Designed to stir souls. Engineered to stop hearts.

The Passat and the new Passat CC have both been designed with emotional curves and the benefits that come with mathematical genius, and both break down the barriers between you and truly exceptional German engineering. Uniquely bred and spec'd in Germany's legendary Nürburgring, the Passat boasts features found in few other vehicles around the world, a "Best in Class"* award from Kiplinger, and an affordable price. The new Passat CC for its part inspires with beautiful forms, VIP treatment for four passengers, and available 280 hp of performance just to add to the excitement. Its sleek shape boasts the lowest drag coefficient in its class. Which simply means it slips through the air and glides past gas pumps.

*2007 and 2008 Kiplinger's Finance "Best in Class," Passat Wagon 2.0T.

Passat shown with accessory sport styling body kit and 18" Velos accessory wheels.

At a glance.

Power, control and exhilaration.

With its legendary German engineering, the Passat has innovation, handling and power down to an art form thanks to its award-winning 2.0L, turbocharged direct injection, 200 hp, 4-cylinder engine. The available 6-speed automatic transmission with Tiptronic® and 4MOTION* all-wheel drive system offer an unprecedented level of control to help you power through every twist and turn. Technological sophistication and contemporary styling are the hallmarks of this automobile, in which substance and detail reign supreme.

Grace, comfort and bliss.

The Passat offers an abundance of features entirely focused on the driver, including a 12-way power adjustable seat for custom-fit comfort, and a press start ignition switch for easy getaways. To enhance the driving experience even further, an optional state-of-the-art Technology Package combines a precise touch-screen navigation system with rearview camera**, a 600-watt 10-speaker Dynaudio® sound system, and a Media Device Interface (MDI), which provides connectivity with portable MP3 players and USB devices.

Style, performance and wonder.

The new Passat CC is the latest member of the Volkswagen family to effortlessly blend compelling design, innovative technology and persuasive performance into one exciting ride. Power comes in the form of a 2.0L, turbocharged direct injection, 200 hp, 4-cylinder engine or an available 3.6L, 280 hp FSI® V6 engine. By combining the comfort of a sedan with the style of a coupe, the Passat CC is definitively designed for the driver and engineered for the road.

*Not available on Passat 2.0T and Passat Wagon 2.0T.

**Rearview camera available with Technology Package on Passat CC 2.0T and Passat CC 3.6L, Highline.

Passat shown with accessory sport styling body kit and 18" Velos accessory wheels.

The power to win.

The Passat comes with a 2.0L, 200 hp, 4-cylinder turbocharged engine (fuel consumption estimates: 10 city / 6.6 highway L/100 km)* that apportions just the right amount of power off the line as it does in motion. Maybe that's why it won the "International Engine of the Year" award** for the 1.8–2.0L category presented by Engine Technology International†. Available with a 6-speed automatic transmission with Tiptronic—the hallmark shifttable automatic transmission that puts supreme control squarely in the driver's grasp. Direct injection technology also makes the Passat ultra efficient by aiding in fuel economy, emissions control, and responsiveness all at the same time. Pumping fuel directly into the combustion chamber equals less waste and less lag time. It's a win, win, win situation.

*Based on Government of Canada EnerGuide consumption estimates for the 2009 Passat 2.0T or Passat Wagon 2.0T equipped with manual transmission. Actual fuel consumption may vary based on driving conditions, driver habits and vehicle's additional equipment.

**For European TSI engine.

†UKIP Media & Events Automotive Magazine.

A car with curves that hugs the curves.

One of the newest cars in the Volkswagen family also happens to be the fastest. While the designers were busy making the Passat CC a supermodel among sedans, the engineers were busy maximizing its power and performance. Falling in love with the Passat CC is easy. Choosing a power plant to propel your Passat CC, well that's a bit harder.

First, there's the 2.0L turbocharged 4-cylinder engine with direct fuel injection that delivers 200 hp and 207 lb-ft of torque. Standard with 6-speed manual or available 6-speed automatic transmission with Tiptronic, sport mode and Dynamic Shift Program (DSP) (a smart shifting program that learns to drive like you do).

The second option is the 3.6L V6 engine with 4MOTION that delivers 280 hp and 265 lb-ft of torque. Either way, your Passat CC offers you the following collection of remarkable engineering achievements.

The automatic transmission with Tiptronic option features new-design paddle shifters* that are integrated into the steering wheel for race-inspired shifting.

Four-corner independent sport suspension lets you hug the road, corner tightly, and fill your driving days with fun.

High body rigidity is based on unibody construction and laser welding, to keep the body stiff for utmost performance.

