Das Auto

Do you speak Volkswagen? Spoken by millions of drivers the world-over, Volkswagen is synonymous with superbly German-engineered vehicles that continually up the ante when it comes to high performance, exceptional quality, thinking blue (that's Volkswagen for green) and a whole lot of woo-hoos when you hit the highway. It goes without saying that this year's line-up of 2011 Volkswagen models – from nimble compacts to powerful SUVs – is no exception to the rule.

Here are a few more adjectives from the Volkswagen vocabulary: aerodynamic, intuitive, nimble, fuel-conscious, eco-friendly. Sounds innovative? Well it is. Wrap it all up with a sleek and curvy exterior and you'll quickly understand that when you're in a Volkswagen, you're not just driving any car – you're driving Das Auto.

Design and Craftsmanship

Very refined details inside.

Like the rest of the Volkswagen family, the 2011 Tiguan is loaded with thoughtful touches and helpful features. For instance, standard tilt and telescopic adjustable steering wheel. Electrically adjustable and heated exterior mirrors. Climatronic™ air conditioning. Multifunction trip computer. Electronic parking brake with Auto Hold function. And that's just for starters. Okay, here's one more – an adjustable cooling glove box to keep all your favourite items chilled.

Inside the Tiguan's athletic interior, you'll find high-quality materials, with premium fabrics featuring baseball stitching, chrome finishing, and enough room for 5 passengers to be very comfortably seated – whatever the adventure. What's more, the Tiguan is the first compact SUV with an available 1.2 square metre panoramic sunroof, one of the largest ever offered in its class. In fact, the Tiguan's sunroof is three times larger than conventional sunroofs.

Technology and Performance

Home, James.

Call it what you will, the Tiguan's available state-of-the-art navigation system will help to get you where you're going. This system combines a sophisticated radio with precise touch-screen navigation and easy-to-use map views on its 6.5-inch high-resolution widescreen display. It features a 30GB hard drive which can store map data (10GB) and audio files (20GB) entered via the optical drive or SD card slot. The optical drive can read CD, DVD and DVD-Audio formats. Also available is the Dynaudio® Sound System and a connectivity package with a handy Media Device Interface (MDI) that can work with MP3 players or a USB stick. It also features Bluetooth® connectivity with voice activation and audio streaming. And just so you know where you are in relation to hard-to-see objects behind you, a rearview camera is available to make parking easier and safer.

2.0 TSI engine.

Technology and
Performance

Thoroughbred meets workhorse.

The Tiguan comes with the same 2.0 TSI engine found in the Golf GTI, which delivers 200 horsepower and 207 lb-ft of torque. Depending on trim level, you can choose from a standard 6-speed manual transmission or the optional 6-speed automatic Tiptronic® transmission, with or without 4MOTION®. On the road, that means maximum performance with outstanding fuel economy made possible by Volkswagen's TSI direct injection technology – not to mention, massive towing capacity. In fact, Tiguan's towing capacity clocks in at a hefty 998 kg. Now you'll finally have the perfect excuse to get that boat you've always wanted.

Think Blue.

Think Blue

Think Blue with the Tiguan

Making small changes in our everyday lives to help protect the environment is the foundation of Think Blue. Everyone can help in his or her own way to become a more efficient and eco-friendly driver. It may come as a surprise, but fuel consumption can be drastically reduced just by changing a few driving habits. But that doesn't mean you have to sacrifice pleasure or comfort. With the help of our innovative technologies and low-emission products, you can become a more environmentally-friendly, fuel-friendly, and wallet-friendly driver. And that's good for everyone.

BlueMotion Technologies

BlueMotion™ Technologies isn't just a single technology, it's a range of innovations designed to help the environment and to help you get more out of your driving experience. We're deeply committed to improving every aspect of our vehicles. From improved transmissions and better aerodynamics to weight-reduction technologies that lead to drastically reduced fuel consumption and CO₂ emissions. Here's an innovative technology that makes the Tiguan more efficient:

TSI – TSI brings together the power of FSI® direct fuel injection with the extra oomph of a turbocharger. The end result? An ultra-efficient engine that provides maximum torque from 1,700 to 5,000 rpm, gives you outstanding performance through a wide range of speeds, power when you really need it, ultra low-fuel consumption and, ultimately, lower CO₂ emissions.

