

The New Beetle/New Beetle Convertible

It grabs attention. Then gives it a nice, big hug.

SEDAN

DESIGN

Call us obsessive about design.
We'll take it as a compliment.

17" Alloys.¹ More rim and less tire provide better cornering and more accurate turns. This five-spoke design also evokes strength and momentum even when the car's at a red light. So you're moving when you're standing still. Kind of.

Headlamps. Thanks to their unique shape, they've been known to light up a smile or two. Courtesy of some projector clear lens halogens, they've also been known to light up the road ahead.

UP CLOSE

Speed-Activated Spoiler.² As the name suggests, it pops up, providing additional control when you're in a rush to return that overdue video. Otherwise, it remains inconspicuously tucked away. (We like a smooth roofline, remember?)

Pick a color, any color.

New Beetle GLX shown. ¹17-inch alloys are available on GLX only. ²Spoiler available with 1.8T engine only.

Drivers wanted.®

It's much more Autobahn-y than it is quirky.
(Or something like that.)

Sunroof Dial. Know when you're craving sunshine, say, 10 centimetres worth, and you're forced to wait with your finger pressed on some button? Well, 14 automatic settings on this dial mean no more pressing and waiting. Ever again.

The Monsoon® Sound System.

200 watts and an eight-channel amplifier will make your earlobes shimmy and shake. To make it as cool-looking as possible, we made it match the blue and red instrumentation panel too. Now isn't that just like us?

INTERIOR

Self-Dimming Rearview Mirror.

Very handy when bright headlights are ganging up on you. An infrared sensor detects if light is stronger than it should be. If so, the mirror dims, thereby reducing glare – and any chance of you cussing and squinting.

Some fabrics to choose from.

Cream Cloth Black Cloth Cream Leatherette

Cream Leather Black Leather Black Leatherette

GLS interior shown. Some features may not be available on some trim levels.
Cloth is standard on the GLS. Leatherette is optional on the GLS. Leather is optional on the GLS and standard on the GLX.

Drivers wanted.®

CONVERTIBLE

DESIGN

Only Germans prepare for fun so thoroughly.

Rear Wind Screen.* It's hard to sound smart when you're shouting over wind noise. It's also difficult to look sexy when you're being rudely buffeted. So we came up with this easy-to-install screen that helps solve both problems.

Lockable Center Console. Nothing quite cramps your style like coming back from the quickie mart to find your sunglasses have been swiped. So presto, a handy, surprisingly spacious, lockable console to keep things safe.

UP CLOSE

Automatic Rollover Supports.™ Concealed behind the rear seat are two spring-loaded aluminum posts. When the situation warrants, the posts deploy in .25 seconds to form an extremely rigid roll-over protection system. Your passengers would never guess. And we hope they never find out.

Pick a color, any color.

Galactic Blue	Black	Reflex Silver
Harvest Moon	Sundown Orange	Mellow Yellow

GLS model with optional 16" wheels shown.
*Optional.

Drivers wanted.®

The New Beetle Convertible.

Nice to meet you, too.

Convertible Top Locking Handle.

There's a very satisfying feeling you get when something slides smoothly and locks securely into place. Like a well-engineered deadbolt. It feels solid. Safe. Both, we think you'll agree, are good feelings to have in a convertible.

Animated Activation Display.

Whenever you raise or lower the top, this cool little animated display confirms that everything is going pretty much as planned. And if that wasn't enough of a job, you can also use it to check the time and temperature.

Roof Activation Switch.

There used to be ancient societies that worshipped the sun. And great prestige was bestowed on those few powerful individuals who could, by just pointing their finger, make the sun appear. Well, with this little switch, that could be you.

Some fabrics to choose from.

- Cream Leather
- Black Leather
- Cream Leatherette
- Black Leatherette
- Cream Sport Leather
- Black Sport Leather
- Black Cloth Top

GLX interior shown. Some features may not be available on all trim levels. Leatherette is standard on the GLS. Leather is optional on the GLS and standard on the GLX. Sport Leather is optional on the GLX.