Electromechanical power steering is designed to give the same steering feedback, regardless of speed. It also helps return the wheel to the centre position after turning.

*Paddle shifters optional on Passat CC 2.0T Highline, and standard on Passat CC 3.6L Highline.

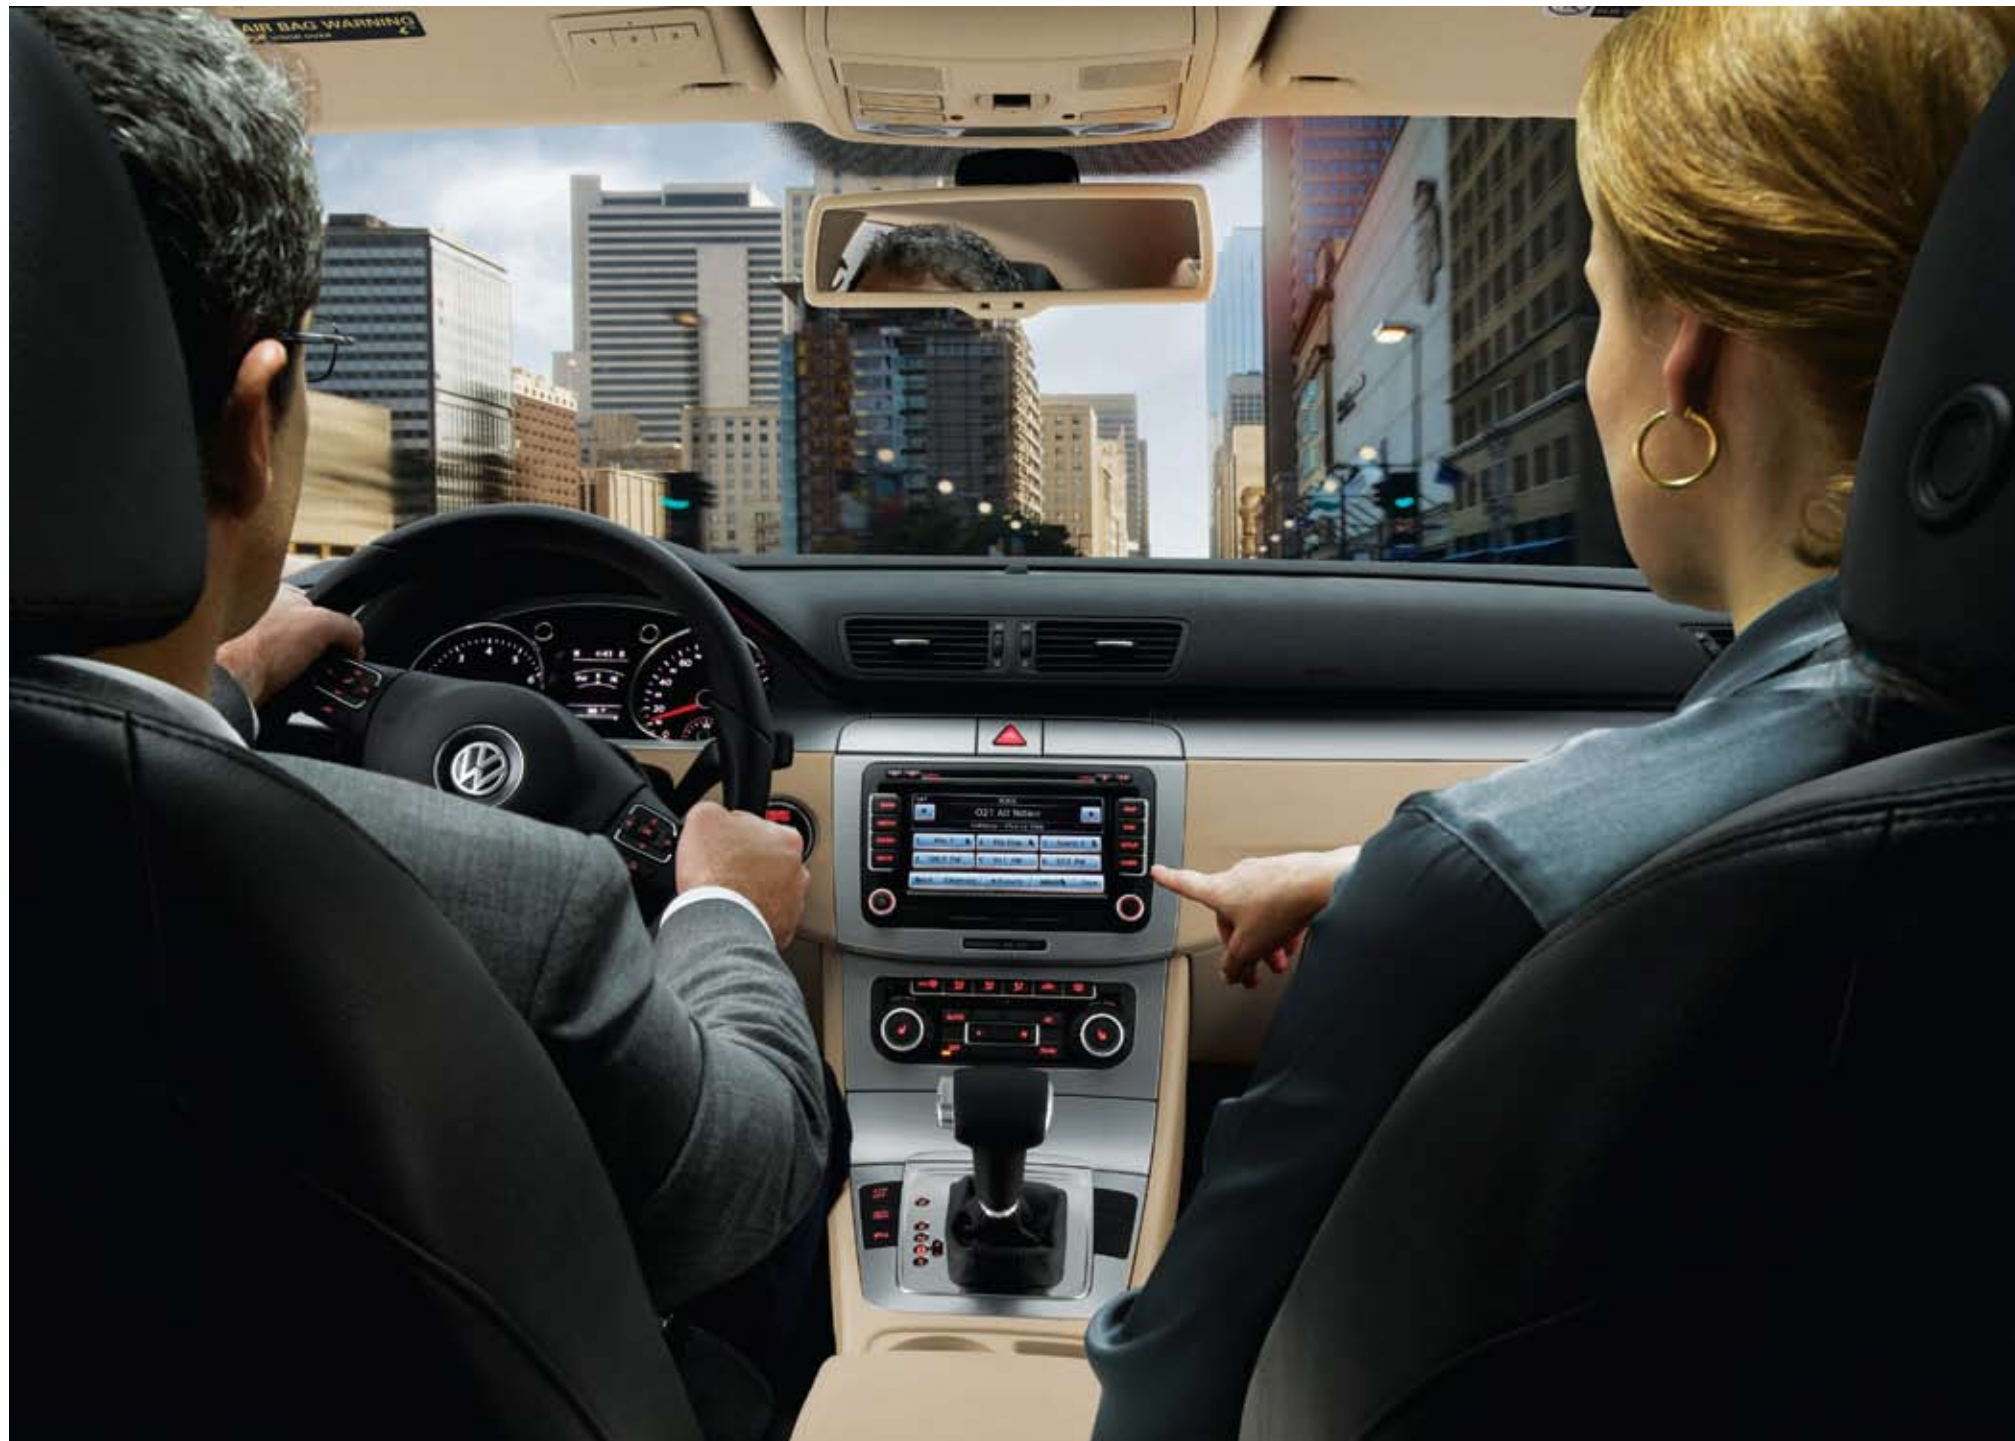

It's what's on the inside that counts.

