

# The new GLE Coupe.

30! years 4MATIC

Mercedes-Benz  
The best or nothing.

Introducing the new GLE Coupe.

# Understatement is overrated.

The GLE Coupe is an entirely new breed of thoroughbred performance vehicle. Its driving dynamics are agile, powerful, and brilliantly sporty. Its accommodations are generous, refined and thoughtful. The GLE Coupe unites two rich legacies and thrusts them boldly into the future. A wide mesh grille, arched roofline and horizontal tail lamps create an impressive, aggressive stance. While the AMG lower body styling, a twin power-dome hood, and gloss black trim elements reveal its sporting heart.

And what a heart it is. 249 hp and a massive 457 lb-ft of torque at just 1,600 rpm make the turbocharged diesel V6 in the GLE 350d 4MATIC Coupe a performance powerhouse. Thanks to its advanced clean diesel technology, a new 9-speed automatic transmission, and ECO Start/Stop system, it's as responsible as it is responsive, with admirable efficiency and ultralow emissions.

Additionally, the GLE Coupe bursts with innovation. Active High Performance LED headlamps enhance night vision, adapting to the road ahead by steering into corners as you do, as well as automatically shining as far as possible. Then, integrated LED Daytime Running Lamps and distinctive horizontal LED tail lamps combine eye-opening brilliance with eye-catching style.

Last, but certainly not least, the GLE Coupe's line up consisting of the GLE 350d 4MATIC Coupe, GLE 450 AMG 4MATIC Coupe and Mercedes-AMG GLE 63 S 4MATIC Coupe ensures regardless of your lifestyle, there is a performance vehicle best suited for you.
