*Airbag Notice: The 2006 Avalon features a driver & front passenger airbag Supplemental Restraint System (SRS) and driver knee airbag Supplemental Restraint System (SRS) which activate only in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate; in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. The 2006 Avalon features a front seat-mounted side airbag Supplemental Restraint System (SRS) and a front and rear head/side curtain airbag Supplemental Restraint System (SRS) which activate only in a side-impact collision of sufficient magnitude to inflate the bags.
Seatbelts must be worn at all times by all occupants.