Safety

Safety standards come standard.

Every Volkswagen comes standard with many features that work in harmony to both help you avoid an accident and help protect you if an accident is unavoidable. And we are constantly updating it, because when it comes to safety, there is no finish line.

NHTSA 5-star front and side impact rating* – The highest U.S. Government crash safety rating.

Auto Hold – Whether you're going up or downhill, Auto Hold controls the hydraulic pressure to help prevent the vehicle from rolling forward or backward once you come to a complete stop. Even if you take your foot off the brake.

Electronic parking brake – No need to pull levers and push pedals to set your parking brake. With the touch of a finger, you can activate and release the electronic brake button.

Electronic Stability Control (ESC) – ESC helps the driver maintain their intended course by generating corrective forces. ESC is most effective when the driver is taking evasive action during sudden manoeuvres, like when avoiding an accident. This feature is standard on all Volkswagen models.

Fog lights – Additional lights engineered to send a low, wide beam to the road improve visibility in adverse weather conditions. This design effectively reduces the amount of light reflected off rain, fog or snow.

Tire Pressure Monitoring System (TPMS) – Constantly monitors differences in tire pressure and alerts the driver if a single tire is low or is quickly deflating due to a puncture.

*Rating received for the 2010 Tiguan. Government star ratings are part of the U.S. National Highway Traffic Safety Administration (NHTSA) New Car Assessment Program (safercar.gov). Crash performance was based on a U.S.-equipped vehicle. Some features on that model may be optional in Canada.

Accessories

More Volkswagen for your Volkswagen.

How do you make a car as unique as the new Tiguan even more unique? Personalize it to fit your unique lifestyle. What's more, accessorize your 2011 Tiguan before it leaves the dealer's lot and you can include your accessories in your financing package. Plus, when you buy accessories at time of purchase, you receive an extra 3-year limited warranty coverage on these accessories covering parts and labour. Now that's what we call added value.

Media Device Interface (MDI) – Connect your MP3 player so you'll never run out of driving music.

Bluetooth® connectivity – Keep your hands on the wheel and stay connected with this handy feature.

Monster Mats – Über-tough floor mats that help keep your carpets from getting dirty.

Trailer hitch – Whether you're taking the boat up to the cottage or helping a friend move, the towing possibilities are endless.

Splash guards – It's messy under there. Rainwater, gravel, sand and salt – whatever your wheels splash up, splash guards will help protect your underbody. Just think of them as underbodyguards.

This is just a short selection of the many Volkswagen Original Accessories available for your 2011 Tiguan. For more ways to give your ride a personal touch, talk to your Volkswagen dealer or visit vw.ca to view a wider selection.

Parts, Service, Accessories.

Tiguan shown with accessory ski and snowboard rack, 18" New York accessory alloy wheels and Sport Package. Your vehicle is sold equipped with all-season tires. However, please remember that the use of winter tires may be mandatory in your province or territory. Make sure your vehicle has the proper tires at all times. Always drive according to road and weather conditions.

2011 Tiguan

Wanderlust included.

The 2011 Tiguan is the compact SUV for those who think that even grown-ups should have recess. It handles like a dream, and thanks to a 2.0 TSI turbocharged direct-injection 200-horsepower engine it has the get-up-and-go to take you from downtown to out of town in no time flat. And with available 4MOTION all-wheel drive offroad capability, we really mean out of town. Plus, with an interior that's as multi-faceted as you are – versatility, comfort and so much more are all at your service. Either way, the Tiguan is more than ready to play, solo or with the whole family. Read on to learn more about how the Tiguan can make your life easier, and more fun.

