Room to roam.

Make room for the 2009 Routan — a 7-seater with wanderlust. Whatever your adventure, the Routan boasts a powerful 4.0L, 251 hp V6 engine that will take you from “are we there yet?” to “we’re already there?” in no time flat. Whatever curves you throw at it, the Routan’s responsive Euro-tuned suspension is ready to handle any bump in the road. And now with optional state-of-the-art entertainment systems, the Routan will keep the whole clan ... well, entertained. Performance and convenience all in one incredibly attractive package — the Routan is ready to roll.

At a glance.

Get packing.

You'll be amazed about how much you can load into a Routan. There's more room than you ever imagined. For everything from family vacations to chauffeuring around the hockey team, the Routan is extremely generous, especially when it comes to cargo space. You'll find handy storage units in all three rows and in-floor storage in the 2nd row.

Powerful fun.

The Routan is a 7-seater with a 4.0L, 251 hp V6 engine delivering 259 lb-ft of torque, a 6-speed automatic transmission with manual shift mode, Euro-tuned suspension, and anti-lock 4-wheel disc brakes. With this many powerful features, it's easy to see why the Routan really stands out in its category. There is one downfall, however. You'll probably end up being the parent most often elected to take your kid's team to practice. Sorry, popularity comes with the territory.

5-star safety.

Because you're crazy about your family and friends, it makes sense for you to be a little crazy about safety. So it goes without saying that all the Routan's safety features are standard. ESP traction and stability control, a technology that detects slippery conditions to help keep your vehicle on the road, is just one example. What does all this protection add up to? Well, after exhaustive testing, the NHTSA awarded the Routan 5-star front and side impact ratings*. Now you can lavish safety on your loved ones.

Drivin' theatre.

Get the show on the road. Keep the kids occupied with the total entertainment experience. Ultra-comfortable seating, available 6-DVD changer, 2nd-row 8" video screen, wireless headphones and remote control — now that's what you call a feature presentation.

*Government star ratings are part of the U.S. National Highway Traffic Safety Administration (NHTSA) New Car Assessment Program (safercar.gov). Crash performance was based on a U.S.-equipped vehicle. Some features on this model may be optional or unavailable in Canada.

Get out there.

What do you get when German craftsmanship meets head-turning design? The Routan, of course. Created for families on the go, the Routan puts the style back into lifestyle. It's quite simply all in the details. The sleek sporty exterior featuring smooth aerodynamic lines is complemented by a roomy interior with multi-functional seating arrangements that quickly adapt to any kind of family adventure.

Something to honk about.

There are a whole lot of bells and whistles in a Routan. For the driver this means cruise control, power-adjustable heatable exterior mirrors, height-adjustable steering column, leather-wrapped steering wheel, and available 8-way power driver seat with memory. Also available are power adjustable pedals and Nappa leather interior. The perfect way to stay comfortable and alert on the road.

Routan passengers are also more than very well taken care of with standard manual 3-zone climate control, power windows, 2nd-row storage bins under the floor, and available 2nd-row captain's chairs with manual 2nd- and 3rd-row sunshades for added comfort.

But that's not all. A few other very practical features include a cargo capacity of 2.4 m³, and available dual power sliding doors, power tailgate, and remote engine start for cold mornings. Plus, there's a convenient tailgate function that allows the 3rd-row seat to be flipped around when the Routan is parked so you can sit down facing towards the rear of the vehicle.

The backseat gets front-row tickets.

Available Rear Seat Entertainment Systems. Because “Michael row your boat ashore” and “I spy with my little eye” can get a tad repetitive. With an in-dash DVD player, 2nd- and 3rd-row 8" video screens, wireless headphones and remote control, it's like having a mobile babysitter.

We can't give you the moon. How about a satellite?

With an optional out-of-this-world Satellite Navigation Package, you'll never get lost again. With a 6.5" touch screen, 20 GB hard drive for storing MP3s, movies and photos, 10 GB for maps, and a USB port, you may think you've landed in the future. And with a rear-view camera and UConnect® hands-free phone system, you're even closer than you think.

