

Prius | 2011

 **TOYOTA**
make things better

Prius

The 2011 Prius offers something for everyone. It has a striking, aerodynamic shape and generous headroom and cargo space. Under the hood, yet another innovative paradox; more power, less fuel. The 1.8-litre engine delivers plenty of power while consuming less fuel. With a combined city/highway rating of 3.7/4.0 L/100 km, Prius is Canada's most fuel-efficient vehicle.⁶ And it also includes an array of innovative options. Like the Solar Powered Ventilation System that helps keep your car cool while parked. Bridging the gap to the future today. That's how we make things better.

TOYOTA'S HYBRID SYNERGY DRIVE combines driving pleasure with lower emissions. Toyota Hybrids produce nearly 70% fewer smog-forming emissions than typical new conventional vehicles¹ and offer economy and energy efficiency by combining gas and electric power. Toyota's Hybrid Synergy Drive automatically determines the vehicle's proper power distribution to ensure strong acceleration, a smooth response and top fuel economy.

FRONT COVER/PAGE 2

Prius with Premium Package w/Solar Panel shown in Blizzard Pearl.

¹Compared against similarly equipped conventional gasoline powered vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements.

Prius

The 3rd generation Prius was designed to give the driver complete awareness of the road ahead and unhindered control of the technology inside. When you're at the wheel, you're surrounded by advanced engineering and cutting-edge features like the Touch Tracer Display, Eco driver monitor and available Navigation System.⁴ Best of all, everything is intuitively arranged around you for safe and easy use.

FUEL CONSUMPTION²

3.7 City/4.0 Highway L/100 km
1.8-litre, 4-cylinder with Hybrid Synergy Drive

SELECT FEATURES

- 134 hp hybrid system net power.⁵
- 1.8-litre, 4-cylinder, VVT-i, Hybrid Synergy Drive.
- Sealed Nickel-Metal Hydride HV battery.
- Continuously Variable Transmission.
- Low co-efficiency of drag (.25 cd).
- 5-door liftback.
- Push Button Start, Smart Key System.
- Fabric seat materials.
- Front bucket seats and 60/40 split rear bench seat.
- Automatic climate control.
- AM/FM CD/MP3/WMA player, 6-speakers, audio auxiliary input jack, XM[®] satellite ready antenna with prewire.
- Accessory power outlet (12v)
- Cruise control.
- UV reduction glass.
- Projector-style halogen headlamps, automatic headlamp system.
- Rear spoiler with LED stoplamp.
- Electric rear window defroster with timer.
- 15-inch alloy wheels, full wheel covers.

A. Prius interior shown in Dark Grey leather with Technology Package. **B.** Prius interior shown in bisque leather with Technology Package.

INTELLIGENT PARKING ASSIST Press the available Intelligent Parking Assist button and an image of the desired parking spot appears on the navigation screen, with a box indicating the final position of the vehicle. Once the driver approves the position, Prius steers and virtually drives by itself, only requiring soft braking by the driver to stop the vehicle in the intended parking spot.

EV/ECO/POWER MODE Prius offers three different modes for different types of driving. EV mode drives solely on battery power for up to 1.6 kms under certain conditions. Eco mode helps maximize fuel economy. Power mode increases gas pedal sensitivity for additional get-up-and-go.

TOUCH TRACER DISPLAY The steering wheel-mounted controls let you adjust cabin temperature settings, audio mode and volume. And it's all conveniently displayed on the instrument panel.

1. MULTI-INFORMATION DISPLAY The instrument panel and Multi-Information Display on Prius provide a digital readout of instantaneous km/h vehicle speed, past-trip fuel consumption, battery-charge level, energy flow from gasoline and electric systems and when equipped Dynamic Radar Cruise Control and Pre-Collision System.

2. VOICE-ACTIVATED TOUCH-SCREEN DVD NAVIGATION⁴ Take the guesswork out of venturing into the unknown. The available voice-activated touch-screen DVD navigation system⁴ lets you map your whereabouts with the touch of a finger. [Technology Package only]

3. ELECTRONIC SHIFT LEVER Input from the driver is sent to the drive-by-wire transmission via an electronic shift lever.

REMOTE AIR CONDITIONING SYSTEM

Prius starts to cool itself before you get in. When you're within 28 metres of the vehicle, use your key fob to activate the available remote A/C system. The interior can cool to your preset temperature level without even turning the engine on.