The Passat comfortably surrounds its driver and passengers with some of the finest interior materials and amenities you can find, all at a price that'll make you feel like you got away with something. The 12-way power adjustable seat positions the driver perfectly for the road ahead. There's also an MP3 auxiliary input jack, an 8-speaker audio system, available SIRIUS® Satellite Radio*, and power outlets to keep all your gadgetry properly juiced. Control is at your fingertips with a multifunction** steering wheel to set your music, and an optional navigation system. For rainy days, an umbrella-holder. For sunny days, an optional sunroof. Plus push-start ignition, 60/40 split rear seats, and driver's side glove box, which are all useful, no matter what day it is.

*With limited complimentary subscription.

**Standard on Passat 2.0T, Passat Wagon 2.0T, Passat Wagon 3.6L, Comfortline and Highline.

Someone clearly had a great time designing this car.

From the outside, the new Passat CC is eye-catching, to say the least. One look at the interior, and it's clear there was a dynamic partnership between Volkswagen engineers and designers. Four individual sport seats, subtle ambient lighting and available 2-tone colour design make for an unforgettably plush interior, while polished aluminum trim punctuates the look perfectly. The front offers heatable, 12-way power adjustable seats, with 3-position memory* for the driver's seat. Also available:

- Climatronic* dual-zone climate control lets front seat occupants control their own climate zone, optimizing comfort.
- HomeLink** garage door opener integrated into sun visor. A programmable system of buttons that can be trained to operate garage doors, lights at home, and more.
- Panoramic tilt sunroof* bathes the interior with light, and pops up to vent the cabin.
- Leather-wrapped multifunction steering wheel introduces an entirely new design for the Tiptronic paddle shifters**. This 12-button marvel controls nearly every aspect of the driver's life. Feedback is provided in the driver's information window via the instrument cluster display.
- Trunk that opens wide and is fully lit. Rear seats fold down for extended storage capability. Storage barriers in the trunk help keep loads in place.
- Power rear sunshade† keeps important passengers cool in the back seats.

*Standard on Passat CC 2.0T and Passat CC 3.6L Highline.

**Paddle shifters optional on Passat CC 2.0T Highline, and standard on Passat CC 3.6L Highline.

†Standard on Passat CC 3.6L Highline.

You know where you've been. They know where you're going.

Aesthetically pleasing on the outside, the Passat and Passat CC are also technologically pleasing on the inside, thanks to the very latest in entertainment and navigation technology. An optional state-of-the-art entertainment system combines a sophisticated radio with precise touch-screen navigation and easy-to-use map views through its 6.5-inch high-resolution wide screen display. Its 30 GB hard drive can store map data and audio files that can be brought into the device via the optical drive or SD card slot. The optical drive is capable of reading CD, DVD and DVD audio formats. In concert with the available Media Device Interface (MDI), the system can accommodate practically any MP3 or USB device. And on the Passat CC, the display screen integrates with a camera hidden under the rear badge that can assist you when backing up.

Also available is the Dynaudio Premium Sound System with 10 high-end speakers (4 tweeters, 2 midrange, 4 woofers) and a stout amplifier that delivers 600 watts of power. Integrated DSP (Digital Sound Processor) makes for higher highs, exceptional clarity and a bounty of low range.

Available SIRIUS Satellite Radio* provides 120 channels, including 100% commercial-free music. Everything from news to sports to classical to metal to hip hop to honky tonk, SIRIUS has it all. And if there's such a thing as hip tonk or honky hop, you better believe you're getting that too.

*With limited complimentary subscription.

The Passat with a little more.

The Passat Wagon is loaded with all the same features as the Sedan, plus it sports a whopping 1.57 m³ of cargo space with the rear seat folded down. So it's perfect when you need to load some extra special gear that requires a seamless back hatch and plenty of rear space. Between the Passat and the Passat Wagon, there are no limits to what this Volkswagen can do.

Safety standards worthy of the autobahn.

