**THE THINGS WE CARE ABOUT.**

No matter which Toyota you choose, you can be sure of two things. It will deliver the utmost in Quality, Durability and Reliability, the foundation of Toyota's reputation for excellence. And it will perform with maximum respect for the environment. You see, when we build your Toyota, we strive not only to meet your expectations, but to exceed them. Our objective is to make your driving experience better, easier, safer, more convenient, more fun and more environmentally friendly than ever before.

**OUR COUNTRY. 🌍 OUR WORLD.**

Fuel Efficiency, Low Emissions and Recyclability. These are cornerstones of Toyota's global vision, and we are constantly looking for ways to improve. All of our current vehicle line-up complies with Canada's strict low emissions standards. And the remarkable Toyota Prius the world's first hybrid vehicle to achieve Super Ultra Low Emission Vehicle (SULEV)\* designation. Prius combines gasoline and electric power plants to redefine standards in fuel economy and energy efficiency. Toyota is developing and implementing engineering technologies using materials and processes which will contribute to a vehicle recovery rate of at least 95% by 2015. However, our concern for the environment does not stop with our vehicles. Toyota Canada Inc. shares the environmental commitment demonstrated by all the Toyota production facilities and like them our Head Office has achieved the prestigious "ISO 14001 Certified" designation. Toyota has partnered with Evergreen to launch the "Toyota Evergreen Learning Grounds Program". Worldwide, the results of our commitment to the Toyota Earth Charter can be seen in every facet of our business. All in all, it's more than you might expect from an automobile manufacturer, but at Toyota it's the least we expect from ourselves!

**AS INDIVIDUAL AS YOUR DESIRES**

It happens fast. It is a moment, a single point of clarity. Maybe it's out of the corner of your eye. Or a slight turn of the head. No matter, for once you see Camry 2003 for yourself, you just know. You take in its flowing lines, resculpted form and subtle yet striking colour palette. You gaze upon its stylish profile and bold rear stance. And you smile. Sure you've had these feelings before – just not for a car. Now wait until you drive it. And because everyone has different wants and needs – we created three very unique versions of Camry. All blend style and performance with a healthy dash of elegance. All designed to capture your attention – and keep it. LE, SE and XLE.

**CAMRY LE:** (Above left) Stylish and outfitted with extras, including power windows and door locks, keyless entry and cruise control.  
**CAMRY XLE:** (Above right) The consummate Camry. Very well appointed with 16" alloy wheels, chrome trim and a wood-grain style interior.  
**CAMRY SE:** (Above centre) The slightly more aggressive Camry SE, is well equipped with a sport suspension, 16" alloy wheels, rear spoiler, sport grille and fog lamps.

**MORE ROOM – MORE LEATHER – MORE MORE**

The elegant and spacious Camry XLE interior surrounds you with ergonomic convenience and comfort. The boldly designed centre cluster is well appointed with a multi-informational display which concentrates vital information – instant and average fuel economy, average speed and more. Camry XLE also features a power driver seat, a rear sunshade and unique trim packages with leather interior and heated seats. And all three Camry models have an amazing 16.7 cubic feet of luggage capacity. Camry 2003 is sort of like a private club – only you get to pick the guest list.

**EXPLAIN AGAIN WHY  
TRAFFIC JAMS ARE BAD**

When you surround yourself with the luxury and comfort of Camry's interior, it's amazing how much more enjoyable your daily commute can become. Camry LE/LE V6 – with a smart and stylish centre cluster, an AM/FM Cassette CD with 6-speakers, a clean air filter and ABS\*  
Because let's face it – for the amount of time you spend driving, shouldn't your car be a place you want to be?

#### FLAVOUR ADDED

The slightly more aggressive Camry SE takes class and adds a sporty twist. For the passionate types there's the bold 192 hp V6 – and new for 2003 – you can choose a 5-speed manual transmission (automatic is optional) powered by Camry's smooth and responsive 157 hp, VVT-i 4-cylinder engine. Camry SE V6 and SE are both equipped with a sport suspension, alloy wheels, rear spoiler, sport grille, fog lamps and unique sport seats. The cockpit command centre spices things up with a leather shift knob, sculpted 3-spoke leather steering wheel, aluminum instrument panel accents and sport inspired gauges.

### CAMRY SAFETY FEATURES

When we came up with a way to make the Camry more powerful, more spacious, or even more stylish, we looked at the other side of the equation: how can we also make it safer? So we have added dual stage airbags, child restraint anchors,

head impact protection and an impact absorbing body. Available as an option are side and curtain airbags\* and Vehicle Skid Control (VSC)\*. Safety and performance, both residing comfortably in one very beautiful, very stylish package.

- Driver and front passenger airbag Supplemental Restraint System (SRS).
- Available driver and front passenger seat-mounted side and curtain airbag Supplemental Restraint System (SRS)\*.
- 3-point seatbelts in all outboard seats with adjustable seatbelt anchors on front seats, driver's belt Emergency Locking Retractor (ELR): Automatic/Emergency Locking Retractor (ALR/ELR) on all other outboard belts.
- Rear centre 3-point lap and shoulder belt.
- Front seatbelt pretensioners with force limiters.
- Driver and front passenger seatbelt warning system.
- Collapsible steering column.
- Reinforced steel unit-body with high-tensile-strength steel body panels.
- Front and rear crumple zones and front and rear side-impact door beams.
- Available Vehicle Skid Control (VSC) System with Traction Control (TRAC) and Brake Assist.\*
- Anchor points for child restraint seats.
- Child-protector rear door locks.
- Security systems available on all models.\*\*

\* Available on selected Camry models.  
\*\* On LE and SE models, see Dealer for details.

### ENGINEERING

True love moves fast. In this case, very fast. They say the fastest way to a man's heart is through the stomach.

We think it is through the gas pedal. Camry's 157 HP, 4-cylinder engine is not quite what

it seems (love is like that). It gives you what you need, and doesn't ask much in return. For the more passionate types, there's a bold, 192 HP V6. Both will get the tachometer pumping. And once Camry's multiport fuel injection and double-overhead cams kick in, well, that's the start of one beautiful relationship. A relationship that is also environmentally friendly as both engines are rated Ultra Low Emission Vehicle (ULEV).

**TAKE NOTE:**

**\*Airbag Notice:** The 2003 Camry features a driver & front passenger airbag Supplemental Restraint System (SRS) which activates only in a front-end collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate, in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. The 2003 Camry XLE & XLE V6 feature a side and curtain airbag Supplemental Restraint System (SRS) which activates only in a side impact collision of sufficient magnitude to inflate the bags.

*Seatbelts must be worn at all times by all occupants.*