Prius shown in Blizzard Pearl.

CARGO AREA The 3rd generation Prius has a large cargo area that makes it as capable of carrying your gear as it is of transporting friends and family. Road trips, grocery runs or your daily commute – Prius can handle them all.

WATER-REPELLENT GLASS An available water-repellent film on the front door windows helps keep the glass clear, improving visibility.

LED LIGHTS The available LED headlamps help reduce the electricity consumed by the headlamps approximately 20 to 30 percent, aiding the overall efficiency of Prius.

BLUETOOTH^{®3} CONNECTIVITY Available Bluetooth^{®3} technology helps Prius integrate seamlessly with your life. The advanced Bluetooth^{®3} functionality lets you stream music files stored on your compatible stereo Bluetooth^{®3}-enabled phone directly to the Prius optional audio system.

JBL[®] AUDIO SYSTEM The available JBL[®] audio system on Prius reproduces sound with the power, clarity and fullness of a live concert. And you can link to the integrated XM[®] satellite radio via controls on the Touch Tracer Display.

6-WAY ADJUSTABLE DRIVER'S SEAT Getting comfortable is easy, thanks to the 6-way adjustable driver's seat with available power lumbar support that lets you find your ideal position.

SOLAR ROOF The available high-tech roof in the 2011 Prius is embedded with solar panels. When Prius is parked in direct sunlight, these solar panels can power a fan that brings in cooler outside air, ventilating the cabin close to the ambient outside temperature.

Canada's most fuel-efficient vehicle.⁶

The 3rd generation Prius uses Toyota's legendary Hybrid Synergy Drive, which can propel Prius using either the gasoline engine or electric motor, or from both simultaneously. The result is a powerful driving experience with lower emissions, making Prius Canada's most fuel-efficient vehicle⁶ with an outstanding combined city/highway fuel consumption rating of 3.7/4.0 L/100 km.

FEEDBACK TO THE DRIVER

A set of digital readouts located on the Eco driver monitor provides constant feedback to the driver. You can instantaneously monitor your fuel consumption or use the Hybrid System Indicator to help optimize your fuel efficiency.

Prius with Touring Package shown in Classic Silver Metallic.

1. ELECTRIC MOTOR Prius is a full series-parallel hybrid that uses a separate electric motor and generator.

2. GENERATOR Unlike a mild hybrid, Prius can generate electricity even when the electric motor is helping propel the vehicle. The generator can even power Prius if necessary.

3. GASOLINE ENGINE The series-parallel Hybrid Synergy Drive helps the gasoline engine deliver both power and fuel efficiency.

1. STARTING From initial "light" or "moderate" acceleration to low speeds, the Prius is powered solely by a high-torque electric motor.^A

2. NORMAL RUNNING In normal driving conditions, the gasoline engine will start to supplement the electric power to the wheels and also charge the battery when needed.

3. FULL ACCELERATION Under full throttle acceleration, both the gasoline engine and the electric motor are committed to providing power to the wheels.

4. DECELERATION/BRAKING When slowing, the gas engine shuts off and resistance from the braking system provides energy to charge the battery.

5. STOPPING When the Prius comes to a stop, its gasoline engine shuts off to conserve fuel and reduce emissions.^B

^AGasoline engine utilized for acceleration on cold starts and full acceleration. ^BThe preceding are based on a "likely scenario" for driving conditions.

Safety

Toyota is as concerned with your well-being as it is with the planet's. That's why the 2011 Prius features a network of safety features to help protect occupants from almost any angle. Prius comes available with Dynamic Radar Cruise Control, which senses vehicle's ahead and automatically adjusts your speed to allow for a safe and comfortable distance between vehicles. And in the event of an unavoidable frontal collision, the available Pre-Collision System automatically applies the brakes and retracts the front seatbelts to help reduce collision damage.

Prius shown in Barcelona Red Metallic.

STAR SAFETY SYSTEM™

2011 Prius comes standard with the Star Safety System™. This integration of active safety features is designed to protect occupants by helping drivers avoid accidents in the first place. The Star Safety System™ includes Vehicle Stability Control (VSC),⁷ Traction Control (TRAC), Anti-lock Brake System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA),⁸ and Smart Stop Technology (SST).⁹

Toyota is the first full-line manufacturer to make all of the elements of the Star Safety System™ standard on every new 2011 vehicle. Visit toyota.ca for more details.

