings when driving. See Owner's Manual for details and limitations. ⁴The Lane Departure Warning System with Lane Keep Assist operates above approximately 69 km/h and only when the lane markings are clearly visible on the road and detected by the system. It will not prevent loss of control. Refer to Owner's Manual for more information and limitations. ⁵Never rely completely on Blind Spot Detection (BSD) and be sure to use proper lane changing procedures. BSD will not detect every object or vehicle and will not prevent accidents. Always look over your shoulder and use your mirrors to confirm clearance. See Owner's Manual for further details and limitations. ⁶Never rely exclusively on the Rear Cross-Traffic Alert. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. Vehicle must be in reverse and has to be traveling at 10 km/h or less. See Owner's Manual for further details and limitations. ⁷Adaptive Cruise Control (ACC) is not a collision avoidance or warning device. ACC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. Driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for further details and limitations.