Drivers wanted.®

For us, it's unlikely the thrill of making great engines will ever wear off.

115 hp

2.0L

This engine benefits from a simple and true design. (Some would say it's a classic.) It's compact, pretty lightweight, and requires less space under the hood – all of which goes to providing smooth engine performance. To top it all off, it offers lowered emissions, too.

100 hp

TDI®

We couldn't leave well enough alone. Again. Thanks to a new pump injector system called Pumpe Düse (pronounced pump-ah du-sah), the TDI® now boasts more horsepower and torque. Cleaner emissions and quieter operation. And all without compromising the diesel-sipping goodness that makes it our most fuel-efficient engine.¹

150 hp

1.8T

Light in weight, compact in design, this engine has 5 valves per cylinder. That means better breathing for enhanced performance. Coupled with a Turbo, you get high torque starting at low rpm so you're quicker off the line. And high horsepower at high rpm provides exceptional passing power. Your fuel economy¹ is improved, and there are lowered emissions, too.

¹Transport Canada fuel kilometres are estimates only. Your fuel consumption may vary.

Drivers wanted.®

If the New Beetle conforms to anything, it's high safety standards.

Front Crush Zone. Helps to divert impact energy away from occupants in case there's a collision.

4-Wheel ABS. An onboard control unit designed to detect wheel lock-up, improving overall braking especially in poor driving conditions.

Anti-Theft Alarm System. Scares away uninvited guests. (Otherwise known as burglars.)

Immobilizer. Prevents the New Beetle from being started up if an unauthorized key is used.

Daytime Running Lights. For improved daytime visibility, turn the key and on they come.

Electronic Stabilization Programme.¹ For better handling and control. (Why skid if you don't have to?)

Rear Crush Zone. Helps to divert impact energy away from occupants in case there's a collision.

Full-Size Spare Tire. You never know when it might come in handy.

LATCH System. Lower Anchors and Tethers for CHildren. A standardized child seat attachment system for vehicles.

Anti-Theft Wheel Locks.¹ We didn't make the wheels pretty so that just anyone could walk away with them.

Reinforced Body Panels. Contributing to the structural integrity of the New Beetle.

Track-Correcting Torsion Beam Rear Axle. Angled mounts increase vehicle control as turns are completed.

Dual Front and Front Side Impact Airbags.² Deploying within a tenth of a second if needed.

Remote Central Locking System. Don't fumble for keys when you're in a rush to get in.

Anti-Intrusion Side Door Beams. Buying precious time for the side impact airbags to deploy.

Rising Ramp Seat Design. Working with a padded knee bar, the effectiveness of the restraint system is maximized.

Steering Column and Wheel. Telescoping, height-adjustable, and collapsible on impact. (Not bad for a steering wheel.)

Safety Cell Construction. A rigid cell of reinforced steel is built into every New Beetle.

WARRANTY

Basic Warranty: Every New Beetle comes with a bumper-to-bumper New Vehicle Limited Warranty³ for 4 years or 80,000 kilometres, whichever comes first.

Powertrain Warranty: The Volkswagen Powertrain Limited Warranty provides 5 years or 100,000 kilometres of protection, whichever comes first.

Anti-Corrosion Warranty: A fully galvanized steel body means we can offer you a 12-year unlimited mileage Limited Warranty Against Corrosion Perforation.

Roadside Assistance: The New Beetle has a 24-hour-a-day Roadside Assistance package,⁴ for 4 years or 80,000 kilometres, whichever comes first.

¹ Feature available on certain trim levels. Please refer to features chart for complete info.

² Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

³ Wear and tear items and adjustments are excluded after the first 12 months or 20,000 kilometres, whichever comes first.

⁴ Roadside Assistance, for 4 years, provided by Professional Dispatch Group (PDG). See dealer for details.