- VSC** VEHICLE STABILITY CONTROL⁷
- TRAC** TRACTION CONTROL
- ABS** ANTI-LOCK BRAKE SYSTEM
- EBD** ELECTRONIC BRAKE-FORCE DISTRIBUTION
- BA** BRAKE ASSIST⁸
- SST** SMART STOP TECHNOLOGY⁹

Toyota Quality

Quality is built right into the production process from the selection of raw materials, right down to the vehicle's final inspection. And it is the responsibility of everyone to ensure the highest quality possible on each and every vehicle. It's through Toyota's philosophy of 'Kaizen' that we are always looking for ways to continually improve. That's how we make things better.

THE TOYOTA PRODUCTION PROCESS is one that is constantly evolving. With our "Just-In-Time" practice, the goal is to make certain that during the manufacturing process, only what is needed gets produced. The result is twofold: because there's no excess supply, any issues are exposed and promptly resolved to ensure that everything off of the Toyota assembly line is of exceptional quality.

THE HUMAN TOUCH. As impressive as the machinery is, the achievement of perfect fit and finish is also the result of continuous human touch for every step of the way.

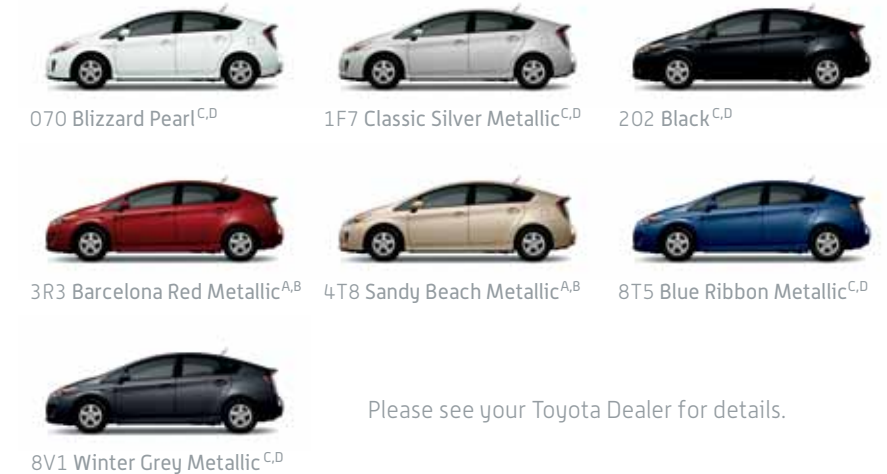

TOYOTA CANADA COLD RESEARCH CENTRE. Located in Timmins, Ontario, our teams test Toyota vehicles in actual Canadian winter conditions at our cold weather testing track to ensure that they remain dependable throughout the long winter months.

- ^C Dark Grey Fabric.
- ^D Dark Grey Leather.

New vehicle warranty summary

NO DEDUCTIBLES – NO TRANSFER FEES

COMPREHENSIVE COVERAGE – 3 YEARS OR 60,000 KM This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS – 5 YEARS OR 100,000 KM This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS – 8 YEARS OR 130,000 KM This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION – 5 YEARS UNLIMITED DISTANCE Any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

HYBRID-RELATED COMPONENTS – 8 YEARS OR 160,000 KM** This warranty covers repairs to hybrid-related components that are defective in material or workmanship under normal use and maintenance.

**Includes: HV Battery, Battery Control Module, Hybrid Control Module and Inverter with Converter.

Accessories

Personalize your vehicle to enhance its appearance and performance with Toyota Accessory Parts. Your Toyota Dealer can help you select the right accessories to suit your individual style. Many of Toyota's Accessory Parts can be residualized or advanced through Toyota Financial Services when purchased at the time of a new vehicle sale, and all are backed by a Toyota Warranty. To view a complete list of accessories specifically designed for your vehicle, visit customizeyourtoyota.ca, your local Dealer or toyota.ca.

Protect your investment. Our accessory lineup not only adds convenience to your daily driving, but many also safeguard your Prius from external environmental damages.

