

EAGLE

1994 *Eagle Vision*

THIS IS THE EAGLE VISION TSi

WITH AN 11-SPEAKER SPATIAL

IMAGING™ SOUND SYSTEM,* SOLAR

CONTROL WINDSHIELD, EVEN

DRIVER AND FRONT PASSENGER

AIR BAGS.† EAGLE VISION IS THE

RESULT OF ASKING PEOPLE WHAT

THEY WANTED IN A SPORTS

SEDAN. THAT'S WHY WE ALSO

INCLUDED A 24-VALVE 214

HORSEPOWER ENGINE AS WELL

AS ANTI-LOCK BRAKES. THOSE

OF YOU WHO ASKED FOR A SIMU-

LATED WOODGRAIN DASHBOARD...

WE'VE GOT BAD NEWS FOR YOU.

**Optional. †Always wear your seat belt.*

Eagle Vision TSi interior

CAR-DRIVER

Since its debut, Eagle Vision has twice appeared on *Car and Driver's* "Ten Best" list (1993 and 1994), while the editors of *Automobile Magazine*, named Vision "Automobile of the Year" for 1993 and placed it on their "All Stars" list for 1994.

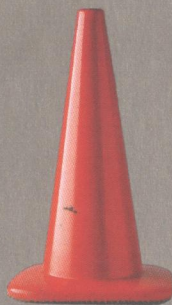

Eagle Vision is the product of one of this decade's most innovative automotive ideas—cab-forward design. Cab-forward contributes fundamentally to performance (more stable handling and a smoother ride) and allows the interior dimensions to be enlarged.

A 24-valve 214 horsepower V6 powers Vision TSi. Vision ESi is equipped with a 161 horsepower 3.3 litre V6. Both feature a fully independent touring suspension. A special Performance Handling Group is offered exclusively on Vision TSi.

Air bags† are provided for the driver and front seat passenger. Vision TSi has a four-wheel disc anti-lock brake system (ABS) (optional on ESi), with low-speed traction control optional. Also optional is the integrated child safety seat.*

On Vision TSi, interior comfort is enhanced with standard Automatic Temperature Control (optional on ESi) and optional leather-trimmed seating.

†Always wear your seat belt *Medium Quartz cloth only.

Adding to Vision TSi's handling abilities is a new standard speed-sensitive, variable-assist power steering system. It provides less assist at highway speeds for better road feel and more assist at low speeds for easier parking. To reduce the effects of an impact on occupants, Vision has been designed with front and rear "crumple zones," and air bags are standard for

the driver and front seat passenger. (Always wear your seat belt.)

Vision TSi's 3.5 litre 24-valve V6 is designed to optimize "breathing" for greater efficiency and output. In 0-60 mph acceleration, Vision TSi besters Lexus ES 300, Infinity J30t, and Mazda 929.*

*Comparison based on Road & Track Road Test Summary, December 1993.
