Designed to stir souls. Engineered to stop hearts.

The Passat®, the Passat Wagon and the Passat CC™ have been designed with emotional curves and the benefits that come with mathematical genius, and each break down the barriers between you and truly exceptional German engineering.

Uniquely bred and spec'd in Germany's legendary Nürburgring, the Passat boasts features found in few other vehicles around the world, while remaining surprisingly affordable. The Passat Sedan astonishes all who enter with its exceptional level of comfort and luxury.

And the Passat Wagon, a paragon of versatility, allows you to bring the whole gang to the cottage, but also to the theatre—in style.

The Passat CC for its part inspires with beautiful forms, VIP treatment for four passengers and, just to add to the excitement, a sleek shape that boasts the lowest drag coefficient in its class, which is like slipping through the air and gliding past gas pumps.

Passat CC shown with accessory sport styling body kit.

At a glance.

Power, control and exhilaration.

With its legendary German engineering, the Passat has innovation, handling and power down to an art form thanks to its award-winning 2.0 TSI[®], turbocharged direct injection 200 hp engine. And for an unprecedented level of control to help you power through every twist and turn there's an available 6-speed automatic Direct Shift Gearbox (DSG[®]) with Tiptronic[®] that shifts seamlessly in 4/100ths of a second. A whole lot faster than you can say "wow."

Style, performance and wonder.

The Passat CC is a true powerhouse. Driven by a 200 hp 2.0 TSI turbocharged direct injection engine or an available 280 hp 3.6L FSI[®] V6 engine with 4MOTION[®]* all-wheel drive system, this latest member of the Volkswagen[®] family effortlessly blends compelling design, innovative technology and persuasive performance into one exciting ride. By combining the comfort of a sedan with the style of a coupe, the Passat CC is definitely designed for the driver and engineered for the road.

Grace, comfort and bliss.

The Passat offers an abundance of features entirely focused on the driver, including a 12-way power adjustable seat for custom-fit comfort, and a push-start ignition switch for easy getaways. To enhance the driving experience even further, an optional state-of-the-art Technology Package combines a precise touch-screen navigation system** with rearview camera[†], and a 600-watt 10-speaker Dynaudio[®] sound system**. Tailormade for the road, the Passat has never sounded so good for both the driver and passengers. Now that's what we call an encore performance.

*Only available on Passat Wagon 3.6L and Passat CC 3.6L.

**Available with Technology Package on Passat CC, and on Passat and Passat Wagon Comfortline[®] and Highline[®].

†Available with Technology Package on Passat CC.

Passat shown with accessory skirt kit.

The power to win.

The Passat comes with a 200 hp 2.0 TSI turbocharged engine (fuel consumption estimates: 9.6 city / 6.6 highway L/100 km)* that apportions just the right amount of power off the line as it does in motion. Direct injection technology also makes the Passat ultra efficient by aiding in fuel economy, emissions control, and responsiveness all at the same time. Pumping fuel directly into the combustion chamber means less waste and less lag time. It's a win, win, win situation.

*Fuel consumption figures are estimates based on the Government of Canada's approved criteria and approved testing methods. Refer to the Government of Canada publication *Fuel Consumption Guide*. Your fuel consumption may vary.

Passat shown with accessory sport styling body kit.

There's maps and legends. And then there's legendary.

Aesthetically pleasing on the outside, the Passat models are also technologically pleasing on the inside, thanks to the very latest in entertainment and navigation systems. An optional state-of-the-art Technology Package combines a sophisticated radio with precise touch-screen navigation to guide you effortlessly through the easy-to-use map views of its 6.5-inch high-resolution wide screen display. Its 30 GB hard drive can store map data and audio files via the SD card slot. The optical drive is capable of reading CDs and DVDs. In concert with the available Media Device Interface (MDI)*, the system can accommodate most MP3 or USB devices. And on the Passat CC, the display screen integrates with a camera hidden under the rear emblem to assist you when backing up.

Also available is the Dynaudio Premium Sound System with 10 high-end speakers and a stout amplifier that delivers 600 watts of power**. Integrated DSP (Digital Sound Processing) makes for higher highs, exceptional clarity and a bounty of low range. Specifically designed to fit the acoustics of the Passat. Something to please the ears of both driver and passengers.