2011 Tiguan >
Exterior

One compact size fits all. Whatever your all may be.

Exterior – With sleek yet bold lines and compact architecture, everything about the 2011 Tiguan's exterior says this is so much more than a compact SUV. Its fluid yet rigid structure is the result of energy-absorbing deformation zones and protective systems – meaning superior body and crash safety, plus dynamic handling and reduced vibration. Factor in standard alloy wheels and fog lights, plus available roof rails and Bi-Xenon headlights with Adaptive Front-light System (AFS), and you're sure to turn more than a few heads.

2011 Tiguan >
Interior/Engine

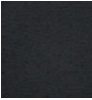

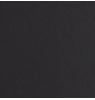

Interior – The 2011 Tiguan comes loaded with lots of features that go way beyond standard. Like rear seats that not only recline or fold down, but also slide forward or back for more rear cargo room or rear passenger leg room. The interior’s well-designed storage options turn space into a science. With a front passenger seat that folds flat to accommodate items up to 2.5 metres long and rear 60/40 split-folding seats with pass-through, the only surprise is that there’s really not much that you can’t fit into a Tiguan. And speaking of surprises, the Tiguan is more than prepared with serious safety features such as driver and front passenger front and side airbags along with front and rear Side Curtain Protection[®] and front passenger airbag deactivation detection system*. And to make things not only safe, but sound, there’s the available Dynaudio[®] 8-speaker 300-watt digital sound system and SIRIUS[®] Satellite Radio, featuring 120 channels.

Engine – The new Tiguan is outfitted with a torque-endowed engine – a newer version of our award-winning Golf GTI engine, which was named one of Ward’s[®] 10 Best Engines three years in a row. It’s no wonder the Tiguan is the first-ever compact SUV that feels like a sports car. A 2.0 TSI engine makes the Tiguan ultra-efficient and powerful — that’s 200 horsepower and 207 lb-ft of torque, to be more precise. The advanced TSI direct injection technology amazingly improves fuel economy, reduces emissions, and enhances responsiveness all at the same time. Less waste. Less lag time. The “T” stands for Turbo. And we all know what that means.

*Airbags are supplemental restraints only and will not deploy under all accident scenarios. Always use safety belts and seat children only in the rear seat, using restraint systems appropriate for their size and age.

Stroke	3.65 in 92.8 mm
Displacement	121.1 in ³ 1,984 cm ³
Compression Ratio	9.6:1
Horsepower (SAE) @ rpm	200 @ 5100-6000 (147 kW @ 5100-6000)
Maximum Torque, lb-ft @ rpm	207 @ 1700-5000 (280Nm @ 1700-5000)
Fuel Requirement	Premium fuel recommended for maximum performance
ENGINE DESIGN	
Arrangement	Front mounted, transverse
Cylinder Block	Cast iron
Crank Shaft	Cast iron, five main bearings
Cylinder Head	Aluminum alloy, cross-flow
Valve Train	Dual overhead camshaft, chain driven, four valves per cylinder, maintenance-free hydraulic lifters, variable valve timing
Cooling System	Water cooled, water pump, horizontal-flow radiator, thermostatically controlled continuously variable speed radiator fan
Lubrication	Chain-driven gear oil pump
Fuel/Air Supply	Sequential multi-point high-pressure fuel direct injection, variable intake cam timing
Emissions	Tier II, BINS
ELECTRICAL SYSTEM	
Alternator - A	140
Battery - A/Ah	280/60-340/70
Ignition	Digital electronic with knock sensor
DRIVETRAIN	
Drivetrain	Front-wheel drive
CAPACITIES	
Fuel Tank	63.5 L
STEERING	
Type	Electromechanical power steering
Turns (lock to lock)	2.8
Turning Circle (curb to curb)	39.4 ft 12 m
Ratio	14.7:1
INTERIOR VOLUME - SAE	
EPA Class	Light-duty vehicle
Seating Capacity	Five
Passenger Volume	95.3 ft ³ 2.7 m ³