- All-Season Mats
- Block Heater
- Bluetooth^{®3}
- Bodyside Mouldings
- Cargo Liner
- Door Sill Protectors
- Hood Deflector
- Rear Bumper Protector
- Remote Engine Starter
- Satellite Radio
- Side Window Visors
- TRD Oil Cap
- TRD Oil Filter

Hood Deflector Protect your vehicle with a high impact deflector that minimizes damage caused by road debris, pebbles and insects.

All-Season Mats Safeguard your vehicle's interior against mud, slush and salt with custom-fitted All-Season Mats.

Bluetooth^{®3} Keep your hands on the wheel and your eyes on the road as you talk conveniently and safely through the Bluetooth^{®3} hands free system.

Door Sill Protectors Keep your door sill clean from dirt and scratches with these functional and stylish nameplate-door sill protectors.

Cargo Liner Protect your interior with this durable vinyl liner which features a raised lip to contain spills for easy cleanup.

Bodyside Mouldings

Discover more with Toyota

At Toyota, our goal is to continuously make things better for you. That's why we offer a wide range of programs and services before and after your vehicle purchase designed to help make your Toyota experience the best it can be.

Fewer emissions and pollutants.¹ More kilometres on less fuel. And designed with power and performance in mind. Available in Prius, Camry and Highlander, these latest generation Toyota hybrids offer you the best of all worlds.

Toyota Dealers are dedicated to making the experience of owning a Toyota both satisfying and rewarding. We service your Toyota the way we built it. So you can count on quality parts and professional service.

If you're looking at leasing or financing, we're here to help. We provide competitive interest rates, flexible terms, and an easy online pre-approval process. The toughest decision should be choosing which Toyota you want. Visit us at www.toyotafinancialservices.ca.

Enhance your Toyota ownership experience by joining Club Toyota – a complimentary and exclusive online service for Toyota owners. Benefit from an abundance of interactive services, and information conveniently at your fingertips. Register today at clubtoyota.ca.

With Extra Care Protection you receive inflation protected coverage from mechanical failures, road emergencies, and much more. It's affordable peace of mind. Consult your Toyota Dealer for details.

The Toyota Mobility program is dedicated to addressing the transportation needs of Toyota Owners who have a disability, or know a family member with a disability or mobility issue. The program offers cash assistance, resource information and financing for adaptive equipment for their vehicle.

All new Toyota cars and trucks include a full tank of gas, roadside assistance and floor mats.

Working together to make things better.

Through education, inspiration, financial support and a long standing commitment to the environment, Toyota Canada is proud to contribute to the Toyota Canada Foundation and to various community programs that are devoted to the betterment of our planet. Ground Clearance	140 [5.5]	●

[1] All Toyota vehicles shown in this brochure, have Supplemental Restraint Systems (SRS) which, depending on the model, may include driver and front passenger airbags, a driver's knee airbag, front seat-mounted side airbags or side curtain airbags. For important safety information about the Supplemental Restraint System in a vehicle, please see the Owner's Manual or contact your local Toyota Dealer.

[2] These estimates are based on the Government of Canada's approved criteria and testing methods. The actual fuel consumption of this vehicle may vary. Refer to the Government of Canada publication *EnerGuide Fuel Consumption Guide*.

[3] Toyota tests certain phones for compatibility with Bluetooth technology. Some vehicles equipped with Bluetooth technology are available with bilingual capability. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the service coverage available in your area. Please see your Toyota Dealer for details.

[4] The Toyota DVD based Navigation system is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Changes in street names, road closures, traffic flow or other road system changes may affect the accuracy of the mapping software. Rely on your common sense to decide whether or not to follow a specified route. Detailed coverage is not available in every city. Optional periodic geographic updates are available at an additional cost. The Navigational systems in some vehicles are available with bilingual capability. Please see your Navigation system Owner's Manual and your Toyota Dealer for further details.

CURB WEIGHT	kg (lb.)	5-Door Liftback	
	1380 [3042]	●

	45 [9.9]	●	
FUEL CONSUMPTION RATING ²	L/100 km	mpg (imperial gallon)	
City/Highway/Combined	3.7/4.0/3.8	76/71/74	●

[5] The maximum output indicates engine plus HV battery output.

[6] Fuel-efficiency claim determined using approved Transport Canada Test Methods. Actual results may vary.

[7] Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control.

[8] Brake Assist (BA) is designed to help the driver take full advantage of the benefits of Anti-Lock Brake System (ABS). It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.

[9] Smart Stop Technology (SST) operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping.