If that's not enough entertainment, there's always SIRIUS® Satellite Radio*. And when we say always, we really mean always. 24/7 — sports, news, interviews, entertainment and commercial-free music. Something for everyone's ears. Both big and small.

Encore. Encore.

A standing ovation for the Routan's available premium audio system. With nine speakers, 500 watts, subwoofer and 7.1 surround sound, you'd think your favourite band was along for the ride. It's not surprising considering there's so much room, especially when you can remove and stow the 2nd-row seats, and fold down the 3rd-row bench into the floor.

*Subscription required after one year.

Child passengers must be properly secured in a child seat that is appropriate for their age and size.

Properly secure all cargo.

Welcome to the space age.

Elbow room, leg room, head room, room to breathe, room to maneuver. And that's just for you and your passengers. With up to 2.4 m³ of space in the cargo hold, a dizzying number of seating configurations, two storage bins under the floor, and 13 cupholders, you could say that the Routan is the leader of the pack.

Accessories and options.

Side window air deflectors

Just like awnings. Crack open a first- or second-row window for a breath of fresh air. Come rain or snow, we've got you covered.

Front splash guards

It's messy under there. Rainwater, gravel, sand and salt — whatever your front wheels splash up, your underbody is protected. Just think of them as underbodyguards.

Running boards

These running boards have a sturdy skid-resistant stepping surface. Make stepping in or stepping out a lot easier.

Rear bike carrier, upright

It's a bicycle carrier built for two. The upright style carries two bicycles locked by the frame.

Fast-forward the family.

The Routan is equipped with a 4.0L, 251 hp V6 engine that cranks out 259 lb-ft of torque. So whether you're driving across the country or towing a boat, the Routan has power to spare.

Here's some more fuel for thought. Thanks to lightweight aluminum block and cylinder heads, 4-valve per cylinder design and a 6-speed automatic transmission with manual shift mode, the Routan is one of the most fuel-efficient* vehicles in its class.

*12.2L/100 km (city) and 7.9L/100 km (highway). Government of Canada EnerGuide fuel consumption figures are estimates only. Your fuel consumption may vary.

17" alloy wheels shown are optional on Comfortline.

Safety doesn't happen by accident.

Because your most precious cargo is your family and friends, the Routan makes zero compromise when it comes to safety. From bumper to bumper, the Routan has you covered.

Integrated safety

In the event of a serious collision, dual front airbags and/or Side Curtain Protection** will instantly deploy to help protect all occupants in all three rows. Front safety belts are equipped with pre-tensioners that activate before airbag deployment to help reduce slack in the belts and improve airbag effectiveness.

Anti-lock Braking System (ABS) with Brake Assist

ABS helps drivers maintain control of a vehicle during hard emergency braking by preventing wheel lock-up. Brake Assist will reduce stopping distances by automatically applying full brake pressure in emergency situations.

Electronic Stabilization Programme (ESP)

In conjunction with the ABS brakes, Anti-Slip Regulation (ASR) and Electronic Differential Lock (EDL), ESP helps the driver maintain the intended course by generating corrective forces. ESP is most effective when the driver is taking evasive action during sudden maneuvers, such as those required to avoid an accident.

Tire Pressure Monitoring System (TPMS)

Electronic sensors continuously monitor tire pressure and will trigger a signal to warn the driver of any major or rapid loss of pressure. Well-maintained tires improve vehicle safety and performance; they can also help you save on fuel.

**Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children in the second or third row of seating, using restraint systems appropriate for their size and age. Drivers should always exercise care and control and drive according to weather and road conditions. Obey all traffic laws.

It's all relative.

The Routan is the newest addition to the Volkswagen family. From its distinctive grille, stylish headlights and eye-catching taillights to its unmistakable VW badging, every precision-engineered detail lives up to its proud Volkswagen heritage. Bring the whole family: the Routan is ready with doors wide open.

“Are we leaving yet?”

Space, versatility, power and performance all in one package. Are you dreaming? Not at all. The Routan is one multi-tasking, good-looking, family-loving vehicle. We could go on and on, but we'll leave that up to you. Whatever your adventure — a picnic in the park or a cross-country trip — the Routan will get all seven of you there in comfort and in style.