The Passat came to life when designers and engineers worked side by side and found the best of both worlds. In between these elegant lines and undeniable German engineering lies a backbone of pure safety.

Six Standard Airbags*

With two optional rear side airbags.

Side Curtain Protection*

Airbags deploy down the roofline from the A-pillar to the C-pillar, to help reduce head and upper torso injury in the event of side impact.

Electronic Stabilization Programme (ESP)

You never know what's up ahead. Black ice, potholes—the road is full of surprises. ESP helps keep you on the straight and narrow by detecting slippery road conditions and reacting to sudden maneuvers.

Anti-Slip Regulation (ASR)

Helps keep the front wheels from spinning during acceleration.

Electronic Brake-pressure Distribution (EBD)

Senses exactly how your Passat is braking, then applies just the right amount of braking power to each individual wheel as needed. So if you're ever forced to slam on the brakes, there's a better chance you'll stay straight. And in your lane.

Automatic Dimming Rearview Mirror**

Uses light-sensing technology to dim the mirror, reducing glare from bright lights to ease nighttime driving.

Rearview Camera†

Working with the navigation/entertainment unit, a camera hidden in the rear VW badge displays a video feed from the rear of the car, as well as backup paths, based on steering wheel position.

Bi-Xenon® Headlights with Adaptive Front-lighting System Technology (AFS)††

Ultra-bright, highly focused lights which “bend” around corners to safely illuminate the road.

Tire Pressure Monitoring System (TPMS)‡

Warns the driver when tire pressure is low, helping to avoid accidents and increase mileage. Additionally, mobility tires include nailguard technology that seals the tire in the event of a puncture.

*Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear seats, using restraint systems appropriate for their size and age. **Standard on Passat CC 2.0T and Passat CC 3.6L, and on Passat Wagon 3.6L. †Optional with Technology Package on the Passat CC 2.0T and Passat CC 3.6L, Highline. ††Optional on Passat 2.0T and Passat Wagon 2.0T, Comfortline, and standard on Highline. Standard on Passat Wagon 3.6L, Comfortline and Highline. Standard on Passat CC 2.0T and Passat CC 3.6L, Highline. ‡Standard on Passat CC 2.0T and Passat CC 3.6L. Drivers should always exercise care and control, and drive according to weather and road conditions. Obey all traffic laws.

Accessories and options.

Owning a Passat is a testament to your distinctiveness. They're special like that. And to further ensure you never see another Passat on the road quite like yours, we're proud to offer optional factory add-ons to make it even more you.

A variety of roof rack options let you carry just about anything you can imagine up top. Start with the Base Carrier Bars, or go even bigger with the Kayak Rack, Barracuda Bike Rack, Ski/Snowboard Rack Deluxe, or even the Fork Mount Bike Rack.

And upgrade your exterior with 17" Akiros wheels or 18" Velos wheels. You can even drop your profile and boost your sportiness with sport springs and a body kit. Or show off your Passat's dark side with the Hi-Def body kit. Then there's the icing on the strudel: Dual Exhaust Tips that let the other drivers know that you're not to be trifled with.

Sophisticated excitement.

You'll never run out of reasons to fall in love with the 2009 Passat. From the subtleties of its style to the elegance of its design, this is an automobile engineered to appeal to those who have a finely tuned appreciation for detail. Outstanding performance, premium amenities, and a host of standard safety features work in tandem to create the perfect experience behind the wheel at an affordable price.

For its part, the brand new Passat CC also offers drivers the exceptional performance of the 2.0L turbocharged engine that cranks out an impressive 200 hp and 207 lb-ft of torque. From its technological innovations under the hood to its distinct exterior styling and intelligent interior amenities, the Passat CC offers a new take on the coupe everyone dreams of driving.

Items, specifications, availability, standard features, options, fabrics, and colours are subject to change without notice. Volkswagen Canada is not responsible for errors in typography or photography. Some features may be unavailable when your vehicle is built. Some vehicles are pictured with options that may be available at extra cost or may not be available on some models. Ask your dealer about availability of options and verify that the vehicle you requested includes the equipment you ordered. Tires are supplied and warranted by their manufacturer. The vehicle is sold equipped with four all-season tires. However, please remember that the use of winter tires may be mandatory in your province or territory. Make sure your vehicle has the proper tires at all times. Fuel consumption figures are based on the Government of Canada's approved criteria and testing methods. Refer to the Government of Canada publication *Fuel Consumption Guide* (EnerGuide). Your fuel consumption may vary. Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear seats, using restraint systems appropriate for their size and age.