Available SIRIUS Satellite Radio† provides 120 channels, including 100% commercial-free music. Everything from news to sports to classical to metal to hip hop to honky tonk, SIRIUS has it all. And if there's such a thing as hip tonk or honky hop, you better believe you're getting that too.

*Not available on Passat and Passat Wagon Trendline®.

**Available with Technology Package on Passat CC, and on Passat and Passat Wagon Comfortline and Highline.

†With limited complimentary subscription.

Passat shown with 18" Velos accessory wheels and accessory skirt kit.

The strong, silent type.

The strong, elegant lines of the Passat exterior don't beat around the bush. They obviously reveal the quality workmanship and attention to detail so typical of Volkswagen. But they're also a clear indication of the vehicle's ability to slip through the air—and no wonder. It's one of the most aerodynamic vehicles on the road today, which means everyone inside can enjoy a quieter ride with reduced wind noise, especially when cruising at highway speeds. The advantages of the Passat's sleek silhouette don't end there. With exceptionally aerodynamic styling comes a reduction in fuel consumption. Less drag equals less spent at the pump. Which is far from being a drag.

It's what's on the inside that counts.

The Passat comfortably surrounds its driver and passengers with some of the finest interior materials and amenities you can find, all at a price that'll make you feel like you got away with something. The 12-way power adjustable seat positions the driver perfectly for the road ahead. There's also an 8-speaker audio system with MP3 player connectivity, available SIRIUS Satellite Radio*, and 12V power outlets to keep all your gadgetry properly juiced. A multifunction** steering wheel allows you to set your music and control the trip computer, if equipped. For rainy days, an umbrella-holder. For sunny days, an optional sunroof. Plus push-start ignition, 60/40 split rear seat, and driver's side glove box, which are all useful, no matter what day it is.

*With limited complimentary subscription.
**Not available on Trendline.

The Passat with a little more.

The Passat Wagon is loaded with all the same features as the Sedan. It sports a whopping 1.57 m³ of cargo space with the rear seat folded down. So it's perfect when you need to load some extra special gear that requires a large opening and plenty of cargo space. For those exceptionally bulky items, you'll find that the standard roof rails are especially convenient. In short, the Volkswagen Passat Wagon can handle almost anything you'll want to transport. Including the kids.

Room to roam.

If you're looking at the Passat Wagon, it may be that you need room for roaming with lots of people and their extra cargo. You couldn't have come to a better place. In fact, the Passat Wagon is so big inside, it deserves to be called a place. To be more precise, the cargo area provides a whopping 1.01 m³ of room. And if you fold the rear seats flat, this impressive space increases to 1.57 m³. A rear hatch opens automatically with a power open/close feature, which makes packing bulky items that much easier. With its long and low flat floor combined with a retractable and removable cargo cover, you can rest assured your load will be safely and neatly tucked in.

A car with curves that hugs the curves.

One of the newest cars in the Volkswagen family, the Passat CC also happens to be one of the fastest. While the designers were busy making the Passat CC a supermodel among sedans, the engineers were busy maximizing its power and performance. Falling in love with the Passat CC is easy. Choosing a power plant to propel your Passat CC, well that's a bit harder.

First, there's the 2.0 TSI turbocharged engine with direct fuel injection that delivers 200 hp and 207 lb-ft of torque. Standard with 6-speed manual transmission or available 6-speed automatic Direct Shift Gearbox (DSG) with Tiptronic.

The second option is the 3.6L FSI V6 engine with 4MOTION all-wheel drive system that delivers 280 hp and 265 lb-ft of torque. Either way, your Passat CC offers you the following collection of remarkable engineering achievements.

- Available automatic transmissions include Tiptronic, which provides manual shifting control.
- On Highline models, the automatic transmission features new-design paddle shifters that are integrated into the steering wheel to make shifting gears more fun.
- Independent sport suspension lets you hug the road, corner tightly, and fill your driving days with fun.
- High body rigidity is based on unibody construction and laser welding, to keep the body stiff for utmost performance.
- Electromechanical power steering is designed to provide consistent steering feedback, regardless of speed. It also helps return the wheel to the centre position after turning.

