 **TOYOTA**
make things better

09 Yaris

With the new 2009 Yaris, fun is not an option, it comes standard. Affordably priced and with sleek lines, Yaris can be configured in any number of ways. So how you want it, is exactly how you'll get it. But it's when you're on the road that you'll truly feel the spirit of Yaris' fuel efficient and energy packed persona.

Available as a 3-door and 5-door Hatchback or Yaris with a trunk, the 2009 Yaris brings together a fun personality and a whole lot of get-up-and-go in one nice little package – and that's how we make things better.

Yaris Hatchback CE

Hit the road running with a sporty profile, clean contours, crisp handling and spacious interior. Everything you ever needed from a car just so happens to fit neatly into the compact frame of Yaris Hatchback CE. But just because it's small, doesn't mean it isn't big on space. Just like the 5-door Hatchback, the 3-door gives you an abundance of leg and head room and up to .728 cubic metres of cargo space. Plus, the numerous storage compartments conveniently featured throughout CE means you'll have more than enough room for all of your stuff.

Yaris

Yaris with a trunk manages to be both sporty and practical at the same time. It's everything you love about Yaris, only as a remarkable little 4-door. Pick from four available packages, or choose an array of accessories to custom-build your own unique ride. The interior layout is arranged around you like a personal utility belt, while the tilt-steering column lets you configure it to your perfect comfort level. Even your seat is designed to ensure extra back support for those long road trips.

Safety

In the 2009 Yaris, peace of mind has never felt so peaceful. Not only does Yaris deliver outstanding crash safety performance, it also comes fully fortified with advanced safety features like driver-side dual-stage SRS airbag¹ and front passenger SRS airbag¹. Building on the inner strength of the steel cabin frame, other advances include a set of bumpers ingeniously designed to absorb energy and minimize damage. What's more, the entire front end and hood feature an invisible cushioning system devised to protect all parties in the highly unlikely event of an accident. It's just another indispensable addition to a long list of standard safety features which give you the confidence and assurance you need while driving on the road.

SAFETY FEATURES • Available Antilock Braking System (ABS) with Electronic Brake-force Distribution (EBD). • Driver and front passenger airbags Supplemental Restraint System (SRS)¹. • Available front seat-mounted side airbags, front and rear head and side curtain airbags (SRS)¹ (standard on RS). • Front passenger airbag occupancy classification indicator. • All-position 3-point lap and shoulder belts. • Front seatbelt pre-tensioners with force limiters. • Anchor points for child restraint seats. • Door ajar, low washer fluid, low fuel, driver and front passenger seatbelt warning indicators. • Engine immobilizer.

■ with ABS
■ without ABS

ANTILOCK BRAKE SYSTEM (ABS) The available ABS automatically pulses the brakes when it senses impending wheel lockup to help prevent a skid during braking. As a result, it helps preserve the driver's ability to steer the vehicle and potentially avoid an accident.

Performance

Yaris steps up performance levels with the latest update of the 1NZ-FE engine. Expect years of brilliant and reliable performance from Yaris – powered by a 1.5-litre, 4-cylinder in-line, 16-valve, engine. Utilizing the latest engineering technologies, the Yaris engine enjoys the winning combination of Variable Valve Timing with intelligence (VVT-i), Direct Ignition System (DIS) and Electronic Throttle Control System with intelligence (ETCS-i) to deliver improved fuel economy, higher performance, quietness and cleaner emissions.

PERFORMANCE FEATURES • 106 hp, 1.5-litre, 4-cylinder, DOHC, 16-valve engine. • Variable Valve Timing with intelligence (VVT-i). • Front engine, front wheel drive. • Sequential multiport electronic fuel injection. • Electronic Throttle Control System with intelligence (ETCS-i). • 103 lb.ft. of torque at 4200 rpm. • Electric rack and pinion power steering. • MacPherson gas struts, coil springs, stabilizer bar front suspension. • Torsion-type rear suspension.

¹Airbag Notice: The 2009 Yaris Hatchback/4-door features a driver & front passenger airbag Supplemental Restraint System (SRS) which usually activates in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate; in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. The 2009 Yaris Hatchback/4-door also features an optional front seat-mounted side airbag and front and rear head/side curtain airbag Supplemental Restraint System (SRS) which usually activates in a side-impact collision of sufficient magnitude to inflate the bags (standard on RS models). *Seatbelts must be worn at all times by all occupants.*

Make things better.

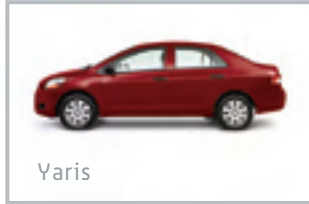

It's what we believe at Toyota. It is a belief grounded in a simple truth:

Better is not a destination. It is a way. It is a spirit of continuous improvement.

A path we travel along where every thing we do in the name of better improves the vehicles we build, the experience of our customers, and the world we live in. Better is about more than just a car or a truck. It is about before, during, and after. It is about the good we do for each other, our respect for the environment, and all the things we choose to do to simply **make things better.**