U.S. model shown.

Someone clearly had a great time designing this car.

From the outside, the Passat CC is eye-catching, to say the least. One look at the interior, and it's clear there was a dynamic partnership between Volkswagen engineers and designers. Four individual sport seats, subtle ambient lighting and available 2-tone colour design make for an unforgettably plush interior, while polished aluminum trim punctuates the look perfectly. You can also get available heatable, 12-way power adjustable seats, with 3-position memory for the driver's seat. Also available:

- Climatronic® dual-zone climate control lets front seat occupants control their own climate zone, optimizing comfort.
- HomeLink® garage door opener integrated into sun visor. A programmable system of buttons that can be trained to operate garage doors, lights at home, and more.
- Panoramic tilt sunroof bathes the interior with light, and pops up to vent the cabin.
- Leather-wrapped multifunction steering wheel introduces an entirely new design for the Tiptronic paddle shifters. This 12-button marvel controls nearly every aspect of the driver's life. Feedback is provided in the driver's information window via the instrument cluster display.
- Trunk opens wide and is fully lit. Rear seats fold down for extended storage capability. Storage barriers in the trunk help keep loads in place.
- Power rear sunshade keeps important passengers cool in the back seats.

U.S. model shown.

Safety doesn't happen by accident.

Every Volkswagen comes standard with lots of features that work in harmony to both help you avoid an accident and help protect you if an accident is unavoidable. And we are constantly updating it, because when it comes to safety, there is no finish line.

8 Standard Airbags*

Every Passat comes standard with front airbags, as well as side thorax and Side Curtain Protection® airbags for all outboard seating positions.

Anti-Slip Regulation (ASR)

Reduces wheel spin under acceleration, by reducing the torque output of the engine.

Auto Hold

Whether you're going up or downhill, Auto Hold controls the hydraulic pressure to help prevent the vehicle from rolling forward or backward once you come to a complete stop. Even if you take your foot off the brake.

Electronic Brake-pressure Distribution (EBD)

Integrated into the anti-lock brake system, this technology automatically reduces the amount of brake force to the rear wheels to reduce the chance of wheel lock-up.

Electronic Parking Brake

No need to pull levers and push pedals to set your parking brake. Just simply pull the electronic brake button, and it will activate. To get going press the button while your foot is on the brake and it will release.

Electronic Stabilization Programme (ESP)

ESP helps the driver maintain their intended course by generating corrective forces. ESP is most effective when the driver is taking evasive action during sudden maneuvers, like when avoiding an accident.

Tire Pressure Monitoring System (TPMS)**

Constantly monitors differences in tire pressure and alerts the driver if a single tire is low, or is quickly deflating due to a puncture.

Mobility Tires**

Self-sealing tire design which can instantly "heal" small punctures to reduce tire deflation and maximize driving safety.

*Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear seats, using restraint systems appropriate for their size and age. Drivers should always exercise care and control, and drive according to weather and road conditions. Obey all traffic laws.
**Passat CC only.

Accessories.

Owning a Passat is a testament to your distinctiveness. It's special like that. And to further ensure you never see another Passat on the road quite like yours, we're proud to offer optional factory add-ons to make it even more you.

A variety of roof rack options let you carry just about anything you can imagine up top. Start with the Base Carrier Bars, or go even bigger with the Kayak Rack, Barracuda Bike Rack, Ski/Snowboard Rack Deluxe, or even the Fork Mount Bike Rack.

And upgrade your exterior with 17" Akiros wheels or 18" Velos wheels. You can even drop your profile and boost your sportiness with sport springs and a body kit. Or show off your Passat's dark side with the Hi-Def body kit. Then there's the icing on the strudel: Dual Exhaust Tips that let the other drivers know that you're not to be trifled with.

Sophisticated excitement.

You'll never run out of reasons to fall in love with the 2010 Passat models. From the subtleties of its style to the elegance of its design, this is an automobile engineered to appeal to those who have a finely tuned appreciation for detail. Outstanding performance, premium amenities, and a host of standard safety features work in tandem to create the perfect experience behind the wheel—at an affordable price.
